NOTIFICATIONS

(Newspaper Advert, On-site Notice and Posters)

NOTICE OF PUBLIC PARTICIPATION PROCESS BASIC ASSESSMENT PROCESS AND WATER USE LICENSE APPLICATION-PAUL ROUX, DIHLABENG LOCAL MUNICIPALITY

Notice is hereby given in terms of the National Environmental Management Act (Act No. 107 of 1998) as amended and the 2014 Environmental Impact Assessment Regulation as amended on 07 April 2017 published under Government Notice 327 in Gazette no 40772 and National Water Act (Act No. 36 of 1998) of the intent to carry out a Basic Assessment process and Water Use License Application for the following activity:

The applicant, **Dihlabeng Local Municipality**, intends to construct a pipe bridge, 138.860m in length and 1m wide, across Sand river, parallel to the section where the N5 National Road crosses river. The proposed pipe bridge will carry a DN150mm pipe conveying sewage with an estimate flow rate of 21.492l/s from Fateng Tse Ntsho Extension 5 development area to connect to the existing outfall sewer line then to the wastewater treatment works in Paul Roux.

This activity is regulated by the 2014 Environmental Impact Assessment Regulations as amended on 07 April 2017 published in the Government Notice 327, Listing Notice 1-

Activity 19: The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse; but excluding where such infilling, depositing, dredging, excavation, removal or moving—

- (a) will occur behind a development setback;
- (b) is for maintenance purposes undertaken in accordance with a maintenance management plan;
- (c) falls within the ambit of activity 21 in this Notice, in which case that activity applies;
- (d) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or
- (e) where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies.

An application for a Water Use License will be submitted to the Free State Department of Water and Sanitation for activities listed in Section 21 (c) and (i) of the National Water Act (Act No. 36 of 1998) as the sewer pipe bridge has a watercourse crossing.

Section 21(c) - Impeding or diverting the flow of water in a water course.

Section 21(i) - Altering the bed, banks, course or characteristics of a water course

The Environmental Consultant is **NSVT Consultants**, PO Box 42452, Heuwelsig, 9332, or contact **Lorato Tigedi Pr. Sci. Naf.** (Tel): (051) 430 1041/2, (Fax): (086) 239 9133, email: lorato@nsvt.co.za.

In order to ensure that you are identified as an interested and/or affected party, please submit your name, contact information and interest in the matter to the contact person given above within 30 days of publication of this advertisement.

NOTICE OF PUBLIC PARTICIPATION PROCESS

BASIC ASSESSMENT PROCESS AND WATER USE LICENSE APPLICATION-PAUL ROUX, DHLABENG LOCAL MUNICIPALITY

Notice is hereby given in terms of the National Environmental Management Act (Act No. 107 of 1996) as amended and the 2014 Environmental Impact Assessment Regulations as amended on 07 April 2017 published under Government Notice 327 in Gazette no 40772 and National Water Act (Act No. 36 of 1956) of the state to carry out a Basic Assessment process and Water Use License Application for the following activity.

The applicant, Dhlabeng Local Municipality, intends to construct a pipe bridge, 138.860m in length and 1m wide, across Sand river, parallel to the section where the NS National Road crosses river. The proposed pipe bridge will carry a DN150mm pipe conveying sewage with an estimate flow rate of 21.492m³ from Farming The Waste Extension 5 Development area to connect to the existing outfall sewer line then to the wastewater treatment works in Paul Roux.

This activity is regulated by the 2014 Environmental Impact Assessment Regulations as amended on 07 April 2017 published in the Government Notice 327, Listing Notice 1:

Activity 18: The writing or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, silt, gravel, pebbles or rock of more than 10 cubic metres from a watercourse, but excluding where such writing, depositing, dredging, excavation, removal or moving—

- (a) will occur behind a development setback;
- (b) for maintenance purposes undertaken in accordance with a maintenance management plan;
- (c) falls within the ambit of activity 21 in this Notice, in which case that activity applies;
- (d) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or
- (e) where such development is related to the development of a port or harbour, in which case activity 20 in Listing Notice 2 of 2014 applies.

An application for a Water Use License will be submitted to the Free State Department of Water and Sanitation for activities listed in Section 21 (c) and (e) of the National Water Act (Act No. 36 of 1956) as the sewer pipe bridge has a watercourse crossing.

Section 21(c) - Impeding or diverting the flow of water in a water course.

Section 21(e) - Altering the bed, banks, course or characteristics of a water course.

**BACKGROUND INFORMATION DOCUMENT FOR
PROPOSED CONSTRUCTION OF A SEWER PIPE BRIDGE
ACROSS SAND RIVER IN PAUL ROUX, DIHLABENG LOCAL
MUNICIPALITY.**

**PURPOSE OF THIS
DOCUMENT**

This document's purpose is to provide background information to the project and obtain comments and contributions from Interested and Affected Parties (I&APs) and stakeholders with regard to the environmental impacts they perceive to occur as a result of the proposed construction of a sewer pipe bridge across Sand River, in Paul Roux. This can be done by means of the attached comments sheet or direct contact with the people listed below.

I&APs and stakeholders will have an opportunity to contribute issues of concern and suggestions for enhanced benefits. In addition, they will be able to verify that their contributions have been considered and to comment on the findings of the specialist assessments.

If you intend to register as an I&AP, please forward the attached registration sheet to NSVT Consultants before 30 days lapse.

PROJECT**

BACKGROUND

Notice is hereby given in terms of the National Environmental Management Act (Act No. 107 of 1998) as amended and the 2014 Environmental Impact Assessment Regulation as amended on 07 April 2017 published under Government Notice 327 in Gazette no 40772 and National Water Act (Act 36 of 1998) of the intent to carry out a basic assessment process and Water Use License Application for the following activity:

Proposed construction of a sewer pipe bridge, 138, 860m in length and 1m wide, across Sand River, which will be used to carry a DN 150mm pipe conveying sewage with an estimated flow rate of 21.492l/s from Fateng tse Ntsho Extension 5 new residential development, connecting to the existing outfall sewer line then to the wastewater treatment works.

This activity is regulated by the 2014 Environmental Impact Assessment Regulations as amended on 07 April 2017 published in the Government Notice 327, Listing Notice 1:

Activity 19: The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse; but excluding where such infilling, depositing, dredging, excavation, removal or moving—

- (a) will occur behind a development setback;
- (b) is for maintenance purposes undertaken in accordance with a maintenance management plan;
- (c) falls within the ambit of activity 21 in this Notice, in which case that activity applies;
- (d) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or
- (e) where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies.

An application for a Water Use License will be submitted to the Free State Department of Water and Sanitation for activities listed in Section 21 (c) and (i) of the National Water Act (Act 36 of 1998) as the sewer bridge crosses a watercourse, i.e. Sand river from Remainder of Zandrivier 256 to Remainder of Wassau 711, Paul Roux.

Section 21(c) - Impeding or diverting the flow of water in a water course.
Section 21(i) - Altering the bed, banks, course or characteristics of a water course

**ONLY REGISTERED I&AP'S WILL RECEIVE FURTHER
INFORMATION ON THE PROJECT**
