

# Taxi boss killed in hail of bullets

Another taxi owner from Imbali Unit 14, 18 and BB Taxi Association, was gunned down at his home in Willowfontain, Pietermaritzburg on Friday night. Nkosinathi Makhathini (45) was allegedly ambushed by three unknown men shortly after he parked his car. He was shot multiple times in the head and body. He died inside his car. Makhathini is the third taxi owner from this association that has been killed this year. Santaco's Sifiso Shangase said they have heard about the incident but for now it is

not clear if it is related to the taxi industry. He said incidents like these do not sit well with them because in the end they just spread unnecessary violence. KwaZulu-Natal police spokesperson Lieutenant Colonel Nqobile Gwala confirmed the incident. She said a 45-year-old man was shot and killed in his home as he was parking his vehicle. "He had multiple gunshot wounds to the head and body. A murder case was opened at Plessislaer SAPS for investigation. No one has been arrested," she said.

### What is Fibre to the Home?

Fibre optic lines transmit data as beams of light through strands of glass (not copper), making it immune to the weather and less prone to lightning strikes and theft.

Unlike DSL, fibre allows for super-fast, super-reliable uploads and download with symmetrical speeds. Fibre provides multiple HD options for movie streaming, online gaming, video calling and CCTV security as well as VoIP (telephone using fibre services).

MYA Fibre will install a termination point and get your home fibre ready AT NO COST TO YOU.

After your termination point is installed, you can connect via your selected Internet Service Provider with the package of your choice when you are ready to enjoy the benefits of your super-fast broadband link.

Contact us with queries, orders, compliments or complaints on:
