Subject: FW: Background Information Document - Proposed 60 sleeper lodge on Lion Farm, Ekland Safaris
Attachments: Ekland Lion Farm Lodge - BID .pdf

Good day Ms. Bota

Please see attached Background Information Document with regards to the proposed 60 sleeper lodge at the Lion Farm located within Ekland Safaris near Louis Trichardt.

The owner of the property is applying to construct a 60-sleeper lodge on the eastern section of his farm near Louis Trichardt. The Ekland farm is located west and north of the N1 between Louis Trichardt and Mussina. This development affects SANRAL as it is proposed that water will be supplied by means of a borehole located on the eastern side of the property, and then be distributed by means of a pipeline that will cross the N1 (140mm HDPE Class 9 pipeline) to supply water to the proposed lodge.

Please see the attached Background Information Document. Your comments in this regard will be greatly appreciated.

Kind Regards
