

27 January 2020

Dear Stakeholder,

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

EXPANSION OF LIQUID OXYGEN (LOX) AND DIESEL STORAGE AT THE AIR PRODUCTS FACILITY LOCATED WITHIN THE COEGA SPECIAL ECONOMIC ZONE, PORT ELIZABETH, EASTERN CAPE PROVINCE

NOTICE OF BASIC ASSESSMENT PROCESS and AVAILABILITY OF THE BASIC ASSESSMENT REPORT

Air Products (Pty) Ltd operate a site at Coega Special Economic Zone (SEZ) situated in Port Elizabeth, Eastern Cape Province, where Liquid Oxygen (LOX) and Liquid Nitrogen (LIN) are currently handled and stored. APSA is proposing to increase the current LOX storage capacity at this site. The LOX storage capacity will be expanded by an additional 127,3 m³ to a total of 200 m³ either by alternatives of adding an addition vertical storage tank with total capacity of 127,3 m³ or by replacement of the existing tank with a 200 m³ LOX tank. In addition, APSA intends to add 23 000 litres (23 m³) of above ground diesel storage facility at the site for use for the Air Products trucks that are based in Port Elizabeth.

The proposed expansion is to take place at the existing Air Products facility located in Coega, Eastern Cape, as the expansion will occur within the existing site and within the Coega Special Economic Zone (SEZ) the site is considered to be a brownfields site.

Infrastructure associated with the expansion of the facility will include:

- » 1 x 127,3 m³ double walled vacuum insulated horizontal LOX tank or replacement of the existing 72,7 m³ LOX tank with a 200 m³ LOX tank ; ;
- » 1 x 23 m³ aboveground composite diesel tank and associated bund wall, spill slab and separator pit; and
- » 1 x diesel standard pump installation with 2 hoses and shut off valve.

An Application for Authorisation was previously lodged with the Department of Economic Development, Environmental Affairs and Tourism (DEDEAT) on 22 November 2019 (DEDEAT Ref.: ECm1/C/LN1/M/40-2019) for the expansion of LOX and diesel storage at the Air Products site. This application was subsequently withdrawn on the 06 November 2019 due to the reconsideration of the layout of storage infrastructure at the site.

Please refer to the Background Information Document (BID) for further information on the proposed expansion.

BASIC ASSESSMENT PROCESS

As per the EIA Regulations, 2014, as amended, published in terms of Section 24(5) of the National Environmental Management Act (NEMA, Act No 107 of 1998), the applicant will require authorisation from the Eastern Cape Department of Economic Development, Environmental Affairs & Tourism (EC DEDEAT) for the undertaking of the projects. In terms of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, the phasing of an activity, where any phase of the activity was below a threshold but where a combination of the phases, including expansions or extensions, will exceed a specified threshold, requires Environmental Authorisation. The Storage and Handling of Petroleum Products is listed under Subcategory 2.4. Subcategory 2.4 is applicable to all permanent immobile liquid storage facilities at a single site with a combined storage capacity of greater than 1 000 m³. An application for Environmental Authorisation will be submitted for the project to the DEDEAT. It is understood that the maximum storage of the facility will total 223 m³ and therefore the on-site storage will not exceed 1 000 m³. The facility therefore falls below the Subcategory 2.4 threshold and does not require an Atmospheric Emissions Licence (AEL) at the current planned capacity.

The application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014, as amended.

Air Products (Pty) Ltd appointed Savannah Environmental, as the independent environmental consultant, to undertake the Basic Assessment to identify and assess all potential environmental impacts associated with the projects and recommend appropriate mitigation measures in the Environmental Management Programmes (EMPRs). The public participation processes for the projects will be undertaken concurrently, providing the public with an opportunity to understand and comment on the project. As part of the environmental studies, Interested and Affected Parties (I&APs) will be actively involved through the public involvement process being undertaken by Savannah Environmental.

You and/or the organisation which you represent have been identified as an I&AP for the proposed Expansion of Liquid Oxygen (LOX) and Diesel Storage project. In terms of the Environmental Impact Assess Regulations, 2014, as amended, Regulations 42(b) and (c), should you and/or the organisation that you represent have an interest in this project, please register yourself as an I&AP by completing and returning the attached registration/comment form. By registering on the project database, you will receive all information relating to the project and will be provided with an opportunity to provide comment and input into the BA processes. Included in this notification letter is a registration and comment form for your perusal.

AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

This letter also serves to notify you that the Basic Assessment Report is available for your review and comment. The report can be viewed at the Motherwell Public Library, Cnr Umlu and Ngqokweni Streets, from **Wednesday, 05 February 2020** to **Friday, 06 March 2020**. The report can also be downloaded from Savannah Environmental's website: <https://www.savannahsa.com/public-documents/other/>. A release code will be required to access and download the report, which can be obtained from our Public Participation Office (contact details below).

You are kindly requested to submit your written comment(s) on the Basic Assessment Report before or on **Friday, 06 March 2020** via fax, post or e-mail (contact details below). All comments received during this 30-day review and comment period will be recorded and included in the Final Basic Assessment Report for submission to the Eastern Cape Department of Economic Development, Environmental Affairs & Tourism (EC DEDEAT), in line with Regulation 44 of the 2014 NEMA EIA Regulations 2014, as amended.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

Dear Ms Buthelezi,

**EXPANSION OF LIQUID OXYGEN (LOX) AND DIESEL STORAGE AT THE AIR PRODUCTS FACILITY
LOCATED WITHIN THE COEGA SPECIAL ECONOMIC ZONE, PORT ELIZABETH, EASTERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

Air Products (Pty) Ltd operate a site at Coega Special Economic Zone (SEZ) situated in Port Elizabeth, Eastern Cape Province, where Liquid Oxygen (LOX) and Liquid Nitrogen (LIN) are currently handled and stored. APSA is proposing to increase the current LOX storage capacity at this site. The LOX storage capacity will be expanded by an additional 127,3 m³ to a total of 200 m³ either by alternatives of adding an addition vertical storage tank with total capacity of 127,3 m³ or by replacement of the existing tank with a 200 m³ LOX tank. In addition, APSA intends to add 23 000 litres (23 m³) of above ground diesel storage facility at the site for use for the Air Products trucks that are based in Port Elizabeth.

In terms of the Environmental Impact Assess Regulations, 2014, as amended, Regulation 43(2), this letter serves to notify your Department that the Basic Assessment Report is available for review and comment from **Wednesday, 05 February 2020** until **Friday, 06 March 2020** and a CD containing the BA Report is included in this envelope.

The report can also be downloaded from Savannah Environmental's website: <https://www.savannahsa.com/public-documents/other/>. A release code will be required to access and download the report, which can be obtained from our Public Participation Office (contact details below).

The project team is looking forward receiving your Department's written comment on the BA Report before or on the closing date of the review period (**Friday 06 March 2020**).

Kind regards

APPLICATION FOR AUTHORISATION IN TERMS OF SECTION 24 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, ACT 107 OF 1998 TO UNDERTAKE A LISTED ACTIVITY AS SCHEDULED IN THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014: PROPOSED EXPANSION OF LIQUID OXYGEN AND DIESEL STORAGE-FACILITIES AT THE AIR PRODUCTS FACILITY LOCATED WITHIN THE COEGA SPECIAL ECONOMIC ZONE(SEZ), EASTERN CAPE PROVINCE.

1. The correct application form submitted by Savannah Environmental (Pty) Ltd on behalf of Air Products (Pty) Ltd dated 27 January 2020 and received on 29 January 2020 that proposes to undertake Listed Activities scheduled in Government Notice R. 983 and R. 985 of 04 December 2014 for the above project, is hereby acknowledged.
2. The reference number assigned to your application is **ECm1/C/LN1/M/03-2020**.
3. In consideration of the Application, your attention is drawn to the following preliminary requirements:
 - 3.1. Please quote the reference number provided in the event of any correspondence/queries in this regard, with correspondence being addressed to the appointed case officer.
 - 3.2. The Environmental Case Officer assigned to your application is **Ms A. Mhlaba** and is reachable as per the contact details outlined in the header to this letter.
 - 3.3. The processing of this application is based on the information reflected in the Application Form being maintained as a true and accurate reflection of the proposed development and the listed activities applied for. In the event that corrections to these are required, such amendments must formally be communicated by the Environmental Assessment Practitioner and acknowledged by this Department prior to the competent authority being in a position to consider final submissions.

Tel: 041 508 5800 • Fax: 041 508 5865 • Web: www.dedeat.gov.za

- 3.4. With regard to the activities listed in the EIA Regulations 2014 that are being applied for, please note that the various activities and any associated aspect thereof must be detailed with coordinate references provided in each respect, in any Draft and / or Final BAR.
4. In addition to the minimum requirements outlined in the regulations, the following is to be adequately addressed in any Draft and Final Reports:
- 4.1 Outline and define the impact assessment methodology and significance assessment matrix table adopted in the comparative assessment of identified impacts;
 - 4.2 Any amendments within the Final Report and associated Appendices that may differ to those addressed in the Draft Report and associated Appendices must be clearly highlighted in the context of the Final Report;
 - 4.3 Reference to the public participation process and engagement with Interested and Affected Parties must be substantiated with relevant written and dated correspondence being provided;
 - 4.4 The EAP should confirm the preferred format of the Draft Report to be submitted to the respective juristic Organs of State for the minimum prescribed comment period, should the EAP's intent not be to provide them with a hard bound copy;
 - 4.5 Cognisance of Regulation 42, whereby a register of interested and affected parties is to be opened and maintained. This register must specifically include the full contact details of those Organs of State and State Departments identified as having jurisdiction in respect of the proposed activity or any associated aspect thereof and therefore have from the outset been notified of the said application. A copy of the I & AP register must be included within the Draft and Final reports submitted to the Department.
5. The EAP is advised to remain aware of the 90-day timeframe for submission of the Basic Assessment Report as contained within the 2014 Regulations, which period will lapse on **04 May 2020**, with specific reference to Regulation 19(1)(a), which provides for a commenting period of 30 days for both I & AP's and the competent authority. All requirements as contained in Appendix 1 of the 2014 EIA Regulations must be addressed in the FBAR.
6. A bound copy as well as an electronic copy of all Draft and Final reports are to be submitted to the competent authority (i.e. DEDEAT: Cacadu Region).
7. The Environmental Assessment Practitioner is required to notify and inform the applicant in writing that the activity may not commence prior to an environmental authorisation being granted by the competent authority.

PORT ELIZABETH

By Courier

Dear Ms Spondo,

**EXPANSION OF LIQUID OXYGEN (LOX) AND DIESEL STORAGE AT THE AIR PRODUCTS FACILITY
LOCATED WITHIN THE COEGA SPECIAL ECONOMIC ZONE, PORT ELIZABETH, EASTERN CAPE PROVINCE**

NOTICE OF AVAILABILITY OF BASIC ASSESSMENT REPORT FOR REVIEW AND COMMENT

Air Products (Pty) Ltd operate a site at Coega Special Economic Zone (SEZ) situated in Port Elizabeth, Eastern Cape Province, where Liquid Oxygen (LOX) and Liquid Nitrogen (LIN) are currently handled and stored. APSA is proposing to increase the current LOX storage capacity at this site. The LOX storage capacity will be expanded by an additional 127,3 m³ to a total of 200 m³ either by alternatives of adding an addition vertical storage tank with total capacity of 127,3 m³ or by replacement of the existing tank with a 200 m³ LOX tank. In addition, APSA intends to add 23 000 litres (23 m³) of above ground diesel storage facility at the site for use for the Air Products trucks that are based in Port Elizabeth.

In terms of Regulation 43(1) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Basic Assessment Report (BA Report) is available for the public's review and written comments, and a hard copy of the BA Report is included in this envelope to be made available at Motherwell Public Library, NU9, Port Elizabeth.

Please note that the BA Report's review period is from **Wednesday, 05 February 2020 until Friday, 06 March 2020.**

Kind regards

APSA Coega – Expansion of Liquid Oxygen (LOX) and Diesel Storage

EXPANSION OF LIQUID OXYGEN (LOX) AND DIESEL STORAGE AT THE AIR PRODUCTS FACILITY LOCATED WITHIN THE COEGA SPECIAL ECONOMIC ZONE, PORT ELIZABETH, EASTERN CAPE PROVINCE

Project Name: Expansion of Liquid Oxygen & Diesel Storage at the Air Products Facility located within the Coega Special Economic Zone (SEZ), Port Elizabeth, Eastern Cape Province.

Applicant: Air Products South Africa (Pty) Ltd.

Location: Within the existing Air Products Coega plant on Erf 228 within the Coega Special Economic Zone (SEZ), Zone 3, East of Motherwell.

Proposed Activity: The expansion of Liquid Oxygen (LOX) storage facilities will entail either the addition of 1 x 127.3m³ double walled storage tank (to make up a total 200m³ storage capacity) or the total replacement of the existing 72.2m³ Liquid Oxygen tank with 1 x 200m³ tank. The construction of a new aboveground composite diesel storage tank with a capacity of 23m³ and associated infrastructure. The existing project site is ~1.3ha in extent.

Basic Assessment Process: Air Products (Pty) Ltd withdrew application ref no: Ecm1/CALN1/M/40-2019 on the 06 November 2019 due to the reconsideration of the layout of storage infrastructure at the site and therefore intends to undertake new a Basic Assessment and public participation process to address the new layout options. In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GN R324 - R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed expansion. An application for Environmental Authorisation for the project has been lodged with the Eastern Cape Department of Economic Development, Environmental Affairs and Tourism (EC DEDEAT) as the competent authority. Savannah Environmental is undertaking the required environmental impact assessment and public participation process.

HeritageAuthority(s): SAHRA
ECPHRA

Case Type: Section 38 (b) - Statutory Comment Required

ProposalDescription:
Project Name: Expansion of Liquid Oxygen & Diesel Storage at the Air Products Facility located within the Coega Special Economic Zone (SEZ), Port Elizabeth, Eastern Cape Province. Applicant: Air Products South Africa (Pty) Ltd. Location: The expansion of storage facilities will be located within the existing Air Products Coega plant on erf 228 within the Coega Special Economic Zone (SEZ), Zone 3 - East of Motherwell. Proposed Activity: The expansion of Liquid Oxygen (LOX) storage facilities entails the addition of 1 x 103,59 m3 double walled storage tank and addition of an aboveground composite diesel storage tank with a capacity of 23 m3 and associated infrastructure. The existing project site is ~1.3 ha in extent.

E-MAIL REMINDER: BA REPORT REVIEW & COMMENT PERIOD ENDING SOON

Format: HTML

p Times New ... 4 B I U A

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

**EXPANSION OF LIQUID OXYGEN (LOX) AND DIESEL STORAGE AT THE AIR PRO
FACILITY LOCATED WITHIN THE COEGA SPECIAL ECONOMIC ZONE, PORT ELIZ
EASTERN CAPE PROVINCE**

(EC DEDEAT Ref.No.: ECm1/C/LN1/M/03-2020)

Dear Stakeholder and Interested and Affected Party,

With reference to the attached notification letter sent on Monday, 27 January 2020 attached to the e-mail below, this e-mail serves to inform you that the comment period for the Basic Assessment Report (BAR) on **Friday, 06 March 2020**. As you may recall, the review and comment period for the BAR was from 05 February 2020 to Friday, 06 March 2020.

Thank you to those Stakeholders and Interested and Affected Parties who submitted their written comments. For those who had not yet submitted written comments, we kindly request that you do so before or on **Friday, 06**

Kind regards,

Design
