Hi Stephan,

I am well, thank you. Hope you are too.

Thank you very much for the e-copy of the Application Form and declaration. Note that as a commenting authority, we do not require the signatures of the applicant, EAP and specialists (contrary to what some officials believe). It is however compulsory for documents submitted to the CA.

Would you please let me know when the Amendment Report is available for comment?

PS. Thank goodness for the PPP "relaxation" period, meaning everything released now will have to wait until next year! I desperate need a break from collating all the comments!

Kind regards,
Adri

Case Type: Section 38 (8) - Statutory Comment Required

Development Type: Wind

ProposalDescription:
Kudusberg Wind Farm (Pty) Ltd (hereafter referred to as "Kudusberg Wind Farm") was issued with an Environmental Authorisation (EA) for the proposed construction of the 325MW Kudusberg Wind Energy Facility (WEF) and associated infrastructure, between Matjesfontein and Sutherland in the Western and Northern Cape Provinces. The EA was granted on 25 March 2019 (DEFF Reference No.: 14/12/16/3/3/1/1976, and subsequently amended on 04 April 2019 to correct a minor naming error (14/12/16/3/3/1/1976/AM1). Kudusberg Wind Farm is now proposing to submit a Part 2 EA Amendment Application to split the authorised Kudusberg WEF (14/12/16/3/3/1/1976/AM1) into two (2) separate smaller WEF projects, namely the Kudusberg WEF and Oya WEF, which result in a number of technical and administrative changes. The split is being proposed to allow the projects to be suitable for numerous opportunities such as either the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP), Risk Mitigation Independent Power Producer Procurement Programme (RMIPPPP), other government run procurement programmes that may arise or for sale to private entities, if enabled and/or required in the drive for energy security in South Africa. Following the split, the northern section of the authorised WEF will become the Oya WEF, while the southern section of the authorised WEF will remain known as the Kudusberg WEF (authorised under 14/12/16/3/3/1/1976/AM1). In this report, the final layout for the Oya WEF has been subject to a detailed specialist walk-through and on site micro-siting as per condition 29 of the Kudusberg EA. Furthermore, the approved EMPr authorised as part of the Kudusberg EA is being amended to each WEF and to incorporate the final layout for the Oya WEF, management plans and the walk-throughs. - **DEFF Reference Number: 14/12/16/3/3/1/1976/AM1**

Please note that SiVEST SA (Pty) Ltd has been appointed by Kudusberg Wind Farm (Pty) Ltd (hereafter referred to as “Kudusberg Wind Farm”), as the independent Environmental Assessment Practitioner (EAP) to apply for Amendment of the Environmental Authorisation (EA) for the abovementioned project.

Kudusberg Wind Farm was issued with an EA for the proposed construction of the Kudusberg Wind Energy Facility near Sutherland, Western and Northern Cape Provinces on 25 March 2019 (DEFF Reference No.: 14/12/16/3/3/1/1976), and for the above mentioned project and subsequently amended on 04 April 2019 to correct a minor naming error (14/12/16/3/3/1/1976/AM1).

The amendment to the EA are required to split the authorised Kudusberg WEF (14/12/16/3/3/1/1976/AM1) into two (2) separate smaller WEF projects, namely the Kudusberg WEF and Oya WEF, which will result in a number of technical and administrative changes.

We would like to take this opportunity to inform you that, in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended) the Draft EA Amendment Assessment Reports will be available for public review as from **Wednesday 18 November 2020 to Monday 11 January 2020** (end of business day). Dear Interested and/or Affected Party,

APPLICATION FOR AMENDMENT OF AN ENVIRONMENTAL AUTHORISATION (EA): PROPOSED CONSTRUCTION OF THE KUDUSBERG WIND ENERGY FACILITY (WEF) NEAR SUTHERLAND, WESTERN AND NORTHERN CAPE PROVINCES

- **DEFF Reference Number: 14/12/16/3/3/1/1976/AM1**

Please note that SiVEST SA (Pty) Ltd has been appointed by Kudusberg Wind Farm (Pty) Ltd (hereafter referred to as "Kudusberg Wind Farm"), as the independent Environmental Assessment Practitioner (EAP) to apply for Amendment of the Environmental Authorisation (EA) for the abovementioned project.

Kudusberg Wind Farm was issued with an EA for the proposed construction of the Kudusberg Wind Energy Facility near Sutherland, Western and Northern Cape Provinces on 25 March 2019 (DEFF Reference No.: 14/12/16/3/3/1/1976), and for the above mentioned project and subsequently amended on 04 April 2019 to correct a minor naming error (14/12/16/3/3/1/1976/AM1).

The amendment to the EA are required to split the authorised Kudusberg WEF (14/12/16/3/3/1/1976/AM1) into two (2) separate smaller WEF projects, namely the Kudusberg WEF and Oya WEF, which will result in a number of technical and administrative changes.

We would like to take this opportunity to inform you that, in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended) the Draft EA Amendment Assessment Reports will be available for public review as from **Wednesday 18 November 2020 to Monday 11 January 2020** (end of business day). The reports will be available on the G7 Renewable Energies' website at <http://ppp.g7energies.com/K7khasco90m>. Should you wish to receive an electronic copy of the Draft EA Amendment Assessment Reports or have any enquiries please forward your request in writing to the Consultants below.

Good Afternoon Mr Geeringh,

Thank you for your email.

This is still the same amendment process which you were previously notified about (see attached email), however, this is now the second amendment to the EA which was originally issued by the Department of Environment, Forestry and Fisheries (DEFF) and thus it now becomes **AM2** at the end of the reference number (i.e. is no longer AM1). The EA has already been amended once and thus the WEF already had a DEFF reference number with AM1 at the end before we started this amendment process. This AM2 number is also the reference number which was provided by the DEFF for this amendment process when they acknowledged receipt of the application form and draft report. Feel free to give me a call if you have any questions in this regard.

Thank you for the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents. Please note that these documents were already provided by Eskom on the 30th of November 2020 and were subsequently forwarded to the Applicant for consideration to ensure that they are adhered to. We will however forward these again just to be sure they have them.

As requested, please find attached KMZ files of the outer boundaries of proposed WEF's as well as the amended turbine layout for each WEF. The turbine layouts have been amended slightly so that the proposed Oya WEF (following the proposed split) will now have 18 wind turbines while the authorised Kudusberg WEF will have 38. Two (2) turbines have been removed from the proposed Oya WEF (turbine 2 and 6 in the KML for the original layout I sent you), while two (2) have been added to the Kudusberg WEF (to the east of turbine 30 and north of turbine 13 and 12 in the KML for the original layout I sent you). There have however been no other changes to the layout or affected properties (i.e. application sites).

In addition, please be advised that there is no grid connection which forms part of this amendment process. Any grid connection will be undertaken as a separate / standalone process and you will be notified about this accordingly and provided with a chance to comment.

We trust you will find everything is in order.

Feel free to contact me should you wish to discuss this or should you require any further information.

Kind Regards,

- **DEFF Reference Number: 14/12/16/3/3/1/1976/AM1**

Please note that SiVEST SA (Pty) Ltd has been appointed by Kudusberg Wind Farm (Pty) Ltd (hereafter referred to as “Kudusberg Wind Farm”), as the independent Environmental Assessment Practitioner (EAP) to apply for Amendment of the Environmental Authorisation (EA) for the abovementioned project.

Kudusberg Wind Farm was issued with an EA for the proposed construction of the Kudusberg Wind Energy Facility near Sutherland, Western and Northern Cape Provinces on 25 March 2019 (DEFF Reference No.: 14/12/16/3/3/1/1976), and for the above mentioned project and subsequently amended on 04 April 2019 to correct a minor naming error (14/12/16/3/3/1/1976/AM1).

The amendment to the EA are required to split the authorised Kudusberg WEF (14/12/16/3/3/1/1976/AM1) into two (2) separate smaller WEF projects, namely the Kudusberg WEF and Oya WEF, which will result in a number of technical and administrative changes.

We would like to take this opportunity to inform you that, in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended) the Draft EA Amendment Assessment Reports will be available for public review as from **Wednesday 18 November 2020 to Monday 11 January 2020** (end of business day). The reports will be available on the G7 Renewable Energies’ website at <http://ppp.g7energies.com/K7khasco90m>. Should you wish to receive an electronic copy of the Draft EA Amendment Assessment Reports or have any enquiries please forward your request in writing to the Consultants below.

Neem asseblief kennis dat Kudusberg Wind Farm (Edms.) Bpk. (hierna “Kudusberg Wind Farm” genoem) SiVEST SA (Edms.) Bpk. aangestel het as die onafhanklike Omgewingsevalueringspraktisyn (OEP) om aansoek te doen om ’n Wysiging van die Omgewingsmagtiging (OM) vir die bogenoemde projek.

Op 25 Maart 2019 is ’n OM aan Kudusberg Wind Farm uitgereik vir die oprigting van die Kudusberg Windkragaanleg (WEF) naby Sutherland, Wes- en Noord-Kaapprovinsie vir die bogenoemde projek (DEFF-verwysingsno.: 14/12/16/3/3/1/1976), en ’n daaropvolgende wysiging toegestaan op 4 April 2019 om ’n klein naamfout reg te stel (14/12/16/3/3/1/1976/AM1).

Kudusberg Wind Farm beoog nou om 'n Deel 2 OM-wysigingsaansoek in te dien om die gemagtigde Kudusberg WEF (14/12/16/3/3/1/1976/AM1) te verdeel in twee (2) aparte kleiner WEF-projekte, naamlik die Kudusberg WEF en Oya WEF, wat tot 'n aantal tegniese en administratiewe veranderinge sal lei, soos hieronder uiteengesit.

Ons wil van die geleentheid gebruik maak om u in kennis te stel dat, ingevolge die Nasionale Omgewingsbestuurswet, 1998 (Wet No. 107 van 1998) (NEMA) (soos gewysig), en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), 2014 (soos gewysig), dat die Konsep OM-wysigingsverslag vanaf **Woensdag 18 November 2020** tot **Maandag 11 Januarie 2021** (einde van die werkdag) beskikbaar sal wees vir openbare hersiening. Die verslae sal beskikbaar wees op die G7 Renewable Energies se webwerf by <http://ppp.g7energies.com/K7khasco90m>. As u 'n elektroniese kopie van die verslag in u elektroniese medium van voorkeur wil ontvang, stuur u versoek asseblief skriftelik na die onderstaande konsultante:

Good Afternoon Mr Geeringh,

The emails below refer.

I made a mistake in the email below, apologies. You originally provided SiVEST with the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents on the 19th of November 2020, and NOT the 30th as I have stated below. Only picked this up after I sent the email already. Apologies for this.

Good Afternoon Mr Geeringh,

Thank you for your email.

This is still the same amendment process which you were previously notified about (see attached email), however, this is now the second amendment to the EA which was originally issued by the Department of Environment, Forestry and Fisheries (DEFF) and thus it now becomes **AM2** at the end of the reference number (i.e. is no longer AM1). The EA has already been amended once and thus the WEF already had a DEFF reference number with AM1 at the end before we started this amendment process. This AM2 number is also the reference number which was provided by the DEFF for this amendment process when they acknowledged receipt of the application form and draft report. Feel free to give me a call if you have any questions in this regard.

Thank you for the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents. Please note that these documents were already provided by Eskom on the 30th of November 2020 and were subsequently forwarded to the Applicant for consideration to ensure that they are adhered to. We will however forward these again just to be sure they have them.

As requested, please find attached KMZ files of the outer boundaries of proposed WEF's as well as the amended turbine layout for each WEF. The turbine layouts have been amended slightly so that the proposed Oya WEF (following the proposed split) will now have 18 wind turbines while the authorised Kudusberg WEF will have 38. Two (2) turbines have been removed from the proposed Oya WEF (turbine 2 and 6 in the KML for the original layout I sent you), while two (2) have been added to the Kudusberg WEF (to the east of turbine 30 and north of turbine 13 and 12 in the KML for the original layout I sent you). There have however been no other changes to the layout or affected properties (i.e. application sites).

In addition, please be advised that there is no grid connection which forms part of this amendment process. Any grid connection will be undertaken as a separate / standalone process and you will be notified about this accordingly and provided with a chance to comment.

We trust you will find everything is in order.

Feel free to contact me should you wish to discuss this or should you require any further information.

Good Afternoon Mr Geeringh,

The emails below refer.

I made a mistake in the email below, apologies. You originally provided SIVEST with the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents on the 19th of November 2020, and NOT the 30th as I have stated below. Only picked this up after I sent the email already. Apologies for this.

Good Afternoon Mr Geeringh,

Thank you for your email.

This is still the same amendment process which you were previously notified about (see attached email), however, this is now the second amendment to the EA which was originally issued by the Department of Environment, Forestry and Fisheries (DEFF) and thus it now becomes **AM2** at the end of the reference number (i.e. is no longer AM1). The EA has already been amended once and thus the WEF already had a DEFF reference number with AM1 at the end before we started this amendment process. This AM2 number is also the reference number which was provided by the DEFF for this amendment process when they acknowledged receipt of the application form and draft report. Feel free to give me a call if you have any questions in this regard.

Thank you for the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents. Please note that these documents were already provided by Eskom on the 30th of November 2020 and were subsequently forwarded to the Applicant for consideration to ensure that they are adhered to. We will however forward these again just to be sure they have them.

As requested, please find attached KMZ files of the outer boundaries of proposed WEF's as well as the amended turbine layout for each WEF. The turbine layouts have been amended slightly so that the proposed Oya WEF (following the proposed split) will now have 18 wind turbines while the authorised Kudusberg WEF will have 38. Two (2) turbines have been removed from the proposed Oya WEF (turbine 2 and 6 in the KML for the original layout I sent you), while two (2) have been added to the Kudusberg WEF (to the east of turbine 30 and north of turbine 13 and 12 in the KML for the original layout I sent you). There have however been no other changes to the layout or affected properties (i.e. application sites).

In addition, please be advised that there is no grid connection which forms part of this amendment process. Any grid connection will be undertaken as a separate / standalone process and you will be notified about this accordingly and provided with a chance to comment.

We trust you will find everything is in order.

Feel free to contact me should you wish to discuss this or should you require any further information.

Good Afternoon Mr Geeringh,

The emails below refer.

I made a mistake in the email below, apologies. You originally provided SIVEST with the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents on the 19th of November 2020, and NOT the 30th as I have stated below. Only picked this up after I sent the email already. Apologies for this.

Good Afternoon Mr Geeringh,

Thank you for your email.

This is still the same amendment process which you were previously notified about (see attached email), however, this is now the second amendment to the EA which was originally issued by the Department of Environment, Forestry and Fisheries (DEFF) and thus it now becomes **AM2** at the end of the reference number (i.e. is no longer AM1). The EA has already been amended once and thus the WEF already had a DEFF reference number with AM1 at the end before we started this amendment process. This AM2 number is also the reference number which was provided by the DEFF for this amendment process when they acknowledged receipt of the application form and draft report. Feel free to give me a call if you have any questions in this regard.

Thank you for the Eskom general requirements for construction works at or near Eskom infrastructure and servitudes, as well as the Eskom setbacks guideline documents. Please note that these documents were already provided by Eskom on the 30th of November 2020 and were subsequently forwarded to the Applicant for consideration to ensure that they are adhered to. We will however forward these again just to be sure they have them.

As requested, please find attached KMZ files of the outer boundaries of proposed WEF's as well as the amended turbine layout for each WEF. The turbine layouts have been amended slightly so that the proposed Oya WEF (following the proposed split) will now have 18 wind turbines while the authorised Kudusberg WEF will have 38. Two (2) turbines have been removed from the proposed Oya WEF (turbine 2 and 6 in the KML for the original layout I sent you), while two (2) have been added to the Kudusberg WEF (to the east of turbine 30 and north of turbine 13 and 12 in the KML for the original layout I sent you). There have however been no other changes to the layout or affected properties (i.e. application sites).

In addition, please be advised that there is no grid connection which forms part of this amendment process. Any grid connection will be undertaken as a separate / standalone process and you will be notified about this accordingly and provided with a chance to comment.

We trust you will find everything is in order.

Feel free to contact me should you wish to discuss this or should you require any further information.

Kind Regards,

Stephan Jacobs

Good Morning Simphiwe,

I trust you are well.

The email below refers.

Thank you for your email and for the information regarding Windfarm Developments around aerodromes and prescribed SACAA Regulations, processes and procedures to follow. These documents and information will be forwarded to the applicant / developer for consideration and to ensure that they follow the necessary SACAA procedure and processes (as required and detailed below). The applicant / developer will also be made aware of the information requirements listed in the email below and the processed to be followed and will also be informed to familiarise themselves with SACATS Part 139.01.30 Technical Standards related to Wind Farms .

As requested, please find attached kml/kmz (Google Earth) files reflecting the footprint of the proposed development sites (following the proposed project split). This includes the outer boundaries of proposed WEF's as well as the turbine layout for each WEF.

In terms of the highest structure of the projects, this will be the wind turbines and wind measuring lattice masts, as stated in the Draft EA Amendment Assessment Report. The authorised Kudusberg WEF will consist of wind turbines with hub heights of up to 140m and rotor diameters of up to 180m (90m blade lengths). The proposed Oya WEF (following the proposed project split) will consist of wind turbines with hub heights of up to 101m and rotor diameters of up to 158m (75m blade lengths). For the authorised Kudusberg WEF, two (2) wind measuring lattice masts of up to 140m high (depending on final hub height) will be required, while two (2) wind measuring lattice masts of up to 120m high will be required for the Oya WEF. See table below:

	Authorised	Oya WEF	Kudusberg WEF
Overall Capacity	325MW	99MW	239MW
Number of turbines	56	18	38
Hub height	Up to 140 m	101m	Up to 140 m
Rotor diameter	Up to 180 m	158 m	Up to 180 m
Blade length	Up to 90 m	75 m	Up to 90 m
Wind Measuring Lattice Masts	Up to 4 x 140 m high depending the final hub height.	2 x 120 m	2 x up to 140 m high depending the final hub height.

The Excel spreadsheet which has been provided for the coordinates, Height and Elevation for each turbine (for each proposed WEF, following the proposed project split) will also be forwarded to the applicant / developer for completion and will be sent to you once this is returned to SiVEST. We trust you will find this is in order?

We trust you will find everything is in order. Please do not hesitate to contact us should there be any issues or should you have any queries.

Dear Interested and/or Affected Party,

APPLICATION FOR AMENDMENT OF AN ENVIRONMENTAL AUTHORISATION (EA): PROPOSED CONSTRUCTION OF THE KUDUSBERG WIND ENERGY FACILITY (WEF) NEAR SUTHERLAND, WESTERN AND NORTHERN CAPE PROVINCES

- **DEFF Reference Number: 14/12/16/3/3/1/1976/AM1**

Please note that SiVEST SA (Pty) Ltd has been appointed by Kudusberg Wind Farm (Pty) Ltd (hereafter referred to as “Kudusberg Wind Farm”), as the independent Environmental Assessment Practitioner (EAP) to apply for Amendment of the Environmental Authorisation (EA) for the abovementioned project.

Kudusberg Wind Farm was issued with an EA for the proposed construction of the Kudusberg Wind Energy Facility near Sutherland, Western and Northern Cape Provinces on 25 March 2019 (DEFF Reference No.: 14/12/16/3/3/1/1976), and for the above mentioned project and subsequently amended on 04 April 2019 to correct a minor naming error (14/12/16/3/3/1/1976/AM1).

The amendment to the EA are required to split the authorised Kudusberg WEF (14/12/16/3/3/1/1976/AM1) into two (2) separate smaller WEF projects, namely the Kudusberg WEF and Oya WEF, which will result in a number of technical and administrative changes.

We would like to take this opportunity to inform you that, in accordance with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended) the Draft EA Amendment Assessment Reports will be available for public review as from **Wednesday 18 November 2020 to Monday 11 January 2020** (end of business day). The reports will be available on the G7 Renewable Energies’ website at <http://ppp.g7energies.com/K7khasco90m>. Should you wish to receive an

electronic copy of the Draft EA Amendment Assessment Reports or have any enquiries please forward your request in writing to the Consultants below.

Neem asseblief kennis dat Kudusberg Wind Farm (Edms.) Bpk. (hierna “Kudusberg Wind Farm” genoem) SiVEST SA (Edms.) Bpk. aangestel het as die onafhanklike Omgewingsevalueringspraktisyn (OEP) om aansoek te doen om 'n Wysiging van die Omgewingsmagtiging (OM) vir die bogenoemde projek.

Op 25 Maart 2019 is 'n OM aan Kudusberg Wind Farm uitgereik vir die oprigting van die Kudusberg Windkragaanleg (WEF) naby Sutherland, Wes- en Noord-Kaapprovinsie vir die bogenoemde projek (DEFF-verwysingsno.: 14/12/16/3/3/1/1976), en 'n daaropvolgende wysiging toegestaan op 4 April 2019 om 'n klein naamfout reg te stel (14/12/16/3/3/1/1976/AM1).

Kudusberg Wind Farm beoog nou om 'n Deel 2 OM-wysigingsaansoek in te dien om die gemagtigde Kudusberg WEF (14/12/16/3/3/1/1976/AM1) te verdeel in twee (2) aparte kleiner WEF-projekte, naamlik die Kudusberg WEF en Oya WEF, wat tot 'n aantal tegniese en administratiewe veranderinge sal lei, soos hieronder uiteengesit.

Ons wil van die geleentheid gebruik maak om u in kennis te stel dat, ingevolge die Nasionale Omgewingsbestuurswet, 1998 (Wet No. 107 van 1998) (NEMA) (soos gewysig), en die Regulasies op Omgewingsimpakevaluering (OIE-regulasies), 2014 (soos gewysig), dat die Konsep OM-wysigingsverslag vanaf **Woensdag 18 November 2020** tot **Maandag 11 Januarie 2021** (einde van die werkdag) beskikbaar sal wees vir openbare hersiening. Dear Hlengiwe and Veronique

Unfortunately I did not get a chance to download the relevant documents before the deadline for comment closed. Would it be possible to get a copy of the avifaunal report and amendment application for our records?

I would also like to encourage G7 to consider running the Verreux's Eagle Risk Assessment Model for the site as this will help identify if there are any high risk turbines that may require operational phase mitigation.

Kind regards
Sam
