Good morning Wanda,

I hope you are well and had a lovely holiday.

I am emailing in connection to the above mentioned notice of BA I came across.

Please can I register as an I&AP and also please request a copy of the background information document for this proposed development.

Looking forward to hearing from you.

Kindest regards

Comments (please use additional sheets of paper if required):

MY INTEREST CONCERNS THE WATER SUPPLY FOR KINI BAY. ALTHOUGH WE DO HAVE A RESERVOIR, IT IS SILTED UP AND WE DONT KNOW WHEN IT IS GOING TO BE FIXED. AS THE CHAIR FOR OUR VILLAGE ASSOCIATION I WANT TO BE INFORMED ABOUT THESE KIND OF PROJECTS.

Comments (please use additional sheets of paper if required):

I think this will be the best solution ever, as there seems to be some kind of a draught in our City. So I think having those bulk that will help people a lot will be the best achievement.

Subject: RE: Background Information Document: Proposed Seaview& Greenbushes Bulk Water Supply, Nelson Mandela Bay

Importance: High

Dear Wanda, On behalf of the Kini Bay Village Association, we would like to register as Interested & Affected Parties in the Bulk Water Supply project, specifically related to the Seaview area, which we assume includes Kini Bay.

For your information approx +2 years, the Kini Bay Reservoir was decommissioned. This original reservoir, carried approx 3 days emergency cover for the village.

At the time, a meeting was held with Mr Zeno Renisson & his operations manager in Kini Bay, to get assurances that this facility would be replaced. We were given assurances that this would be included in the forward planning & in all probability a new reservoir would be built as the current one is too old & costly to repair.

Kindly confirm that this project covers Kini Bay needs.

Also, is any provision being made for any major developments in the "Seaview" area and what & where these areas are?

Yours sincerely,
Richard Luyt (Kini Bay Village Association-representative)-PH 082 682 8051.

Comments (please use additional sheets of paper if required):

The Eastern Cape Parks and Tourism Agency (ECPTA) is the managing authority for the Island Nature Reserve (INR). We have noted that the entire proposed Seaview and Greenbushes Bulk Water Supply infrastructure falls within the 5 kilometer buffer zone of the INR and some of the infrastructure (specifically one of the proposed Reservoirs and the proposed 315 mm pumping and 350 mm gravity mains are located within and in close proximity of the INR. We are especially concerned about the latter mentioned proposed infrastructure as the project areas are located within Critical Biodiversity Areas 1 and 2 according to the Eastern Cape Biodiversity Conservation Plan (Berliner and Desmet, 2007). Development of infrastructure within these areas will negatively impact the biodiversity; we therefore propose that new alternative routes and/or locations be assessed for the proposed 315 mm pumping and 350 mm gravity mains as well as for the reservoir proposed within INR.

Subject: RE: Background Information Document: Proposed Seaview& Greenbushes Bulk Water Supply, Nelson Mandela Bay

Good day Wanda

Can you please register SANRAL as Interested and Affected Party.

Our comments with regard to the proposed bulk water Supply to Seaview and Greenbushes are:

The 350mm diameter bulk gravity pipeline shall be laid inside a sleeve pipe which shall be jacked through underneath the road. Such sleeve pipe shall extent across the full width of the national road reserve. The top convex of the sleeve pipe shall be at least one metre below the surface of the road and natural ground level.

No pipeline shall be affixed to our structures.

Kind regards

Nanna gouws
