NOTICE OF AN ENVIRONMENTAL AUTHORISATION PROCESS AND WATER USE LICENCE APPLICATION FOR ANGLO AMERICAN PLATINUM: RUSTENBURG PLATINUM MINES MOGALAKWENA MINE'S PROPOSED RELOCATION AND ESTABLISHMENT OF THE SERITARITA SECONDARY SCHOOL, LOCATED NEAR MOKOPANE, IN MOGALAKWENA LOCAL MUNICIPALITY, LIMPOPO PROVINCE

PROJECT ANNOUNCEMENT AND OPPORTUNITY TO REGISTER AS AN INTERESTED AND AFFECTED PARTY (I&AP)

Applicant: Anglo American Platinum: Rustenburg Platinum Mines: Mogalakwena Mine

Project: Relocation and Establishment of Seritarita Secondary School

Location: Zwartfontein 814 LR

Seritarita Secondary School is located in the Skimming and Leruleng Villages approximately 25 km northwest of the town of Mokopane, Limpopo Province. The school has approximately 840 learners and 24 teachers. The school is adjacent to Anglo American Platinum (AAP) Rustenburg Platinum Mines' Mogalakwena Mine (Mogalakwena Mine), and specifically its South Pit. The open pit is impacting the school due to its close proximity to the opencast operations including increased dust fallout, noise and tremors which poses adverse health and safety risks. Learning at the school as well as the productivity of the mine are impacted by their incompatible co-existence.

AAP is planning to relocate both Skimming and Leruleng communities, who are also affected by the mining activities. The relocation of these communities is planned for 2027/2028. However, as Seritarita Secondary School is currently located too close to the blast zone of the South Pit, AAP is proposing to temporarily relocate the school further away from the blast zone, but still within the Skimming and Leruleng communities. The proposed location for the temporary relocation is approximately 2,5 km west from the school's current location, on the farm Zwartfontein 814 LR. The school will be permanently relocated with the overall Skimming and Leruleng Villages relocation planned by AAP.

Alta van Dyk Environmental Consultants cc (AVDE) has been appointed as the independent Environmental Assessment Practitioner (EAP) to undertake the required environmental related applications and associated public participation process.

The environmental related applications required for the proposed relocation of the Seritarita Secondary School are:

- A Basic Assessment process in terms of the National Environmental Management Act (Act No. 107 of 1998) (NEMA) and the Environmental Impact Assessment (EIA) Regulations. The competent authority for this process is the Limpopo Department of Economic Development, Environment and Tourism (LEDET).
- A Water Use Licence Application (WULA) in terms of the National Water Act (Act No. 36 of 1998) (NWA). The competent authority for this process is the Department of Water and Sanitation (DWS).

Public Participation forms an integral part of the environmental related authorisation processes. You are hereby invited to register as an Interested and Affected Party (I&AP) by contacting the EAP below, should you wish to receive additional information on the proposed project, or raise any comments regarding the proposed project.
