

**NOTICE OF AN ENVIRONMENTAL AUTHORISATION PROCESS AND WATER USE LICENCE APPLICATION FOR  
ANGLO AMERICAN PLATINUM: RUSTENBURG PLATINUM MINES MOGALAKWENA MINE'S PROPOSED  
RELOCATION AND ESTABLISHMENT OF THE SERITARITA SECONDARY SCHOOL, LOCATED NEAR  
MOKOPANE, IN MOGALAKWENA LOCAL MUNICIPALITY, LIMPOPO PROVINCE**

**AVAILABILITY OF THE DRAFT BASIC ASSESSMENT REPORT FOR PUBLIC COMMENT**

Applicant: Anglo American Platinum - Rustenburg Platinum Mines: Mogalakwena Mine

Project: Relocation and Establishment of Seritarita Secondary School

Location: Zwartfontein 814 LR

**Project background and description:**

Seritarita Secondary School is located in the Skimming and Leruleng Villages approximately 25 km northwest of the town of Mokopane, Mogalakwena Local Municipality, Limpopo Province. The school has approximately 840 learners and 24 teachers. The school is adjacent to Anglo American Platinum (AAP) Rustenburg Platinum Mines' Mogalakwena Mine (Mogalakwena Mine), and specifically its South Pit. The open pit is impacting the school due to its close proximity to the opencast operations including increased dust fallout, noise and tremors which poses adverse health and safety risks. Learning at the school as well as the productivity of the mine are impacted by their incompatible co-existence.

AAP is planning to relocate both Skimming and Leruleng communities, who are also affected by the mining activities. The relocation of these communities is planned for 2027/2028. However, as Seritarita Secondary School is currently located too close to the blast zone of the South Pit, AAP is proposing to temporarily relocate the school further away from the blast zone, but still within the Skimming and Leruleng communities. The proposed location for the temporary relocation is approximately 2,5 km west from the school's current location, on the farm Zwartfontein 814 LR. The school will be permanently relocated with the overall Skimming and Leruleng Villages relocation planned by AAP.

Alta van Dyk Environmental Consultants cc (AVDE) has been appointed as the independent Environmental Assessment Practitioner (EAP) to undertake the required environmental related applications and associated public participation process.

**Authorisations required:**

The environmental related applications required for the proposed relocation of the Seritarita Secondary School are:

- A Basic Assessment process in terms of the National Environmental Management Act (Act No. 107 of 1998) (NEMA) and the Environmental Impact Assessment (EIA) Regulations. The competent authority for this process is the Limpopo Department of Economic Development, Environment and Tourism (LEDET).
- A Water Use Licence Application (WULA) in terms of the National Water Act (Act No. 36 of 1998) (NWA). The competent authority for this process is the Department of Water and Sanitation (DWS), Limpopo Region.

**Availability of the Draft Basic Assessment Report for public comment:**

Public Participation forms an integral part of the environmental related authorisation processes. The Draft Basic Assessment Report is available for public comment for a period of 30 days, from **14 July to 14 August 2023** at the venues listed in the table below. The Draft BAR is also available electronically on the AVDE website:

<https://www.altavandykenvironmental.co.za/public-documents/>

Public Place	Locality	Physical Address
Mapela Traditional Council Office	Mapela TC Offices, Mapela 2	Magope
Seritarita Secondary School	Skimming/Leruleng	Bakenberg Road, Matopa
Mogalakwena Mine Social Performance Office	Mogalakwena Mine, South Concentrator	Mogalakwena Mine, South Concentrator
