## Bikers geniet 'Oom Piet se Run'

Op Saterdag 27 Junie 2015 is Oom Piet se Run vir die derde jaar by Borrelskop gehou, toe 'n klomp bikers die weer getrotseer en lekker saamgekuier het.

Klubs het van sover as Bloemfontein gekom en die dag saam met Riaan Hendriks en sy span organiseerders geniet. Riaan se potjiekos-aandete was 'n groot wenner onder die hongeriges.

Die volgende run waarna uitgesien word is die Westergloed Run te Daniëlskuil in die eerste naweek in Augustus, waar 'n Honda CBR Motorfiets gewen kan word!

## PUBLIC PARTICIPATION PROCESS NOTICE OF APPLICATION FOR A MINING RIGHT, ENVIRONMENTAL AUTHORISATION, WASTE MANAGEMENT LICENCE, WATER USE LICENCE

COZA Mining (Pty) Ltd (COZA) is planning to develop a new iron ore mine on farm Jenkins 562. The proposed development will be located approximately 24 km south of Kathu within the Tsantsabane Local Municipality in the Northern Cape Province.

The mining of the Jenkins Section forms part of the overall COZA Iron Ore Project which is a green-fields project that will involve mining from two other pits located on the farms Driehoekspan 435 (Remaining Extent) Doornpan 445 (Portion 1). The two other projects are known as the COZA Iron Ore Project: Driehoekspan and Doornpan Sections. This advert deals with the development of the proposed COZA Iron Ore Project: Jenkins Section.

The proposed project will comprise the development of an open pit mine on farm Jenkins. Mining will be undertaken by means of truck and shovel. It is estimated that the pit will reach an average depth of between 80 and 100 m below surface. Topsoil will be stripped and stockpiled and the overburden either will be used for construction of roads and berms or placed on waste rock dumps located near to the pits. At full development the mining on Farm Jenkins is expected to produce approximately 1.2 million tons/annum with an estimated life of mine of approximately 7 years.

Number of environmental approvals will be required for the mining right application on Farm Driehoekspan and Thakwaneng prior to commencement with mining. A Scoping and Environmental Impact Assessment process as stipulated in the 2014 EIA Regulations (GNR 982 of 4 December 2014) will be undertaken in support of the environmental approvals. Notice is hereby given in terms of the legislation listed below of the various environmental approvals required prior to the commencement of mining development:

Legislation	Listed Activities (preliminary)	Competent Authority
Minerals and Petroleum Resources Development Act (Act No 28 of 2002) (MPRDA)	Mining Right Application no listed activities	Department of Mineral Resources.
National Environmental Management Act (Act No 107 of 1998). (NEMA)	Government Notice GNR 983 Activities (1, 9, 10, 12, 13, 19, 24, 50, 56), GNR 984 Activities 11, 21, 6, 4, 16, 28, 15, 16)	Department of Mineral Resources
National Water Act, (Act No 36 of 1998) (NWA)	Section 21 (a), (b), (c), (f), (g), (i) and (j)	Department of Water Affairs:
National Environmental Management: Waste Act (Act No 59 of 2008) (NEMWA)	GRN 921 of NEM:WA Category B Activity 7	Department of Mineral Resources

Synergistics Environmental Services (Pty) Ltd now part of SLR has been appointed as independent environmental consultants responsible for undertaking the necessary environmental work and conducting the public participation process for the project. ## DEBEN Leeds crowned as first GLFA champs

The jubilant winning team, Leeds FC from Deben.

The Dingleton-based Leeds FC team has reason to be very happy, as they were crowned the very first winners of the Reisa Gamagara Local Football Association (GLFA) Cup on Sunday 28 June 2015. They also went home with a gold medal for each team member and the very welcome prize money of R10 000. Leeds faced the enthusiastic team of Naughty Boys in the final, after some very exciting quarter and semi-finals on Saturday 27 and Sunday 28 June 2015. The Naughty Boys were, however,

no match for the superb kicking and attacking skills of the fiery Leeds team, and had to bow out with the final score at 1-0. The second prize of R7 000 (and silver medals) went to the Naughty Boys FC, and the third prize of R5 000 (and bronze medals) to Eversmile FC. All teams who participated received a set of soccer kits, set of bibs, kitbag, goalkeeper set, goalkeeper gloves, training equipment, a first aid kit, water bottles and water carriers, referee kits, linesman's flags and match balls.

Leeds FC captain Reagon Lockie receives the coveted GLFA Cup from Reisa Project Manager Elton Gordon.

### KENNISGEWING VAN AANSOEK OM MYNREG, OMGEWINGSMAGTING, AFVALBESTUURSLISENSIE EN WATERGEBRUIKSLISENSIE TE DOEN

COZA Mining (Edms) Bpk (COZA) is van plan om 'n nuwe ysterstermyn op die plaas Jenkins 562 te ontwikkel. Die voorgestelde ontwikkeling sal gevestig word ongeveer 24 km suid van Kathu in die Plaaslike Munisipaliteit Tsantsabane in die Noord-Kaap-provinsie.

Die ontginning van die Jenkins-afdeling vorm deel van die algehele COZA-ysterstermynprojek wat 'n groenveldeprojek is wat mynbou behels van twee ander putte geleë op die plaas Driehoekspan 435 (restant) Doornpan 445 (gedeelte 1). Die ander twee projekte is bekend as die COZA-ysterstermynprojek: Driehoekspan- en Doornpan-afdeling. Hierdie plakkat handel oor die ontwikkeling van die voorgestelde COZA-ysterstermynprojek: Jenkins-afdeling.

Die voorgestelde projek sal die ontwikkeling van 'n oopgreefmyn op die plaas Jenkins bestaan. Ontginning sal gedoen word deur wyse van die trok en graaf. Daar word beraam dat die mynput 'n gemiddelde diepte van tussen 80 en 100 m onder die oppervlak sal bereik. Bogronnd sal gestroep en versameld word en die bolagsal gebruik word vir die bou van paaie en berms of op afval rotslope geleë word naby die mynput. Op volle ontwikkeling van die mynbou op die plaas Jenkins is dit verwag dat ongeveer 1,2 miljoen ton / jaar geprosesseer sal word met 'n geskatte lewe van myn van ongeveer 7 jaar.

'n Aantal omgewingsgoedgekeurings sal vereis word vir die mynreagaansoek op plaas Driehoekspan en Taakwaneng voor die aanvang van die myn. 'n Bestekopname en omgewingsimpakstudieproses soos bepaal in die 2014 OIB-regulasies (GNR 982 van 4 Desember 2014) sal deel vorm van die ondersteuning van die omgewingsgoedgekeurings. Kennis word hiermee gegee in terme van die onderstaande van die verskillende omgewingsgoedgekeurings wat vereis word vir die inwerking tree van die mynbouontwikkeling:

Wetgewing	Gelyste aktiwiteite (voorlopige)	Bevoegde owerheid
Wet op Minerale- en Petroleum-hulpbronnontwikkeling (Wet no. 28 van 2002) (MPRDA)	Aansoek vir mynbouregte: nie gelyste aktiwiteite	Departement van Minerale Hulpbronne
Wet op Nasionale Omgewingsbestuur (Wet no. 107 van 1998). (NEMA)	Regeringskennisgewing GNR 983 aktiwiteite (1, 9, 10, 12, 13, 19, 24, 50, 56), GNR 984 aktiwiteite 11, 21, 6, 4, 18, 28, 15, 16)	Departement van Minerale Hulpbronne

Good morning Esther

Your email below confirms your receipt of the letter of intent, thank you.

SLR is aware of the need for a pre-application meeting and this will be arranged with DWS at the appropriate time in the project schedule.

As indicated in the letter of intent submitted to you, the need to submit such a letter is a DMR requirement and was submitted in order to ensure procedural compliance.

DWS will be notified when the WULA process is ready to commence and SLR will engage DWS prior to this time to arrange the pre-application meeting.

Thank you

Dear Mr Abrahams and Ms Makungo.

COZA Mining (Pty) Ltd (COZA) is planning to develop the COZA Iron Ore Jenkins Section Project which will involve the mining of iron ore on Farm Jenkins 562 (Portion 1 and RE). The proposed project is located approximately 24 km south of Kathu in the Tsantsabane Local Municipality, Northern Cape Province.

The attached letter serves to notify the Northern Cape Department of Water and Sanitation (DWS) of COZA's intent to submit a Water Use Licence Applications (WULA) and an Integrated Water and Waste Management Plan (IWWMP) in support of the COZA Jenkins Section mining right application.

This letter will also be sent to you via fax and via post.

Kindly confirm your receipt hereof so that proof of submission of this letter may be provided to the DMR, as required.

Thank you

**Subject:** FW: NOTIFICATION OF AVAILABILITY OF  
DRAFT SCOPING REPORT FOR THE COZA  
IRON ORE PROJECT: JENKINS SECTION  
**Attachments:** Jenkins Draft Scoping Report  
Compressed.pdf  
**Importance:** High

Dear Interested and Affected Party,

COZA Mining (Pty) Ltd (COZA) is planning to develop a new iron ore mine on the farm Jenkins 562 located approximately 24 km south of Kathu within the Tsantsabane Local Municipality in the Northern Cape Province. The proposed project will comprise the development of an open pit mine on the farm Jenkins. Open pit mining will be undertaken by means of conventional truck and shovel. Processing activities will include crushing, screening and blending of ore prior to transportation.

In order for the project to commence, environmental authorisations and licences will be required under the following legislation:

- National Environmental Management Act (No. 107 of 1998)
- National Environmental Management: Waste Act (No. 59 of 2008)
- National Water Act (No. 36 of 1998) for various water uses.

COZA appointed Synergistics Environmental Services (Pty) Ltd (now part of the SLR group) as the independent Environmental Assessment Practitioner to undertake the Scoping and Environmental Impact Assessment process required in support of the applications for the abovementioned authorisations and licences.

You are hereby notified that the scoping process has been completed and the Draft Scoping Report is now available for public review. The draft report will be

available for public review for 30 calendar days (4 weeks). Attached is the electronic Draft Scoping report.

RE: COMMENTS ON SCOPING REPORT FOR THE PROPOSED COZA IRON ORE PROJECT: JENKINS MINE SECTION, KATHU, NORTHERN CAPE (DEA REF: NOT SUPPLIED)

## 1. DEPARTMENTAL MANDATE

- 1.1 The Branch: **Forestry** and Natural Resource Management in the **Department of Agriculture, Forestry and Fisheries (DAFF)** is responsible for implementation of the **National Forests Act, Act 84 of 1998 (NFA) and the National Veld and Forest Fires Act, Act 101 of 1998** as amended. The proposed developer must comply with the following sections of the NFA:
- 1.1.1 Section 12(1)(d): "The Minister may declare-
- A particular tree,
  - A particular group of trees,
  - A particular woodland; or
  - Trees belonging to a particular species, to be a protected tree, group of trees, woodland or species."
- 1.1.2 Section 15(1): "No person may-
- Cut, disturb, damage or destroy any protected tree; or
  - Possess, collect, remove, transport, export, purchase, sell, donate or in any other manner acquire or dispose of any protected tree, or any forest product derived from a protected tree, except-
    - under a license granted by the Minister; or
    - in terms of an exemption from the provision of this subsection published by the Minister in the Gazette on the advice of the Council."
- 1.1.3 Section 62(2)(c): "Any person who contravenes the prohibition on-
- The cutting, disturbance, damage or destruction of temporarily protected trees or groups of trees referred to in section 14(2) or protected trees referred to in section 15(1)(a); or

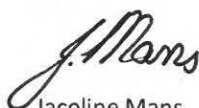

- (ii) The possession, collection, removal, transport, export, purchase or sale of temporarily protected trees or groups of trees referred to in section 14(2) or protected trees referred to in section 15(1)(b), or any forest product derived from a temporarily protected tree, group of trees or protected tree, is guilty of a first category offence.

1.1.4 Section 58 (1): "Any person who is guilty of a first category offence referred to in sections 62 and 63 may be sentenced to a fine or imprisonment for a period of up to three years, or to both a fine and such imprisonment."

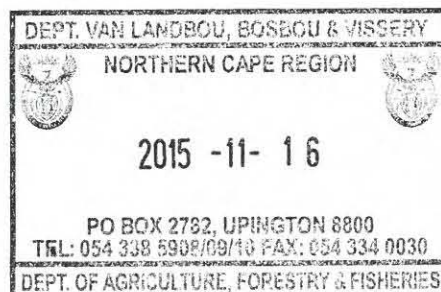

## 2. COMMENTS ON SCOPING REPORT

- 2.1 Page 3-9: 250 to 350 ha site clearance will be required, in the Griqualand West Centre of Endemism. Page 5-33 refers to the affected vegetation units. The *Acacia (Vachellia) erioloba* Bushveld Habitat Unit identified on site was classified as moderately sensitive and dominated by the protected *A. (V.) erioloba* and *A. (V.) haematoxylon*. Kindly provide estimates of numbers of protected trees per size classes (< 3m; 3 – 6m; and >6m) that would be directly destroyed as a result of the proposed mining and vegetation clearance activities. For *Boscia albitrunca* an additional size class of <1.5m should be included. The information is required to determine whether or not an environmental offset may be required. Please also describe the methodology used to provide the information and show on a map the plots surveyed, as well as the percentage of the total area surveyed.
- 2.2 Page 5-53 indicated that the project area is zoned for agricultural use. Agricultural land cannot be changed to another land use without the supported recommendation under the Sub-division of Agricultural Land Act, Act 70 of 1970. A local authority cannot change the zoning of demarcated agricultural land to any other zoning without a letter from the Registrar of this Act. The contact persons are: Ms. Mashudu Marubini (Delegate of the Minister for Act 70 of 1970, [MashuduMa@daff.gov.za](mailto:MashuduMa@daff.gov.za), tel. 012 319 7619; Ms. Thoko Buthelezi (AgriLand Liaison office, [ThokoB@daff.gov.za](mailto:ThokoB@daff.gov.za), tel. 012 319 7634; or Ms. Hettie Buys Act 70/70 Registry ([HettieB@daff.gov.za](mailto:HettieB@daff.gov.za)).
- 2.3 It should be noted that dewatering from boreholes may result in decline and death of deep-rooted protected trees, thus indirect impacts. It is therefore recommended that a long-term tree health monitoring program be implemented to monitor protected tree mortality as a result of dewatering (if water level is being affected) and/or as a result of contamination of groundwater.
- 2.4 Obtaining an Environmental Authorisation does not exempt the developer from complying with the NFA. Prior to any disturbance of NFA Listed protected tree species, the developer must obtain a valid Forest Act License. Since some of the tree species are dually protected, a Flora Permit must also be obtained from the provincial Department of Environment and Nature Conservation (DENC).

Kind Regards,

Jacoline Mans  
Chief Forester: NFA Regulation

Morning Harry,

Thank you for taking my call earlier. As discussed, your comments submitted on 25<sup>th</sup> August and 6<sup>th</sup> November have been included in the Scoping report which has been submitted to the DMR. These comments will also be included and addressed in the EIA when it is submitted later in the year.

As mentioned, I have left a voice message for Werner and both he and yourself will have another opportunity to review and provide comment on the EIA report when it is submitted. You will be notified when the report is available for public review.

Enjoy the rest of your year, and please do not hesitate to contact me should you have any questions about the environmental permitting process.

Thanks

Dear Sir/Madam

**APPLICATION FOR A MINING RIGHT BY COZA MINING (PTY) LTD – REMAINING EXTENT OF PORTION 1 OF THE FARM JENKINS 562 – SISHEN IRON ORE COMPANY (PTY) LTD (SIOC).**

The abovementioned matter and Coza Mining (Pty) Ltd's (Coza) planned mining activities and pending mining right application over *inter alia* the Remaining Extent of Portion 1 of the farm Jenkins 562 (the Property) have reference. As stated before in earlier e-mails, SIOC is the registered owner of the surface rights.

SIOC acknowledges receipt of the draft scoping report as submitted under cover of your e-mail dated 2 November 2015. From this scoping report it is abundantly clear that the Property is clearly earmarked for opencast mining operations and for the construction of infrastructure associated with the planned mining operations.

SIOC as the holder of the surface rights has no other option than to put on record that Coza's planned mining operations will *inter alia*:

1. result in the Property being of no further use to SIOC as it will be occupied and virtually be destroyed by Coza's planned mining operations;
2. will have serious environmental consequences for the Property and put SIOC at risk from an environmental perspective;
3. diminish the value of the Property from an agriculture perspective which will have financial consequences for SIOC.

Under the circumstances SIOC will have to object against the planned mining operations by Coza and will not allow any mining operations to take place on the Property unless SIOC can reach agreement with Coza on the selling of the Property as whole to Coza or any other company of Coz's choice.

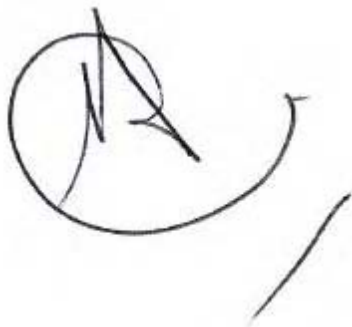

You are requested to acknowledge receipt of this letter.

**Subject:** FW: NOTIFICATION OF AVAILABILITY OF DRAFT SCOPING REPORT FOR THE COZA IRON ORE PROJECT: JENKINS SECTION  
**Importance:** High

Dear Interested and Affected Party,

COZA Mining (Pty) Ltd (COZA) is planning to develop a new iron ore mine on the farm Jenkins 562 located approximately 24 km south of Kathu within the Tsantsabane Local Municipality in the Northern Cape Province. The proposed project will comprise the development of an open pit mine on the farm Jenkins. Open pit mining will be undertaken by means of conventional truck and shovel. Processing activities will include crushing, screening and blending of ore prior to transportation.

In order for the project to commence, environmental authorisations and licences will be required under the following legislation:

National Environmental Management Act (No. 107 of 1998)  
National Environmental Management: Waste Act (No. 59 of 2008)  
National Water Act (No. 36 of 1998) for various water uses.

COZA appointed Synergistics Environmental Services (Pty) Ltd (now part of the SLR group) as the independent Environmental Assessment Practitioner to undertake the Scoping and Environmental Impact Assessment process required in support of the applications for the abovementioned authorisations and licences.

You are hereby notified that the scoping process has been completed and the Draft Scoping Report is now available for public review. The draft report will be available for public review for 30 calendar days (4 weeks). Attached is the electronic Draft Scoping report.

Please ensure that all written comments reach us by 1 December 2015. All written comments should be forwarded to:

Good morning Werner,

I trust you are well and had a good holiday.

I may remember that I emailed you towards the end of last year to introduce myself as the new project manager for the environmental permitting process

for the Coza Mining Jenkins Section project, and just wanted to make contact with you now in the new year.

The EIA for the proposed Jenkins project will be available for public review in March/April and you will have an opportunity to provide comments on this document should you wish to do so.

Should you want to set up a meeting with me in addition to providing comments on the above document, please let me know and I will arrange this.

Thank you

RE: COMMENTS ON BACKGROUND INFORMATION DOCUMENT FOR THE PROPOSED  
COZA IRON ORE PROJECT: JENKINS SECTION, KATHU, NORTHERN CAPE (DEA REF: NOT  
SUPPLIED)

### 1. DEPARTMENTAL MANDATE

1.1 The Branch: Forestry and Natural Resource Management in the Department of Agriculture, Forestry and Fisheries (DAFF) is responsible for implementation of the National Forests Act, Act 84 of 1998 (NFA) and the National Veld and Forest Fires Act, Act 101 of 1998 as amended. The proposed developer should take note of the following sections of the NFA:

1.1.1 Section 12(1)(d): "The Minister may declare-

- (a) A particular tree,
- (b) A particular group of trees,
- (c) A particular woodland; or
- (d) Trees belonging to a particular species, to be a protected tree, group of trees, woodland or species."

1.1.2 Section 15(1): "No person may-

- (a) Cut, disturb, damage or destroy any protected tree; or

- (b) Possess, collect, remove, transport, export, purchase, sell, donate or in any other manner acquire or dispose of any protected tree, or any forest product derived from a protected tree, except-
  - (i) under a license granted by the Minister; or
  - (ii) in terms of an exemption from the provision of this subsection published by the Minister in the Gazette on the advice of the Council."

- 1.1.3 Section 62(2)(c): "Any person who contravenes the prohibition on-
- (i) The cutting, disturbance, damage or destruction of temporarily protected trees or groups of trees referred to in section 14(2) or protected trees referred to in section 15(1)(a); or
  - (ii) The possession, collection, removal, transport, export, purchase or sale of temporarily protected trees or groups of trees referred to in section 14(2) or protected trees referred to in section 15(1)(b), or any forest product derived from a temporarily protected tree, group of trees or protected tree, is guilty of a first category offence.
- 1.1.4 Section 58 (1): "Any person who is guilty of a first category offence referred to in sections 62 and 63 may be sentenced to a fine or imprisonment for a period of up to three years, or to both a fine and such imprisonment."

## 2. COMMENTS ON BACKGROUND INFORMATION DOCUMENT

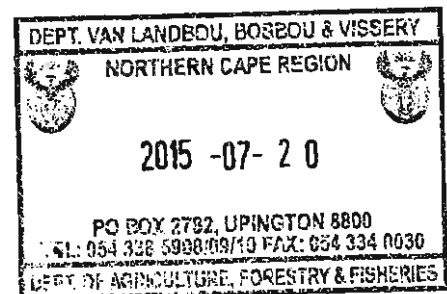

- 2.1 Please register the Department of Forestry as a Commenting Authority and supply this office with copies of the relevant documentation for comments.
- 2.2 Kindly ensure that you assess the potential impact on protected tree species (if any) and place infrastructure where it will have the least impact on slow growing protected trees.
- 2.3 No protected tree may be damaged or disturbed without a valid Forest Act License.

Thank you very much for notifying this Department of the proposed development.

Kind Regards,

We act on behalf of Main Street 576 (Pty) Ltd (Main Street) and Sishen Iron Ore company (Pty) Ltd (SIOC).

Main Street is wholly owned company by Kumba Iron Ore Company Ltd. Main Street was the registered owner of the Remaining Extent of Portion 1 of the farm Jenkins 562 ("the Property"), Municipality of Tsantsabane,

measuring 857,5313 hectares held under Deed of Transfer No T 364/2010 (see attachment). By virtue of a deed of sale entered into between Kumba Iron Ore Company Ltd, SIOC and Main Street concluded in 2014 Main Street disposed of the Property in favour of SIOC which transfer was effected on the 11<sup>th</sup> of August 2015.08.25

We put on record that Main Street has no record of any application by a 3<sup>rd</sup> party (for that matter COZA Mining (Pty) Ltd) for any prospecting right over the Property and no consultation of whatever nature has taken place with Main Street as is required in terms of Section 16 (4) (b) of the MPRDA. Main Street would request you to put us in direct contact with your client COZA Mining (Pty) Ltd to demand proof of consultation with Main Street.

Main Street (or for that Matter SIOC) is also not listed as an interested and affected party in COZA Mining (Pty) Ltd application for a mining right and has not received a copy of the attached document annexed hereto (Jenkins Final Bid) and confirm that this document was received via a 3<sup>rd</sup> party.

Main Street also put on record that it was never approached to conduct any prospecting operations of whatever nature on the Property and was quite surprised to learn that your client has already completed its prospecting operations in order apply for a mining right and to commence with mining operations.

You are also requested to register SIOC as an affected and interested party in this regard as the new holder of the surface rights over the Property.

Your urgent response in this regard is required failing which Main Street and/or SIOC reserve its rights to take the necessary steps to protect its interest.

Hi my naam is Nickie Steyn. Ek is die einaar van die plaas vlakwater (Gedeelte van gedeelte 2 van die plaas Jenkins).

Die volgende is vir my n groot bekomernis.

1. Ek het n groot te kort aan water op my plaas. Die eenigste water bron is op 30m. Daar is nie dieper water nie en as julle dieper as die watertafel myn en my water afekteer en ek nie verder kan boer en met my aktiwiteite kan aangaan nie, sal julle vir my skade vergoeding moet betaal todat julle die water vlake weer herstel het.

Julle sal ook n moniterings boorgat op my plaas moet boor en n intyd water moneteering stelsel instaleer en vir my toegang gee tot die inligting sodat daar geen misverstande sal wees nie.

2. Ek sien my plaas is deel van die aansoek op die kaart.gaan julle die grond hersoneer na mynbou?  
Wat beoog julle om te doen op my plaas?

3. Wat gaan die myn vir ons as geafekteerdes en die omgewing doen, sal julle vir ons van elektrisiteit kan voorsien?

ek hoor graag van u

Good day,

Thank you for your comments. Please note that all your queries have been captured.

Kindly refer to the following responses (to your comments):

1. Ek het n groot te kort aan water op my plaas. Die eenigste water bron is op 30m. Daar is nie diepe water nie en as julle dieper as die watertafel myn en my water afekteer en ek nie verder kan boer en met my aktiwiteite kan aangaan nie, sal julle vir my skade vergoeding moet betaal todat julle die water vlake weer herstel het. Julle sal ook n moniterings boorgat op my plaas moet boor en n intyd water moneteering stelsel instaleer en vir my toegang gee tot die inligting sodat daar geen misverstande wees nie.

Ons is huidiglik besig met die Omgewingsimpak Studie (EIA) vir die projek. In 'n deel van die EIA sal daar 'n grondwater impak studie gedoen word wat ons sal kan sê wat die potensiële impakte sal wees op die grondwater. So ons weet wat die impakte is, kan ons voorkomingsmaatreëls voorstel om al die impakte wat geïdentifiseer is te kan bestuur. Ons sal die verslag aan stuur na jou sodra die voltooi is (Maart 2016), wat ook die voorkomingsmaatreëls vir die impakte op grondwater sal beskryf. Jy sal 'n kaans gegee word om kommentaar te lewer op die bestuurmaatreëls wat voorgestel word.

2. Ek sien my plaas is deel van die aansoek op die kaart. Gaan julle die grond hersoneer na mynbou? Wat beoog julle om te doen op my plaas?

Geen werk is beplan op jou porsie van die Plaas Jenkins nie. Verwys asseblief na die aangehegde kaart wat die uitleg

die porsies toon.

3. Wat gaan die myn vir ons as geafekteerdes en die omgewing doen, sal julle vir ons van elektrisiteit kan voorsien?

Die Sosiale- en Arbeidsplan word huidiglik saamgestel. Die tipes voordele sal eeers bekend wees sodra die Sosiale- en Arbeidsplan gefinaliseerd is.

Kind regards,

Good day Mr Venter,

Thank you for your email.

Please note that we are still in the initial phase of the consultation process. The mining right application has not been lodged yet.

We are still going to have public meetings whereby we'll invite all the interested and affected parties to inform them about the project and to address and capture their questions and concerns.

Could you please specify which portion of Jenkins you own?

Kind regards,

---

Hi Mase

I am the surface owner of one of the portion of Jenkins, that Coza is applying for a mining right.

I am logging a dispute on the following grounds.

No consultation has happened yet.  
The portion of Jenkins are not going to be used to mine on.  
No prospecting happened on this portion of Jenkins.

Please arrange a consultation meeting, that we can discuss the purpose of applying for a mining right on the portion of Jenkins.

Regards

**Subject:** NOTIFICATION OF THE COZA IRON ORE PROJECT-JENKINS SECTION

Dear Interested & Affected Party,

Notice is hereby given that COZA Mining (Pty) Ltd is proposing to develop a new iron ore mine on Farm Jenkins 562 approximately 24 km south of Kathu. The proposed development is a Greenfields project that will involve mining from two other pits on Farms Driehoekspan and Doornpan. Prior to commencement with the mining activities, environmental approvals will be required in terms of the following legislation:

- Minerals and Petroleum Resources Development Act (No 28 of 2002)
- National Environmental Management Act (No 107 of 1998)
- National Environmental Management: Waste Act (No 59 of 20008)
- National Water Act (No 36 of 1998).
- National Heritage Resources Act (No 25 of 1999)

You have been identified as a potential Interested and Affected Party (IAP) for the project. As an IAP you will be afforded an opportunity to raise, ask

questions about the project and comment on environmental reports that will be submitted in support of the various environmental approvals.

Attached is a background information document providing information on the project. Please review the document and raise any questions or concerns that you may have with the proposed project. The deadline for providing comments is **6 August 2015**. Please note that this is the initial stage of public participation process and IAPs will be afforded opportunity to comment throughout the EIA process.

Afternoon

We act on behalf of Main Street 576 (Pty) Ltd (Main Street) and Sishen Iron Ore company (Pty) Ltd (SIOC).

Mains Street is wholly owned company by Kumba Iron Ore Company Ltd. Main Street was the registered owner of the Remaining Extent of Portion 1 of the farm Jenkins 562 ("the Property"), Municipality of Tsantsabane, measuring 857,5313 hectares held under Deed of Transfer No T 364/2010 (see attachment). By virtue of a deed of sale entered into between Kumba Iron Ore Company Ltd, SIOC and Main Street concluded in 2014 Main Street disposed of the Property in favour of SIOC which transfer was effected on the 11<sup>th</sup> of August 2015.08.25

We put on record that Main Street has no record of any application by a 3<sup>rd</sup> party (for that matter COZA Mining (Pty) Ltd) for any prospecting right over the Property and no consultation of whatever nature has taken place with Main Street as is required in terms of Section 16 (4) (b) of the MPRDA. Main Street would request you to put us in direct contact with your client COZA Mining (Pty) Ltd to demand proof of consultation with Main Street.

Main Street (or for that Matter SIOC) is also not listed as an interested and affected party in COZA Mining (Pty) Ltd application for a mining right and has not received a copy of the attached document annexed hereto (Jenkins Final Bid) and confirm that this document was received via a 3<sup>rd</sup> party.

Main Street also put on record that it was never approached to conduct any prospecting operations of whatever nature on the Property and was quite surprised to learn that your client has already completed its prospecting operations in order apply for a mining right and to commence with mining operations.

You are also requested to register SIOC as an affected and interested party in this regard as the new holder of the surface rights over the Property.

Your urgent response in this regard is required failing which Main Street and/or SIOC reserve its rights to take the necessary steps to protect its interest.

Dear Sir/Madam,

**NOTICE OF INTENT TO SUBMIT AN INTERGRATED WATER USE LICENCE APPLICATION FOR THE  
COZA: JENKINS SECTION IRON ORE PROJECT, CATCHMENT D41J**

**1. INTRODUCTION**

COZA Mining (Pty) Ltd (COZA) is planning to develop the COZA Iron Ore Jenkins Section Project which will involve the mining of iron ore on Farm Jenkins 562 (Portion 1 and RE) (See Figure 1 in Appendix 1). The proposed project is located approximately 24 km south of Kathu in the Tsantsabane Local Municipality, Northern Cape Province.

As part of the proposed development, COZA submitted a mining right application to the Department of Mineral Resources (DMR) in October 2015. The mining right application was acknowledged by the DMR in correspondence dated 11 December 2015 and received by COZA on 18 January 2016. Included in this acknowledgement letter, the DMR requested that COZA lodge a letter of intent to apply for a Water Use License (WUL) (in terms of the National Water Act, 1998 (Act 36 of 1998)) with the Department of Water and Sanitation (DWS).

This letter serves to notify the Northern Cape Department of Water and Sanitation (DWS) of COZA's intent to submit a Water Use Licence Applications (WULA) and an Integrated Water and Waste Management Plan (IWWMP) in support of the COZA Jenkins Section mining right application.

## **2. INTEGRATED WATER USE LICENCE APPLICATION**

It is expected that the following water uses in terms of the National Water Act, 1998 (Act 36 of 1998) are relevant to the COZA Mining Jenkins Section project (DMR Reference: NC/30/5/1/2/2/10094):

- Section 21(a): Taking water from a resource
- Section 21(b): Storage of water
- Section 21(c): Impeding or diverting the flow of water in a watercourse
- Section 21(g): Disposing of waste in a manner that may detrimentally impact on a water resource
- Section 21(i) Altering the beds, banks, course or characteristics of a watercourse
- Section 21(j): Removing, discharging or disposing of water found underground if it is necessary for the efficient continuation of an activity or for the safety of people

The list above will be refined during the Environmental Impact Assessment (EIA) process and the IWULA and supporting IWWMP will be submitted in due course thereafter.

## **3. CONCLUSION**

We trust the above is in order. Please feel free to contact the undersigned should you have any queries.

Yours faithfully

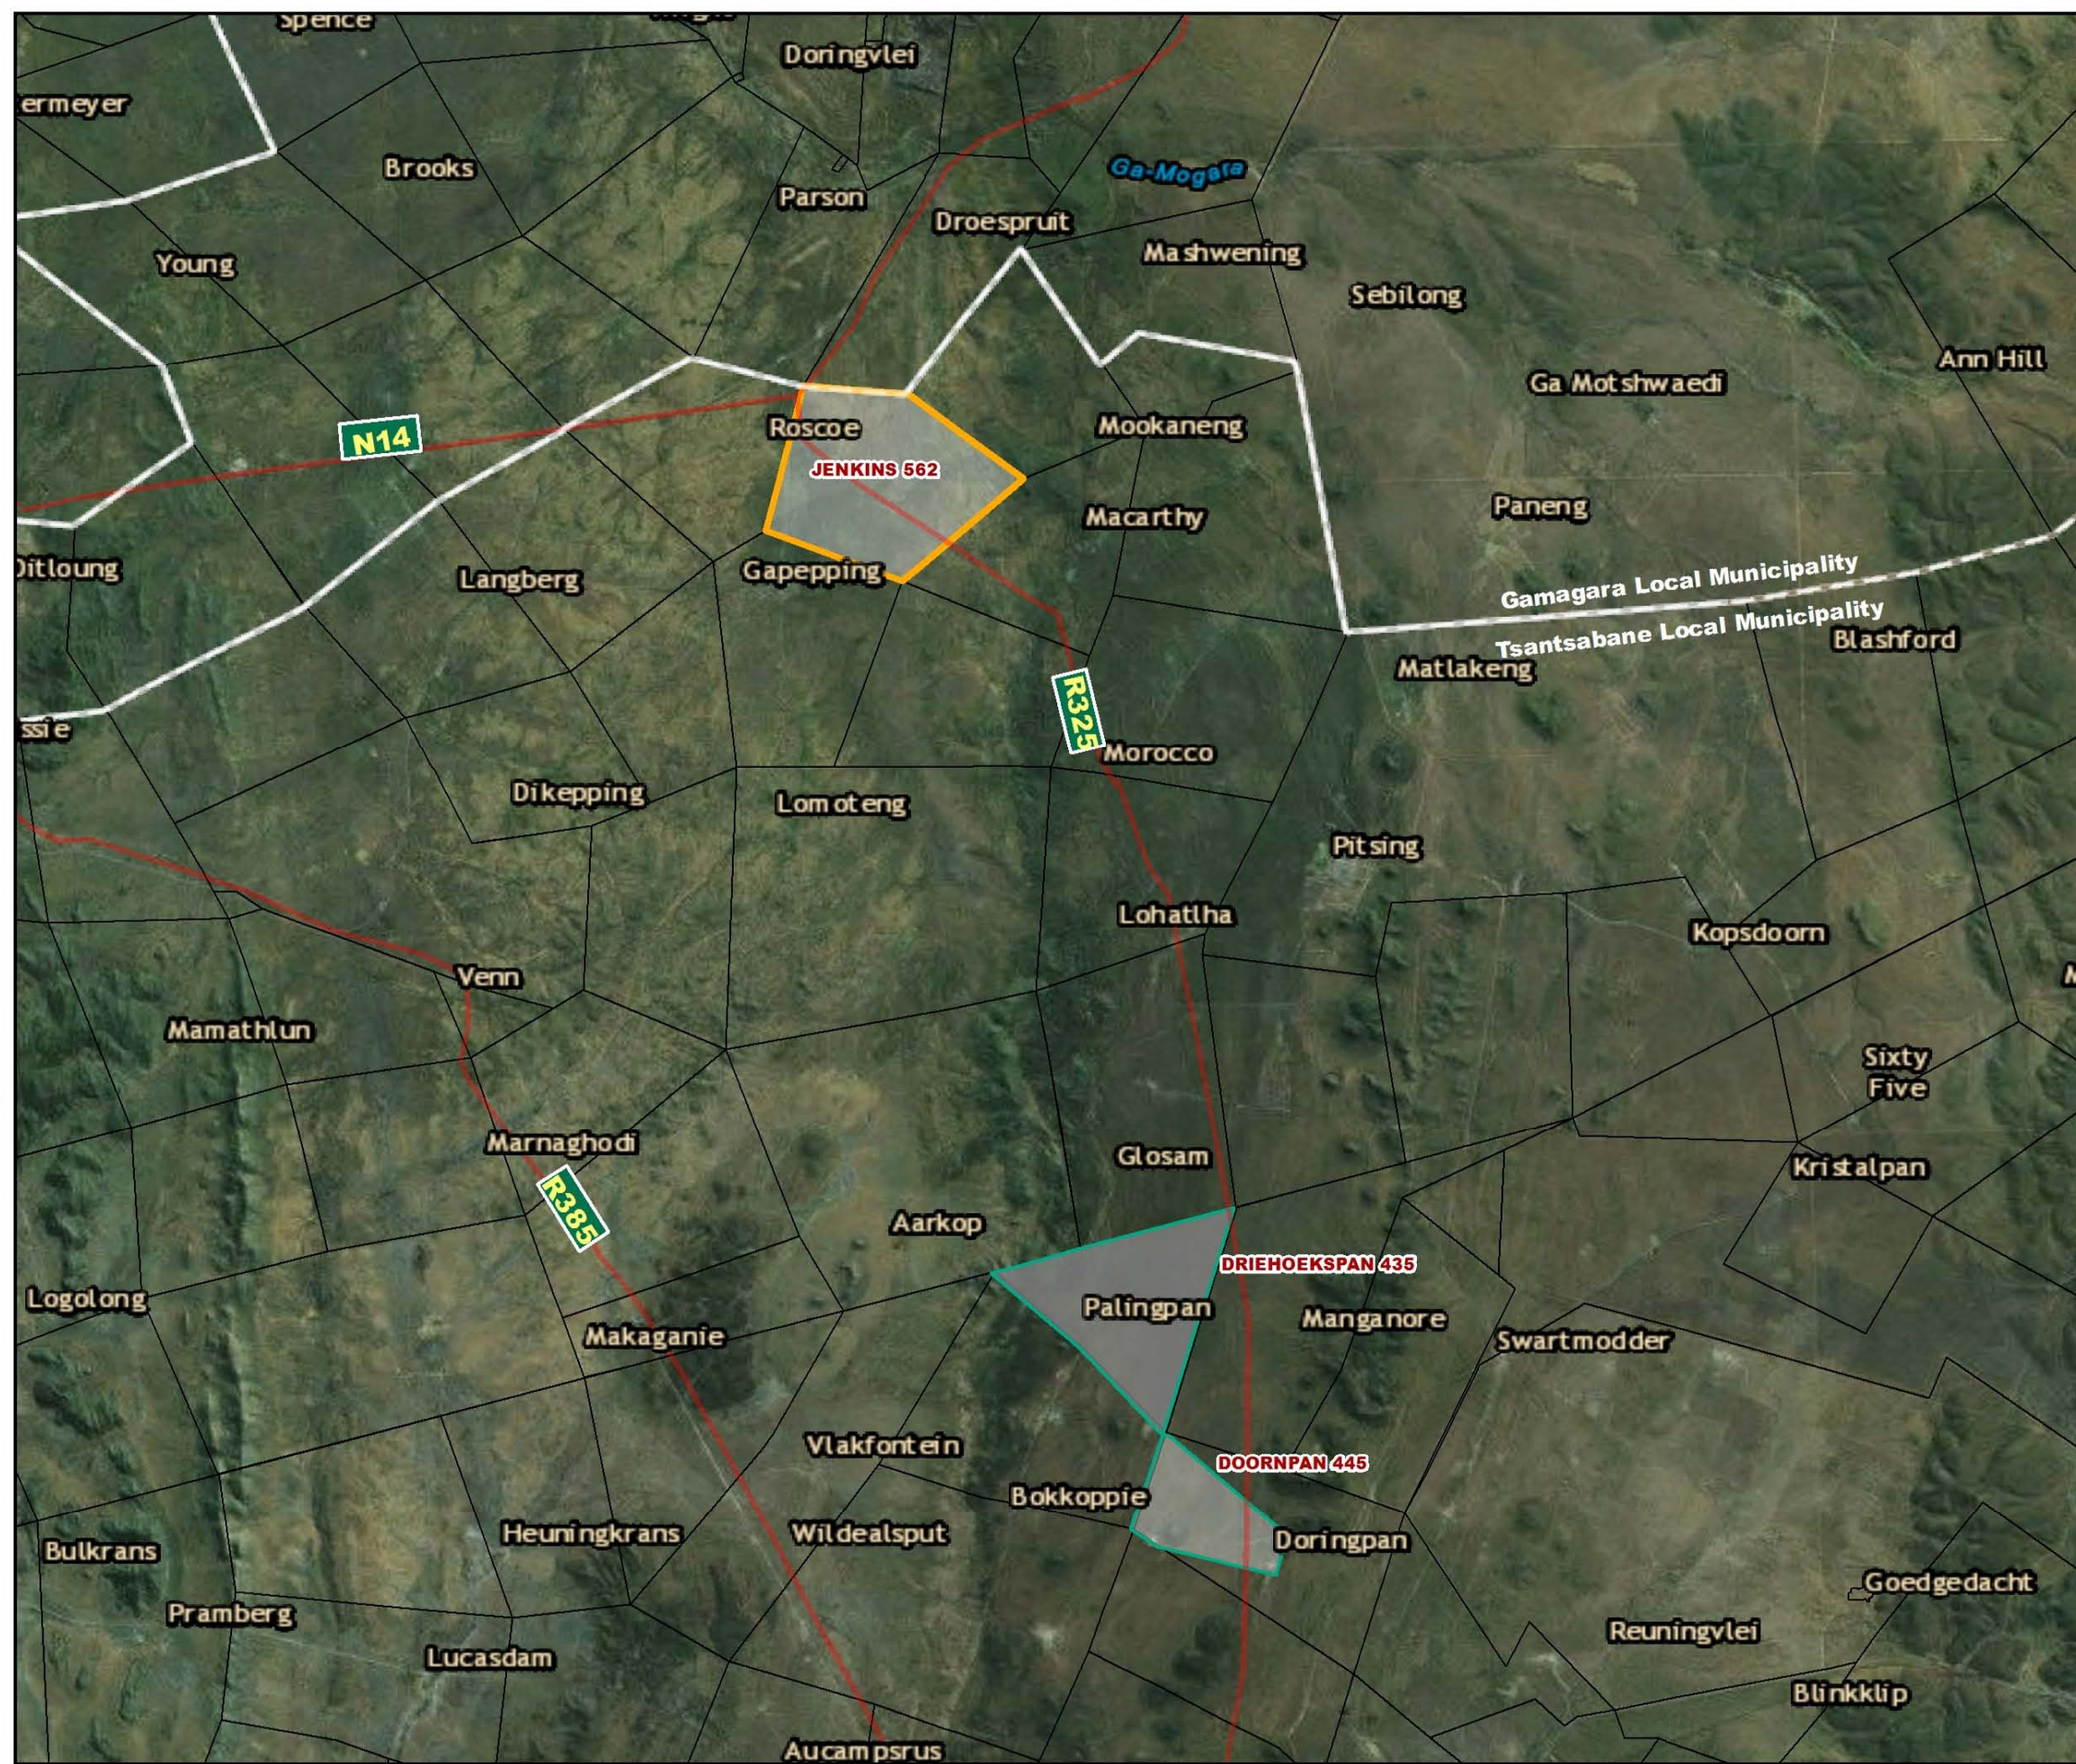

Caitlin Hird (Project Manager)
