Dear Mr Kerslake

REMOVAL OF CHICKEN CARCASSES IN RESPECT OF PROPOSED BROILER PROJECT – WITNEK 581 IR, PORTION 9, MPUMALANGA

1. We refer to the proposed broiler project whereby Val Grain Company (Pty) Ltd (hereafter "VGC") is planning to erect 8 broiler houses with a capacity of 400,000 broilers per cycle.
2. As is standard in the poultry industry, there will be a large number of mortalities each cycle which will result in VGC having chicken carcasses that need to be disposed of.
3. Zulu Croc runs a large commercial crocodile and reptile farm which is open for tourism and the crocodiles and reptiles need to be fed in order to survive.
4. Should VGC wish to dispose of the chicken carcasses to Zulu Croc on terms which are both mutually beneficial and economically viable to us, we would be willing to take the carcasses from VGC. The logistics thereof would primarily be the responsibility of VGC.

Kind regards

Henco Badenhorst
Director
Zulu Croc Hluhluwe

I, Norman Kerslake, hereby confirm the contents stipulated above:

Norman Kerslake
Director
Val Grain Company (Pty) Ltd
