CAPE TOWN
8000

SIR

NON BINDING CONFIRMATION LETTER: WATER AVAILABILITY FOR CONSTRUCTION & OPERATION PURPOSE AND THE DISPOSAL OF SEWAGE OF PROPOSED 75MW MOGARA SOLAR PROJECT NEAR KATHU

Your letter dated 3 July 2018 has reference.

The Municipality confirms the following:

- That the estimated water consumption of 8750 m³ for construction purpose may be provided by the municipality under a certain conditions and arrangements.
- That the estimated water consumption of 4659 m³ per annum for operational purpose may be provided by the Municipality under certain conditions and arrangements.
- That a registered sewerage facility with sufficient capacity based on 1095 m³ / year for treatment purposes could be provided by the Municipality under certain conditions and arrangements. Other Sewage information requested will be provided at a later stage.
- Tariffs are payables as approved be the council from time to time.
- That our assumption were based on your preliminary water consumption study of November 2015 provided to the Municipality.

Do not hesitate to contact us if any additional information is needed.

Yours Sincerely

Mr. K Leserwane
Municipal Manager
