PROPOSED PLANT LIST:

STRUCTURAL & AVENUE TREES:

Cupressus sempervirens 'stricta'
Platanus acerifolia
Podocarpus falcatus
Populus 'Simonii'
Quercus nigra
Quercus cerris
Syzigium guineense

WINDBREAK & TALL HEDGING:

Bauhinia galpinii
Citrus sp. eg. Cape Roughskin Lemon
Dovyalis caffra
Olea europaea subsp. 'Africana'
Plumbago auriculata
Populus 'Simonii'
Quince - Cydonia oblonga
Searsia sp.
Syzigium paniculatum
Viburnum sp.

ORCHARDS / GROVES:

Citrus sp. eg. Cape Roughskin Lemon
Fruit trees eg. Plum, Pear
Olea europaea (edible olives - various)
Olea europaea subsp. 'Africana' (wild olive)
Punica granatum (pomegranate)
Quercus suber (cork oak)

HEDGES & STRUCTURAL PLANTING:

Carissa bispinosa
Buxus sp.
Dodonaea viscosa
Plumbago sp.
Searsia crenata
Tecoma sp.

TREES - GENERAL:

Celtis africana
Ekebergia capensis
Erythrina lysistemon
Harpephyllum caffrum
Nuxia floribunda
Syzigium cordatum

SHRUBS & GROUNDCOVERS:

Agapanthus sp.
Aristea sp.
Bauhinia galpinii
Carissa macrocarpa 'Green Carpet'
Chasmanthe aethiopica
Clivia miniata
Coleonema sp.
Dietes sp.
Elegia sp.
Eriocephalus africanus
Felicia sp.
Gazania sp.
Hydrangea sp.
Iris sp.
Lavandula sp.
Leucadendron sp.
Leucospermum sp.
Metalasia muricata
Osteospermum sp.
Pelargonium sp.
Plectranthus sp.
Plumbago sp.
Protea sp.
Roses (preferably old roses)
Tecoma sp.
Trachelospermum jasminoides
Tulbaghia sp.
Zantedeschia aethiopica

WETLAND SPECIES:

Carex clavata
Cyperus textilis
Elegia nudum
Elegia tectorum
Ficinia nodosa
Juncus acutus
Juncus effusus
Juncus krausii
Isolepis prolifera
Merxmuellera stricta
Restio festuciformis
Scirpus nodosus
Thamnochortus insignis
Wachendorfia thyrsiflora
Zantedeschia aethiopica

GRASSES:

Buffalo Lawn
Cynodon dactylon
Indigenous veld grasses for meadows

CLIMBERS:

Old World Roses
Rhoicissus tomentosa
Vitis coignetiae
Vitis vinifera
Wisteria sp.

NOTE: Other trees and shrubs indigenous to the Franschhoek area are also allowed, not all of these are listed here

NOTES:

NB: This Framework Plan indicates the main tree & landscape structure only, & detailed landscape plans must still be submitted for all precincts.

- Tree planting on erven is strongly encouraged.
- All framework & avenue / road trees to be minimum 200l size when planted.
- Windbreak & orchard / grove trees to be minimum 100l size when planted.
- Werf Landscaping is not shown on this plan, to be subject to review.
- Existing trees to be kept: All construction including paving/ parking to stay out of the drip line of the tree. Levels to remain as they are at present around trees.
- Play equipment to be provided in meadow / paddock areas in approximate locations as indicated by
- Landscape areas shown in green may contain pedestrian/ cycle paths, benches, pergolas, bins, play equipment, etc. but should not be used for parking areas.
- Suds principals to apply to roads etc. in the form of vegetated swales. These must be incorporated into the precinct plans.
- Planting & paddocks to be used as infiltration zones for storm water. To be shown on detailed landscape plans.

LANDSCAPE FRAMEWORK PLAN – REV 02 (04.07.2016)
