1. OVERVIEW OF THE PUBLIC PARTICIPATION PROCESS

This Comments and Responses Report (CRR) provides a summary of the comments, questions and issues raised by stakeholders since the announcement of the application and availability of the Draft Basic Assessment Report for comment in October 2022, for the application for an Environmental Authorisation in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA), and a Mining Permit in terms of the Mineral and Petroleum Resources Development Act, 2002 (MPRDA) for the proposed extension of pit on Portion 21 of Farm Waaifontein 301, KwaZulu-Natal. The applicant is Stonewell Quarry CC.

2. PURPOSE OF PUBLIC PARTICIPATION

The primary objectives of the PPP are to:

- Identify key stakeholders (i.e. Non-Governmental Organisations [NGOs], municipalities, government departments, traditional authorities) and I&APs (i.e. surrounding businesses, residents, landowners, interested members of the public);
- Inform I&APs about the proposed Application for EA;
- Establish lines of communication between I&APs and the project team to deal with potentially contentious issues;
- Provide ample opportunity to all parties to exchange information and express their views and raise issues and concerns; and
- Obtain contributions of I&APs and ensure that all issues, concerns and questions raised are fully documented and assessed as part of the BA process.

3. PUBLIC PARTICIPATION PROCESS

This section provides a short summary of the various public participation activities undertaken in support of the abovementioned application.

3.1 Identification of stakeholders

A stakeholder database or list of I&APs was compiled and was updated as the process unfolded and as more I&APs registered. The database was compiled: a) using lists of contact details of previous application processes in the area; b) using information provided by stakeholders in response to advertisements published, site notices placed and/or emails sent; and c) from information provided by I&APs in response to an invitation to provide contact details of other stakeholders which may have been interested or affected. A list of the stakeholder database is appended (Appendix A).

3.2 Announcement of the regulatory processes and availability of DBAR

The Draft Basic Assessment Report (DBAR) was made available for public comment for 30 days, from **31 May 2022 to 1 July 2022** (30 days). The public participation process included the following activities:

- An electronic I&AP database was developed, which was maintained and updated throughout the project;
- An English and isiZulu advertisement for the registration and participation of I&APs and notification of the DBAR for comment was placed in the Kokstad Advertiser newspaper on 13 October 2022 (Appendix B);
- Four (4) English and 4 isiZulu notice boards detailing information about the project, invitation to register as I&APs and availability of the DBAR for public comment, were placed at four strategic points around the site (Appendix C). All notice boards were designed to the specification of Section 54 (3) of the NEMA EIA Regulations; and
- Email notifications were circulated to all registered I&APs on the database (as applicable) inviting comments until 16 November 2022 (Appendix D).

The report was available electronically via the GCS Website (www.gcs-sa.biz), a hard copy was available for viewing at the security office at the entrance to the site or on a CD upon request.

3.3 Comments and Responses Report

All comments received during the application process have been captured in a Comments and Responses Report (CRR). This CRR was updated on a continuous basis and is to be presented to the authorities and other I&APs together with the consultation and final reports as a full record of issues raised, including responses on how the issues were considered during the application process. Refer to Appendix H for this report.

3.4 Review of the Final Basic Assessment Report

The Final Basic Assessment Report was prepared after the comment period of the Draft Report has expired. The availability of the Final Report and where copies of the Final Report can be obtained for review and comment will be communicated in a notification letter to registered I&APs via email after submission to the DMRE.

The Final Basic Assessment Report and its accompanying reports were published on the project website.

4. COMMENTS RECEIVED FROM I&APS

The following table records all comments received from I&APs to date, and the responses. Refer to Appendix E for a copy of submissions from stakeholders.

COMMENTS	CONTRIBUTOR	GCS RESPONSE
1. Phone calls made to I&APs		
GCS was told there is no one in the office who deals with this.	Phindile Sibiya KZN DARD	GCS phoned (10 October 2022) to enquire who the appropriate contact person is for this project.
First call was picked up but the call was then cut off. No answer on the second phone call.	Harry Gwala Municipality Office	GCS phoned (10 October 2022) to enquire who the appropriate contact person is for this project.
2. Comments Received		
<p>Dear Sir/Madam</p> <p>REQUEST INFORMATION ON PROPERTY: LAND CLAIM</p> <p>We acknowledge receipt of your enquiry received on 17 October 2022.</p> <p>We confirm that at the date of this letter, no land claims appear on our database in respect of the property described as Portion 21 of the farm Waaifontein No. 301. This includes the database for claims lodged by 31 December 1998 and those lodged between 1 July 2014 and 27 July 2016 in terms of the provisions of the Restitution of Land Rights Act, 22 of 1994 (as amended).</p> <p>Whilst the Commission takes reasonable care to ensure and verify the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have been lodged but not yet published in the relevant government gazette, such as:</p> <ol style="list-style-type: none"> 1. Some claimants refer to properties they claim dispossession of rights in land against, using historical property descriptions which may not match the current property description; and 2. Some claimants provide the geographic description of the land they claim without mentioning the actual property description against which they are claiming dispossession of rights in land. 	<p>Lynn Boucher</p> <p>Commission on Restitution of Land Rights</p> <p>25 October 2022</p> <p>By email</p>	<p>Good day</p> <p>Thank you for your correspondence, it has been noted and will be recorded.</p> <p>Kind regards</p>

<p>The Commission therefore does not accept any liability whatsoever if through the process of further investigation, it is found that there is in fact a land claim in respect of the above property.</p> <p>If you are aware of any change in the description of the above property after 19 June 1913, kindly supply us with such description (historic and current) so as to enable us to do a further search.</p> <p>Regards</p>

PUBLIC NOTICES

NOTIFICATION OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (ACT NO. 107 OF 1998): ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS (2014), AS AMENDED AND THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT (ACT 28 OF 2002) AS AMENDED:

Proposed Extension of a Pit on Portion 21 of Farm Waaifontein No. 301, near Kokstad, KwaZulu-Natal

GCS REF NO: 22-0864

DMRE Ref No: KZN 30/5/1/2/2/155 MR

Background and Project Description:

Stonewell Quarry CC proposes to extend their existing mining area on Portion 21 of the Farm Waaifontein No. 301, approximately 5.6km southeast of Kokstad. This triggers the need to amend its current approved Environmental Authorisation.

An application in terms of Section 102 of the Mineral and Petroleum Resources Development Act (Act 28 of 2002) as amended is therefore required. An application for environmental authorisation in terms of the National Environmental Management Act (Act 107 of 1998): Environmental Impact Assessment Regulations (2014) as amended is also required, which will determine any environmental sensitivities associated with the extension of the pit.

Activities for which Environmental Authorisation is being sought:

The Project triggers the following potential Listed Activities in terms of the NEMA EIA Regulations (2014), as amended:

GN R327, 07 April 2017. Listing Notice 1:

- Activity 21D - Any activity including the operation of the that activity which requires an amendment or variation to a right or permit in terms of section 102 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity contained in this Listing Notice or in Listing Notice 3 of 2014, required for such amendment
- Activity 27 - The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation

As such, the Application for Environmental Authorisation will take the form of a Basic Assessment Process as specified in the NEMA: EIA Regulations.

Opportunity to Participate:

GCS Water and Environmental Consultants (Pty) Ltd (GCS), has been appointed to undertake the required applications for the project and this notification forms part of the public consultation process as required by the NEMA EIA Regulations (2014, as amended). Interested and affected parties are hereby invited to register as a stakeholder for this project, as well as provide comments on the Draft Basic Assessment Report.

How do I participate?

Interested and affected parties can register for the process by sending their name, contact details (phone number, email address, fax, etc.) and a clear statement of interest in the application to the contact details below. Interested and affected parties are requested to use the project reference number **22-0864** in their request for registration.

The Draft Basic Assessment Report is available for public review and comment for a period of **30 days**, as required by the EIA Regulations, from **17 October 2022 to 16 November 2022** as follows:

- Download from the GCS website: www.gcs-sa.biz/public-documents/
- A hard copy is available for viewing at the security offices located at the entrance to Dornier Crushers

Dear Interested and Affected Party

NOTIFICATION OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (ACT NO. 107 OF 1998): ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS (2014), AS AMENDED AND THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT (ACT 28 OF 2002) AS AMENDED

Stonewell Quarry CC proposes to extend their existing mining right area, and the size of the current quarry pit on Portion 21 of the Farm Waaifontein No. 301, approximately 5.6km southeast of Kokstad. An application in terms of Section 102 of the Mineral and Petroleum Resources Development Act (Act 28 of 2002) as amended, as well as an application for environmental authorisation in terms of the National Environmental Management Act (Act 107 of 1998): Environmental Impact Assessment Regulations (2014) as amended is therefore required, which will determine any potential environmental sensitivities associated with the extension of the pit.

We would like to inform you of this project, as well as your opportunity to participate by providing comments on the proposed application. The Draft Basic Assessment Report and supporting documents are available for review and comment for 30 days from the date of this email, i.e. until 16 November 2022, and can be accessed as follows:

- Download from the GCS website: www.gcs-sa.biz/public-documents/
- A hard copy is available for viewing at the security offices located at the entrance to Dorning Crushers

You are invited to submit your comments in writing to GCS by means of the following, with your name and contact details no later than **close of business on 16 November 2022**:

Dear Interested and Affected Party

NOTIFICATION OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT (ACT NO. 107 OF 1998): ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS (2014), AS AMENDED AND THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT (ACT 28 OF 2002) AS AMENDED

Stonewell Quarry CC proposes to extend their existing mining right area, and the size of the current quarry pit on Portion 21 of the Farm Waaifontein No. 301, approximately 5.6km southeast of Kokstad. An application in terms of Section 102 of the Mineral and Petroleum Resources Development Act (Act 28 of 2002) as amended, as well as an application for environmental authorisation in terms of the National Environmental Management Act (Act 107 of 1998): Environmental Impact Assessment Regulations (2014) as amended is therefore required, which will determine any potential environmental sensitivities associated with the extension of the pit.

We would like to inform you of this project, as well as your opportunity to participate by providing comments on the proposed application. The Draft Basic Assessment Report and supporting documents are available for review and comment for 30 days from the date of this email, i.e. until 16 November 2022, and can be accessed as follows:

- Download from the GCS website: www.gcs-sa.biz/public-documents/
- A hard copy is available for viewing at the security offices located at the entrance to Dorning Crushers

You are invited to submit your comments in writing to GCS by means of the following, with your name and contact details no later than **close of business on 16 November 2022**:

Dear Sir/Madam

REQUEST INFORMATION ON PROPERTY: LAND CLAIM

We acknowledge receipt of your enquiry received on 17 October 2022.

We confirm that at the date of this letter, no land claims appear on our database in respect of the property described as **Portion 21 of the farm Waaifontein No. 301**. This includes the database for claims lodged by 31 December 1998 and those lodged between 1 July 2014 and 27 July 2016 in terms of the provisions of the Restitution of Land Rights Act, 22 of 1994 (as amended).

Whilst the Commission takes reasonable care to ensure and verify the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have been lodged but not yet published in the relevant government gazette, such as:

1. Some claimants refer to properties they claim dispossession of rights in land against, using historical property descriptions which may not match the current property description; and
2. Some claimants provide the geographic description of the land they claim without mentioning the actual property description against which they are claiming dispossession of rights in land.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation, it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913, kindly supply us with such description (historic and current) so as to enable us to do a further search.

Regards
