NOTICE OF AN ENVIRONMENTAL AUTHORISATION AMENDMENT AND PUBLIC PARTICIPATION PROCESS

AGGENEYS 1 AND 2 PV FACILITIES, NORTHERN CAPE (DEA REFs: 14/12/16/3/3/1/2019 and 14/12/16/3/3/1/2020 respectively)

Project Names: Aggeneys 1 PV Facility Part 2 Amendment, Northern Cape Province
Aggeneys 2 PV Facility Part 2 Amendment, Northern Cape Province

Applicants: ABO Wind Aggeneys 1 PV (Pty) Ltd
ABO Wind Aggeneys 2 PV (Pty) Ltd

Proposed Amendments: The inclusion of the construction and operation of a Battery Energy Storage (BESS) for both the authorised Aggeneys 1 and 2 PV facilities, with a capacity of up to 500MW/500MWh into the project description of the Environmental Authorisation (EA). Each BESS will be developed within the authorised development footprint of Aggeneys 1 and 2 PV facilities, within the authorised laydown area for Aggeneys 1 and within one of the two authorised laydown areas for Aggeneys 2. Each BESS will have an extent of no more than 5ha. Each BESS will connect to the authorised on-site facility substations of the Aggeneys 1 and 2 PV facilities via underground cables.

ABO Wind Aggeneys 1 PV (Pty) Ltd is requesting the Department of Environment, Forestry and Fisheries (DEFF) to amend the project description of the EAs (dated 25 July 2019) as follows:

Battery Energy Storage System	Consisting of the following components: » Electrochemical battery storage systems with a maximum height of 3.5m; and » Multi-core 22kV or 33kV underground cables, to follow internal access roads of the PV facility, to connect the battery storage area to the on-site facility substation.
-------------------------------	--

Project Location: ~11 km south-east of Aggeneys, within ward 4 of the Khai-Ma Local Municipality and within the greater Namakwa District Municipality in the Northern Cape Province on the Remaining Extent of Bloemhoek 61.

In terms of Condition 5 of the Environmental Authorisations dated 25 July 2019 and Regulation 31 of the EIA Regulations of December 2014, as amended, it is possible for an Applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

Motivation Report available for review and comment: Savannah Environmental has compiled two Motivation Reports in support of the applications for the proposed amendments for both Aggeneys 1 and 2. The Motivation Reports are available for download, review and comment on the Savannah Environmental website. Visit our website at: <https://www.savannahsa.com/public-documents/energy-generation/>. The 30-day review and comment period for the Motivation Reports is from **16th October 2020** to **16th November 2020**. The final date to submit comments is **Monday, 16th November 2020**.

Twee Noord-Kaapse sonkragaanlegte is verbind met die nasionale netwerk

GEMSBOK-POFADDER: Twee sonkragaanlegte, Aggeneys Solar en Konkoonies II Solar, het met kommersiële bedrywighede begin, wat 'n gesamentlike 132MW tot SA se produksievermoë toegevoeg het.

Hierdie suster-sonkragaanlegte, wat binne 35 km van mekaar geleë is, maak albei deel uit van BioTherm Energy se portefeulje en sal na verwagting elke jaar genoeg lewer om 110 000 huishoudings aan te dryf.

Die inskakeling van hierdie aanlegte kom omdat SA na hernubare energie kyk as 'n oplossing vir die land se energie-uitdaging.

President Cyril Ramaphosa het verlede week hernubare energie gesteun as 'n antwoord op beurtkrag, aangesien Eskom se kragvoorsiening sukkel om die ligte aan te hou.

Die Nasionale Energiereguleerder van Suid-Afrika het ook onlangs die weg gebaan vir die regering om krag te koop by onafhanklike kragprodusente (IPP's) vir hernubare energie.

"Dit is 'n belangrike mylpaal, waar die eerste twee van ons vier Suid-Afrikaanse kragopwekkings vir hernubare energie die netwerk voed," sê Robert Skjoldt, uitvoerende hoof van BioTherm Energy.

'Daar is geen twyfel dat hernubare energie groot geleenthede bied en 'n deurslaggewende rol in die land se ekonomiese herstelstrategie moet speel nie. Dit sal nie net die verskaffing van die voorsiening verbeter nie, maar ook die vele ekonomiese en maatskaplike voordele verbonde aan Suid-Afrika se hernubare energieprogram.'

In sy toespraak oor die provinsie het dr. Zamani Saul, premier van die Noord-Kaap, die unieke

geleentheid benadruk wat die sektor vir hernubare energie vir die nywerheid, die regering en die inwoners van die Noord-Kaap bied, en gesê dat 'as 'n middelpunt vir hernubare energie 'n direkte geleentheid bestaan om die ideaal van volgehoue energie-volhoubaarheid vir ons huise en nywerheid te verwesenlik'.

Volgens BioTherm Energy het Aggeneys Solar en Konkoonies II Solar op die hoogtepunt van hul konstruksie werk verskaf aan meer as 1 000 plaaslike werkers uit die plattelandse dorpe Aggeneys, Witbank, Pofadder, Pella en Onseepkans, geleë binne die radius van 50 km van die plante.

Dit wys daarop dat dit dieselfde gemeenskappe is wat deur die 20-jarige bedryfsperiode van die aanleg baat sal vind by ekonomiese ontwikkelingsprogramme.

Die maatskappy voeg by dat die fokus van die ekonomiese ontwikkelingsinisiatiewe onder meer opleiding, vaardigheidsontwikkeling en omgewingsbestuur insluit.

Tydens die konstruksieprogram is 'n aantal vroeë bestedingsprogramme geïmplementeer, wat gefokus is op die voorsiening van studiegidse vir sekondêre skole vir verskillende vakke vir graad 8 tot 12, sê die maatskappy en voeg by dat dit bo en behalwe die verskillende COVID-19-noodlenigingsprogramme gerig is, om die impak van die pandemie op plaaslike gemeenskappe te verlig.

KAROSHOEK SOLAR ONE (RF) (PTY) LTD
 Karoshoek, a 100MW Concentrated Solar Power (CSP) project located 30 km East of Upington producing solar energy, has the following challenging career opportunity on offer to a dynamic, energetic and motivated individual to manage the social economic development of the company.

KAROSHOEK

SOCIAL ECONOMIC DEVELOPMENT MANAGER (UPINGTON AREA)

The appointee will be responsible to manage the social economic initiatives of the company through 'identification and implementation of strategy to achieve economic goals, 'socialize plan with affected internal and external stakeholders, 'creating an annual action plan and identify resources, 'managing community expectations and reporting to the Department of Energy on SED initiatives.

Appointment would require a B degree in Social Science/Business Administration or equivalent with 3 - 5 years post qualification management experience in SED project management or community development, enhanced by at least 3 years operational Integrated Development Plan experience at local government level, knowledge of Corporate Governance & statutory policies and procedures.

Your professional profile should further include highly effective verbal and written communication skills in Afrikaans and English with the ability to communicate on all levels, well-developed influencing, negotiation & presentation skills, project management skills, relationship building & networking skills, computer literacy in MS Office and a valid driver's license.

On offer is a negotiable remuneration package in line with national remuneration standards and trends commensurate with qualifications and experience.

To apply, please send CV with reference JKSED to recruitment@ovdm.co.za or fax to (054) 331 3338 by no later than 22 October 2020.

Openbare verhore oor ont-eiening van grond moet hervat word

GEMSBOK - UPINGTON: Grondont-eiening-verhore sal einde vandesmaand hervat word.

Verhore sal vanaf 21 Oktober in die Noord-Kaap en Limpopo plaasvind. Hulle sal dan na die Wes-Kaap skuif.

Die werk van die ad hoc-komitee wat die wetgewing verwerk, was veronderstel om einde Mei af te handel.

Die komitee neem steeds regsadvies in oor of skriftelike voorleggings toegelaat sal word van diegene wat nie vergaderings kan bywoon nie, omdat hulle die risiko loop om COVID-19 op te doen.

Meer inligting hieroor sal op die Gembok se Facebookblad en in die publikasie verskyn, sodra dit bekendgemaak word.

 - lidmaatskap tot 'n aftree- en mediese fonds; verlof en 'n jaarlikse 13de betaling.

Rig aansoek met 'n aansoekbrief, volledige CV en afskrif van identiteitsdokument aan:
Die Groep Menslike Hulpbronnebestuurder
 Posbus 544, Upington, 8800

Aansoek kan per e-pos gestuur word na: hr@owk.co.za Vir meer inligting kan u met **Auret Nagel** skakel op 054 337 8800 / 054 337 8888. U kan ook ons webtuiste besoek by www.oranjeriverwines.com

Sluitingsdatum vir aansoek is 30 Oktober 2020

Kandidate wat geen reaksie ontvang vier weke na die sluitingsdatum nie, kan aanvaar dat hul aansoek onsuksesvol was. Die werkgewer is onder geen verpligting om die posisie te vul nie.

NOTICE OF AN ENVIRONMENTAL AUTHORISATION AMENDMENT AND PUBLIC PARTICIPATION PROCESS

AGGENEYS 1 AND 2 PV FACILITIES, NORTHERN CAPE
(DEA REF: 14/12/16/3/3/1/2019 and 14/12/16/3/3/1/2020 respectively)

Project Names: Aggeneys 1 PV Facility Part 2 Amendment, Northern Cape Province
 Aggeneys 2 PV Facility Part 2 Amendment, Northern Cape Province

Applicants: ABO Wind Aggeneys 1 PV (Pty) Ltd
 ABO Wind Aggeneys 2 PV (Pty) Ltd

Proposed Amendments: The inclusion of the construction and operation of a Battery Energy Storage (BESS) for both the authorised Aggeneys 1 and 2 PV facilities, with a capacity of up to 500MW/500MWh into the project description of the Environmental Authorisation (EA). Each BESS will be developed within the authorised development footprint of Aggeneys 1 and 2 PV facilities, within the authorised laydown area for Aggeneys 1 and within one of the two authorised laydown areas for Aggeneys 2. Each BESS will have an extent of no more than 5ha. Each BESS will connect to the authorised on-site facility substations of the Aggeneys 1 and 2 PV facilities via underground cables.

ABO Wind Aggeneys 1 PV (Pty) Ltd is requesting the Department of Environment, Forestry and Fisheries (DEFF) to amend the project description of the EAs (dated 25 July 2019) as follows:

Battery Energy Storage System	Consisting of the following components: » Electrochemical battery storage systems with a maximum height of 3.5m; and » Multi-core 22kV or 33kV underground cables, to follow internal access roads of the PV facility, to connect the battery storage area to the on-site facility substation.
-------------------------------	--

Project Location: ~11km south-east of Aggeneys, within ward 4 of the Khai-Ma Local Municipality and within the greater Namakwa District Municipality in the Northern Cape Province on the Remaining Extent of Bloemhoek 61.

In terms of Condition 5 of the Environmental Authorisations dated 25 July 2019 and Regulation 31 of the EIA Regulations of December 2014, as amended, it is possible for an Applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

Motivation Report available for review and comment: Savannah Environmental has compiled two Motivation Reports in support of the applications for the proposed amendments for both Aggeneys 1 and 2. The Motivation Reports are available for download, review and comment on the Savannah Environmental website. Visit our website at: <https://www.savannahsa.com/public-documents/energy-generation/>. The 30-day review and comment period for the Motivation Reports is from **16th October 2020 to 16th November 2020**. The final date to submit comments is **Monday, 16th November 2020**.

SITE NOTICES

NOTICE OF AN ENVIRONMENTAL AUTHORISATION AMENDMENT AND PUBLIC PARTICIPATION PROCESS

AGGENEYS 1 PV FACILITY (DEA REF: 14/12/16/3/3/1/2019)

Project Name: Aggeneys 1 PV Facility Part 2 Amendment, Northern Cape Province

Applicant: ABO Wind Aggeneys 1 PV (Pty) Ltd

Proposed Amendments: The inclusion of the construction and operation of a Battery Energy Storage (BESS) for the authorised Aggeneys 1 PV Facility, with a contracted capacity of up to 500MW/500MWh into the project description of the Environmental Authorisation (EA). The BESS will be developed within the authorised development footprint of Aggeneys 1 PV Facility, within the authorised laydown area, and with an extent of no more than 5ha. The BESS will connect to the authorised on-site facility substation of the Aggeneys 1 PV Facility via underground cables.

ABO Wind Aggeneys 1 PV (Pty) Ltd is requesting the Department of Environment, Forestry and Fisheries (DEFF) to amend the project description of the EA (dated 25 July 2019) as follows:

Battery Energy Storage System	Consisting of the following components: <ul style="list-style-type: none">- Electrochemical battery storage systems with a maximum height of 3.5m; and- Multi-core 33kV underground cables, to follow internal access roads of the PV facility, to connect the battery storage area to the on-site facility substation.
-------------------------------	--

Project Location: ~ 11km south-east of Aggeneys, within ward 4 of the Khai-Ma Local Municipality and within the greater Namakwa District Municipality in the Northern Cape Province on the Remaining Extent of Bloemhoek 61.

In terms of Condition 5 of the Environmental Authorisation dated 25 July 2019 and Regulation 31 of the EIA Regulations of December 2014, as amended, it is possible for an Applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

In terms of Regulation 32 of the Environmental Impact Assessment Regulations of 2014, as amended, opportunity is being provided to the public to submit comments on the proposed amendments. Interested and Affected Parties can request further information from, or submit comments to the contact person below.
