TERMINOLOGY/DEFINITIONS

Motivation Report for Part II Amendment of Environmental Authorisation. In accordance with Section 31 of the Environmental Impact Assessment (EIA) Regulations, as amended, this environmental authorisation (EA) amendment process aimed at aligning the proposed project activities with the EA as required within the amendment. An EA may be amended where this will result in a change in the project scope of the existing EA where such change may result increased level or change in nature of impact as not previously included in the standing EA. This amendment further does not trigger any listed activities with no exceeded thresholds for activities already authorises but requires an official amendment to be lodged with the competent authority (CA).

Interested and Affected Parties Means an interested and affected party (I&AP) contemplated in Section 24(4)(d) of the National Environmental Management Act, 107 (Act 107 of 1998), and which in terms of that section includes –

- any person, group of persons or organizations interested in or affected by an activity; and
- any organ of state that may have jurisdiction over any aspect of the activity.

Public Participation Process Means a process in which the broader public, including interested and affected parties, are given an opportunity to be informed of a proposed application, invite them to comment on, or raise issues relevant to specific matters applicable to an application.

Stakeholders A sub-group of the public whose interests may be positively or negatively affected by a proposal or activity and/or who are concerned with a proposal or activity and its consequences within the project study area. "Key stakeholders" are a smaller sub-group of I&APs. They are people who stand to be directly affected, representatives acting as spokespersons for their sectors, people whose local knowledge is important, people who may want to derail the process for personal gain, and all those who think they are key stakeholders.

Definitions taken from NEMA EIA Regulations, 2014 (as amended) and Other Guideline Information Documents

CHAPTER 1 INTRODUCTION

FE Bonne Esperance (Pty) Ltd received an Environmental Authorisation (EA) on 3 November 2016 (DFFE Ref.: 14/12/16/3/3/2/322, with four subsequent amendments to the EA) from the Department of Forestry, Fisheries and the Environment (DFFE) for the development of the Zen Wind Farm and associated infrastructure. The Zen Wind Farm is located approximately 10km of the town of Gouda and approximately 4km south of Saron in the Western Cape Province. The project is located within Ward 31 of the Drakenstein Local Municipality and the Cape Winelands District Municipality in the Western Cape Province.

The Zen Wind Farm is to be constructed within the project site which comprises the following farm portions:

- » Portion 1 of the Farm Bonne Esperance 83,
- » Portion 2 of the Farm Bonne Esperance 83,
- » Portion 9 of the Farm No. 88
- » Portion 0 of the Farm Nayoath 458

Due to the proximity to the Bergriver Wind Farm and the operational Gouda Wind Farm, Acciona Energy South Africa Global (Pty) Ltd (AESAG) acquired the project from the original developers and is developing a wind farm cluster. AESAG are now the owners of all three wind projects in this wind farm node north of Gouda. AESAG will adopt the latest wind turbine technology available to Acciona Energy for the project. The facility layout has been designed to optimise the energy yield and considers the latest technology. The project will also utilise combined construction infrastructure (temporary facilities, laydown areas, batch plants) to further reduce the overall impacts of the project and the adjacent Bergriver Wind Farm. Both the Zen and the Bergriver Wind Farm projects are designed to share infrastructure to optimise construction expenses and timeline. The new facility layout also takes into consideration that the ideal point of connection to the grid is via a 132kV collector on-site substation located on the adjacent Bergriver Wind Farm site. This allows for the reduction in impact to the Zen Wind Farm site by removing the need for an additional on-site facility substation in this wind farm cluster/area.

In this regard, the wind farm layout has been amended to optimise efficiency and the most recent layout has been designed considering latest technology available for implementation on this site. The amended and optimised wind farm layout includes the reduction in the number of turbines from 27 to 17, and repositioning the turbines, roads, internal cabling within the authorised development area. The new design ensures that sensitive areas are avoided while maximizing operational efficiency. The on-site substation/grid connection infrastructure is also removed from the facility layout, with direct connection possible to the substation located on the Bergriver Wind Farm site.

In this regard, the following is proposed:

1. Reduction in the number of turbines from 27 to 17;
2. Increase turbine capacity from 6 MW to up to 7.5 MW per turbine
3. Increase the internal roads width from 6m to ~8m
4. Optimise turbine/facility layout based on the energy yield, and revise the layout as required based on the revised turbine numbers and turbine specification; and

5. Optimise internal underground cabling (33kV) to enable a consolidated point of grid connection for the Zen/Bergriver wind farm cluster on the Bergriver site, and remove the on-site substation and overhead power line connection from the project description.

The proposed amendments are not listed activities and do not trigger any new listed activity. No additional properties will be affected by the amendments as the proposed amendments are within the originally authorised development footprint.

In addition to the above, the final facility layout and the revised EMPr for the facility must be made available for comments by registered I&APs and submitted to the Department for approval prior to commencement of the activity, in terms of Condition 13 and Condition 15 of the Environmental Authorisation.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations of December 2014 as amended, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

Savannah Environmental has prepared this Motivation Report in support of this amendment application on behalf of FE Bonne Esperance (Pty) Ltd. This report considers the impacts of the proposed reduction in the number of turbines, as well as the relocation of turbine positions, roads and internal cabling) in order for interested and affected parties to be informed of the proposed amendment and provide comment, and for the competent authority to be able to reach a decision in this regard. This report is supported by specialist studies in order to inform the final conclusion regarding the proposed amendments (refer to Appendix A to H of this report). This main report must be read together with these specialist studies in order to obtain a complete understanding of the potential impacts of the proposed change of the position of the facility layout.

This amendment motivation report will be made available to registered interested and affected parties for a 30-day period from 18 July 2023 to 18 August 2023. The availability of the report was advertised in the Witzenberg Herald on 14 July 2023 (refer to Appendix I). The Motivation Report is available for download at <https://savannahsa.com/public-documents/energy-generation/> . To obtain further information, register on the project database, or submit written comment, please contact:

Nicolene Venter of Savannah Environmental
Post: PO Box 148, Sunninghill, 2157 Johannesburg
Tel: 011 656 3237
Mobile: 060 978 8396
Fax: 086 684 0547
Email: publicprocess@savannahsa.com
www.savannahsa.com

All comments received during the review period will be included within a Comments and Responses report to be submitted to the DFFE with the Final Motivation Report and updated application for decision-making purposes.

Table 1-1 included appendices as part of this proof of consultation.

Appendix	Relevance
----------	-----------

<p>1 – I&AP Database</p> 	<p>Regulation 42 where a database of the project affected parties is developed including directly affected and greater surrounding area for I&APs.</p>
<p>2 – Consultation with I&AP</p> 	<p>Regulation 40(2) – Provide access to all project information that has the potential to influence any decision regarding the application, unless protected by law, and must include consultation with CA, Organs of State (OoS) and registered I&APs. This appendix includes all correspondence between Savannah Environmental and any stakeholder including any IA&P who may have commented on the project.</p>
<p>3 – Consultation with Organs of State</p> 	<p>Regulation 40(2) – Provide access to all project information that has the potential to influence any decision regarding the application, unless protected by law, and must include consultation with CA, OoS & registered I&APs. This appendix includes all correspondence between Savannah Environmental and any OoS who may have commented on the project.</p>
<p>4 – Public Media</p> 	<p>This appendix includes proof of all public media documents as part of this project including sites notices and newspaper advertisements. Regulation 40(1), Regulation 40(3) and Regulation 43 of NEMA requires all potential or registered I&APs, including CA have access to project related information.</p>
<p>5 – Comments Received</p> 	<p>This appendix includes the proof of written comments received from OoS and I&APs on the Motivation Report in terms of Regulation 44(1) of the EIA Regulations 2014, as amended.</p>
<p>6 – Comments and Responses Report</p> 	<p>In terms of Regulation 44(1) of the EIA Regulations 2014, as amended, comments need to be recorded and submitted to the CA to inform the decision on the project.</p>

CHAPTER 2 PUBLIC PARTICIPATION PROCESS OBJECTIVES

PP is an essential and regulatory requirement for an EA process and is guided by Regulations 41 to 44 of the EIA Regulations 2014 (GN R326) (as amended). The purpose of PP is clearly outlined in Regulation 40 of the EIA Regulations 2014 (GN R326), as amended, and is being followed for this proposed project.

The following objectives; for the amendment process is listed below:

- » information containing all relevant facts in respect of the proposed projects is made available to potential stakeholders and I&APs;
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed projects; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

This Public Participation Process Report (PPPR) includes the following information:

Chapter 1: Introduction

Chapter 2: Public Participation Process Objectives

Chapter 3: Public Participation Process

Chapter 4: Process Followed

Chapter 5: Key Issues Raised

Chapter 6: Decision Making Phase

As part of the support to this report for the PPP this forms part of the proof of the consultation conducted.

As part of tracking the PPP, the consultation during the amendment regulatory process has been detailed below.

CHAPTER 3 PUBLIC PARTICIPATION PROCESS

During the PPP, the following core PP activities were undertaken:

- » existing Stakeholders and I&APs on the project database will be verified and where applicable additional Stakeholders and I&AP will be identified, and the database will be updated and maintained;
- » a notification letter was distributed to all registered I&APs on **Monday, 17 July 2023**, which also served to request written comments on the MR;
- » site notices were placed on **Monday, 29 May 2023**;
- » a newspaper advert was placed on **Friday, 14 July 2023** in the Witzenberg Herald, a local community newspaper;
- » Provide I&APs opportunities to comment on the Motivation Report and supporting documentation. the Motivation Report and supporting documentation have been made available for public comment for a period of 30 days from **Tuesday, 18 July 2023** until **Friday, 18 August 2023**;
- » consultation with I&APs are planned;
- » suggestions, comments, and concerns from Stakeholders and I&APs will be collated and recorded in the Comments and Response Report (C&RR); and
- » inform specialists and the proponent of I&APs comments for consideration.

CHAPTER 4 PROCESS FOLLOWED

The first step in the public participation process was to identify relevant stakeholders and I&APs. This process was undertaken through utilising Savannah Environmental's' existing contacts and databases, recording

responses to site notices and newspaper advertisement, as well as liaison with potentially affected parties¹ in the greater surrounding area, furthermore a registration process involving the completion of a reply form distributed with the Notification Letter will be applied as of the release. The projects' databases are attached as **Appendix 1** to the Motivation Report – PPP Report.

The legislative requirements indicates that specific media / materials be utilised as part of the PPP. Over and above the legislative requirements, the following media have been utilised for the PPP to inform stakeholders of the proposed project (refer to Table 1 for further details). The planned amendment process and PPP including announcing the availability of the Motivation Report were placed in the local community newspaper, Witzenberg Herald on 14 July 2023. The tearsheet (proof of placement) has been included in **Appendix 4** of the PPP Report - Motivation Report.

The methodological flow for the public involvement followed:

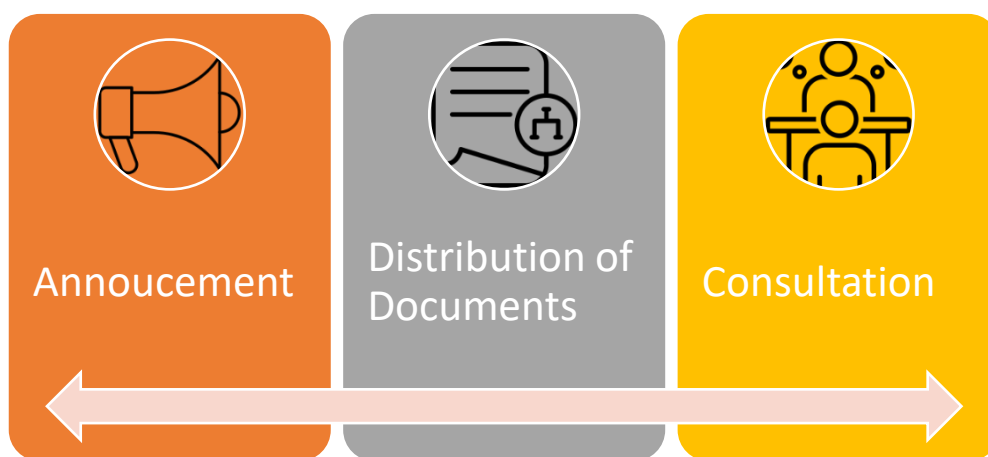

Figure 1: Methodological process flow for public involvement

The overview of the initial list of stakeholders is included in the project database (Table 4-1).

Table 4-1 Key Stakeholders identified

Organs of State
National Government Departments
Department of Forestry Fisheries and the Environment (DFFE)
Department of Mineral Resources and Energy (DMRE)
Department of Agriculture, Land Reform and Rural Development (DALRRD)
Department of Water and Sanitation
Government Bodies and State-Owned Companies
Eskom Holdings SOC Limited

¹ Liaison with potentially affected parties' forms part of Regulation 42 which requires a project database. The I&APs, as part of the greater surrounding areas, were identified through a process of networking and referral, also obtaining information from Savannah Environmental existing database.

National Energy Regulator of South Africa (NERSA)
Air Traffic and Navigation Services (ATNS)
South African Civil Aviation Authority (CAA)
South African Heritage Resources Agency (SAHRA)
South African National Roads Agency Limited (SANRAL)
South African Radio Astronomy Observatory (SARAO)
Telkom SA SOC Limited
Transnet SA SOC Limited
Provincial Government Departments
Western Cape Department of Environmental Affairs and Development Planning (DEA&DP)
Western Cape Department of Public Works and Roads (WC DPWR)
Western Cape Department of Agriculture
Heritage Western Cape (HWC)
Local Government Departments
Drakenstein Local Municipality - including the Ward Councillor, ward committee members, community representative or local community forum members
Cape Winelands District Municipality
Landowners
Affected landowners, tenants and occupiers
Neighbouring landowners, tenants and occupiers
Commenting Stakeholders
BirdLife South Africa (BLSA)
Endangered Wildlife Trust (EWT)
Wildlife and Environment Society of South Africa (WESSA)
Surrounding renewable energy developments
Small, medium and micro enterprises (SMMEs)
Formal local organisations

Appendix 2 consists of proof of consultation with I&APs and **Appendix 3** includes the consultation with OoS and Key Stakeholders and these Appendices will further be updated and incorporated into the Final Motivation Report, as applicable.

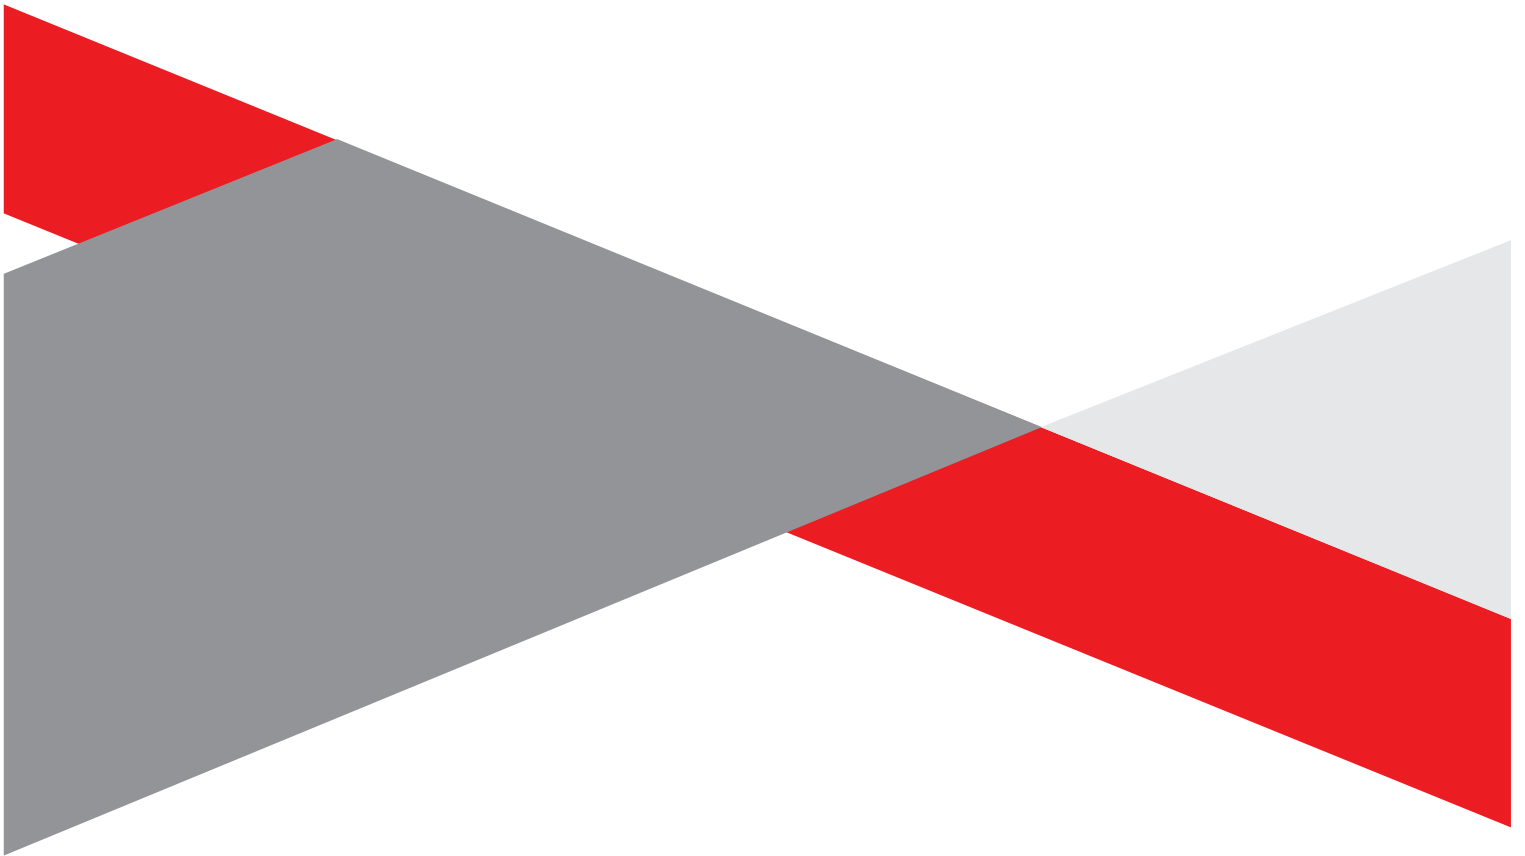

CHAPTER 5 KEY ISSUES RAISED

Views, concerns, and objections provided by I&APs will be captured in the C&RR and included in the submission of the Final Motivation Report.

CHAPTER 6 DECISION-MAKING PHASE

The DFFE as the CA, will issue a decision relating to the EA for the proposed project once the Final Motivation Report has been reviewed. The decision will be communicated to all registered I&APs as prescribed by legislation.

APPENDIX 2
SITE NOTICES & ADVERTISEMENT

ADVERTISEMENT

**NOTICE OF AMENDMENT TO ENVIRONMENTAL AUTHORISATION, FINAL LAYOUT &
ENVIRONMENTAL MANAGEMENT PROGRAMME
PUBLIC PARTICIPATION PROCESS**

**ZEN WIND FARM, WESTERN CAPE PROVINCE
(REF: 14/12/16/3/3/2/322/AM5)**

Applicant: FE Bonne Esperance (Pty) Ltd

Project Name: Zen Wind Farm

Project Location: Approximately 10km northwest of Gouda and ~ 4km south of Saron, Drakenstein Local Municipality, Western Cape on:

- » Portion 1 of the farm Bonne Esperance 83,
- » Portion 2 of the farm Bonne Esperance 83,
- » Portion 9 of the farm No. 88
- » Portion 0 of the Nayoth 458

EA Amendment: To amend the environmental authorisation (EA) and project description as included in the EA received on 3 November 2016 and subsequent amendments as follows:

- » Change in contact details of the holder of the EA
- » Reduction in the number of turbines from 27 to 17;
- » Increase turbine capacity from 6 MW to up to 7.5 MW per turbine
- » Increase the internal roads width from 6m to ~8m
- » Optimise turbine/facility layout based on the energy yield, and revise the layout as required based on the revised turbine numbers and turbine specification; and
- » Optimise internal underground cabling (33kV) to enable a consolidated point of grid connection for the Zen/Bergriver cluster, and remove substation and overhead power line connection from the project description
- » Amend the facility layout
- » Amend the project description, as required
- » Amend/remove EA Conditions no longer applicable

Amendment Process: In terms of Condition 5 of the Environmental Authorisation and Regulation 31 of the EIA Regulations (2014), as amended, an applicant can apply to the competent authority for a change or deviation from the project description to be approved. An amendment application has been submitted to DFFE, and a public participation process is required to be undertaken in support of this Part 2 amendment application.

Final Layout and EMPr: The final facility layout and the EMPr must be amended, submitted and approved prior to commencement of construction, as per conditions 13 and 15 of the EA. The amended EMPr and final layout are available to I&APs for comment.

Motivation Report, Revised EMPr and Final layout available for public review and comment: A Motivation Report in support of the Amendment Application is available for public review and comment from **18 July 2023 to 18 August 2023**. The Motivation Report, Final layout and EMPr can be downloaded from Savannah Environmental's website <https://savannahsa.com/public-documents/>. The due date for written comment will be **18 August 2023**.

To obtain further information, to submit a comment, and/or register on the project database, submit your name, contact information and interest in the project, in writing, to:

Ons snuffel boelies uit!

DIT is nie cool om 'n boelie te wees nie!

Dit is die boodskap wat honderde plaaslike kinders onlangs gehoor het tydens 'n besoek van Kaptein Bully Buster.

Die kinders het tydens dié besoek ingestem om Kaptein Bully Buster te help met sy groot taak regoor die land deur self die boelies in hulle skole uit te snuffel en boeliegedrag aan te meld.

Die besoek van Kaptein Bully Buster is danksy Matla A Bana moontlik gemaak en vorm deel van vele projekte tydens Kinderbeskermingsmaand. Die Matla A Bana groep het Waveren Laerskool en Steindal op Tulbagh besoek en op Ceres het hulle 'n draai by Mooi Uitsig en Morrisdale primêre skole gemaak.

Matla A Bana is in 2002 deur Monique Strydom begin nadat sy ingelig is oor hoeveel kinders mishandel word en nooit gehelp word nie. Of, indien hul wel aanmeld, hoe traumaties die aanmeldingsstelsel is vir slagoffers.

Vertoning

In 'n halfuur vertoning leer Kaptein Bully Buster (vertolk deur Paarlse akteur Reagan-Reece Carolissen) kinders oor verskillende tipes boelies - en dit sluit diegene in wat kinders wil verlei met lekkergoed en ook sosiale media gebruik om kinders uit te lok of te mishandel.

Dan is daar natuurlik Petty Bettie wat saam in die skool is en lelike goed van ander sê. Kinders word ook geleer wat jy met elkeen van daardie boelies moet doen en hoe dit moet aangemeld word.

Kaptein Bully Buster was so beïndruk met die gretigheid en ywer van die kinders om te

help, dat hy summier al die kinders aangestel het as konstabel Bully Busters om so sy werk op Tulbagh en Ceres ligter te maak.

Gedurende Maart het die skoleprogram deel uitgemaak van die Xtreme For Kids Cycle Tour wat vier provinsies in tien dae besoek het. Tydens die fietstoer is 15 skole en meer as 5 500 kinders in baie afgesonderde landelike gebiede soos Nieu Bethesda, bereik.

Die fietstoer en die skoleprojek word in samewerking met die SAPD aangebied en die polisie kom kuier saam by die skole.

Dit is vir Matla A Bana baie belangrik dat kinders nie met die polisie gedreig word nie maar ook moet weet dat die polisie daar is om kinders te help.

Polisielede van die Gesinsgeweld, Kinderbeskerming en Seksuele Oortredings-eenheid van Ceres, het met die kinders gepraat.

Elke kind het 'n konstabel Bully Buster kenwep en 'n boekmerk met teenboelie wenke, ontvang. Die organisasie het ook aan deelnemende skole, gratis kopieë van die boek:

Die dag toe die draak kom deur bekende

skrywer Fanie Viljoen, gegee.

Die boekie help jong kinders en ouers om meer ingelig te wees oor seksuele mishandeling en wat om daar omtrent te doen. Matla A Bana moedig ouers en onderwysers aan om te luister na kinders en ook om op die uitkyk vir gevaartekens van mishandeling te wees. Dit gebeur dikwels dat kinders selfmoord oorweeg as 'n uitweg teen boeliegedrag. Die Witzenbergstreek gaan verseker voordeel trek uit die 2 300 nuwe konstabel Bully Busters wat nou aangestel is om boelies uit te snuffel.

DIE besoek van Kaptein Bully Buster is danksy Matla A Bana moontlik gemaak en vorm deel van vele projekte tydens Kinderbeskermingsmaand. Kaptein Bully Buster is tydens sy Tulbagh besoek afgeneem saam met Monique Strydom, Jaime-Lee Lakey en personeel van Laerskool Waveren.

NOTICE OF AMENDMENT TO ENVIRONMENTAL AUTHORISATION, FINAL LAYOUT & ENVIRONMENTAL MANAGEMENT PROGRAMME PUBLIC PARTICIPATION PROCESS

ZEN WIND FARM, WESTERN CAPE PROVINCE
(REF: 14/12/16/3/3/2/322/AM5)

Applicant: FE Bonne Esperance (Pty) Ltd

Project Name: Zen Wind Farm

- » Optimise turbine/facility layout based on the energy yield, and revise the layout as required based on the revised turbine numbers and turbine specification; and
- » Optimise internal underground cabling (33kV) to enable a consolidated point of grid connection for the Zen/Bergriver cluster, and remove substation and overhead power line connection from the project description
- » Amend the facility layout
- » Amend the project description, as required
- » Amend/remove EA Conditions no longer applicable

Amendment Process: In terms of Condition 5 of the Environmental Authorisation and Regulation 31 of the EIA Regulations (2014), as amended, an applicant can apply to the competent authority for a change or deviation from the project description to be approved. An amendment application has been submitted to DFFE, and a public participation process is required to be undertaken in support of this Part 2 amendment application.

Final Layout and EMPr: The final facility layout and the EMPr must be amended, submitted and approved prior to commencement of construction, as per conditions 13 and 15 of the EA. The amended EMPr and final layout are available to I&APs for comment.

Motivation Report, Revised EMPr and Final layout available for public review and comment: A Motivation Report in support of the Amendment Application is available for public review and comment from **18 July 2023 to 18 August 2023**. The Motivation Report, Final layout and EMPr can be downloaded from Savannah Environmental's website <https://savannahsa.com/public-documents/>. The due date for written comment will be **18 August 2023**.

NOTICE OF AMENDMENT TO ENVIRONMENTAL AUTHORISATION, FINAL LAYOUT & ENVIRONMENTAL MANAGEMENT PROGRAMME PUBLIC PARTICIPATION PROCESS

BERGRIVER WIND FARM, WESTERN CAPE PROVINCE
(REF: 14/12/16/3/3/2/2105/AM1)

Applicant: FE Bergriver (Pty) Ltd

Project Name: Bergriver Wind Farm

Project Location: Adjacent to Gouda and ~6km south of Saron, Drakenstein Local Municipality, Western Cape on:

- » Portion 3 of the Farm Hartebeeste Kraal 88
- » Portion 4 of the Farm Bonne Esperance 83
- » Portion 1 of the Farm Hartebeeste Kraal 88
- » Portion 1 of Farm 397
- » Portion 2 of Farm 397

EA Amendment: To amend the environmental authorisation (EA) and project description as included in the EA received on 29 July 2022 as follows:

- » Change in contact details of the holder of the EA
- » Optimise turbine/facility layout based on the energy yield;
- » Optimise position of on-site facility substation to enable a consolidated point of grid connection for the Zen/Bergriver wind farm cluster.
- » Amend the facility layout
- » Amend the project description, as required
- » Amend/remove EA Conditions no longer applicable

Amendment Process: In terms of Condition 5 of the Environmental Authorisation and Regulation 31 of the EIA Regulations (2014), as amended, an applicant can apply to the competent authority for a change or deviation from the project description to be approved. An amendment application has been submitted to DFFE, and a public participation process is required to be undertaken in support of this Part 2 amendment application.

Final Layout and EMPr: The final facility layout and the EMPr must be amended, submitted and approved prior to commencement of construction, as per conditions 12 and 14 of the EA. The amended EMPr and final layout are available to I&APs for comment.

Motivation Report, Revised EMPr and Final layout available for public review and comment: A Motivation Report in support of the Amendment Application is available for public review and comment from **18 July 2023 to 18 August 2023**. The Motivation Report, Final layout and EMPr can be downloaded from Savannah Environmental's website <https://savannahsa.com/public-documents/>. The due date for written comment will be **18 August 2023**.

**AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION, AMENDED LAYOUT AND REVISED ENVIRONMENTAL MANAGEMENT PROGRAMME FOR THE DEVELOPMENT OF THE ZEN WIND FARM, WESTERN CAPE PROVINCE
(REF: 14/12/16/3/3/2/322/AM5)**

Dear Stakeholder and Interested & Affected Party,

FE Bonne Esperance (Pty) Ltd received an Environmental Authorisation (EA) on 3 November 2016 (DFFE Ref.: 14/12/16/3/3/2/322, with four subsequent amendments to the EA) from the Department of Forestry, Fisheries and the Environment (DFFE) for the development of the Zen Wind Farm and associated infrastructure. The Zen Wind Farm is located approximately 10km of the town of Gouda and approximately 4km south of Saron in the Western Cape Province. The project is located within Ward 31 of the Drakenstein Local Municipality and the Cape Winelands District Municipality in the Western Cape Province.

Please find attached the notification letter providing information regarding the Amendment of Environmental Authorisation, Amended Layout and Revised EMPr for the Zen Wind Farm.

MOTIVATION REPORT, REVISED EMPr AND AMENDED LAYOUT AVAILABLE FOR PUBLIC REVIEW AND COMMENT

The Motivation Report, revised EMPr and amended Facility Layout in support of the Amendment Application are available for public review and comment from **18 July 2023 to 18 August 2023** and can be downloaded from Savannah Environmental's website [click here](#). The due date for written comment will be 18 August 2023.

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

18 July 2023

Dear Stakeholder and Interested & Affected Party,

**AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION, AMENDED LAYOUT AND REVISED ENVIRONMENTAL MANAGEMENT PROGRAMME FOR THE DEVELOPMENT OF THE ZEN WIND FARM, WESTERN CAPE PROVINCE
(REF: 14/12/16/3/3/2/322/AM5)**

NOTICE ON AVAILABILITY OF THE MOTIVATION REPORT, FINAL LAYOUT AND ENVIRONMENTAL MANAGEMENT PROGRAMME

FE Bonne Esperance (Pty) Ltd received an Environmental Authorisation (EA) on 3 November 2016 (DFFE Ref.: 14/12/16/3/3/2/322, with four subsequent amendments to the EA) from the Department of Forestry, Fisheries and the Environment (DFFE) for the development of the Zen Wind Farm and associated infrastructure. The Zen Wind Farm is located approximately 10km of the town of Gouda and approximately 4km south of Saron in the Western Cape Province. The project is located within Ward 31 of the Drakenstein Local Municipality and the Cape Winelands District Municipality in the Western Cape Province.

The Zen Wind Farm is to be constructed within the project site which comprises the following farm portions:

- » Portion 1 of the Farm Bonne Esperance 83,
- » Portion 2 of the Farm Bonne Esperance 83,
- » Portion 9 of the Farm No. 88
- » Portion 0 of the Farm Nayoath 458

In this regard, the following is proposed:

1. Reduction in the number of turbines from 27 to 17;
2. Increase turbine capacity from 6 MW to up to 7.5 MW per turbine
3. Increase the internal roads width from 6m to ~8m
4. Optimise turbine/facility layout based on the energy yield, and revise the layout as required based on the revised turbine numbers and turbine specification; and
5. Optimise internal underground cabling (33kV) to enable a consolidated point of grid connection for the Zen/Bergriver wind farm cluster on the Bergriver site, and remove the on-site substation and overhead power line connection from the project description.

AMENDMENT PROCESS

In terms of Condition 5 of the Environmental Authorisation and Regulation 31 of the EIA Regulations 2014, as amended, an applicant can apply to the competent authority for a change or deviation from the project description to be approved. An amendment application has been submitted to the DFFE, and a public participation process is required to be undertaken in support of this Part 2 amendment application.

AMENDED FACILITY LAYOUT AND REVISED EMPR

An amended Facility Layout and the revised EMPr must be amended, submitted and approved prior to commencement of construction, as per Conditions 13 and 15 of the EA. The revised EMPr and amended Layout are available to I&APs for comment.

MOTIVATION REPORT, REVISED EMPr AND AMENDED LAYOUT AVAILABLE FOR PUBLIC REVIEW AND COMMENT

The Motivation Report, revised EMPr and amended Facility Layout in support of the Amendment Application are available for public review and comment from **18 July 2023** to **18 August 2023** and can be downloaded from Savannah Environmental's website <https://savannahsa.com/public-documents/energy-generation/zen-wind-farm/>. The due date for written comment will be **18 August 2023**.

Please submit your written comments on the Motivation Report, revised EMPr and amended layout by **Friday, 18 August 2022** to **Nicolene Venter** by any of the following means:

- » Telephone: 011 656 3237
- » Mobile: 060 978 8396 (including *please call me*)
- » Fax: 086 684 0547
- » Post: PO Box 148, Sunninghill, 2157
- » E-mail: publicprocess@savannahsa.com

All comments received during the 30-day public review and comment period will be recorded and included in the Final Motivation Report in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326), for submission to the DFFE for review and decision-making.

Our team welcomes your participation and looks forward to your involvement throughout this process. Please do not hesitate to contact us should you require additional information and/or clarification regarding the project.

Kind regards

Nicolene Venter

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

18 July 2023

Dear Stakeholder and Interested & Affected Party,

**AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION, AMENDED LAYOUT AND REVISED ENVIRONMENTAL MANAGEMENT PROGRAMME FOR THE DEVELOPMENT OF THE ZEN WIND FARM, WESTERN CAPE PROVINCE
(REF: 14/12/16/3/3/2/322/AM5)**

NOTICE ON AVAILABILITY OF THE MOTIVATION REPORT, FINAL LAYOUT AND ENVIRONMENTAL MANAGEMENT PROGRAMME

FE Bonne Esperance (Pty) Ltd received an Environmental Authorisation (EA) on 3 November 2016 (DFFE Ref.: 14/12/16/3/3/2/322, with four subsequent amendments to the EA) from the Department of Forestry, Fisheries and the Environment (DFFE) for the development of the Zen Wind Farm and associated infrastructure. The Zen Wind Farm is located approximately 10km of the town of Gouda and approximately 4km south of Saron in the Western Cape Province. The project is located within Ward 31 of the Drakenstein Local Municipality and the Cape Winelands District Municipality in the Western Cape Province.

The Zen Wind Farm is to be constructed within the project site which comprises the following farm portions:

- » Portion 1 of the Farm Bonne Esperance 83,
- » Portion 2 of the Farm Bonne Esperance 83,
- » Portion 9 of the Farm No. 88
- » Portion 0 of the Farm Nayoath 458

In this regard, the following is proposed:

1. Reduction in the number of turbines from 27 to 17;
2. Increase turbine capacity from 6 MW to up to 7.5 MW per turbine
3. Increase the internal roads width from 6m to ~8m
4. Optimise turbine/facility layout based on the energy yield, and revise the layout as required based on the revised turbine numbers and turbine specification; and
5. Optimise internal underground cabling (33kV) to enable a consolidated point of grid connection for the Zen/Bergriver wind farm cluster on the Bergriver site, and remove the on-site substation and overhead power line connection from the project description.

AMENDMENT PROCESS

In terms of Condition 5 of the Environmental Authorisation and Regulation 31 of the EIA Regulations 2014, as amended, an applicant can apply to the competent authority for a change or deviation from the project description to be approved. An amendment application has been submitted to the DFFE, and a public participation process is required to be undertaken in support of this Part 2 amendment application.

AMENDED FACILITY LAYOUT AND REVISED EMPR

An amended Facility Layout and the revised EMPr must be amended, submitted and approved prior to commencement of construction, as per Conditions 13 and 15 of the EA. The revised EMPr and amended Layout are available to I&APs for comment.

MOTIVATION REPORT, REVISED EMPr AND AMENDED LAYOUT AVAILABLE FOR PUBLIC REVIEW AND COMMENT

The Motivation Report, revised EMPr and amended Facility Layout in support of the Amendment Application are available for public review and comment from **18 July 2023** to **18 August 2023** and can be downloaded from Savannah Environmental's website <https://savannahsa.com/public-documents/energy-generation/zen-wind-farm/>. The due date for written comment will be **18 August 2023**.

Please submit your written comments on the Motivation Report, revised EMPr and amended layout by **Friday, 18 August 2022** to **Nicolene Venter** by any of the following means:

- » Telephone: 011 656 3237
- » Mobile: 060 978 8396 (including *please call me*)
- » Fax: 086 684 0547
- » Post: PO Box 148, Sunninghill, 2157
- » E-mail: publicprocess@savannahsa.com

All comments received during the 30-day public review and comment period will be recorded and included in the Final Motivation Report in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326), for submission to the DFFE for review and decision-making.

Our team welcomes your participation and looks forward to your involvement throughout this process. Please do not hesitate to contact us should you require additional information and/or clarification regarding the project.

Kind regards

Nicolene Venter
