

REVISED MOTIVATION REPORT

Review period: 20 March 2019 to 23 April 2019

NOTIFICATION OF AVAILABILITY OF REVISED
MOTIVATION REPORT FOR REVIEW AND COMMENT

19 March 2019

Ms Francisca Jansen
Librarian
Laingsburg Public Library
Van Riebeeck Street
LAINGSBURG
6901

Per Courier

Dear Ms Jansen

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:
PROPOSED WITBERG WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, WESTERN
CAPE PROVINCE
(DEA Ref.: 12/12/20/1966/AM7)**

NOTIFICATION OF AVAILABILITY OF REVISED MOTIVATION REPORT

Laingsburg Public Library is kindly requested to make the Revised Motivation Report available at Laingsburg Public Library for the public to review. A hard copy of the Report is included in this envelope that is being delivered by Dawn Wing Courier.

The Revised Amendment Motivation Report is made available for a 30-day review and comment period from the **Wednesday, 20 March 2019** to **Tuesday, 23 April 2019**. Should enquiries be made whether the Revised Motivation Report is electronically available, it would be appreciated if you can inform the person that the Revised Motivation Report can be downloaded from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>).

As a reminder, the due date for written comment is **Tuesday, 23 April 2019**.

We thank you in advance for making this Report available at your Library.

Kind regards

Nicolene Venter

Public Participation and Social Consultant

Sent to all registered I&AP on the
project database

19 March 2019

Dear Interest and Affected Party,

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:
PROPOSED WITBERG WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, WESTERN
CAPE PROVINCE
(DEA Ref.: 12/12/20/1966/AM7)**

NOTIFICATION OF AVAILABILITY OF REVISED MOTIVATION REPORT

With reference to our letter dated 14 November 2018 in which you, as a registered Interested and Affected Party (I&AP), was informed that the Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications.

A number of amendments to the EA and the authorised turbine specifications according to the appeal decision were required, and there have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations. In this regard, Witberg Wind Farm (Pty) Ltd considered an updated turbine model and layout for the project.

Addressing the above changes were included in the Motivation Report that was made available to registered I&APs and Organs of State for a 30-day review period from Wednesday, 14 November 2018 to Friday, 14 December 2018. The Motivation Report was also made available at the Laingsburg Public Library (Van Riebeeck Street, Laingsburg) and on Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>).

In response to comments received from the first round of public participation, certain changes, which are regarded as significant, were required to be made to the draft motivation report, and significant new information has been added to a revised motivation report, which changes or information was not contained in the draft motivation report consulted on during the initial public participation process. This revised motivation report has therefore been updated with the new information and will be subjected to a second round of public participation of at least 30 days as required by the legislation.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the Environmental Impact Assessment Regulations, 2014, as amended, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Witberg West Wind Farm (Pty) Ltd.

The Revised Amendment Motivation Report is made available for a 30-day review and comment period from the **Wednesday, 20 March 2019** to **Tuesday, 23 April 2019**. The Revised Amendment Motivation Report is also available at the Laingsburg Public Library (Van Riebeeck Street, Laingsburg) and can be downloaded from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>). As a reminder, the due date for written comment is **Tuesday, 23 April 2019**. Comments can be made as a written submission by fax, post or email. The Revised Amendment Motivation Report and any relevant information / specialists' reports is available on request, should this be required.

All comments received on the Revised Amendment Motivation Report will be included in the Revised Amendment Motivation Report which will be submitted to the Department of Environmental Affairs (DEA) for review and decision-making.

Our team welcomes your participation and looks forward to your involvement throughout this process. We also welcome you to share this information with any others that you feel will have a stake in the project and should be part of this process (such as occupiers of directly affected or surrounding properties, interest groups, community groups etc.)

Kind regards

Nicolene Venter

Subject: Witberg Wind Energy Farm: Notification of Availability of Revised Motivation Report for review and comment
Attachments: Witberg WEF Revised Motivation Report NotificationLetter FINAL.pdf

Dear Stakeholder,

Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref: 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.

The draft motivation report was been made available to registered Interested and Affected Parties (I&APs) and Organs of State for a 30-day review period from **Wednesday, 14 November 2018 to Friday, 14 December 2018**.

This e-mail serves to notify you of the availability of the Revised Motivation Report for the above-mentioned project for a 30-day review and comment period. The review and comment period is from **Wednesday, 20 March 2019 to Tuesday, 23 April 2019**.

Please refer to the attached Notification Letter for further information.

Kind regards,

Nicolene Venter

Subject:	Witberg Wind Energy Farm: Notification of Availability of Revised Motivation Report for review and comment		
Body:	<p>Dear Stakeholder,</p> <p>Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref. 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.</p> <p>The draft motivation report was made available to registered Interested and Affected Parties (I&APs) and Organs of State for a 30-day review period from Wednesday, 14 November 2018 to Friday, 14 December 2018.</p> <p>This e-mail serves to notify you of the availability of the <u>Revised</u> Motivation Report for the above-mentioned project for a 30-day review and comment period. The review and comment period are from Wednesday, 20 March 2019 to Tuesday, 23 April 2019.</p> <p>Please refer to the attached Notification Letter for further information.</p> <p>Kind regards,</p>

Subject: Witberg WEF: REMINDER - Revised Motivation Report review and comment period ending soon

Body: **APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:
PROPOSED WITBERG WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE,
WESTERN CAPE PROVINCE
(DEA Ref.: 12/12/20/1966/AM7)**

Dear Stakeholder and/or Interested and Affected Party,

With reference to the attached notification letter sent on Tuesday, 19 March 2019, this email serves as a reminder that the comment period of the Revised Motivation Report will be ending soon. The review and comment period for the Revised Motivation Report was from **Wednesday, 20 March 2019** and will end on **Tuesday, 23 April 2019**.

For those Stakeholders and/or Interested and Affected Parties who had not yet submitted written comments, we kindly request that you do so before or on **Tuesday, 23 April 2019**, by close of business day.

Kind regards,

Nicolene Venter

Dear Advocate Meiring

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:
PROPOSED WITBERG WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, WESTERN CAPE
PROVINCE
(DEA Ref.: 12/12/20/1966/AM7)**

NOTIFICATION OF AVAILABILITY OF REVISED MOTIVATION REPORT FOR REVIEW AND COMMENT

Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref: 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.

In terms of Regulation 43(2) of the EIA Regulations, 2014, as amended, this letter serves to inform you that the Revised Motivation Report is available for your review and written comments, and a hard copy containing the Revised Motivation Report is included in this envelope.

Please note that the Revised Motivation Report review period is from **Wednesday, 20 March 2019** to **Tuesday, 23 April 2019** and we are looking forward receiving your written comment/s on the Revised Motivation Report within the 30-day review period but not later that the closing date of the review period, i.e. **Tuesday, 23 April 2019**.

Kind regards

Nicolene Venter

>

Dear Stakeholder,

Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref: 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.

The draft motivation report was made available to registered Interested and Affected Parties (I&APs) and Organs of State for a 30-day review period from **Wednesday, 14 November 2018 to Friday, 14 December 2018**.

This e-mail serves to notify you of the availability of the Revised Motivation Report for the above-mentioned project for a 30-day review and comment period. The review and comment period is from **Wednesday, 20 March 2019 to Tuesday, 23 April 2019**.

Please refer to the attached Notification Letter for further information.

Kind regards,

Nicolene Venter

Dear Stakeholder,

Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref: 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the

turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.

The draft motivation report was been made available to registered Interested and Affected Parties (I&APs) and Organs of State for a 30-day review period from **Wednesday, 14 November 2018 to Friday, 14 December 2018**.

This e-mail serves to notify you of the availability of the Revised Motivation Report for the above-mentioned project for a 30-day review and comment period. The review and comment period is from **Wednesday, 20 March 2019 to Tuesday, 23 April 2019**.

Please refer to the attached Notification Letter for further information.

Kind regards,

Nicolene Venter

MOTIVATION REPORT

Review period: 14 November 2018 to 14 December
2018

NOTIFICATION OF AVAILABILITY OF
MOTIVATION REPORT FOR PUBLIC REVIEW

Sent to all Registered I&APs on
project database

14 November 2018

Dear Interest and Affected Party

**APPLICATION FOR AMENDMENT TO THE ENVIRONMENTAL AUTHORISATION:
PROPOSED WITBERG WIND ENERGY FACILITY AND ASSOCIATED INFRASTRUCTURE, WESTERN
CAPE PROVINCE**

**APPLICATION FOR AMENDMENT TO ENVIRONMENTAL AUTHORISATION
(DEA Ref.: 12/12/20/1966/AM6)**

Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref: 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.

In this regard, Witberg Wind Farm (Pty) Ltd are considering an updated turbine model for the project. An amendment to the authorised turbine specifications are required as follows:

- Range of Hub height: from 92m to a **range from 92m to up to 120m;**
- Range of Rotor diameter: from 116m to a **range from 116m to up to 136m;** and
- Range of Wind turbine capacity per wind turbine: from 3MW to a **range from 3MW to up to 5MW.**

In addition, an amendment to the wind farm layout is required to avoid sensitive areas, and to optimise the layout. Therefore, the number of wind turbines will be reduced from 27 wind turbines to **25 wind turbines**, and the wind turbines and associated infrastructure will be re-positioned within the originally assessed site.

In addition to the above, the following amendments are also being applied for:

- » The contact person and relevant details are to be updated and added for the holder of the EA.
- » Minor spelling corrections are to be requested for the minor details of two (2) of the authorised listed activities in the EA.
- » An extension of the validity of the EA by a further two (2) years is requested.
- » Amendment to the height of the wind measuring masts from 80m to 120m (in line with new wind turbine hub height) is requested.
- » Condition 40 of the EA, as per additional conditions to be added to the EA, in the amendment of the EA (Ref: LSA 105-439), is requested to be amended so that Condition 40 is correctly addressed to the Holder of the EA (i.e. Witberg Wind Power (Pty) Ltd).
- » Amendment to consolidate all EAs, amendments and appeal decisions into one EA.

The proposed amendments in themselves are not listed activities and do not trigger any new listed activity as the proposed amendments are within the original authorised development footprint and do not change the scope of the EA.

In terms of Condition 5 of the Environmental Authorisation and Chapter 5 of the EIA Regulations of December 2014 (as amended on 07 April 2017 and 13 July 2018), it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved. Savannah Environmental has prepared a motivation report in support of this amendment application on behalf of Witberg West Wind Farm (Pty) Ltd.

In order to verify the potential for a change in the impacts on avifauna, bats, ecology, heritage, visual exposure, noise and social specialist input into the amendment motivation report has been included.

The draft motivation report has been made available to registered Interested and Affected Parties (I&APs) and Organs of State for a 30-day review period from the **14 November 2018 to 14 December 2018**. The draft motivation report is available at the Laingsburg Public Library (Van Riebeeck Street, Laingsburg). The draft motivation report can also be downloaded from www.savannahsa.com. The due date for written comment is **14 December 2018**. Comments can be made as a written submission of fax, post or email. The draft motivation report and any relevant information will be made available on request, should this be required.

All comments received will be included in the final motivation report which will be submitted to the Department of Environmental Affairs (DEA) for review and decision-making.

Our team welcomes your participation and looks forward to your involvement throughout this process. We also welcome you to share this information with any others that you feel will have a stake in the project and should be part of this process (such as occupiers of directly affected or surrounding properties, interest groups, community groups etc.).

Kind regards

Subject: Witberg WEF - Notification of Availability of Motivation Report

Body: Dear Stakeholder,

Witberg Wind Farm (Pty) Ltd received an Environmental Authorisation (EA) for the construction of Witberg Wind Energy Facility and associated infrastructure in the Western Cape Province (DEA ref: 12/12/20/1966) on the 13th of October 2011. An appeal decision (Reference: LSA 105-439) dated the 13th of August 2013 was subsequently issued reducing the number of originally authorised wind turbines from 70 to 27 turbines, along with revised turbine specifications. However, a number of amendments to the EA and the authorised turbine specifications according to the appeal decision are now required. Firstly, the project is intended to be bid into future rounds of the Department of Energy's (DoE) Renewable Energy Independent Power Producers Procurement (REIPPP) Programme. There have been advancements to wind turbine technology since the issuing of the EA, and the turbines authorised in the EA are therefore not considered to be the most suitable in terms of production and economic considerations.

The draft motivation report has been made available to registered Interested and Affected Parties (I&APs) and Organs of State for a 30-day review period from **Wednesday, 14 November 2018 to Friday, 14 December 2018.**

Please refer to the attached Notification Letter for further information.

Kind regards,

Rozanne Els
