**NOTICE OF AN INTEGRATED ENVIRONMENTAL AUTHORISATION
AMENDMENT, WATER USE LICENCE, ATMOSPHERIC EMISSIONS LICENCE AND
PUBLIC PARTICIPATION PROCESS**

**TRANSALLOYS POWER PLANT AND ASSOCIATED INFRASTRUCTURE NEAR
CLEWER, EMALAHLENI LOCAL MUNICIPALITY, MPUMALANGA PROVINCE
(DEA REF: 14/12/16/3/3/3/97)**

Project Name: Transalloys Power Plant Part II Amendment, WUL & AEL application.

Applicant: Transalloys (Pty) Ltd.

Amendment request: Transalloys (Pty) Ltd is requesting the Department of Environmental Affairs (DEA) to amend the project description and layout of the Integrated Environmental Authorisation (IEA) received on the 02nd of March 2016 as follows:

- » An **increase in power output** capacity from 55MW, to an output capacity range of **120MW – 150MW**; (Note: the initial EIA assessed a power station of 150MW but only 55MW was authorised at the request of the applicant); and
- » An **updated layout**, including exchanged locations for the ash dam and power plant location.

Additional Authorisations: The amendment application will be supported by an Atmospheric Emissions Licence submitted as per Section 21 of the National Environmental Management: Air Quality Act (2004), and the associated Listed Activities of GNR 248 (2010) - for the control of harmful emissions. Furthermore, comments from the Heritage Authority will be obtained via the amendment process. A Water use authorisation will also be applied for, through the submission of a Section 21 activities Water Use Licence (WUL) to Department of Water and Sanitation (DWS) in accordance with the National Water Act (No. 36 of 1998). Where applicable, these documents are also available for public review During the motivation report period mentioned below.

Project Location: The project site is located within the existing Transalloys smelter complex near the town of Clewer, eMalahleni Local Municipality, in the Nkangala District Municipality. In terms of Chapter 5 of the EIA Regulations of December 2014, as amended, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

Motivation Report available for Public Review: Savannah Environmental has also compiled a Motivation Report and additional authorisation documentation in support of the amendment application and is available for public review and comment at the Witbank Public Library, 28 Hofmeyer Street, eMalahleni from **Friday, 21 June 2019** to **Monday, 22 July 2019**. The Motivation Report and additional authorisation documents can also be downloaded from Savannah Environmental's website (<https://www.savannahsa.com/public-documents/energy-generation/>). CDs are available on request as per the contact details below. The due date for written comment is **Monday, 22 July 2019**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project, in writing, to Savannah Environmental:

NOTICES

Submission of Pre-qualifying Tenders: HSEC Administration Building Tender No: 19/P120/8/HAB/EB/tm

Interested parties are invited to submit their company profiles and additional information (as listed below) for consideration by Lion Smelter, a Glencore Merafe Operation, as part of the tender process in respect of the construction of an HSEC Administration Building.

The scope involves the construction of completely new building. Lion wants to replace the temporary HSEC offices with a permanent building.

Company profiles must include the following: • Company history (company profile) • Current clientele (presenting us with the same type of building which was constructed directly by the company and NOT as a subcontractor) • Proof of registration with the NHBRC (to be submitted as part of the tender pack) • Company's cash-flow analysis or 3 months' bank statements • Documented Health and Safety Plan • BEE status (certificate from a SANAS-accredited verification agency) or certified sworn affidavit • Company registration documents • Company shareholding certificates • Identity Documents of shareholders • Proof of residence • CVs of shareholders and management of the company.

If the company does not comply with all or any of the above requirements, it should clearly be indicated how the above requirements will be met.

No faxed/electronic/late submissions will be accepted.

The closing date and time for the submission of company profiles are 2 July 2019 at 12:00.

Company profiles must be deposited in the tender box at the Main Security Building (Vantech), R555 Kennedy's Vale, Steelpoort.

Company profiles must be submitted in writing, in a sealed envelope, marked with the tender name, tender number, tender administrator's name, closing date and time.

Enquiries: thembi.mafolo@glencore.co.za

NOTIFICATION OF AN INTEGRATED WATER USE LICENCE RENEWAL REQUEST IN TERMS OF SECTION 52 OF THE NATIONAL WATER ACT, 1998 (ACT NO. 36 OF 1998) (NWA) FOR VARIOUS WATER USE ACTIVITIES ON MATLA COAL MINE, LOCATED NEAR KRIEL, MPUMALANGA PROVINCE

DEPARTMENT OF WATER AND SANITATION (DWS) GCS REFERENCE NO: 19-0417
Matla Mine is an existing underground coal mining operation situated in the Mpumalanga Province, approximately 15 kilometres (kms) west of Ga-Nala (Kriel). The mining area is situated in the eMalahleni Local Municipality of the Nkangala District Municipality. The Kriel and Matla power stations are located approximately 10 kms east and south-east of the mine.

In accordance with Chapter 4, Section 52(1) of the National Water Act, 1998 (Act No.36 of 1998) (NWA) and in conjunction Section 41(4), notice is hereby given of the Integrated Water Use License (IWUL) renewal application being undertaken by GCS Water and Environment (Pty) Ltd (GCS). The renewal of the IWUL is being undertaken on behalf of Exxaro Matla Coal (Pty) Ltd for the licensed activities in terms of Section 21 of the NWA (the abstraction of groundwater from the borehole, storage of water in dams, disposing of waste in a manner which may detrimentally impact on a water resource and dewatering of underground mine water) that are currently taking place at the Matla Mine. These current activities trigger Section 21(a), Section 21(b), Section 21(f), Section 21(g), Section 21(j) of the NWA. An IWUL was issued to Matla in 2010 (License No. 24084303) and is valid for a period of 10 years. Due to the current license expiring in 2020, a request to extend the validity of the IWUL from the Department of Water and Sanitation (DWS) is currently being undertaken. No additional water uses are being applied for in this renewal application.

The following water uses were licensed as part of the IWUL issued in 2010 in terms of Section 21 of the NWA:

WATER USE	DESCRIPTION	TRIGGERED BY
Section 21 of the NWA		
21 (a)	Taking of water from a water resource	Abstraction of groundwater for re-use
21 (b)	Storing water	Storage of portable
21 (f)	Discharging waste or water containing waste into a water resource	Discharge of treated wastewater from sewage works
21 (g)	Disposing of waste in a manner which may detrimentally impact on a water resource	Storage of contaminated water for re-use
21 (j)	Removing, discharging or disposing of water found underground	Pumping of underground water to continue mining

You are hereby invited to register as an Interested and Affected Party (I&AP), to participate in the stakeholder engagement process, as well as to raise any issues or concerns about the renewal application. As a registered I&AP, you will receive further information and will be kept informed of the decisions taken by the competent authorities.

Should you wish to register as an I&AP or to receive a background information document with additional details on the project, please contact Kate Cain via Tel: 011 803 5726, Fax: 011 803 5745, E-mail: kate@gcs-sa.biz or Post: PO Box 2597, Rivonia, 2128 on/before **21 July 2019**. Please note that this date includes time for comments to be received by registered I&APs. **The IWULA report is accessible for download and comment from <http://www.gcs-sa.biz/>**

**NOTICE OF AN INTEGRATED ENVIRONMENTAL AUTHORISATION
AMENDMENT TO ENVIRONMENTAL AUTHORISATION, WATER USE LICENCE (WUL)
APPLICATION, ATMOSPHERIC EMISSIONS LICENCE (AEL) APPLICATION AND PUBLIC
PARTICIPATION PROCESS**

**TRANSALLOYS POWER PLANT AND ASSOCIATED INFRASTRUCTURE NEAR CLEWER,
EMALAHLENI LOCAL MUNICIPALITY, MPUMALANGA PROVINCE
(DEA REF: 14/12/16/3/3/3/97)**

Project Name: Transalloys Power Plant Part II Amendment, WUL & AEL Applications.

Applicant: Transalloys (Pty) Ltd.

Amendment request: Transalloys (Pty) Ltd is requesting the Department of Environmental Affairs (DEA) to amend the project description and layout of the Integrated Environmental Authorisation (IEA) received on the 02nd of March 2016, under section 31 and 32 of the Environmental Impact Assessment Regulations, 2014, as amended, with the following amendment requests:

- » An **increase in power output** capacity from 55MW, to an output capacity of between **120MW – 150MW**;
 - o Note: the initial EIA assessed a power station of 150MW but only 55MW was authorised at the request of the applicant.
- » An **updated layout**, including exchanged locations for ash dams and power plant location alterations, as well as an updated to the intake water pipeline location and route.
- » An **update of the contact person details** (holder of the EA); and
- » An **update of the validity of the EA**, to be extend by an additional 5 (five) years.

Additional Authorisations: The amendment application will be supported by:

- » An Atmospheric Emissions Licence Application submitted as per Section 21 of the National Environmental Management: Air Quality Act (2004), and the associated Listed Activities of GNR 248 (2010) - for the control of harmful emissions;
- » A Notice of Intent to Develop (NID) Application compliant with Section 38 of the National Heritage Resources Act (No. 25 of 1999); and
- » A Water Use License Application will also be applied for, through the submission of a Section 21 activities to Department of Water and Sanitation (DWS) in accordance with the National Water Act (No. 36 of 1998).

Project Location: The project site is located within the existing Transalloys smelter complex near the town of Clewer, eMalahleni Local Municipality in the Nkangala District Municipality. In terms of Chapter 5 of the EIA Regulations, 2014, as amended, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

In terms of Condition 5 of the Environmental Authorisation dated 12 August 2014 and Regulation 31 & 32 of the EIA Regulations, 2014, as amended, it is possible for an applicant to apply, in writing, to the competent authority for a change or deviation from the project description to be approved.

To obtain further information, to submit a comment, and/or **to register** on the project database, please submit your name, contact information and interest in the project, in writing, to Savannah Environmental:
