Hi Killian,

My apology for delays in responding to your query.

My colleague, who is a specialist in process technology has been away for a while. I want to have a discussion first with him about your argument that there won't be abatement equipment for the incinerator. I was hoping to get back to you with detailed response after consulting with him.

Regarding AEL submission, it will not serve any purpose to submit an application if the WML has not been issued. Section 36(5) triggered AEL applications can only be processed after EA; WML or Valid Mining Rights/Order has been acquired. Any AEL application without such would be sent back, just like what we did with one of your application. My understanding is that proposed Queenstown Incinerator has not been issued with WML. Therefore, it would be sent back too.

As soon as I have had a discussion with the specialist, I will provide detailed response or ask him to do so.

I hope you will find this in good order. Feel free to contact me for any clarity.

Regards,
Edward Oupa Mahosi

Hi Edward

Could you please respond to this query at your earliest convenience?

Please note that we would like to attach the proof of AEL submission to the Final BAR for Queenstown but cannot do so if the system recognises it as a partial/ incomplete submission.

Kind regards
Karien

Hi Karien,

I hereby acknowledge your email and content thereof.

I will respond as soon I get back to the office.

Regards,
Edward

Dear Edward

Could you kindly assist with the below query.

We would like to submit the Middelburg and Queenstown AELs as well but would just like clarity on the matter below before we proceed.

Thank you

Karien Killian MSc (Botany)
Environmental Scientist

Dear Nodolly

Thank you for clarifying.

Just a comment on section D, there are currently no control devices in place and none are proposed for the replacement incinerator therefore it is unclear what is required under section D of the application form.

I am awaiting the call from the licencing authority.

Kind regards
Karien

Dear Killian,

I had a quick overview on your application (ID: 1667) and noticed that section C of the application was partially completed and section D was not filled with any information. I think this is the reason for the 'Partial submittal' status. The licensing authority will contact you regards the outstanding information since the application has been submitted.

Kind regards,
Nodolly Mabuza

Subject: Grahamstown Incinerator AEL

Good day Nodolly

I trust that you are well?

We have completed and submitted the Grahamstown AEL (Section 22A) on the SAEELIP portal but the status is displaying as "Partial Submittal". I have uploaded all the compulsory documents as well as a few additional documents such as the Basic Assessment Report and the Atmospheric Impact Specialist Report.

Could you please comment on why it is reflecting as a partial submittal?

Kind regards

Karien Killian *MSc (Botany)*
