1. INTRODUCTION

The Public Participation is a process done in line with the National Environmental Management Act No. 107 of 1998 (as amended) and the Environmental assessment regulations 2010. In addition to the above mentioned legislation, the process is further outlined in the public participation guideline (10 October 2012). In a nutshell the Public Participation process is a legal framework that ensures public and stakeholder participation during the stages of acquiring authorisation for a development, thus in this case. The comments and issues raised by I&APs and stakeholders form part of the decision making process. The Public Participation Process is outlined in Chapter 6 of Environmental Impact Assessment regulations 2010(as amended).

2. BACKGROUND

The proposed development is the establishment of a landfill site to service the following three areas, Harrismith, Kestel and Phuthaditjhaba.

It is proposed that the new landfill site will have the following facilities:

- Recycling facility (and a Buy-Back center).
- Compost facility
- Inert waste disposal facility

The type of waste to be landfilled is general waste; no hazardous waste will be expected to the landfill site. The proposed waste disposal site is classified as a General (G) Waste Landfill site. As per the design report conducted by All Green Consultants, the size of the landfill site is classified as large (L). Furthermore there is a potential that the waste disposal site will generate leachate, which classifies the site as a B plus (B+) waste disposal facility, in turn this entails that a leachate management system will be required for the landfill site.

The physical footprint of the proposed landfill site is estimated to be approximately 20 hectares. Subdivisions and rezoning processed will be done by the applicant. The design report calculates the life span for the landfill site facility to be approximately 20 years.

On 19th September 2014, Tholoana Consulting submitted an application of intent to conduct a Scoping/EIA process pursuant Waste Management License for the proposed disposal site. An acknowledgement and acceptance of the application from the Department of Economic Development, Tourism and Environmental Affairs Free State province (DETEA) was received on the 2nd October 2014. The final Scoping Report was submitted to DETEA Free State Province on the 06th May 2015. In response the acceptance of the Scoping report was received from DETEA Free State province on the 05th June 2015.

3. THE PUBLIC PARTICIPATION PROCESS FOR THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE

The following Public Participation Process was followed during the Scoping phase of the proposed Maluti-A-Phofung Landfill site:

3.1 PHASE 1: SCOPING PHASE – I&AP INVITATION

The first Public Participation process was aimed at identifying Interested or Affected parties. Invitations were done via

- A newspaper advert in the Eastern Free State Issues (13th November 2014). This newspaper reaches the following areas: Bethlehem, QwaQwa, Harrismith, Ficksburg, Fouriesburg, Senekal, Kestel & Paul Roux. Attached Appendix 1.
- Notification Posters were placed on site and along the proposed access route (13th November 2014), and notification Posters were placed at Public facilities (Libraries – Phuthaditjhaba, Kestel, Harrismith and Clinics). Appendix 2.
- The Background information Document was further sent to Department of Water and Sanitation, Local Authority and the Free State Heritage Agency. Appendix 3

3.2 PHASE 2: SCOPING PHASE – AVAILABILITY OF DRAFT SCOPING REPORT.

The second Public Participation Process of the scoping phase for the availability of the Draft Scoping Report was done in the following manner

- The availability of the Draft Scoping Report was advertised on the Eastern Free State Issue (29th January 2015), which reaches: Bethlehem, QwaQwa, Harrismith, Ficksburg, Fouriesburg, Senekal, Kestel & Paul Roux. Appendix 1.
- Notifications (Poster), with hard copies of the report were delivered at Phuthaditjhaba, Kestel, Intabazwe Public Library, Sasol Makwane Garage Library and Harrismith Library. Appendix 2.
- Hard copies were delivered to the Free State Heritage Agency, Local Authority, Councillors and DWA. Appendix 3.
- Knock and drops of notifications (pamphlets) were done to households in close proximity of the proposed location. Appendix 4
- Two meetings were held with the Department of Water and Sanitation officials, the dates respectively (on 2nd December 2014 and 16th February 2015). Further to that a presentation was done the Wilge Forum held at Reitz on the 19th May 2015. Appendix 3

The comments received from I&APs and the Free State Heritage Agency are contained in the issues and response report that forms part of this assessment. Based on submissions done to DETEA Free State province, the Scoping Report was approved on 5th June 2015.

3.3 PHASE 3: EIA PHASE – AVAILABILITY OF DRAFT EIR AND DRAFT EMPr.

The third Public Participation Process for the availability of the Draft Environmental Impact Assessment Report and Draft Environmental Management Programme was carried out as follows:

- Newspaper advert in the Eastern Free State Issue was done on the 2nd July 2015. The newspaper reaches the following areas: Bethlehem, QwaQwa, Harrismith, Ficksburg, Fouriesburg, Senekal, Kestel & Paul Roux. Appendix 1.
- Notifications (Poster), with hard copies of the report were delivered at Phuthaditjhaba, Kestel, Intabazwe Public Library, and Harrismith Library. Appendix 2
- Hard copies were delivered to the Free State Heritage Agency, Local Authority and Councillors. Appendix 3.
- I&AP notifications were done via email and post on the 1 July 2015. Appendix 4.

3.4 MALUTI-A-PHOFUNG DISPOSAL SITE ISSUES AND RESPONSE REPORT

The Issues and Response report consolidates all comments received from the I&APs, Stakeholders and the Local Authority. Furthermore all responses given to the issues raised are captured on the responses column of the report. The summary of comments received during the Scoping phase Public Participation Process is as follows:

- Ms Rethabile Moloi requested for more detailed information pertaining to the proposed recycling facility as she had an interest in the project.
- The following comments were received from the Local authority (Maluti-A-Phofung Env and Waste Management Manager).
 - The access road to the landfill site is gravel (There is a need for the municipality to upgrade the road. The road would be budgeted for in the next financial year and will be included in the IDP of the municipality).

- The budget is not enough for the implementation of the project. (This project will be implemented in phases; the municipality has already developed a business plan for addition MIG funding to accommodate other phases)
- The land is not zoned for this purpose (a request was made to appoint service provider to assist on the application for the subdivision and rezoning of the land. It is recommended that the implementation of developing a landfill site be carried forward while waiting for approval on the rezoning).
- The provision of water and electricity were also identified as a challenge (The municipality would make provision for the identified infrastructure)
- This was followed by a comment from Cllr. Betsie Mofokeng, which was in line with the proposed access roads to the site. The access roads are currently unpaved, thus as the result of increased use to the disposal site, these roads will generate dust which impacts on the houses along the access roads. The request was that an option of paving the roads should be looked at; however this was not raised in a manner to objecting the proposed landfill site.
- The other comment received from Mr Tefo Simon, was in line with interest in terms of business opportunities from the proposed landfill site establishment.
- Amendments were requested by the Free State Heritage Agency on the Heritage Impact Assessment, with a an indication that a Paleontological Impact Assessment needs to be carried out for the proposed landfill site as it is a standard requirement within the Free State Province.

The following comments were received during the EIA phase (availability of Draft EIR and Draft EMPr), the following comments were received:

- Cllr Betsie Mofokeng requested the design layout of the proposed road, as per the Deign report page 2-12
- Ms Keagalaletsa Gobolawamang requested a soft copy of the Draft EIA and Draft EMPr.
- Mr Tefo Simon Mantje sent a letter requesting for funding their co-operative.

See attached Appendix 5 for Issues and Response report, including copies of comments received and responses sent to I&APs.

4. CONCLUSION

The Public Participation report together with the Environmental Impact Assessment and Environmental Management plan are submitted to the DETEA Free State for decision making purposes. All questions or additional information required can be directed to:

NOTICE OF A WASTE MANAGEMENT LICENSE APPLICATION FOR THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE ON THE FOLLOWING PROPERTY:

Portion 110 of the Farm Witsieshoek, 1903 at Phuthaditjhaba (QwaQwa) which falls under the Maluti-A-Phufong Local Municipality in the Free State Province.

INVITATION TO COMMENT AND REGISTER AS AN INTERESTED/AFFECTED PARTY

The DETEA(Free State Province) Waste Management License Reference: WML/EIA/10/2014

Name of Applicant: Maluti-A-Phofung Local Municipality

Notice is hereby given in terms of Chapter 6, National Environmental Management Act 107 of 1998 (as amended) Regulations 2010(as amended), the National Environmental Management Waste Act 59 of 2008, GN 921 of November 2013 Section 4, of an intent to conduct an Environmental Impact Assessment pursuant a Waste Management License for the activities described below. An application of intent to conduct and Environmental Impact Assessment for the proposed activity has been lodged with the Department of Economic Development, Tourism and Environmental Affairs on the 19th of September 2014.

The proposed development involves the establishment of a landfill site at the above mentioned location, of which it is anticipated that the Landfill Site will be servicing the following three areas, Harrismith, Kestel and Phuthaditjhaba.

It is proposed that the new Landfill site will have the following

- Recycling facility (thus a buy-back center).
- Compost facility
- And an area allocated for inert waste disposal

The footprint of the proposed Landfill site is approximately 20 hectares. The calculation of the expected tonnages with a life expectancy of 20 years for the proposed landfill site was done with an estimation of 550 tons of waste to be disposed per day. In addition to the above, the proposed landfill site includes the following associated infrastructure and facilities;

- Perimeter fencing
- Remote gate,
- Security guard house, and Administration block with Ablution facilities, Computers, and workshop
- Platform station.
- Recycling facilities & sorting facilities
- Constructions of landfill cells and leachate management and
- Unsurfaced access road, ring road and storm-water drainage management system

According to the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), Government Notice 921 29 November 2013, category B, Section 4 pursuant to the Waste Management license an Environmental Impact Assessment is required for the following identified activities.

- **Government Notice 921 29 November 2013, Category B.**

- Activity (8), the disposal of general waste to land covering in excess of 200m² and with a total capacity exceeding 25 000 tons.
- Activity (9), the disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorized by or under other legislation.
- Activity (10), the construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).

In addition a Water Use license will be required for the proposed landfill site as it poses a potential to generate leachate. The calculation of the expected tonnages with a life expectancy of 20 years for the proposed landfill site was done with an estimation of 550 tons of waste to be disposed per day. In order to ensure that you are identified and registered as an Interested or Affected Party, please submit your name, contact details, indication of your interest in the proposed development in writing, from the publication of this advert to: **Tholoana Sustainable Development and Environmental Consultants**, on or before Friday 9th January 2015. Further detail/information on the proposed Maluti-A-Phofung Landfill Site can be obtained from the Environmental Consultants indicated below.

REPORT AND/OR
REGISTER AS AN INTERESTED/AFFECTED PARTY**

DETEA Free State PROVINCE REF NO: WML/EIA/10/2014

Name of Applicant: Maluti-A-Phufong Local Municipality

Notice is hereby given in line with Regulation 56 of the National Environmental Management Act 107 of 1998 (as amended) EIA Regulations 2010, as published in the government notice no: R 543, that the Draft Scoping Report for the proposed Maluti-A-Phufong Landfill site Waste Management License (EIA process) is available for public review/comment. The Draft Scoping Report forms part of the Scoping Phase for the proposed development as it follows the EIA process. Furthermore this part of the scoping is referred to as the initial phase to the full EIA process. The Draft Scoping Report aims to establish and understand the following critical aspects of the full EIA study:

- ❖ Issues to be considered in the EIA phase for assessment, timeframes and boundaries of the EIA study.
- ❖ Important/significant factors and effects to be studied in detail during the EIA phase, understanding the receiving environment.
- ❖ Establish potential environmental impacts to the receiving environment, thus cultural, socio-economic and the biophysical environment.
- ❖ Most importantly to identify the necessary information required for decision making purposes.

In addition to the above, the Draft Scoping Report is available for Public Review/comments within 40 days from the date of this advert. The main reason for the public review process is to allow Interested and Affected Parties the opportunity to comment, raise issues and suggestions which will be captured by Tholoana Consulting for inclusion in the Environmental Impact Assessment report. These comments are considered for decision making purposes by the competent authority and the applicant as well as guiding the EIA study.

The copy of the Draft Scoping Report is available for review at the following Public areas.

- ❖ Harris Smith Public Library, Kestell Public Library, Phuthaditjhaba Public Library, Ward 32 Councilor. For any other means of accessing the Scoping Report please contact Tholoana Consulting.
- ❖ An Electronic copy can be requested from Tholoana Consulting in writing, details of contact person are as below.

I&APs and stakeholders can comment in writing by sending a fax, email or post to Tholoana Consulting. Looking forward to your comments for inclusion in the Issues and Response report. Please do not hesitate to contact Tholoana Consulting for any additional information required.

Contact Person: Mr. Vusmuzi Hlatshwayo

Contact Details: 011 704 5071, Fax: 011 704 5130, Email: vusi@tholoanaconsulting.co.za, Post: PO Box 1549, Honeydew, 2040

Super Eagles win away

Super Eagles maintained their winning momentum after the recess when they edged

out Hunters FC at Botshabelo on Saturday in a top of the log clash, reducing the points difference to one after 11 games played.

The visitors started the game throwing everything at their opponents in search of an early goal. In the 20th minute, Moloi Motsamai cut in from the right and unleashed a powerful shot which the Hunters' goalkeeper, Moodie Serasengoe spilled onto the path of Motaung Buti who tapped the ball into the net, putting Super Eagles into the lead.

Hunters gave Eagles a fright in the 35th minute as they came close to restoring parity. Nosi Thapelo received the ball and made his way

forward from deep before smashing a 25-yard shot at goal, but it went just inches away from crossbar. Eagles managed to keep the marauding Hunters' forwards at bay and went into the second half with a slender 1-0 lead.

Eagles had a chance of increasing the lead in the 69th minute when Moloi Motsamai hit a long range shot which was saved by the goalkeeper. Two minutes later Lepele Senokoane dribbled past two defenders with the goalkeeper at his mercy and his shot was parried for a corner kick. Hunters were dealt a massive blow with 21 minutes left, when Philimon Nkhabu was shown a straight red card for dissent. This paved the way

for Eagles to take full control of the game.

In the 75th minute, Eagles benefitted from good speed transition as Bongani Mofokeng outpaced two Hunters defenders and hit a good shot to the far bottom corner giving the Hunters' goalkeeper no chance. After the cushion goal, Hunters threw bodies upfront in search of an elusive goal but found the Eagles defense too well organized, holding on for the entire last 15 minutes and claiming the 2 nil victory.

Eagles will be welcoming Dinonyane FC at their slaughter house, Bohlakong Stadium this coming Saturday. The game is scheduled for a 15h00 kickoff.

APC holds Congress

The African People's Convention (APC) held its Provincial General Congress (PGC) last Saturday in QwaQwa to establish its growth in the Free State and find out how ready the APC is for the 2016 Municipal Elections.

"After the 2014 National Elections our members have been meeting on numerous occasions to find out where we went wrong during the elections and how we can rectify mistakes committed so that when the 2016 Municipal Elections arrive we will be ready and get more councillors in Free State municipalities," said APC President Themba Godi.

"After today we will go back to our members so that they can elect their own ward candi-

dates, advise ward candidates to have their own manifestos to address service delivery challenges and we will also train them so that they have one common goal when the election campaigns start," Godi emphasised.

In photo: APC leader Themba Godi (right) and Party Secretary-General Paseka oa Moshwadiba during the PGC in QwaQwa.

TM Cleaning campaign launched in Bohlokong

Thabo Mofutsanyana Executive Mayor Malefu Vilakazi launched a government cleaning programme campaign last Friday at Bohlokong, Bethlehem.

According to Vilakazi, the campaign aims at ensuring that areas where communities live

are kept clean for better health conditions.

"You cannot say you are a good South African if you live in a dirty environment and our aim is to ensure that we put more effort into this campaign so that we avoid hazards to our health," said Executive Mayor Vilakazi.

She continued by saying she will try to intensify this cleaning programme campaign by also trying to have potholes repaired that are found in roads of local municipalities as they are not a positive reflection on the community.

"We will also offer some tips on how community members can make a living out of rubbish such as bottles and

papers because they can be recycled for money," she added.

Vilakazi said she has engaged the Free State Department of Public Works and Infrastructure to offer assistance as most local municipalities do have no enough resources for cleaning campaigns and said she is impressed with the way Maluti-a-Phofung is conducting its cleaning programme campaign.

In photo: Thabo Mofutsanyana Executive Mayor Malefu Vilakazi is being helped by her IDP Manager Thokozile Vanqa during the launch of cleaning programme campaign in Bohlokong.

Job Applicants

From the Lawyer's pen

It happens from time to time that a person applies for a job, attends an interview, accepts the offer from the employer but is then informed that the offer is withdrawn or that the person does not need to report for work.

In terms of the Labour Relations Act, a person who was offered a position and then deprived of the opportunity to start working, may under certain circumstances lodge an unfair dismissal dispute.

However, it is important that an Employer / Employee relationship must have been established first before a prospective Applicant will succeed with a claim against his or her Employer.

It is important to mention that not all cases where an offer was withdrawn will constitute an alleged unfair dismissal. T

he facts of each case should be carefully considered before any legal action is taken. Employers are also advised to

get professional advice when they advertise a post, conduct interviews and consider making an offer to the successful Applicant.

NOTICE OF THE AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT(EIR) AND THE DRAFT ENVIRONMENTAL MANAGEMENT PROGRAMME(EMPr) FOR PUBLIC REVIEW AND COMMENT

PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE LOCATED ON PORTION 110 OF THE FARM WITSIESHOEK, 1903 AT PHUTHADITJHABA QWAQWA, WHICH FALLS UNDER THE MALUTI-A-PHOFUNG LOCAL MUNICIPALITY, FREE STATE PROVINCE

The DETEA (Free State Province) Waste Management License Reference: WML/EIA/10/2014

Name of Applicant: Maluti-A-Phofung Local Municipality

Notice is hereby given in terms of Chapter 6, National Environmental Management Act 107 of 1998 (as amended) Regulations 2010(as amended), the National Environmental Management: Waste Act 59 of 2008, GN 921 of November 2013 Section 4, on the availability of the draft EIA and draft EMP for public review and comments (Proposed Maluti-A-Phofung Landfill Site). An application of intent to conduct an Environmental Impact Assessment pursuant to a Waste Management License for the activities was lodged with the Department of Economic Development, Tourism and Environmental Affairs on the 19th of September 2014.

The proposed development involves the establishment of a landfill site at the above mentioned location, of which it is anticipated that the Landfill Site will be servicing the following three areas, Harrismith, Kestel and Phuthaditjhaba. The landfill site is estimated to be approximately 20 hectares in size, with a four cell approach in terms of the design. Other associated infrastructure include: Recycling facility (thus a buy-back center), Compost facility and an area allocated for inert waste disposal.

According to the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), Government Notice 921 29 November 2013, category B, Section 4 pursuant to the Waste Management license an Environmental Impact Assessment is required for the following identified activities.

- **Government Notice 921 29 November 2013, Category B.**
- Activity (8), the disposal of general waste to land covering in excess of 200m2 and with a total capacity exceeding 25 000 tons.
- Activity (9), the disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorized by or under other legislation.
- Activity (10), the construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).

The Draft EIR and Draft EMPr will be available for Public Review from the 01st July 2015 to 07th September 2015. Hard copies of the report are available for review, at the following Public areas: Phuthaditjhaba Library, Kestell Library and Harrismith Library .

On written request hard copies can be obtained from Tholoana Consulting: email -vusi@tholoanaconsulting.co.za , Tel No: 011 704 5071. Please address your comments in writing to the EAP. Further detail/information on the proposed Maluti-A-Phofung Landfill Site can be obtained from the Environmental Consultants indicated below.

Dear Ms Matsoele

RE: REQUEST FOR PLACING OF THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE DRAFT EIR AND DRAFT EMPr FOR PUBLIC REVIEW

This letter serves as request as per previous communication from Tholoana Consulting to place the Draft EIR and Draft EMPr report at the Library so that it can be viewed by the Public. Tholoana Consulting will courier the report to the Library either by Monday or Tuesday it should be received.

The Public Participation Process for the proposed MAP landfill site started on the 01st July 2015 and will be ending on the 7th September 2015. An updated report will be sent to the Library aswell around August 2015.

Tholoana Consulting would also like to thank the Library for the assistance given thus far in terms of accepting the previous reports and placing them within the library for Public access.

Yours Sincerely

Mr. Vusmuzi Hlatshwayo

RE: REQUEST FOR PLACING OF THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE DRAFT EIR AND DRAFT EMPr FOR PUBLIC REVIEW

This letter serves as request as per previous communication from Tholoana Consulting to place the Draft EIR and Draft EMPr report at the Library so that it can be viewed by the Public. Tholoana Consulting will courier the report to the Library either by Monday or Tuesday it should be received.

The Public Participation Process for the proposed MAP landfill site started on the 01st July 2015 and will be ending on the 7th September 2015. An updated report will be sent to the Library aswell around August 2015.

Tholoana Consulting would also like to thank the Library for the assistance given thus far in terms of accepting the previous reports and placing them within the library for Public access.

Yours Sincerely

Mr. Vusmuzi Hlatshwayo

Attachments: BID Maluti.pdf

Dear I&AP

Please find attached background information document for the proposed Maluti-A-Phofung Landfill Site. Please note this is the first phase of the public participation process in accordance with the National Environmental Management Act(107 of 1998,as amended) Regulations of 2010 pursuant the Waste Management License. Furthermore to this process of the Environmental Impact Assessment for the proposed project, site notices will be placed on site, at the Local Libraries and Clinics around Phuthaditjhaba. Publications on the Eastern Free State Issue will be out tomorrow the 13th November 2014.

For further details please do not hesitate to contact Tholoana Consulting on the details provided below.

BACKGROUND INFORMATION DOCUMENT FOR THE PROPOSED EIA PROCESS PURSUANT WASTE
MANAGEMENT LICENSE OF THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE

Dear Mr. Betsi Mofokeng

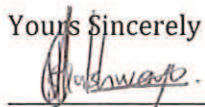

This letter serves as a formal notification as per the previous communication done between you and Tholoana Consulting in connection with the proposed Maluti-A-Phofung landfill Site. As indicated attached to this letter is the poster (English and Sotho version) that needs to be erected at your ward office for public review and comment, included are the background information documents that can be distributed aswell upon request. Further details in terms of the EIA process including the Waste Management License process and the description of the proposed landfill site will be obtained in the background information document.

In addition kindly note that this is the 1st phase of the Public Participation process in terms of the EIA/Waste management license process where Tholoana Consulting is trying to establish rather determined Interested or Affected parties. This is done in a way that the public is given the opportunity to comment or register as interested or affected parties so as to also ease the process of notification during the phase of the EIA process.

As indicated in the email sent there will be a newspaper advert that will be going out on the eastern Free State issue by the 13th November 2014. Kindly note that the period for the Interested and Affected Party registration ends on the 9th January 2014.

Trusting that the above and attached is in order. Do not hesitate to contact Tholoana Consulting in terms of the above, either telephonically or by email.

Yours Sincerely

Mr. Vusumuzi Hlatshwayo, Tholoana Consulting, Tel: 011 704 5071, Fax:
