Free State Province DETEA Ref : WML/EIA/10/2014

Dear Simon Tefo

RE: NOTICE OF THE AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT (EIR) AND THE DRAFT ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) FOR PUBLIC/STAKEHOLDER REVIEW AND COMMENT

The Proposed Maluti-A-Phofung Landfill Site is located on Portion 110 of the farm Witsieshoek, 1903 at Phuthaditjhaba (QwaQwa), which falls under the Maluti-A-Phofung Local Municipality, Free State Province.

This letter serves as a notification given in line with Regulation 56 of the National Environmental Management Act 107 of 1998, Environmental Impact Assessment Regulations 2010(as amended), that the Draft Scoping Report of the proposed Maluti-A-Phofung landfill site is available for public review.

This letter serves as notification given in terms of Chapter 6, National Environmental Management Act 107 of 1998 (as amended) Regulations 2010(as amended), the National Environmental Management: Waste Act 59 of 2008, GN 921 of November 2013 Section 4, on the availability of the draft EIA and draft EMP for public review and comments (Proposed Maluti-A-Phofung Landfill Site). An application of intent to conduct an Environmental Impact Assessment pursuant a Waste Management License for the activities was lodged with the Department of Economic Development, Tourism and Environmental Affairs on the 19th of September 2014.

Furthermore on submission of the Final Scoping Report, the DETEA Free State Province has sent an acknowledgement of the Scoping Report and advised Tholoana Consulting to continue with the planned studies contained in the Scoping Report, thus move to the EIA phase of the proposed development.

Project Description

The proposed development involves the establishment of a landfill site at the above mentioned location, of which it is anticipated that the Landfill Site will be servicing the following three areas, Harrismith, Kestel and Phuthaditjhaba. The landfill site is estimated to be approximately 20 hectares in size, with a four cell approach in terms of the design. Other associated infrastructure include: Recycling facility (thus a buy-back center), Compost facility and an area allocated for inert waste disposal.

NEM: WA (59 of 2008) triggered activities

According to the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), Government Notice 921 29 November 2013, category B, Section 4 pursuant to the Waste Management license an Environmental Impact Assessment is required for the following identified activities.

Government Notice 921 29 November 2013, Category B.

- Activity (8), the disposal of general waste to land covering in excess of 200m² and with a total capacity exceeding 25 000 tons.
- Activity (9), the disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorized by or under other legislation.
- Activity (10), the construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).

The Draft EIR and Draft EMP_r will be available for Public Review from the 01st July 2015 to 07th September 2015.

On written request hard copies can be obtained from Tholoana Consulting: Email – vusi@tholoanaconsulting.co.za, Tel No: 011 704 5071. All comments should be addressed in writing to the EAP.

Further detail/information on the proposed Maluti-A-Phofung Landfill Site can be obtained from the Environmental Consultants indicated below.

Yours Sincerely

Mr. Vusmuzi Hlatshwayo

					<p>DISPOSAL FACILITIES AND MONITORING REQUIREMENTS. AS PART OF THE WASTE MANAGEMENT LICENSE PROCESS, AN APPLICATION WAS SUBMITTED TO DEPARTMENT OF ECONOMIC, SMALL BUSINESS DEVELOPMENT, TOURISM AND ENVIRONMENTAL AFFAIRS, FREE STATE PROVINCE (DESTEA). THE WASTE MANAGEMENT PROCESS (THE APPLICATION OF EIA PROCESS ACCORDING TO THE NEMA REGULATIONS 2010, AS AMENDED) WAS DONE AND THE DRAFT SCOPING REPORT WAS SUBMITTED TO THE MUNICIPALITY FOR COMMENTS. THE FOLLOWING ISSUES ARE THEREFORE HIGHLIGHTED AS FOLLOWS:</p> <p>* THE ACCESS ROAD TO THE LANDFILL SITE IS GRAVEL (THERE IS A NEED FOR THE MUNICIPALITY TO UPGRADE THE ROAD. THE ROAD WOULD BE BUDGETED FOR IN THE NEXT FINANCIAL YEAR AND WILL BE INCLUDED IN THE IDP OF THE MUNICIPALITY).</p> <p>*THE BUDGET IS NOT ENOUGH FOR THE IMPLEMENTATION OF THE PROJECT. (THIS PROJECT WILL BE IMPLEMENTED IN PHASES, THE MUNICIPALITY HAS ALREADY DEVELOPED A BUSINESS PLAN FOR ADDITION MIG FUNDING TO ACCOMMODATE OTHER PHASES)</p> <p>*THE LAND IS NOT ZONED FOR THIS PURPOSE (A REQUEST WAS MADE TO APPOINT SERVICE PROVIDER TO ASSIST ON THE APPLICATION FOR THE SUBDIVISION AND REZONING OF THE LAND. IT IS RECOMMENDED THAT THE IMPLEMENTATION OF DEVELOPING A LANDFILL SITE BE CARRIED FORWARD WHILE WAITING FOR APPROVAL ON THE REZONING).</p> <p>*THE PROVISION OF WATER AND ELECTRICITY WERE ALSO IDENTIFIED AS A CHALLENGE (THE MUNICIPALITY WOULD MAKE PROVISION FOR THE IDENTIFIED INFRASTRUCTURE)</p>

**RE: WASTE MANAGEMENT LICENSE APPLICATION FOR THE PROPOSED MALUTI-A-PHOFUNG
LANDFILL SITE**

This letter serves to inform you that you have been registered as an Interested and Affected Party (I&AP) for the proposed Maluti-A-Phofung Landfill Site.

Thank you for your comments/questions raised on the above mentioned project. Please note that Tholoana Consulting values your questions/comments raised and we have made note of your comments/questions.

Your comments will be forwarded to the Project managers/Applicant, All Green Consultants and will be attended to/ responded to, in addition attached to this letter please find the background information document of the proposed landfill site.

Note be made that all the reports for the project will be made available to the registered I&APs before submission to the competent authority.

Please do not hesitate to contact Tholoana Consulting for further details.

Yours Sincerely

Dear Ms RA Moloi

**RE: WASTE MANAGEMENT LICENSE APPLICATION FOR THE PROPOSED MALUTI-A-PHOFUNG
LANDFILL SITE**

In addition to the previous communication sent to you indicating that the you have been registered as an interested and affected party, you sent an email to Tholoana Consulting indicating that you have interest on the recycling facility for the proposed Maluti-A-Phofung landfill site.

The response as received from the engineers is as follows: There will be no installation of an automated recycling plant. However provision has been for a recycling centre which will be used to sort wastes into different categories then sold to recycling specialists.

In brief the facility is more of a sorting facility than a recycling facility.

Tholoana Consulting values your comments and views, thus your comments are highly appreciated. Kindly do not hesitate to contact Tholoana Consulting in terms of the above.

Yours Sincerely

Vusmuzi Hlatshwayo

Subject : Comment on LANDFILL SIDE at Ward 32

MALUTI A PHOFUNG MUNICIPALITY FREE STATE (FS 194)

With reference to the advertisement that you have done in our Municipality particularly WARD 32 applications for Waste Management Licence. I discussed this matter with community in public meeting. Community felt that access roads, S20 Kgoledi ya Manka, Tebang to Bluegumbosch and Khabisi to Boitelo School must be paved because heavy trucks will be utilising that roads. No objection was done to your advertisement.

I will be happy if this matter can be taken into consideration.

DETEA Reference: WML/EIA/10/2014

Dear Cllr. Betsie Mofokeng

RE: WASTE MANAGEMENT LICENSE APPLICATION/DRAFT SCOPING REPORT FOR THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE

This letter serves as the response to the letter received by Tholoana Consulting on the 08th January 2015.

The details of the letter received are as follows:

Received: "With reference to the advertisement that you have done in our Municipality particularly WARD 32 applications for Waste Management Licence. I discussed this matter with community in public meeting. Community felt that access roads, S20 Kgoledi ya Manka, Tebang to Bluegumbosch and Khabisi to Boitelo School must be paved because heavy trucks will be utilising that roads. No objection was done to your advertisement. I will be happy if this matter can be taken into consideration."

In line with the comment/issue raised the response from the applicant, Maluti-A-Phofung Local Municipality Environment and Solid Waste Manager (Mr Steve Nhlapo) is as follows:

Response: The access roads to the proposed landfill site will be gravel, thus there is a need for the municipality to upgrade the road. This will be budgeted for in the next financial year and will be included in the municipal IDP aswell.

Furthermore, Tholoana Consulting would like to indicate that during the EIA phase, mitigation measures in terms of how the dust generated as a result of movement of construction vehicles, will indicated in the Environmental Management Plan, which is submitted with the Final Environmental Impact Assessment Report for the decision.

Thank you for your comments/questions raised on the above mentioned project. Please note that Tholoana Consulting values your questions/comments raised.

Note be made that all the reports for the project will be made available to the registered I&APs before submission to the competent authority.

Please do not hesitate to contact Tholoana Consulting for further details.

Yours Sincerely

Dear Simon Tefo

RE: NOTICE OF THE AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT (EIR) AND THE DRAFT ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) FOR PUBLIC/STAKEHOLDER REVIEW AND COMMENT

This letter serves as a response to the previous letter sent to Tholoana Consulting requesting for funding. Tholoana Consulting acknowledges receipt of your letter on behalf of the Phaphamang Sechaba Co-operative and values your comments.

Tholoana Consulting does not offer any funding to co-operatives. Tholoana Consulting was appointed by All Green Consultants on behalf of the Department of Environmental Affairs to manage the Waste Management License process of the Proposed Maluti-A-Phofung Landfill site. In light of the above various organisations i.e. DBSA which looks at funding green projects can be approached for funding.

Tholoana Consulting would further like to advice that the co-operative should try and approach the LED Department within the municipality.

Contacts for DBSA are as follows: P O Box 1234, Halfway House, 1685, webmaster@dbsa.org , +27 11 313 3911

Yours Sincerely

Mr. Vusmuzi Hlatshwayo

Dear Lebogang Msemanga

RE: WASTE MANAGEMENT LICENSE APPLICATION/DRAFT SCOPING REPORT FOR THE PROPOSED MALUTI-A-PHOFUNG LANDFILL SITE

This letter serves as the response to the letter received by Tholoana Consulting on the 29th January 2015.

The details of the letter received are as follows:

"I AM LEBOHANG MSEMANGA FROM QWAQWA AND I AM 23 YEARS OLD.I COMPLETED MY MATRIC 2010 AND I PASS WITH SYMBOL B.

I COULDN'T WAIT TO GET OUT OF SCHOOL AND SEE WHAT LIFE HAD IN STORE FOR ME,WHAT THE "BIG BAD WORLD" HAD WAITING FOR ME. I WAS SO EXCITED, SO SURE OF MYSELF, AND SO READY TO TAKE ON THE WORLD.

I SPEND MY ENTIRE LIFE AT HIGH SCHOOL WRITING POEMS, NOVELS, LOVE STORIES AND ENCOURAGEMENT EVEN NOW I AM STILL WRITING.

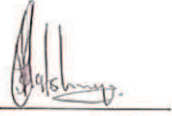

SO ALL I NEED NOW IS SPONSORSHIP BECAUSE I REALLY NEED LAPTOP, FAXING MACHINE, PRINTING MACHINE AS WELL AS FINANCIALS"

Response: Kindly note that your comment/issue/request raised has been received by Tholoana Consulting, furthermore the request has been forwarded to the applicant being Maluti-A-Phofung Local Municipality for a response, this will further guide in terms of which relevant department within the Maluti-A-Phofung local municipality you can approach for the request for sponsorship.

Note that the proposed project entails the establishment of a landfill site for the Maluti-A-Phofung Local municipality, thus does not entail provision of sponsorships. However kindly note that once a response in terms of the relevant department to approach has been received, this will be communicated to you.

Please do not hesitate to contact Tholoana Consulting for further details.

RE: COMMENTS ON SCOPING REPORT FOR THE PROPOSED MALUTI –A- PHOFUNG LAND FILL SITE

Dear Sir/ Madam

The Department of Environmental Affairs appointed All Green Environmental Consultants cc to develop a new landfill site in Qwaqwa and Tholoana Consulting was appointed by All Green to act as independent environmental consultants for the proposed Landfill Site, thus to undertake the Environmental Impact Assessment as required by the National Environmental Management (Act no 107 of 1998, as amended) Regulations of 2010 and the National Environmental Management: Waste (Act no 59), government notice 718 of activities that require an Environmental Impact Assessment so as to obtain a waste Management License.

The waste management license process was pursued in accordance with the National Environmental Management: Waste (Act no 59), Environmental Management act, and 1998(Act No. 107 of 1998), as amended (EIA regulations) and the waste Management guidelines in terms of requirements for waste disposal facilities and monitoring requirements. As part of the Waste Management License process, an application was submitted to Department of Economic, Small Business Development, Tourism and Environmental Affairs, Free State Province (Destea). The waste Management Process (the application of EIA process

according to the NEMA regulations 2010, as amended) was done and the draft scoping report was submitted to the municipality for comments. The following issues are therefore highlighted as follows:

- The access road to the landfill site is gravel (There is a need for the municipality to upgrade the road. The road would be budgeted for in the next financial year and will be included in the IDP of the municipality).
- The budget is not enough for the implementation of the project. (This project will be implemented in phases, the municipality has already developed a business plan for addition MIG funding to accommodate other phases)
- The land is not zoned for this purpose (a request was made to appoint service provider to assist on the application for the subdivision and rezoning of the land. It is recommended that the implementation of developing a landfill site be carried forward while waiting for approval on the rezoning).
- The provision of water and electricity were also identified as a challenge (The municipality would make provision for the identified infrastructure)

The community of Maluti -a- Phofung would benefit from this project both on health environment and job creation.

Hope you will find this in order

Thank you

NHLAPO M.S
MANAGER: ENVIRONMENT AND TOURISM DEVELOPMENT.

Email: vusi@tholoanaconsulting.co.za

Dear Mr Hlatshwayo

We thank you for submitting the documents for the abovementioned development project for commenting.

Please note that a Palaeontological Impact Assessment (PIA) is a standard requirement in the Free State. In this particular case we would like to emphasize that the proposed area of development falls within a highly sensitive palaeontological area and do we urge you to submit a palaeontological assessment from a suitably qualified professional at your earliest convenience.

Accordingly, herewith our comment on the Phase I Archaeological Impact Assessment compiled by Vhufa Hashu Heritage Consultants:

In terms of the Minimum Standard Guidelines for Phase I Archaeological Impact Assessments as referred to on page 2 of their report, we would like to point out that

the report does not meet the required standards in terms of the following of these guidelines. Please refer to Point 7, pages 6-11, of the attached document.

1. Point 7.1(E) – refer to comments below in this regard
2. Point 7.1(F)(a)(ii) and (iii)
3. Point 7.1(G)(a) & (b) including all sub-points of each
4. Point 7.1(H)(e)

We wish to make specific mention of the poor quality of the report in terms of the background to the archaeological history. Although we welcome all suitably qualified specialists to report on issues in the Free State, we require they should ensure that they are well acquainted with the history and geography of this province, especially the areas they report on. That is indeed the purpose for Point 7.1(E) in the document referred to above.

The Phuthaditjhaba/Witsieshoek/QuaQua area has a rich and diverse history dating as far back as the early 1800s (referring to the historical period alone) of which no mention is made in this report. Should the specialist have been aware of this, it would've resulted in social consultation with, at the minimum, the traditional leaders of various well-recorded groups in the area to ensure that development of this area does not endanger areas of cultural significance. This is of particular importance because the report claims that from an archaeological and cultural heritage resources (own emphasis) perspective, there are no objections to the proposed development.

Most of the historical references in the report refer to the southern (Xhariep district) and south-eastern (Motheo district) regions of the Free State in particular. This area under investigation is situated in the eastern Free State which reverts back to the earlier comment that specialists should ensure they are well acquainted with the geography of a province.

The vagueness of the references to the earlier archaeological periods in this report is also not conducive to good reporting. Although it is indeed good practice to provide a broader background to each specific archaeological period under discussion, it should always be done in relation to the area under investigation.

We, therefore, recommend that you request that the Archaeological Impact Assessment report be amended accordingly before the final scoping phase of this EIA process.

Should you have any further queries, please do not hesitate to contact us.

Yours faithfully

LOUDINE PHILIP
CHAIRPERSON : PERMIT COMMITTEE
HERITAGE FREE STATE

Good Day

Please find attached amended Heritage Report for the proposed Maluti-A-Phofung Landfill site. In terms of the Palaeontological Impact, Tholoana Consulting has noted that it needs to be done, however the assessment will run concurrently with the EIA phase of the proposed Development.

Kindly note that the report has been loaded to the SAHRIS system. Tholoana Consulting would like to further receive guidance on the comments to be received in terms of reports, thus by automatically loading to the SAHRIS system does it mean that one is to automatically receive comments aswell from SAHRA or SAHRA needs to be notified upon loading the reports, if so in that regard who does the notification go to in terms of the loaded reports.

Looking forward to your comments in terms of the attached.

Dear Ms Ntando Mbatha

RE: COMMENTS ON THE DRAFT SCOPING REPORT AND THE FINAL ENVIRONMENTAL IMPACT ASSESSMENT REPORT (EIR) AND THE ENVIRONMENTAL MANAGEMENT PROGRAMME (EMPr) FOR PUBLIC/STAKEHOLDER REVIEW AND COMMENT

The Proposed Maluti-A-Phofung Landfill Site is located on Portion 110 of the farm Witsieshoek, 1903 at Phuthaditjhaba (QwaQwa), which falls under the Maluti-A-Phofung Local Municipality, Free State Province.

This letter serves as a response to the comments received from the FSHA dated 2015/04/16. The letter contained the following comments:

- A Paleontological Study is a standard requirement within the Free State Province
Note - RE: The PIA has been done by Dr H. Fourie and is attached in EIA report for further comments. All documents have been loaded into the SAHRIS system.
- An amendment of the HIA was requested, with specific points for amendments
Note - RE: The HIA amendment was done and submitted on the 01 June 2015. No further comments have been received. All documents have been loaded into the SAHRIS system

Project Description

The proposed development involves the establishment of a landfill site at the above mentioned location, of which it is anticipated that the Landfill Site will be servicing the following three areas, Harrismith, Kestel and Phuthaditjhaba. The landfill site is estimated to be approximately 20 hectares in size, with a four cell approach in terms of the design. Other associated infrastructure include: Recycling facility (thus a buy-back center), Compost facility and an area allocated for inert waste disposal.

NEM: WA (59 of 2008) triggered activities

According to the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), Government Notice 921 29 November 2013, category B, Section 4 pursuant to the Waste Management license an Environmental Impact Assessment is required for the following identified activities.

Government Notice 921 29 November 2013, Category B.

- Activity (8), the disposal of general waste to land covering in excess of 200m² and with a total capacity exceeding 25 000 tons.
- Activity (9), the disposal of inert waste to land in excess of 25 000 tons, excluding the disposal of such waste for the purposes of levelling and building which has been authorized by or under other legislation.
- Activity (10), the construction of a facility for a waste management activity listed in Category B of this Schedule (not in isolation to associated waste management activity).

NOTIFICATION

Kindly note that the PPP period for the Draft EIA and Draft EMPr has ended on the 09th September 2015. Tholoana Consulting would like to further receive comments in terms of the HIA (amended) and the PIA.

Yours Sincerely

Mr. Vusmuzi Hlatshwayo

Dear Ms Keagalaletsa Gobolawamang

Your request for the Draft EIA and Draft EMPr has been noted. Kindly note there was an error with the newspaper advert that went out on the 24th June 2015, however the new Public Participation dates will be communicated on the 01st July 2015. Kindly furnish Tholoana Consulting with more details in terms of your address and interest to the proposed disposal site as we need to capture on the Interested and Affected Parties register.

Please note that you will be registered as an I&AP and will receive all reports pertaining to the proposed MAP disposal Site.

Kind Regards

Subject: RE: MALUTI-A-PHOFUNG LANDFILL SITE

Dear Simon,

Kindly note that DWS comments will be sent to DEA and/or DESTEA on request and not to the consultants. However DWS did indicate at the site inspection that there appears to be no water related issues at that stage. Please update us on the EIA process and the milestones achieved regarding this project since we last met.

Much appreciated,

Sincerely,

Thya Pather
