

PROPOSED TOWNSHIP DEVELOPMENT ON ERF 2642 AND PORTION 14 OF FARM 48, OPWAG, !KHEIS LOCAL MUNICIPALITY

APPLICANT: !Kheis Local Municipality

COMMENT AND RESPONSE REPORT

(DENC Ref. No: TBC)

No.	Comment Date, Comment Format, Organisation/I&AP	Comment	Response from EAP/Applicant/Specialist/Project Manager Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
		Gariep Watch is a civic society organisation that endeavours to protect the lower Orange River through effective monitoring and data collection, improved communication by role-players and the enhancement of public participation. We noted your abovementioned NEMA Public Participation Process (Ref. 0512) for a new township development at Topline, with much concern.	Respondent: EAP Noted. Thanks for your comment.
1	Date: 17/06/2020 Format: Email Letter I&AP: Gariep Watch (Chairman: Mr Ferdie Botha/ Technical Advisor: Mr Fritz Bekker)	Gariep Watch performs quarterly water quality studies and a risk assessment procedure at various localities in the lower Orange River including the river reach flowing through the !Kheis Local Municipalities jurisdiction. Our water quality results show that a number of point and diffuse sources of sewerage pollution may be affecting the surface and ground water resources in the vicinity of these townships and beyond. Furthermore, recent site visits to sewerage water infrastructure at these !Kheis townships showed that much of the sewerage water infrastructure is not being maintained or used for it intended purpose. Pump stations to the oxidation dam systems are not working, sewerage infrastructure is being vandalized, oxidation dam linings are damaged or removed and raw sewerage is being disposed into the veld or towards dry water courses.	Respondent: EAP Noted, issues relating to the water quality and sewage infrastructure will be addressed in the Environmental Impact Report (EIR). A Freshwater Assessment, and Engineering Report detailing services infrastructure, will be included in the EIR.

Organisation/I&AP	The photographs in Figure 1 show some of the oxidation dam systems encountered at !Kheis Local Municipality during 2019.	Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
	 Figure 1: Oxidation dam systems at IKheis Local Municipality (2019) The extension of existing townships that already have inadequate, unmaintained or unused sewerage infrastructure will only aggravate their pollution risk towards the downstream environment. We therefore object to any new township development in the !Kheis Local Municipality and request the following information: A list of all new proposed township developments in the !Kheis Local Municipality where EnviroAfrica CC is the appointed environmental practitioner. Details pertaining to new sewerage infrastructure that are planned for these developments. 	 Requested information has been sent to the I&AP. Noted, this will be addressed in the EIR. An Engineering Report detailing services infrastructure, will be included in the EIR.
	Please also register Gariep Watch as an I&AP for these new township developments.	Noted, Gariep Watch has been registered as an I&AP.

No.	Comment Date, Comment Format, Organisation/I&AP	Comment	Response from EAP/Applicant/Specialist/Project Manager Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
		We have received a publication regarding the proposed project for extending the current housing in this location with a further 730 low income erven.	Respondent: EAP
		We live in the Opwag area and are daily in the Township as our permanent and temporary workers live there. We also have participated in outreaches and have a close relationship with some of the people currently living there.	
		Our concerns are:	
2	Date: 16/06/2020 Format: Email Letter I&AP: Schalk and Marike van der Merwe (smvdmhome@gmail.c om) (074 366 2276)	<u>Water</u> During winter the canal that provides water for this section also have 4 dry periods of 14 days each. The dry periods are in sections of mostly 2 weeks and sometimes there is an interval of three weeks. Almost every time after the first weekend of the 2 week interval, the people that works with us ask if they can borrow our water tanks (which are on wheels), fill up the water tank from our borehole, because there in no water. We provide that, but the situation is that the management of water via their water truck is not consistent and it cost them allot of money.	Noted, the supply of water to the proposed development will be addressed in the EIR. An Engineering Report detailing services infrastructure, will be included in the EIR.
		<u>Medical</u> The clinic is in Groblershoop which is around 8km from the township. Most of the residents of the Township do not have vehicles and there are also not regular trips to town via taxis. The people then must walk to the clinic. Medical service currently does not exist in the Township, and I cannot foresee that n clinic will be stationed in the township, within the near future. (Areas outside Groblershoop, like Wegdraai and Boegoeberg, do not have sufficient medical care, and they have so-called clinics)	Noted. The Municipality (Applicant) and/or planners will address medical care in the EIR.
		<u>School</u> At the moment the nearest school is around 3km far. Most of the children walk to school and is a big concern for the vehicle drivers, as they use the same road to walk to and from school which the vehicles use. The school is already full and if more children attend the school then new classrooms needs to be build.	Noted, The Municipality (Applicant) and/or planners will address road safety and institutional facilities in the EIR.

No.	Comment Date, Comment Format, Organisation/I&AP	Comment	Response from EAP/Applicant/Specialist/Project Manager Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
		Theft We live and farm about 3km from the township. When the crops are almost ready for harvest, people stealing the crops are a real concern. Crops include grapes, pecan nuts, maize, Lucerne etc. Sheep farming is extremely high risk as people take the sheep out of a secure location and slaughter the animal for his own purpose. Sometimes even the people that are working with us, they get death threats if they try to stop the stealing of the crops. Most of the people that do work, work on the farms as general workers. If people steal the crops, then eventually there will not be any work for the people that want to work which just creates an more negative cycle. Stealing of poles inside the vineyard is also a big concern. The people come and steal the poles which are used for the vineyard. They use the poles to build their houses. All vacant houses on the Opwag road have been demolished, for building parts in the township.	Noted, The Municipality (Applicant) and/or planners will address security in the EIR.
		Here is already not enough work for the people staying in this township, with even more houses and occupancy the problem of theft will only escalate.	Noted, short- and long-term employment opportunities will be addressed in the EIR.
		<u>Safety</u> As previously mentioned, stealing of the crops and poles, but also the safety of general workers living and working on the farm premises are a concern. Homeowners are also making sure that their security around their premises is right.	Noted, the Municipality (Applicant) and/or planners will address safety and security in the EIR.
		<u>IKheis Municipality</u> This township will resort under this municipality. We as farm is busy for the last 8 years to try and buy erven in town for our workers for the day they retire. The municipality have appointment more than one consultancy to help them to do the sub-division of this land. This process has not been finished. We also do not get any regular bills as a farm community from the municipality. I can send proof of both these statements. My concern is, how the municipality that is already under constrain and cannot deliver basic services in there current surrounding, how they want to supply services to a new town-area that is 8 km away. Last month we had to lend them a tipper so they can remove the house- rubbish. Up to this stage, we do not even have a fenced rubbish-hole in	Noted, The Municipality (Applicant) and/or planners will address service delivery in the EIR. An Engineering Report detailing services infrastructure, will also be included in the EIR.

No.	Comment Date, Comment Format, Organisation/I&AP	Comment	Response from EAP/Applicant/Specialist/Project Manager Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
		town, because the costs are too high. For this development so far from town, they will need to set up a second rubbish-hole. So how will a development of this extend be funded? My parents stay in town, and sometimes they need to wait for weeks for sewerage-removal, again, how will this municipality be able to service and development of this extend so far from town.	The Municipality (Applicant) and/or planners will address funding in the EIR
		My question, then, how did they appoint a new consultancy to start this development, if they do not have money to cover basic services, and current town-expansions.	Noted, The Municipality (Applicant) to address in the EIR.
		The people currently staying in this township, are extremely excited about this development, because they have been promised that they will get free of charge new brick homes, with this new expansion. Some of our workers, staying in this township has stopped building their current houses, because they will get a brick house from the developers.	Noted, thank you for the comment.
		We also want to register as an interested and affected party to this development.	Noted, you have been registered as an I&AP.
3	Date: 26/06/2020 Format: Email Letter I&AP: Elize Joseph (060 673 5261)	 Ek wil graag met hierdie brief registreer om verdere nuus van hierdie ontwikkeling to ontvang, en om verdere vergaderings te kan bywoon. 		 Kerke bou in Uitkoms wat elke Sondag gebruik word. Vervoer vir die skoolkinders wat skool toe staap met die voet Sentrum wat kinders besig ou naweke wat kinders weghou van dwelems en alkohol. 	(Applicant) and/or planners will also address safety and security in the EIR.
		Asb, Dankie.	
		We have received a publication regarding the proposed project for extending the current housing in this location with a further 730 low income erven.	Respondent: EAP
17	Date: 27/06/2020 Format: Email Letter I&AP: Lentelie Fourie (lentelie.fourie@gmail.c om) (082 703 1015)	We live just across the Uitkoms Township and are there on a daily basis. I do work with the Children in the township during holiday times and we have started a soup kitchen in this area.	
		We are very positive regarding the upliftment of the town as it is.	
		 We are aware of unhappiness regarding the start of this project, there have been a lot of misinformation doing the rounds in Uitkoms. 1. Someone told the people they will receive brick houses. 2. Someone informed all, not to sign any paper and not to register as an affected party because their land will be taken away from them. Regarding this, I feel it is the project managers duty to inform ALL 	 Noted, this will be addressed by the Municipality (Applicant) and/or town planners in the EIR. Noted. The aim of the public participation process is to inform as many potential interested and affected parties regarding the proposed development as possible and respond to any comments which the I&APs have. This will be further addressed in the EIR.
		members from Uitkoms of a meeting to properly inform all living there, what will happen and why/how they should register as an affected party.	
		A lot of people cannot read English.	Noted. Where possible, communication with I&AP in Afrikaans can be requested by the I&AP. Please note that only reports, written in English,
		The Schools for the children are between 3-12km far on a very bad tar road. In this township I know of 2 people that own vehicles and they rarely use them, because of the bad road and because of no maintenance shops/companies nearby and cost of maintenance on this bad road. With the development of Uitkoms, new schools should be built with the capacity to give education to ALL the children, because the current school capacity will not be able to help, they are already on full capacity.	are accepted by the Department of Environment: Nature Conservation. Noted, this will be addressed by the Municipality (Applicant) and/or town planners in the EIR.

No.	Comment Date, Comment Format,	Comment	Response from EAP/Applicant/Specialist/Project Manager
NO.	Organisation/I&AP		Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
		We would also like to emphasize water availability. Our friends are struggling with water, for many years now. They borrow water tanks from the nearby farmers to provide water for their families, there is no help from the !Kheis municipality regarding water provision for the people of Uitkoms. They have also been struggling with toilets.	Noted, The Municipality (Applicant) and/or planners will address service delivery in the EIR. An Engineering Report detailing services infrastructure, will also be included in the EIR.
		My concern is with little work opportunities as in our current situation, to open housing here, we would like to add that there should also then, be made provision for work opportunities? There are no big towns nearby, this also means, many people would be given a piece of land, but they would have nowhere to go to sustain themselves here in the middle of nowhere.	Noted. Short- and long-term employment opportunities will be addressed by the Municipality (Applicant) and/ or town planners in the EIR.
		The clinic is in Groblershoop which is far from township. Most residents do not have vehicles. Those with vehicles charge R100 a trip to town and back for a 20km journey. This will kill the economic wellfare of the people. Most people walk to clinic, most suffer because of that great distance, but they have no choice.	Noted. The Municipality (Applicant) and/or planners will address medical care in the EIR.
		BeAs previously mentioned, stealing of the crops and poles, but also the safety of general workers living and working on the farm premises are a concern. Homeowners are also making sure that their security around their premises is right.	Noted, the Municipality (Applicant) and/or planners will address safety and security in the EIR.
		We also want to register as an interested and affected party to this development.	Noted. You have been registered as an I&AP.
		Thank you for your reply on this letter, so that we can know that you have received the letter and that we are registered?	Thank you for your comments.
		Regards	
		Lentelie Fourie 8508100004088	
		(I will also copy 3 letters from my community friends that do not have email or data available. The live in UITKOMS.

	Date: 27/06/2020 Format: Email Letter I&AP: Melony Lucklick (076 779 9182)	Hiermee meld ek aan en wil asseblief deel wees van die ontwikkeling en besprekings asook vergaderings wat gehou gaan word rakende die ontwikkeling in Uitkoms te Groblershoop.	Respondent: EAP
20		Hiermee stem ek Melony Lucklick saam dat daar meer ontwikkeling is in Uitkoms en lopende water. Ek verwag dat daar groot verandering plassvind. Ek wil deel wees van die uitbruidings en vergaarderings.	Noted with thanks. As a registered I&AP you will be notified of the release of reports for comment.
		I live on plot 538, Wegdraai, just down the road towards Wegdraai from Opwag. My wife and I are both teachers at the schools in Groblershoop.	Respondent: EAP
	Date: 01/06/2020 Format: Email Letter I&AP: CG Buys (076 887 8284)	I am grateful for the concern to develop land for people to have their own place to live.	
21		 However, I am concerned with the quality of life in specifically the area where you plan the development, for the following reasons: The farming community around Uitkoms already do not provide enough job opportunities for the people living in Uitkoms. Short- and long-term employment opportunities will be addressed by the Municipality (Applicant) and/or town planners in the EIR.
		- If people living there find jobs elsewhere, transport is a problem. A gravel road serves the community to town which makes transport difficult	Noted, The Municipality (Applicant) to address in the EIR.

No.	Comment Date, Comment Format, Organisation/I&AP	Comment	Response from EAP/Applicant/Specialist/Project Manager Please note: All registered I&APs will be given the opportunity to comment on the draft EIR.
		 for ordinary taxis. At the moment the community is served by private bakkies, because taxis do not want to travel on the gravel road. Where unemployment thrives, theft, burglaries and many other socio economic problems arise. Is that what we want to create? Surely we want to ensure that communities are developed in areas where there are potential for job opportunities, etc. As teachers, my wife and I wish for the development of our area, but in a responsible way, keeping factors that can be detrimental to the long term wellbeing of all stakeholders in mind. Since you do not live here, I hope you listen to all parties involved that make a life and living here. 	Noted, the Municipality (Applicant) and/or planners will address safety and security in the EIR. Noted. Thank you for your relevant input and comments raised. This application for Environmental Authorisation is in line with the National Environmental Management Act (NEMA).
22	Date: 21/05/2020 Format: Email Letter I&AP: Deon Rossouw (0798816459) (drossouw7@gmail.com)	I am a plot owner next to Plot 2642, Opwag Groblershoop, and received and Nema PPR information letter yesterday.
