SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT FOR PROPOSED EXPLORATION DRILLING IN THE ORANGE BASIN DEEP WATER LICENCE AREA, WEST COAST, SOUTH AFRICA (DEA REFERENCE NO.: 14/12/16/3/3/2/704): NOTIFICATION OF AVAILABILITY OF DRAFT SCOPING REPORT FOR REVIEW AND COMMENT

Our previous correspondence of 15 April 2014 and subsequent correspondence with our Ms Elizabeth Dudley regarding the above-mentioned project, refer.

Shell South Africa Upstream B.V. (hereafter referred to as "Shell") is proposing to drill one or possibly two exploration wells in the northern portion of the Orange Basin Deep Water Licence Area in order to determine whether identified geological structures or "prospects" contain oil or gas in potentially commercial extractable amounts.

In October 2013 CCA Environmental (Pty) Ltd (CCA), in association with NMA Effective Social Strategists (Pty) Ltd (NMA), commenced with a Basic Assessment process for the above-mentioned project. Subsequently, in March 2014 a decision was taken in conjunction with the Department of Environmental Affairs (DEA) that a full Scoping and Environmental Impact Assessment (hereafter referred to as EIA) process should be undertaken. The initial application was thus withdrawn and an amended application form for a full EIA was submitted to DEA. The amended application form was accepted on 28 May 2014.

As part of the process in determining that a full EIA process should be undertaken, DEA requested that we liaise with you in order to determine if an Atmospheric Emissions Licence is required for the proposed project (specifically offshore incineration of waste and flaring) in terms of the National Environmental Management: Air Quality Act (39 of 2004) (NEM:AQA). It is requested that we meet with you and someone from your legal department in order to discuss the proposed project and applicability of NEM:AQA. Please could you confirm a date and time of such a meeting at your earliest convenience.

Notice is also hereby given, in terms of the National Environmental Management Act, 1998 (No. 107 of 1998), as amended, that a Draft Scoping Report (DSR) has been made available for a 40-day review and comment period from **28 July 2014 to 8 September 2014** (which makes provision for the public holiday on 9 August 2014). The DSR has been informed by comments received during the initial public participation process. Enclosed please find one hard copy of the report for your consideration.
