Subject: RE: Application for Prospecting Right

Dear Nomzama,

We have reviewed the documentation and the layout map that you forwarded.

Kindly note that the Eskom power lines do not traverse the area under application.

The Eskom power line to the east of our client's area of application runs east of the N10 national road and does not traverse the area under application. Tsebepix's application area is to the west of the N10 national road.

The Eskom power line to the south-west also does not traverse the area under application.

No exploration activities may take place outside Tsebepix's prospecting application area. Therefore there is no need to sign the documents you forwarded as there are not Eskom power lines that traverses the prospecting right area.

Kind regards
Tanja
