**RE: PROPOSED PROSPECTING OPERATION BY ALIDABIX (PTY) LTD ON
PORTION 3 (A PORTION OF PORTION 1 – STOMP OOR A) OF THE FARM
STOMP OOR 109, PRIESKA DISTRICT, NORTHERN CAPE PROVINCE**

We refer to your letter dated 7 June 2018, attached hereto for ease of reference.

M and S Consulting (Pty) Ltd acts on behalf of Alidabix (Pty) Ltd ("Alidabix") as an independent consulting company.

Find attached hereto the following documentation pertaining to the Prospecting Right application of Alidabix:

1. Copy of the Prospecting Work Programme;
2. Copy of the Regulation 2(2) Map;
3. Copy of the DMR Acceptance Letter; and
4. Copy of the final draft Basic Assessment Report and Environmental Management Programme, with annexures which includes copies of the public consultation process to date.

We also include the response form for comment which was send to your client on 24 May 2018 following his meeting with Messrs. van Deventer and Hamman, both directors of Alidabix. We have not received the completed form and we kindly request that you complete the form on behalf of your client and return it to us on or before 29 June 2018.

Kindly note that due to Mr. van Deventer's hospitalization the period for your and your client's comments has been extended to 29 June 2018.

Please feel free to contact the writer should you require any additional information.

Yours faithfully

Ms. T. Jooste

POSTAL ADDRESS	P.O. BOX 133 MARYDALE		
	POSTAL CODE	8410	
TEL NR		FAX NR	
CELL NR	0832445459	LANGUAGE	AFRIKAANS/ENGELS
Do you have any direct interest in the approval or refusal of the proposed prospecting right project?			
YES <input checked="" type="checkbox"/> NO <input type="checkbox"/>			

INTEREST:	TRUSTEE OF LANDOWNER
	- WATER RESOURCES WILL BE AT RISK (RISK) - PERMIT MUST BE OBTAINED FROM NATIONAL WATER ACT NO 36 OF 1998.

Do you wish to receive a copy of BAR / EMPR for perusal	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
---	---

Please mark applicable box.

Alidabix (Pty) Ltd

Please list any colleagues/friends or organizations that you feel should also be registered as an Interested and Affected Party for this Prospecting Right application process: (with contact details if available)

NAME/ORGANISATION	POSTAL ADDRESS	TEL NR	FAX NO
N/A			

What is your main area of interest or involvement with regards to the proposed project?

Owner of three adjacent properties formed as a unit Stampport A 2781 Bay // Stampport B 4009 HA + Speersport 3200. HA - extremely rare water resources permit to be limited to three years.

Do you support the proposed project? Please briefly state why:

Negative experience with prospecting works done on Sunday part Moss/PTN. under supervision of Directors Barend van der Merwe and Herman Hamman regarding violation of depth of boreholes, number of boreholes and breaching areas, trespassing outside permit area - on farms Chocadia.

Do you have any areas of concern regarding the proposed project? Please briefly list them below:

applicant must apply for water permit Oct 30/1998. here owner is already using 100000 per day for stock on the three farms. - No further boreholes closer than 500 meters of existing boreholes + comply with B/EE Requirements

Do anybody reside on the property - farm owner, farm workers, tenants? Please provide number of people and contact details of any tenants.

No. - FARM SECURITY CONSISTS of CCTV cameras which must be expanded and linked by applicant to owners of system.

What type of access exists to the property?

The old Van Wyke's River Road - Semutjale Road

Do access roads, if any, pass through other privately owned property, if so what are the requirements to use such road (e.g.: permission from neighbours or other surface owners)?

No

What is the main activity on the property (e.g.: Crop production, cattle farming etc.)?

Sheep + Cattle farming

Describe the dominant natural vegetation on the property, if any (savannah, grasslands, woody, forest etc.):

Karoo Bushveld
Savannah + grasslands

To your knowledge, are there any protected species (plants or animals) present on the property?

Hyenas and
Lions

If known, what is the average depth to the water table (groundwater) on the property?

40 meters - Request that
no boreholes drilled deeper than
40 meters

Are you aware of any water resource (including wetlands, rivers and/or streams) on your property or the near environment?

No

Are there any historical buildings or grave sites on the property? If so, please provide brief details:

N/A

If you are the owner of the property, are you the sole owner or are there other individuals, trusts or companies that share legal title? If so please provide contact details so that we can consult them too:

Myself and Westlawn Trust
(Letters Authority attached)
P.O. Box 133. J. M. Sanyale 8910

Is there any tribal authority or community near your farm that we should communicate with?

NO

Thank you for your comments

Wilna Posthumus

Dear Sir

APPLICATION FOR A PROSPECTING RIGHT - NC30/5/1/1/2/12131PR

We refer to your letter 28 June 2018, attached hereto for ease of reference.

We thank you for completing the response form for comment by interested and affected parties, to which we respond to as follows:

1. Water Permit must be obtained in terms of the National Water Act no. 36 of 1998 ("NWA")

With regard to section 20 of the NWA -

The Acting Director-General of Water and Sanitation has, in terms of Section 39 of the NWA, published the revised General Authorisation (GNR 538 of 02 September 2016) pertaining to the taking and storing of water, water uses in terms of Section 21(a) and 21(b) of the NWA respectively.

The General Authorisation came into effect on 1 March 2017 and replaced the General Authorisation for the taking and storing of water contained in GNR399 of 26 March 2004.

In terms of clause 7.2 of the Schedule to the 2017 General Authorisations, registration of a water use is only required if more than 10m³ of water is taken from a groundwater resource per day **on average over a year on a property**.

During Phases 6 and 8 of the prospecting work programme, Alidabix (Pty) Ltd ("Alidabix") plans to drill a total of fifteen core boreholes. Provision has been made for 5 000 - 8 000 litres of water per day for the drill rig and therefore will not exceed the 10 000 litres (10m³) limit per day.

Accordingly, Alidabix is not required to apply for a water use license or register its water use after 3 March 2017 with the responsible authority by virtue of clause 7 of the 2017 General Authorisations.

2. Scarce water resource - permit to be limited to 3 years

Prospecting right cannot be limited to 3 years given the time that each of the activities requires to complete and any limit will have an adverse effect on optimal exploration work being done. Prospecting work will be done in accordance with the Prospecting Work Programme & Environmental Authorisation stipulations and water use will be done in accordance with the NWA.

3. Negative experience with prospecting works done on Eyerdop Pan 58

All prospecting work and rehabilitation were done in terms of an approved prospecting right and environmental management programme. A recent Environmental Audit Report (28 February 2018) prepared by independent environmental consultants, and which was submitted to the DMR and Mr. van der Westhuizen, concluded that the findings during the site visit showed no non-compliances and that all prospecting activities are in line with the conditions contained in the EMP document.

4. Water use by landowner is already 10 000 per day

A survey of the boreholes on the property under application will be done to establish the position of the boreholes and to establish the current water use on the property under application.

5. Comply with BEE requirements

Alidabix will be BEE compliant as required by the relevant legislation and in this regard Alidabix's BEE report has already been submitted to the DMR as part of the prospecting right application process.

6. Farm security

Alidabix will commit to adhering to the security protocols of the landowner and directions in this regard, provided that such directions are reasonable and does not interfere or impede the activities of Alidabix.

7. Request that no boreholes drilled deeper than 40 meters

The prospecting activities will be done in accordance with the approved Prospecting Work Programme and the provisions of the Environmental Authorisation. A limit of 40m cannot be placed on boreholes as this will sterilise areas of the target to be drilled and will restrict optimal exploration being done. Holes in the current Prospecting Work Programme are small diameter percussion and core drill holes and will not have any effect on existing boreholes or the water table.

Yours faithfully
