#### SCREENING REPORT FOR AN ENVIRONMENTAL AUTHORIZATION AS REQUIRED BY THE 2014 EIA REGULATIONS – PROPOSED SITE ENVIRONMENTAL SENSITIVITY

#### EIA Reference number: N/A

**Project name:** Prospecting Right Application Without Bulk Sampling on Portion 3 of the Farm Deelfontein 237

**Project title:** Prospecting Right Application Without Bulk Sampling on Portion 3 of the Farm Deelfontein 237

**Date screening report generated:** 13/09/2021 12:54:44

Applicant: Petrus Van Der Walt Vermeulen

Compiler: Milnex CC

Compiler signature:

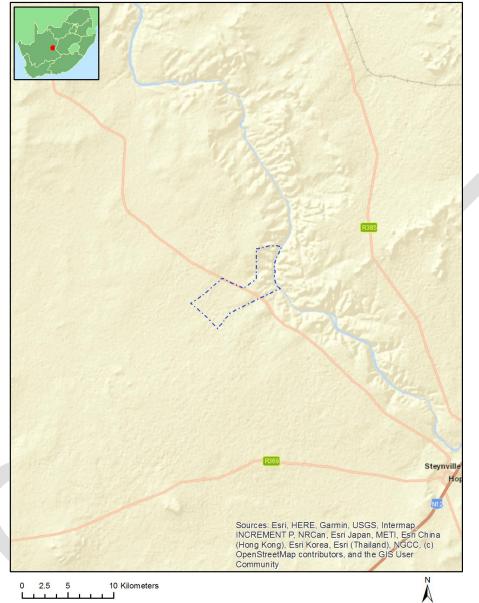

Application Category: Mining | Prospecting rights

## Table of Contents

Proposed Project Location
Orientation map 1: General location
Map of proposed site and relevant area(s)4
Cadastral details of the proposed site4
Wind and Solar developments with an approved Environmental Authorisation or applications under consideration within 30 km of the proposed area4
Environmental Management Frameworks relevant to the application4
Environmental screening results and assessment outcomes5
Relevant development incentives, restrictions, exclusions or prohibitions5
Map indicating proposed development footprint within applicable development incentive, restriction, exclusion or prohibition zones
Proposed Development Area Environmental Sensitivity
Specialist assessments identified7
Results of the environmental sensitivity of the proposed area

MAP OF RELATIVE PLANT SPECIES THEME SENSITIVITY
MAP OF RELATIVE TERRESTRIAL BIODIVERSITY THEME SENSITIVITY

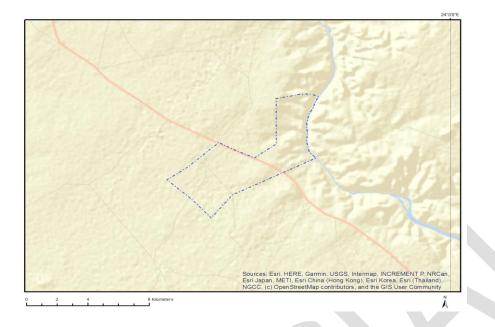

## **Proposed Project Location**

#### Orientation map 1: General location

General Orientation: Prospecting Right Application Without Bulk Sampling on Portion 3 of the Farm Deelfontein 237

## Map of proposed site and relevant area(s)

#### Cadastral details of the proposed site

#### Property details:

No	Farm Name	Farm/ Erf No	Portion	Latitude	Longitude	Property Type
1	DEELFONTEIN	237	0	29°28'11.855	23°52'52.71E	Farm
2	DEELFONTEIN	237	3	29°28'3.7S	23°53'14.91E	Farm Portion

Development footprint<sup>1</sup> vertices: No development footprint(s) specified.

# Wind and Solar developments with an approved Environmental Authorisation or applications under consideration within 30 km of the proposed area

No	EIA Reference No	Classification	Status of application	Distance from proposed area (km)
1	12/12/20/2682	Solar PV	Approved	0
2	14/12/16/3/3/2/283	Solar PV	Approved	12.6
3	14/12/16/3/3/1/825	Solar PV	Approved	15.9

#### Environmental Management Frameworks relevant to the application

<sup>&</sup>lt;sup>1</sup> "development footprint", means the area within the site on which the development will take place and incudes all ancillary developments for example roads, power lines, boundary walls, paving etc. which require vegetation clearance or which will be disturbed and for which the application has been submitted.

No intersections with EMF areas found.

#### Environmental screening results and assessment outcomes

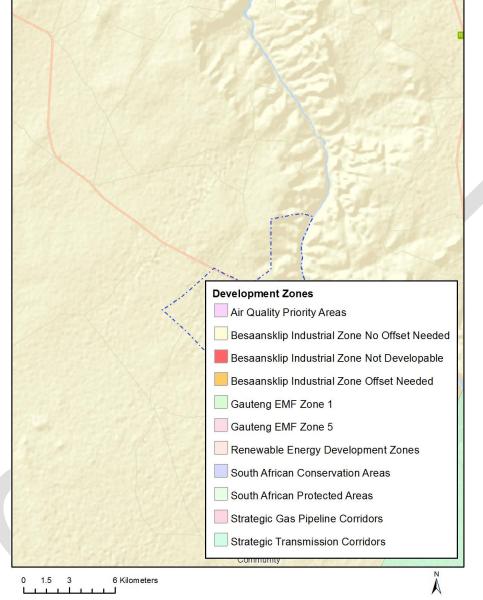

The following sections contain a summary of any development incentives, restrictions, exclusions or prohibitions that apply to the proposed development site as well as the most environmental sensitive features on the site based on the site sensitivity screening results for the application classification that was selected. The application classification selected for this report is: **Mining|Prospecting rights**.

Relevant development incentives, restrictions, exclusions or prohibitions

The following development incentives, restrictions, exclusions or prohibitions and their implications that apply to this site are indicated below.

No intersection with any development zones found.

# Map indicating proposed development footprint within applicable development incentive, restriction, exclusion or prohibition zones

Project Location: Prospecting Right Application Without Bulk Sampling on Portion 3 of the Farm Deelfontein 237

#### Proposed Development Area Environmental Sensitivity

The following summary of the development site environmental sensitivities is identified. Only the highest environmental sensitivity is indicated. The footprint environmental sensitivities for the proposed development footprint as identified, are indicative only and must be verified on site by a suitably qualified person before the specialist assessments identified below can be confirmed.

#### Specialist assessments identified

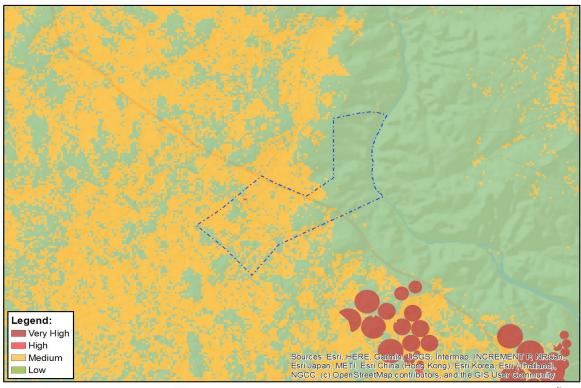

Based on the selected classification, and the environmental sensitivities of the proposed development footprint, the following list of specialist assessments have been identified for inclusion in the assessment report. It is the responsibility of the EAP to confirm this list and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation.

### Results of the environmental sensitivity of the proposed area.

The following section represents the results of the screening for environmental sensitivity of the proposed site for relevant environmental themes associated with the project classification. It is the duty of the EAP to ensure that the environmental themes provided by the screening tool are comprehensive and complete for the project. Refer to the disclaimer.

#### MAP OF RELATIVE ANIMAL SPECIES THEME SENSITIVITY

Where only a sensitive plant unique number or sensitive animal unique number is provided in the screening report and an assessment is required, the environmental assessment practitioner (EAP) or specialist is required to email SANBI at <u>eiadatarequests@sanbi.org.za</u> listing all sensitive species with their unique identifiers for which information is required. The name has been withheld as the species may be prone to illegal harvesting and must be protected. SANBI will release the actual species name after the details of the EAP or specialist have been documented.
