INTRODUCTION AND THE PURPOSE OF THIS DOCUMENT

Singo Consulting (Pty) Ltd has been appointed as an independent Environmental Consultant by **Tornowize (Pty) Ltd** to conduct Environmental Impact Assessment (EIA), compile a Basic Assessment Report (BAR), compile an Environmental Management Programme report (EMPr), and undertake Public Participation Process (PPP). This is done for the process of acquiring Environmental Authorization for the proposed Prospecting right Application on **all portions of the farm Ruimteplaats 615 KS, situated under Magisterial District of Mookgopong, Limpopo Province. (DMRE Ref:LP 30/5/1/1/2/15142 PR).**

The Purpose of this Background Information Document (BID) is to provide a perfunctory description of the project and outline EIA processes to be followed and contributions from Interested and Affected Parties (I&APs) on the issues related to the project in question, allowing comments and concerns to be raised.

Results of the EIA, both negative and positive will be submitted and made available to the relevant Departments such as the Department of Mineral Resources and if requested, Environmental Affairs, Water and Sanitation, Landowner and other interested stakeholders.

This Background Information Document therefore requests and invites I&APs to comment on the environmental, physical, social and economic impacts associated with the proposed Prospecting Activities. Be assured that your comments are of great value as they ensure that relevant issues are taken into consideration. Attached at the end of this document is a registration form, kindly complete it and send it back to **Ms. Thilivhali Ndou** through given means of communication also attached there.

PROJECT DESCRIPTION

Prospecting right Application has been submitted for the searching(drilling) of **Aluminium, Copper ore, Limestone, , Molybdenum ore, Rare earths ore and Uranium** resource on the properties mentioned above. This proposed prospecting Area, as seen in **Figure 2** and **Figure 3**, is situated approximately 44 km South of Mokopane approximately 45 Km Northwest of Marblehall.

Prospecting activities will be undertaken over a period of five (5) years and are designed in phases, each phase conditional on the success of the previous phase. Both invasive and non-invasive methods will be implemented. Invasive are those activities which have footprint or cause harm (if not mitigated or managed properly) or those that have a physical impact on the environment, while non-invasive do not cause any harm or effects on the environment. See **Figure 1** for drilling setting and equipments example.

Non-invasive: Desktop study of the area has commenced, and this incorporates desktop geographical and geological mapping. This will be followed by detailed geochemical and geotechnical surveys. In turn, this is followed by detailed geophysical studies.

Invasive: A detailed drilling, sampling, assaying and mineralogical study will be carried out. Diamond method will be utilized to prospect the above-mentioned minerals. To ensure or minimize impacts on the receiving environment, All the activities will be guided by the project's BAR & EMPr.

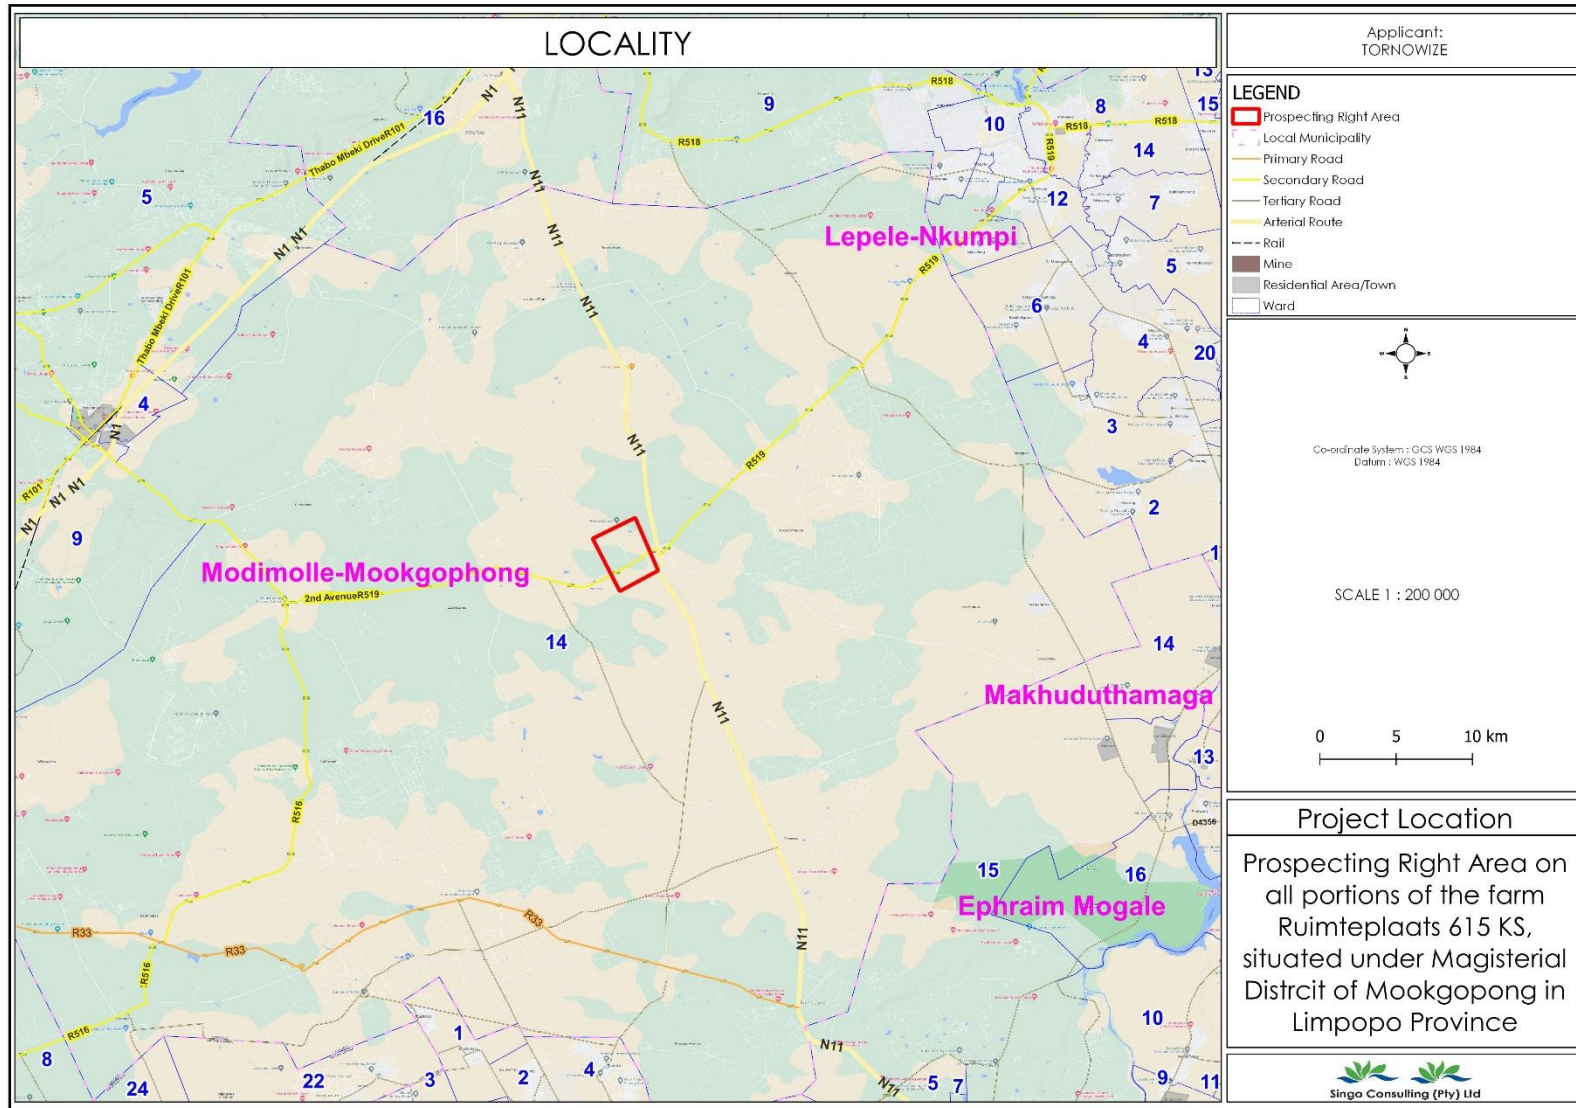

Figure 2: Locality map for Proposed Prospecting Right Area.

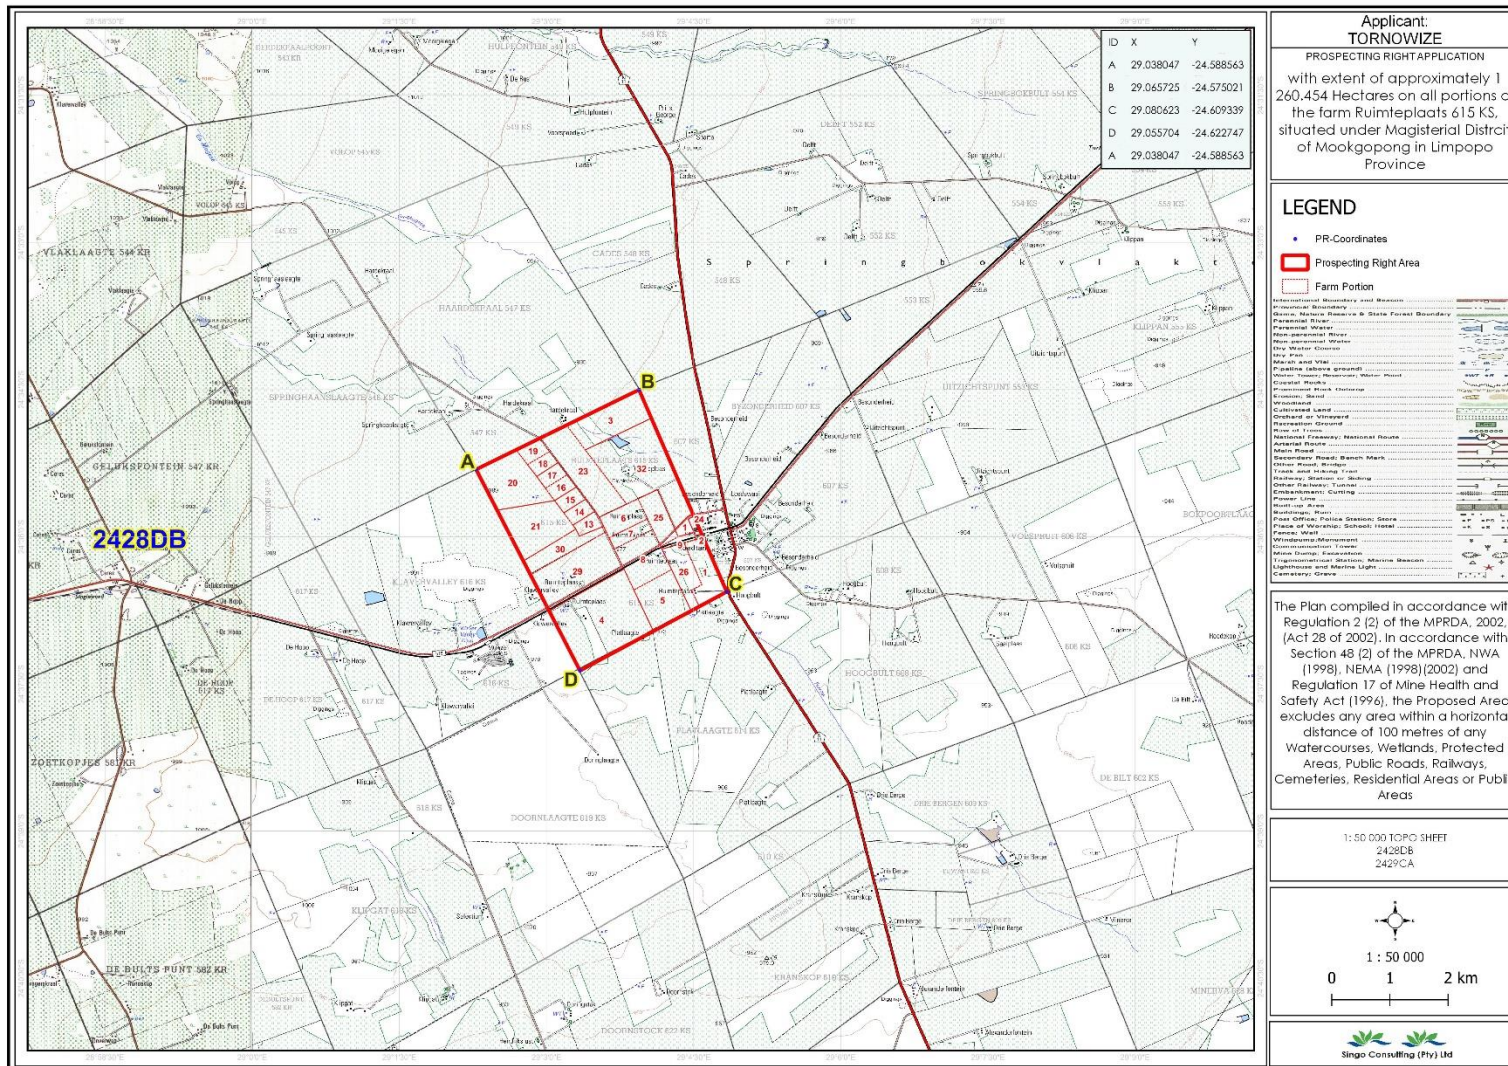

Figure 3: Regulation 2.2 Map for the proposed Area. (A -24.588563; 29.038047)

BASIC AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESSES

These are planning and decision-making tools used in identifying potential environmental, economic and social consequences of a proposed activity prior the commencement of the activity. These together with the public issues and concerns are to be identified sufficiently early so that they can be assessed and incorporated into the final reports when/if necessary. These tools are regarded as crucial because they are utilized to demonstrate to the relevant stakeholders about the potential impacts, which in turn leads to the prospecting application process being a success or declined.

REGULATORY FRAMEWORK

Therefore, EIA through BAR & EMPr to be undertaken will be conducted in accordance with the National Environmental Management Act (Act 107 of 1998) and Environmental Impact Assessment regulations as amended (April 2017).

The activity is to prospect the existence and occurrence of coal therefore, this will be conducted in accordance with Mineral and Petroleum Resources Development Act, (Act 28 of 2002). Other regulatory guidelines to be followed include National Water Act, 1998 (Act 36 of 1998), National Air Quality Standards (GN 1210: 2009) and National Dust Control Regulations (GN 827 of GG NO. 36974).

PUBLIC PARTICIPATION PROCESS

Public Participation remains a cornerstone of the Environmental Impact Assessment process. It ensures provision of relevant and enough information with openness and transparency. Public Participation process presents to I&APs, an opportunity to understand what the project is about, and affords them an opportunity to make valuable contributions towards the EIA process.

I&APs can be any person, group of persons or organization interested in or affected by the proposed activity, and any organ of state that may have jurisdiction over any aspect of the activity. The key objective of PPP is to afford the I&APs with an opportunity to comment and provide valuable inputs during the planning phase of the project. For this specific proposed project, I&APs will be given a period of 30 days to comment and raise issues/concerns with regards to the BAR and EMPr which will be available at **Naboom Library (Mookgopong, 0560) and Modimolle–Mookgophong Local Municipality**. A soft copy is available from **Singo Consulting (Pty) Ltd** upon request, using the contact details of the Candidate Environmental Assessment Practitioner (Cand.EAP) Ms. Thilivhali Ndou

Kindly note the following dates:

- ❖ Announcement of the Prospecting Right Application: **15th of September 2023**.
- ❖ Review of Draft BAR & EMPr: **17th of October 2023 until the 15th of November 2023**

REGISTRATION & COMMENT SHEET

For prospecting right application for Aluminium, Copper ore, Limestone, Molybdenum ore, Rare earths ore and Uranium on all portions of the farm Ruimteplaats 615 KS, situated under Magisterial District of Mookgopong in Limpopo Province
