CONSERVATION MANAGEMENT PLAN FOR "BLACKIE"

1. RECOMENDATION

- 1.1. The original proposal from PRASA is NOT acceptable and a choice needs to be made from the 3 options proposed.
- 1.2. From a practical and cost perspective we believe that Option B4, the location inside the Concourse should be the preferred option.

- 1.3. SAHRA needs to advise PRASA of these recommendations.
- 1.4. PRASA needs to review the 3 options proposed by B4 Architects and submit their revised proposal to SAHRA for review.
- 1.5. Once this process has been completed we can review and comment on the revised the PRASA proposals (as well as their transport and relocation plan).
