# **BACKGROUND INFORMATION DOCUMENT**

**Application:** 

Mining Permit for Coal on portion of portion 01 of the Farm Grootpan 456 JS Local Municipality: Chief Albert Luthuli

## INTRODUCTION AND THE PURPOSE OF THIS DOCUMENT

Singo Consulting (Pty) Ltd has been appointed as an independent Environmental Consultant by Jaments (Pty) Ltd to conduct Environmental Impact Assessment (EIA), compile Basic Assessment Report (BAR) & Environmental Management Programme report (EMPr) and undertake Public Participation Process (PPP). This is done for processes of acquiring Environmental Authorization for the proposed Mining Permit Application within portion of portion 01 of the farm Grootpan 456 JS, situated under Local Municipality of Chief Albert Luthuli, under Gert Sibande District Municipality jurisdiction of Carolina Magisterial District in Mpumalanga Province with DMRE Ref: MP 30/5/1/1/3/ (13232) MP.

The Purpose of this Background Information Document (BID) is to provide a perfunctory description of the project and outline EIA processes to be followed and contributions from Interested and Affected Parties (I&APs) on the issues related to the project in question, allowing comments and concerns to be raised.

Results of the EIA (BAR & EMPr), both negative and positive, will be submitted and made available to the relevant Departments such as the Department of Mineral Resources and Energy if requested, Department of Agriculture, Rural Development, Land & Environmental Affairs (DARDLEA), Department of Water and Sanitation, Landowners, and other interested stakeholders.

This Background Information Document therefore requests and invite I&APs to comment on the environmental, physical, social, and economic impacts associated with the proposed Mining Activities. Be assured that your comments are of great value as they ensure that relevant issues are taken into consideration. Attached at the end of this document is a registration from, kindly complete it and send it back to **Ms Masindi Nefale** through given means of communication also attached there.

#### PROJECT DESCRIPTION

Mining Permit Application has been submitted for the extraction of **Coal** on the property mentioned above. This Mining Permit Area, as seen in figure 1 & 2 below, is situated approximately 27 km North-West of Carolina, approximately 27 km South-West of Belfast and approximately 13 km North-East of Arnot Power Station.

Mining activities will be undertaken over a period of two (2) years. This project will entail an open cast method of excavation. The mine design will be developed according to the dimension of the applied mineral deposit within the project area, but overall mining activities will be limited to an area of 5 Ha as per mining permit requirements. The topsoil will be stockpiled in the form of a berm alongside the boundary of the mine and will be used during rehabilitation period. Once a box cut has been made, the overburden and mineral resources where necessary will be loosened by blasting. The loosened material will then be loaded onto trucks by excavators. A haul road will be situated at the side of the pit, forming a ramp up which trucks can drive, carrying ore and waste rock. Waste rock will be piled up at the surface, near the edge of the open pit (waste dump). The waste dump will be tiered and stepped, to minimize degradation. All the activities will be guided by the project's EMPr such that the project does not impact the environment negatively.

#### **REGULATORY FRAMEWORK**

Therefore, EIA process through BAR & EMPr to be undertaken will be conducted in accordance with the National Environmental Management Act (Act 107 of 1998) and Environmental Impact Assessment Regulations as amended (April 2017).

The activity is to extract the existence and occurrence of the applied mineral; therefore, this will be conducted in accordance with Mineral and Petroleum Resources Development Act, (Act 28 of 2002). Other regulatory guidelines to be followed include National Water Act, 1998 (Act 36 of 1998), National Air Quality Standards (GN 1210: 2009) and National Dust Control Regulations (GN 827: 2013).

These all will accurately be followed to ensure that identified impacts are assessed and mitigated according to their significance so that the protection of the receiving environment and populations is met.

#### BASIC AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESSES

These are planning and decision-making tools used in identifying potential environmental, economic, and social consequences of a proposed activity prior the commencement of the activity.

These together with the public issues and concerns are to be identified sufficiently early so that they can be assessed and incorporated into the final reports when/if necessary.

These tools are regarded crucial because they are utilized in order to demonstrate to the relevant stakeholders about the potential impacts, which in turn leads to the Mining Application process being a success or declined.

#### PUBLIC PARTICIPATION PROCESS

Public Participation remains a cornerstone of the Environmental Impact Assessment process. It ensures provision of relevant and enough information with openness and transparency. Public Participation Process presents to I&APs, an opportunity to understand what the project is about, and affords them an opportunity to make valuable contributions towards the EIA process (BAR & EMPr). I&AP can be any person, group of persons or organization interested in or affected by the proposed activity, and any organ of state that may have jurisdiction over any aspect of the activity.

For this specific proposed project, I&APs will be given a period of 30 days (Friday the 5<sup>th</sup> of August 2022 to Sunday the 4<sup>th</sup> of September 2022) to comment and raise issues/concerns with regards to this BID.

Kindly keep the following dates:

- Stakeholder engagement and consultation: <u>Friday the 5<sup>th</sup> of August 2022</u>
- Review of draft BAR & EMPr: <u>Monday the 5<sup>th</sup> of</u> <u>September 2022 to Wednesday the 5<sup>th</sup> of October</u> <u>2022</u>
- Submission of the Final BAR & EMPr: <u>11<sup>th</sup> of</u> <u>October 2022</u>

Comments on the BAR and EMPr must be submitted to Ms Masindi Nefale no later than <u>Wednesday the</u> <u>5<sup>th</sup> of October 2022</u>
