

BACKGROUND INFORMATION DOCUMENT

Application:		Prepared by:	Prepared for:
Mining Permit on portion of portion 24 of the Farm Hartbeestspuit 281 JS		 Singo Consulting (Pty) Ltd	 BEST CHO CONSTRUCTION PROJECTS BEST ENGINEERING SOLUTIONS
Magisterial District:	Emalahleni		

INTRODUCTION AND THE PURPOSE OF THIS DOCUMENT

Singo Consulting (Pty) Ltd has been appointed as an independent Environmental Consultant by **Bestcho Construction Projects** to conduct Environmental Impact Assessment (EIA), Compile an Environmental Management Programme report (EMPr) and undertake Public Participation Process (PPP). This is done for processes of acquiring Environmental Authorization for the proposed Mining Permit Application **on portion of portion 24 of the Farm Hartbeestspuit 281 JS, Mpumalanga Province. (DMRE Ref: MP 30/5/1/3/2/13910 MP).**

The Purpose of this Background Information Document (BID) is to provide a perfunctory description of the project and outline EIA processes to be followed and contributions from Interested and Affected Parties (I&APs) on the issues related to the project in question, allowing comments and concerns to be raised.

Results of the EIA (through BAR and EMPr), both negative and positive will be submitted and made available to the relevant Departments such as the Department of Mineral Resources and Energy if requested, Environmental Affairs, Water and Sanitation, Landowners, and other interested stakeholders.

This Background Information Document therefore requests and invite I&APs to comment on the environmental, physical, Social and economic impacts associated with the proposed Mining Activities. Be assured that your comments are of great value as they ensure that relevant issues are taken into consideration. Attached at the end of this document is a registration form, kindly complete it and send it back to **Mr Mathako Khodani** through given means of communication also attached there.

PROJECT DESCRIPTION

Mining Permit Application has been submitted for the extraction of **Coal** resources on the property mentioned above. The Mining Permit area is situated within Emalahleni Local Municipality, approximately 2.74 km Northeast of Kroomdraai Colliery, approximately 3.56 km Northwest of Department of Home Affairs, 3.81 km Northeast of Landau Colliery, approximately 1.20 km Southeast of Holgatfontein and approximately 9.43 km Northeast of Doornrug Colliery.

Mining activities will be undertaken over a period of two (2) years. This project will entail an open cast method of excavation. The mine design will be developed according to the dimension of the applied mineral deposit within the project area, but overall mining activities will be limited to an area of 5 Ha as per mining permit requirements. The topsoil will be stockpiled elsewhere on site preferably next to the farm boundary and will be used during rehabilitation period. Once a box cut has been made, the overburden and mineral resources where necessary will be loosened by blasting. The loosened material will then be loaded onto trucks by excavators. A haul road will be situated at the side of the open cast, forming a ramp up which trucks can drive, carrying ore and waste rock. Waste rock will be piled up at the surface, near the edge of the open cast (waste

REGULATORY FRAMEWORK

Therefore, EIA process through BAR & EMPr to be undertaken will be conducted in accordance with the National Environmental Management Act (Act 107 of 1998) and Environmental Impact Assessment regulations as amended (April 2017).

The activity is to extract the existence and occurrence of the applied mineral; therefore, this will be conducted in accordance with Mineral and Petroleum Resources Development Act, (Act 28 of 2002). Other regulatory guidelines to be followed include: National Water Act, 1998 (Act 36 of 1998), National Air Quality Standards (GN 1210: 2009) and National Dust Control Regulations (GN 36974: 2013).

These all will accurately be followed to ensure that identified impacts are assessed and mitigated according to their significance so that the protection of the receiving environment and populations is met.

BASIC AND ENVIRONMENTAL IMPACT ASSESSMENT PROCESSES

These are planning and decision-making tools used in identifying potential environmental, economic and social consequences of a proposed activity prior the commencement of the activity.

These together with the public issues and concerns are to be identified sufficiently early so that they can be assessed and incorporated into the final reports when/if necessary.

These tools are regarded crucial because they are utilized in order to demonstrate to the relevant stakeholders about the potential impacts, which in turn leads to the Mining application process being a success or declined.

PUBLIC PARTICIPATION PROCESS

Public Participation remains a cornerstone of the Environmental Impact Assessment process. It ensures provision of relevant and enough information with openness and transparency. Public Participation process presents to I&APs, an opportunity to understand what the project is about, and affords them an opportunity to make valuable contributions towards the EIA process.

I&AP can be any person, group of persons or organization interested in or affected by the proposed activity, and any organ of state that may have jurisdiction over any aspect of the activity.

The key objective of PPP during the EIA Process is to afford the I&APs with an opportunity to comment and provide valuable inputs during the planning phase of the project.

For this specific proposed project, I&APs will be given a period of 30 days to comment and raise issues/concerns with regards to this BID.

Kindly keep the following dates:

❖ Announcement of the Mining Permit Application: **10th of January 2023**

❖ Stakeholder engagement and consultation: **10th of January 2023-8th of February 2023.**

❖ Review of Draft Basic Assessment Report (BAR) and Environmental Management Programme report (EMPr): **Thursday the 9th of February 2023 to Friday the 10th of March 2023 (Excluding Public Holidays).**

❖ The Draft BAR & EMPr will be available at **Lynville Public Library (Vector Road, Lynville, Emalahleni, 1034, South Africa), Klarinet Public Library (Blesboklaagte 296-JS, Emalahleni, South Africa) and Emalahleni Local Municipality (Mandela Street eMalahleni 1034)** and a soft copy upon request from Singo Consulting (Pty) Ltd using the detailed EAP's contact's below, via emails; Dropbox link; Google drive; WeTransfer, etc.
