IF YOU KNOW OF OTHERS WHO SHOULD BE INFORMED, PLEASE PROVIDE US WITH THEIR CONTACT DETAILS

Please inform the Parks Board and of Pylansburg game reserve administrators. Ledig farmers union also must be informed. Sun City Resort and Bakubung Hotel Directors. Inform them

PLEASE WRITE YOUR COMMENTS AND QUESTIONS HERE (use extra pages if needed)

1. *The government must ensure that air pollution from dust in the mine must not affect plants on the land of community.*
2. *The animals in the game reserve must not be affected by the dust, that also government must take care for it.*
3. *Water must not be polluted in the process of mining.*
4. *Young people must not be affected by pollution especially in giving birth. Please that as a government must take care of.*

PLEASE PROVIDE RESPONSES TO THE QUESTIONS BELOW (IF POSSIBLE)

1. Please provide information as to how your interests (socio-economic, cultural, heritage or environmental, etc.) will be affected by the proposed project.
2. How do you consider that the proposed activities will impact on you or your socio-economic conditions?
3. What are your suggestions to mitigate the anticipated impacts of each activity for the project?
4. According to you, what are the current land uses and their location within the project area?
5. What are the locations of environmental features on site?
6. How can the potential environmental impacts be remedied, and to what standard?
7. How can the potential impacts on your socio economic conditions be mitigated (reduced)?
8. How can the potential impacts on your infrastructure be managed, avoided or remedied?

Post: P.O. Box 1596, Cramerview, 2060, South Africa

the health of our community will be affected badly, no safety for our children. There will be many diseases that will be discovered throughout this proposed project.

There will be disadvantages and advantages on this project as for the sewerage we are struggling with the hospital sewerage as it is, so for the other one too there will be many health issues.

Pharmacies and Laag are the current use of this project.

There are safety issues to be considered on this project, community's needs and wants as well as lots of health issues that are first priority for the mine to consider that.

The future of this community, what will the community benefit from this? For how long?

PLEASE WRITE YOUR COMMENTS AND QUESTIONS HERE (use extra pages if needed)

I hereby comment & question on how are we going to get information on your learnerships & internships & when & how will you be hiring us at your mine.

PLEASE PROVIDE RESPONSES TO THE QUESTIONS BELOW (IF POSSIBLE)

1. Please provide information as to how your interests (socio-economic, cultural, heritage or environmental, etc.) will be affected by the proposed project.
Socio-economic
2. How do you consider that the proposed activities will impact on you or your socio-economic conditions?
By providing more jobs to our community
3. What are your suggestions to mitigate the anticipated impacts of each activity for the project?
By including all the community members
4. According to you, what are the current land uses and their location within the project area?
sports & recreation
5. What are the locations of environmental features on site?
6. How can the potential environmental impacts be remedied, and to what standard?
7. How can the potential impacts on your socio economic conditions be mitigated (reduced)?
8. How can the potential impacts on your infrastructure be managed, avoided or remedied?

CELL NUMBER	073 930 3597	E-MAIL ADDRESS	

IF YOU KNOW OF OTHERS WHO SHOULD BE INFORMED, PLEASE PROVIDE US WITH THEIR CONTACT DETAILS

PLEASE WRITE YOUR COMMENTS AND QUESTIONS HERE (use extra pages if needed)

How this information was taken to the people it was really not appropriate not everyone in the community of Platina were aware of this information project. This are the things that need to be addressed and taken very seriously. Lets respect the communities on things that will play an effect on them. (How is this going to benefit us as a community?)

PLEASE PROVIDE RESPONSES TO THE QUESTIONS BELOW (IF POSSIBLE)

1. Please provide information as to how your interests (socio-economic, cultural, heritage or environmental, etc.) will be affected by the proposed project. *As you know mines produces Minerals and for those minerals to be realized chemicals are used and is taken, grass are to be destroyed. That's how its going to be affected.*
2. How do you consider that the proposed activities will impact on you or your socio-economic conditions? *Hope they will create jobs for us. Hopefully the job will be created from this project*
3. What are your suggestions to mitigate the anticipated impacts of each activity for the project? *This is not going to benefit us in anyway. Its going to benefits the mines and its executives.*
4. According to you, what are the current land uses and their location within the project area? *The land is been used in the way that mines benefit. They dont care about people & their assets*
5. What are the locations of environmental features on site? *Water dams, Farm and Air*
6. How can the potential environmental impacts be remedied, and to what standard? *That can be stopped only if you dont put your plan into existence. Stop whatever you are trying to do, that's a permanent solution*
7. How can the potential impacts on your socio economic conditions be mitigated (reduced)? *By paying the royalties to the communities, not dealing under the table & creating job. Dont place jobs on sales.*
8. How can the potential impacts on your infrastructure be managed, avoided or remedied? *But not doing anything to that side of project*

As the grazing Kamp of the Phatuma Community was sold to the Mine, the owners of the animals made an informal agreement with some of the Mine employees to allow us the grazing in the Kamp until the time they are going to use it. We requested a grazing land from the Municipality as they had also taken the remaining piece of land for another project and left us with no grazing land.

We informed the Municipality about the Mine land and they promised us to talk to the Mine to give us a chance until they find a land for grazing. We requested to be informed timeously about the changes and the agreement between the Mine and Municipality.

We are very much concerned about the tailings dam that is going to be erected so close to our location because it will contain acid water and sand which will dry up be the dust that will be blown by wind all over the location and cause some disease to the chicken. Could you please review this process.

Subject: RE: NOTIFICATION OF ENVIRONMENTAL APPLICATIONS FOR CHANGES TO INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE

Dear Nomzamo

Thank you for your email showing interest in the Environmental Applications for Changes to Infrastructure at Bakubung Platinum Mine. Please note that the project is currently in the stage where we are obtaining Environmental Authorisations and Licences. The project implementation will likely only take place in late 2016.

The EIA report will likely be completed in February/March 2016 and this report will include further details regarding impacts of the project on the local economy and employment. You will be notified when the EIA report is available and how you can access it.

Please also note that SLR Consulting will not be involved in the tendering process for services required for the implementation phase; Wesizwe should be contacted directly regarding tender enquiries.

Kind regards,
Shelley Seton-Rogers

Subject: Fwd: NOTIFICATION OF ENVIRONMENTAL APPLICATIONS FOR CHANGES TO INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE

Good day Mase

We have went through the public participation document and so far we have no formal comment.

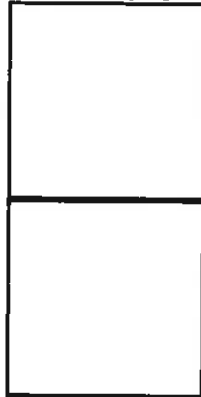

We have also realized that there will be more future economic opportunities and involvement during the planning and implementation stages of the above the document.

We further request you to advise on how do you involve local contractors (SMMEs) in this infrastructure development. We would be more than happy to know how far are you with the process and whether can you include us in your RFQs ,RFP and tender notifications/stages?

Kind Regards

.....

Can you please take note of the following points:

We need a full Air study taking into account the CUMULATIVE impacts in the area.

A Noise study with specific reference to the additional noise generated by the above ground Crusher plant.

Regards

Chris de Bruyn

Subject: RE: Prospecting right on the farm Mimosa 81JQ
Attachments: Cadastral Boundaries_Layout.jpg

Good Day,

Please find the cadastral boundaries as requested. As can be seen, the project does not fall on portion 1 of Mimosa 81. We are uncertain where R/E of Dorskry 95 JQ is located, as can be seen on the map there is no farm called R/E of Dorskry 95 JQ near the project site.

I trust this is of assistance with your query. Please let me know if you have any other queries.

Subject: RE: SCOPING REPORT FOR ENVIRONMENTAL APPLICATIONS FOR CHANGES TO BAKUBUNG PLATINUM MINE, LEDIG, NORTH WEST

Hi Shelley,

Thanks for the email and the update on the process.

Please find attached information that provides you with a background as to Sinvent Investments 182 (Pty) Ltd's interest in any developments on Mimosa 81 JQ. The company has been granted a prospecting right on portion 1 of Mimosa 81 JQ and remaining extent of Dorskry 95 JQ.

You will note that the letter from Rustenburg Municipality states Wesizwe Platinum requested the use of the farm Mimosa 81 JQ, this could be interpreted as the whole farm. Sinvent received a letter from Wesizwe Platinum to clarify this as attached.

Having considered the above, Sinvent kindly request a site plan showing the demarcations of Wesizwe Platinum's current and future operations, specifically the location of the slimes dams, and their boundary limits in relation to portion 1 of Mimosa 81 JQ and R/E of Dorskry 95 JQ. Should this site plan be made available and prove that there will be no encroachment of Wesizwe's planned activities on Sinvent's prospecting right area, then there will be no objection from Sinvent Investments in this regard.

Looking forward to your response.

Kind Regards,

Mzamani Mdaka

SCOPING REPORT FOR THE ENVIRONMENTAL APPLICATIONS FOR CHANGES TO INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE, LEDIG, NORTH WEST PROVINCE

Dear Interested and Affected Parties

The Scoping Report has been completed for the Changes to Infrastructure at Bakubung Platinum Mine, Ledig, North West Province, and it is now available to interested and affected parties for review and comment.

A copy of the scoping report in English, and the translations of the report summary in Setswana and Zulu have been attached to this email. **Please note that the appendices have not been attached to this email due to their size. The appendices can be emailed to you on request.**

Hardcopies of the Scoping Report are available for public review at the Phatsima Library in Phatsima, the Bakubung Tribal Hall in Ledig and at the Wesizwe Information Centre on the R556 in Ledig. In addition, interested and affected parties can access the scoping report on the SLR / Synergistics website at www.synergistics.co.za. The report and appendices can be downloaded as follows:

1. Go to www.synergistics.co.za
2. Click on the **Report FTP** page
3. Enter the following **login details:** Username: synergistics ; Password: v9urweyf
4. Click on the **Changes to Bakubung Platinum Mine.**
5. The required reports can then be downloaded.

CDs and emailed copies of the report and appendices are also available on request.

The Scoping Report will be available for comment from **12 October 2015 until 13 November 2015.** If you would like to comment on the report or have any queries please ensure that these reach us on or before **13 November 2015.** All comments received will be included with the final scoping report for submission to the Department of Mineral Resources. Comments should be submitted to:

Chiara Kotze or Shelley Seton-Rogers at SLR Consulting
Post: PO Box 1596, Cramerview, 2060
Fax: 011 467 0978
Email: ckotze@slrconsulting.com / sholt@slrconsulting.com

SLR Consulting was responsible for completing the Scoping Report. Should you have any queries or require further information please don't hesitate to contact the undersigned.

Kind regards,

Subject: RE: Wesizwe Info. Cds

Good Day,

Please send your address for the CD, alternatively I can email you the documents (I will have to send it in about 4 emails due to size - there is the report, the appendices and the summary in Setswana and Zulu).

Please let me know if you want the reports via Email or CD.

Alternatively, if there are problems with online access, please see information on Filezilla below which can help with downloading the documents.

ftp://ftp.slrconsulting.co.za/
Username: synergistics
Password: v9urweyf (*please type in and not cut and paste*)
File Name: Changes to Bakubung Platinum Mine

It easiest on google chrome, if using internet explorer please select "open ftp site in file explorer" under the View tab and re-enter the user name and password.

If you cannot upload or download the files using your standard web browser (Internet Explorer, Google Chrome etc), it is recommended that you use an ftp client that supports resuming, such as the FileZilla ftp client, freely downloadable (<http://filezilla-project.org/download.php>)

Hardcopies of the Scoping Report are available for public review at the Phatsima Library in Phatsima, the Bakubung Tribal Hall in Ledig and at the Wesizwe Information Centre on the R556 in Ledig.

Kind regards,
Chiara

SCOPING REPORT FOR THE ENVIRONMENTAL APPLICATIONS FOR CHANGES TO INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE, LEDIG, NORTH WEST PROVINCE

Dear Authority

The Scoping Report has been completed for the Changes to Infrastructure at Bakubung Platinum Mine, Ledig, North West Province, and it is now available to interested and affected parties and authorities for review and comment.

A copy of the scoping report in English, and the translations of the report summary in Setswana and Zulu have been attached to this email. **Please note that the appendices have not been attached to this email due to their size. The appendices can be emailed to you on request.**

Hardcopies of the Scoping Report are available for public review at the Phatsima Library In Phatsima, the Bakubung Tribal Hall In Ledig and at the Wesizwe Information Centre on the R556 in Ledig. In addition, interested and affected parties can access the scoping report on the SLR / Synergistics website at www.synergistics.co.za. The report and appendices can be downloaded as follows:

1. Go to www.synergistics.co.za
2. Click on the **Report FTP** page
3. Enter the following **login details**: Username: synergistics ; Password: v9urweyf
4. Click on the **Changes to Bakubung Platinum Mine**.
5. The required reports can then be downloaded.

CDs and emailed copies of the report and appendices are also available on request.

The Scoping Report will be available for comment from **12 October 2015 until 13 November 2015**. If you would like to comment on the report or have any queries please ensure that these reach us on or before **13 November 2015**. All comments received will be included with the final scoping report for submission to the Department of Mineral Resources. Comments should be submitted to:

Chiara Kotze or Shelley Seton-Rogers at SLR Consulting

Hi Cathy

This is from the lady that originally alerted me to the advert, as she was making an enquiry. Can you please help and advise her?

Regards
Tebogo Matima

To: Tebogo Matima
Subject: Energy Solutions
Importance: High

Good day Tebogo,

We trust this finds you well. I was at your offices on Monday with that enquiry on the meeting with your consultants.

Do you have any details for me or advice?

I represent a company who specialise in electricity and do work for Eskom and have a strategic partner who do the renewable energy, carbon credits, water purification and so on.

I would love to be able to introduce our company and the services before work begins as this could have huge cost saving implications as well as optimisation of all your integrated systems.

Please could you consider my request and help me to find the people who are dealing with these projects.

Looking forward to your favourable response.

Kind regards

Belinda Scherman
Consultant

Hi Shelley,

We received this comment after we sent the scoping report to Cathy I think, but since the scoping report has not yet been submitted I imagine we will include it?

I will add it to the table I will be putting in the Executive summary and sending to you for the scoping report.

Dear Madam

**SCOPING REPORT FOR THE ENVIRONMENTAL APPLICATIONS FOR CHANGES TO
INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE, LEDIG, NORTH WEST PROVINCE**

With reference to your e-mail correspondence to Royal Bafokeng Platinum Limited (RBPlat).

Please register the following persons on your database who will act as interested and affected party (I&AP) representatives on behalf of Royal Bafokeng Platinum.

Mrs Malebabo Tsolo, Environmental Manager
Contact no's: 014 573-1528, 082 470 2821
E-mail: malebaboT@bafokengplatinum.co.za

Ms Chrisna von Allemann, Mineral Rights Coordinator
Contact no: 014 573-1346 or 081 011 2039
E-mail: chrشنا@bafokengplatinum.co.za

It is noted from your documentation that some of the proposed infrastructure are in close proximity of the Elands River and may be within the 100m flood lines. Please advise how these impacts would be mitigated. Furthermore the mining operations of RBPlat, Maseve 11 Investments (Pty) Ltd and the Bakubung Platinum Mine are in close proximity which may result in cumulative environmental impacts. RBPlat would be interested in understanding your monitoring plans, especially with regards to surface and groundwater. It is therefore advisable that

further discussions are undertaken to determine the way forward with respect to environmental impacts associated with the proposed changes and the proposed mitigation measures in this regard.

Please do not hesitate to contact the company should you require any further information.

Yours faithfully,

.....
LEKA MONAMA
MINE MANAGER - STYLDRIFT MINE

Good Day,

Thank you for your comments. The database will be updated with the details provided in the letter.

Impacts from the project and mitigation measures will be addressed in the Environmental Impact Assessment (EIA) phase of the project, following specialist studies being complete. Your comments will thus be addressed during the EIA phase. The EIA will be completed in the first quarter of 2016. Interested and affected parties will be advised when the EIA is available for review and comment.

Kind regards,
Chiara

5.7 Authority comments and responses

Letter

In terms of Section of the National Heritage Resources Act (Act 25 of 1999)

Attention: Wesizwe Platinum Limited

Wesizwe Platinum Limited is the owner of Bakubung Platinum Mine. The Bakubung Platinum Mine received Environmental Authorisation in 2009. Wesizwe would now like to make several changes to the approved mine which require additional Environmental Authorisations, a Waste Management Licence and an additional Water Use Licence.

Thank you for the background information document for the proposed development. In terms of the National Heritage Resources Act, no 25 of 1999, heritage resources, including archaeological or palaeontological sites over 100 years old, graves older than 60 years, structures older than 60 years are protected. They may not be disturbed without a permit from the relevant heritage resources authority. This means that prior to development it is incumbent on the developer to ensure that a Heritage Impact Assessment is done. This must include the archaeological component (Phase 1) and any other applicable heritage components. Appropriate (Phase 2) mitigation, which involves recording, sampling and dating sites that are to be destroyed, must be done as required.

A Palaeontological Assessment is not necessary for the proposed footprint area as it lies within an area of insignificant palaeontological sensitivity according to the PalaeoSensitivity Map on SAHRIS (<http://sahra.org.za/map/palaeo>).

The quickest process to follow for the archaeological component is to contract an accredited specialist (see the web site of the Association of Southern African Professional Archaeologists www.asapa.org.za) to provide a Phase 1 Archaeological Impact Assessment Report. This must be done before any large development takes place.

The Phase 1 Impact Assessment Report will identify the archaeological sites and assess their significance. It should also make recommendations (as indicated in section 38) about the process to be followed. For example, there may need to be a mitigation phase (Phase 2) where the specialist will collect or excavate material and date the site. At the end of the process the heritage authority may give permission for destruction of the sites.

If the property is very small or disturbed and there is no significant site the heritage specialist may choose to send a letter to the heritage authority to indicate that there is no necessity for any further assessment.

Any other heritage resources that may be impacted such as built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural

SCOPING REPORT FOR THE ENVIRONMENTAL APPLICATIONS FOR CHANGES TO INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE, LEDIG, NORTH WEST PROVINCE

Dear Authority

The Scoping Report has been completed for the Changes to Infrastructure at Bakubung Platinum Mine, Ledig, North West Province, and it is now available to interested and affected parties and authorities for review and comment.

A copy of the scoping report in English, and the translations of the report summary in Setswana and Zulu have been attached to this email. **Please note that the appendices have not been attached to this email due to their size. The appendices can be emailed to you on request.**

Hardcopies of the Scoping Report are available for public review at the Phatsima Library in Phatsima, the Bakubung Tribal Hall in Ledig and at the Wesizwe Information Centre on the R556 in Ledig. In addition, interested and affected parties can access the scoping report on the SLR / Synergistics website at www.synergistics.co.za. The report and appendices can be downloaded as follows:

1. Go to www.synergistics.co.za
2. Click on the **Report FTP** page
3. Enter the following **login details**: Username: synergistics ; Password: v9urweyf
4. Click on the **Changes to Bakubung Platinum Mine**.
5. The required reports can then be downloaded.

CDs and emailed copies of the report and appendices are also available on request.

The Scoping Report will be available for comment from **12 October 2015 until 13 November 2015**. If you would like to comment on the report or have any queries please ensure that these reach us on or before **13 November 2015**. All comments received will be included with the final scoping report for submission to the Department of Mineral Resources. Comments should be submitted to:

Chiara Kotze or Shelley Seton-Rogers at SLR Consulting

Good Day,

Thank you for your email.

We suggest that a site visit take place during the EIA Phase of the project which will be in the first quarter of 2016, by this stage the specialist studies would have been conducted and more detailed information will be available and can be presented.

We will organise a site visit for this and send through an invitation to you and the Environmental office (please provide the email address of the officer) in early 2016.

Please advise if this will be suitable.

hi Ragna

Thanks for your response.

The report which was recently completed and loaded onto SAHRIS is a scoping report. This is the initial environmental report which is required by the DMR for mining projects. The scoping report gives the project background etc., and explains which specialist studies will be completed during the EIA. Thus the heritage report will only be done during the EIA Phase (next phase) of the project. The EIA will be completed in February 2016 and will be sent to you (including the heritage report).

Please contact me with any queries.

Kind regards,
Shelley Seton-Rogers

Dear Ms. Holt,

Thank you for uploading additional documents to your application on SAHRIS.. Unfortunately, I could not find a Heritage Impact Assessment (HIA) in any of the attachments. Please ensure to upload an HIA for SAHRA to be able to comment on your application.

<http://www.sahra.org.za/sahris/cases/environmental-applications-changes-infrastructure-bakunbung-platinum-mine-ledig-north-west>

Kind regards,
Ragna Redelstorff

To: Chiara D'Egidio Kotze
Subject: Re: NOTIFICATION OF ENVIRONMENTAL APPLICATIONS FOR CHANGES TO INFRASTRUCTURE AT BAKUBUNG PLATINUM MINE

Dear Chiara D'Egidio Kotze
My apologies for the late response.

The abovementioned notification has been noted, and my Rustenburg based colleague, Mr TT Baloyi, has been duly informed to complete any questionnaires or forms pertaining to the above.

Kind regards

OMR Mokate

Hi
DWS Regional Office will be entry and exit for WUL.
Options must include exclusion of watercourses.
Regards

Pieter Ackerman (PrLArch)
Chief Landscape Architect
Department of Water and Sanitation (DWS), South Africa
Sub Directorate Instream Water Use
Tel: 012 336 8217
Cell: 082 807 3512
Fax: 012 336 6608

Taking a five-minute shower a day instead of a bath, will use a third of the water, saving up to 400 liters of water a week.
