**7. Other applicable Acts and Legislation**

**7.1 National Environmental Management Laws Amendment Act, 2014 (Act No. 25 of 2014)**

This relates to the insertion of “management of residue stockpiles and residue deposits”; “Residue deposits” means any residue stockpile remaining at the termination, cancellation or expiry of a prospecting right, mining right, mining permit, exploration right or production right;

“residue stockpile” means any debris, discard, tailings, slimes, screening, slurry, waste rock, foundry sand, mineral processing plant waste, ash or any other product derived from or incidental to a mining operation and which is stockpiled, stored or accumulated within the mining area for potential re-use, or which is disposed of, by the holder of a mining right, mining permit or, production right or an old order right, including historic mines and dumps created before the implementation of the National Environmental Management Waste Act, 2008.

Residue deposits and residue stockpiles include wastes resulting from exploration, mining, quarrying, and physical and chemical treatment of minerals including the following:

- (a) wastes from mineral excavation
- (b) wastes from physical and chemical processing of metalliferous minerals
- (c) wastes from physical and chemical processing of non-metalliferous minerals
- (d) wastes from drilling muds and other drilling operations

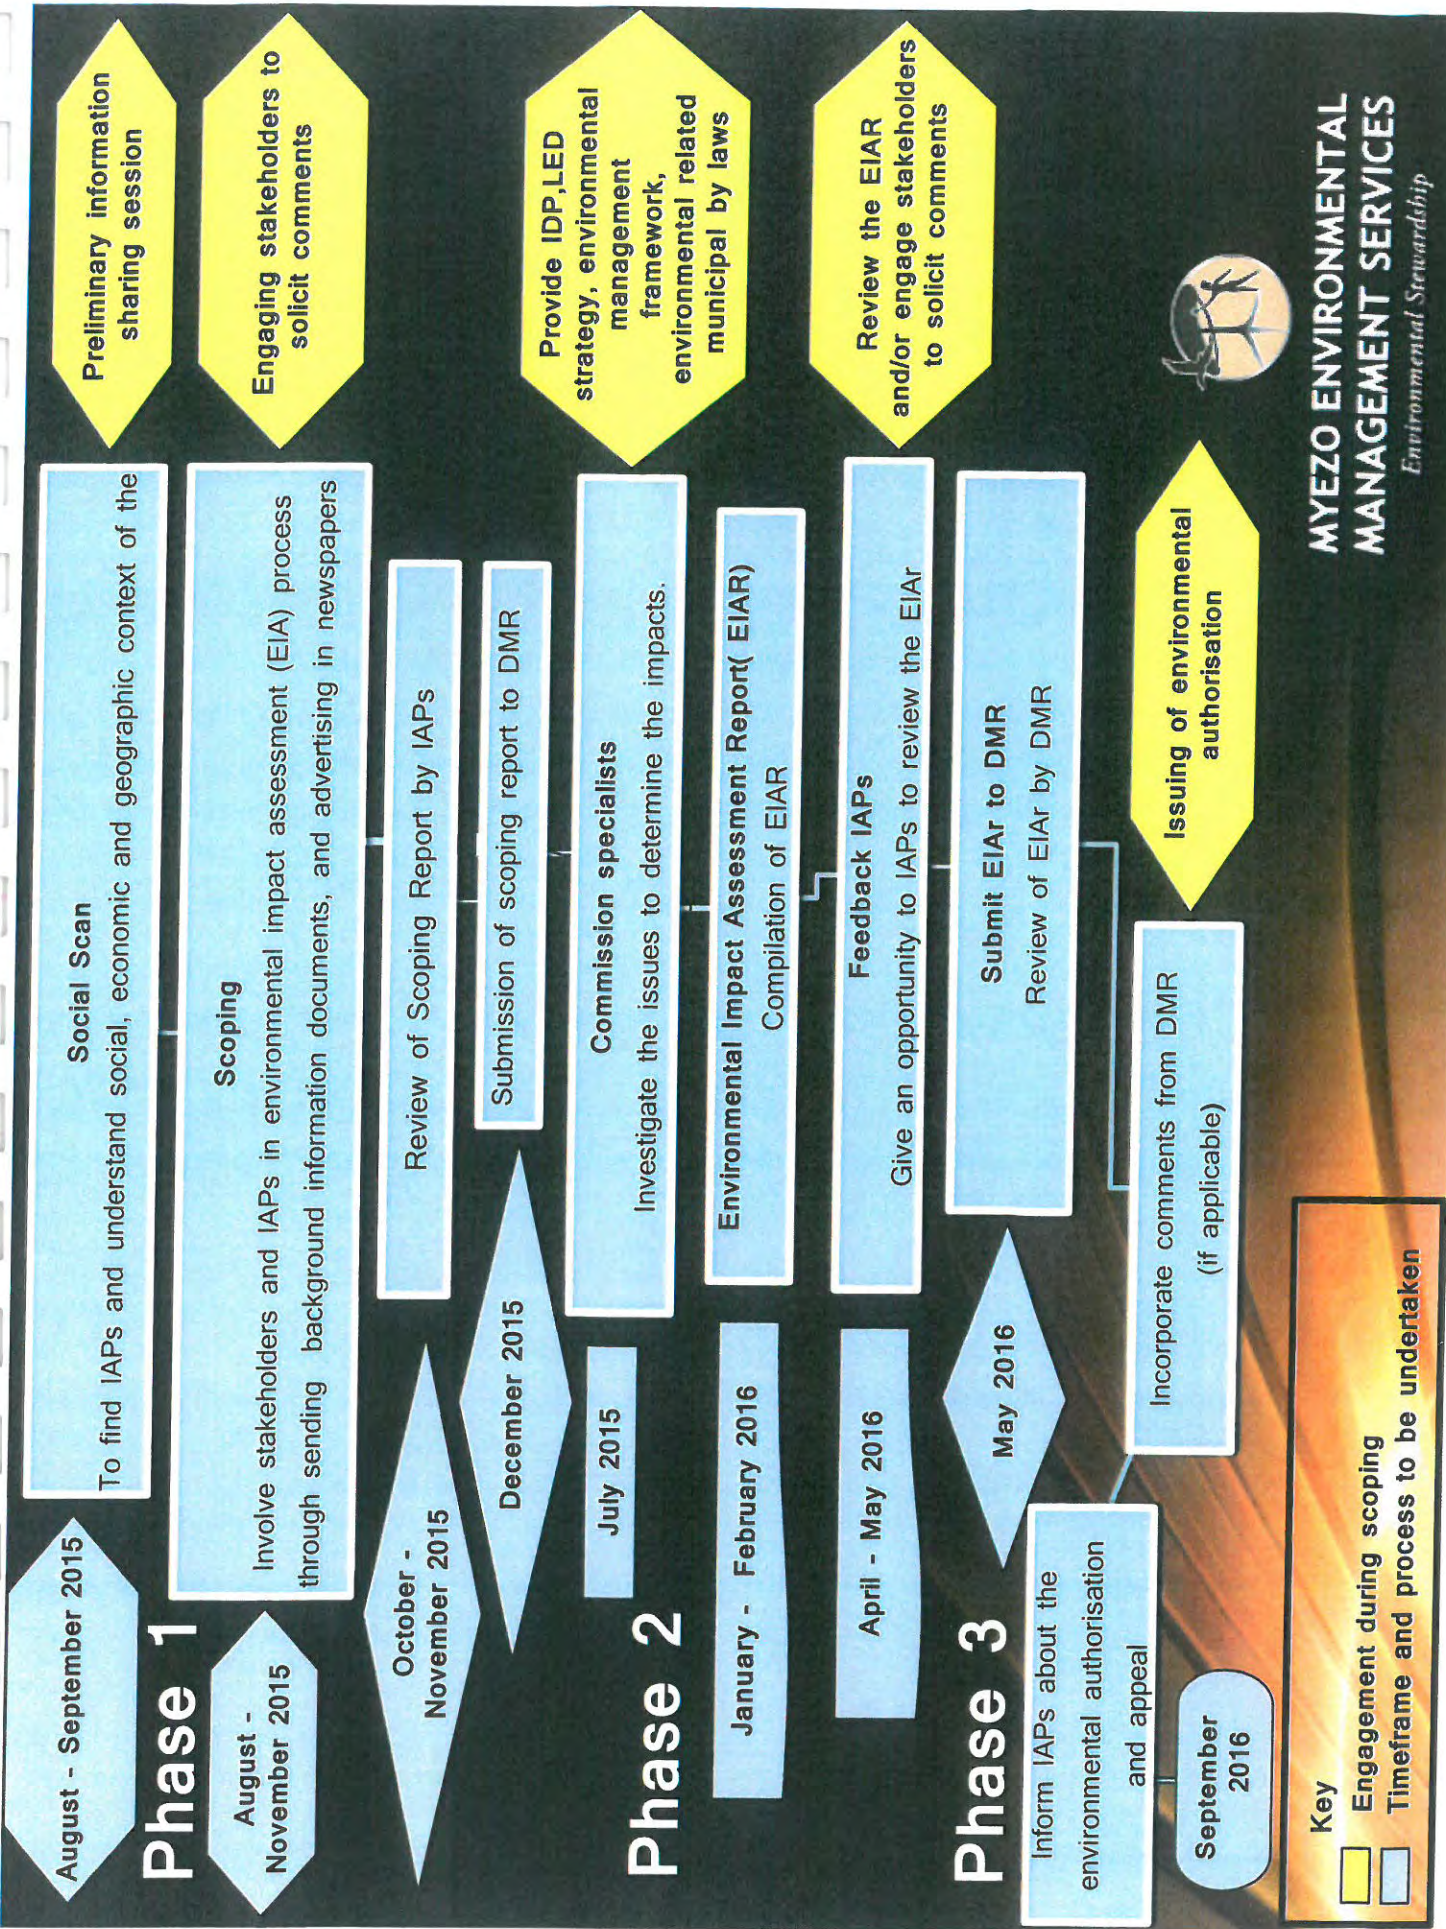

Section 245: Residue stockpiles and residue deposits must be managed in accordance with the provisions of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008), on any site demarcated for that purpose in the environmental management plan or environmental management programme in question.

**7.2 Other applicable Acts**

**Document Name: WKSCE-PI-EIA report authorities notific Letter**

**Date: 27 September 2016**

**Myezo Ref No: WKSCE/2015/02/NL**

**DMR Ref No: NC0043-MR/102 and NC0044-MR/102**

**Background**

This communique is presented, subsequent to a notice, which was given to interested and affected parties (IAPs), regarding the above mentioned project on 11 March, 2016. This said notice was given in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA): Environmental Impact Assessment (EIA) Regulations, 2014 R982 (2014 EIA Regulations), Section 41 (2) (a) (b) (c) (d) (e) and (3) published in Government Notices No. R982, under Sections 24 (5) and 44 of NEMA. It was a notice informing the stakeholders of West Coast Resources' (WCR) intention to re-visit and mine certain areas of on the Namaqualand Coast. WCR are re-establishing diamond mining operations in the existing mining rights areas on the Namaqualand coast, previously mined by De Beers and under the existing mining rights of July 2012, i.e. Koingnaas Mining Right (522MRC) and Samsons Bak Mining Right (525MRC). As part of their operations, WCR intend to mine deposits that are located on land, as well as on the beach and extend seaward, potentially for several hundred meters.

WCR wants to continue with mining on the areas covered by these rights i.e. areas within the existing mining rights authorization, with immediate target being the Langklip and Koingnaas Complex. The immediate targeted areas, are those that will not trigger new listed activities in terms of NEMA.

**Application for environmental authorisation**

The notice mentioned above, also alerted the stakeholders that an application for environmental authorisation was submitted to the Department of Mineral Resources (DMR), in terms of NEMA and National Environmental Management Waste Act (No. 59 of 2008) (NEM: WA), in respect of listed activities that have been triggered by applications lodged by WCR in terms of the Mineral and Petroleum Resources Development Act (No. 28 of 2002) (MPRDA). The applications that were submitted in terms of the MPRDA are an amendment of the mining right in terms of Section 102 of MPRDA.

Therefore, scoping and EIA report procedures are being applied to this application. As a reminder, a map showing the locality of the mining area, with respect to the proposed project, is included as Appendix 3 of the EIA report (See details below, regarding availability of the EIA report) and included as Attachment 1, of this letter. In addition, to provide a memory trail regarding this project journey, the EIA project milestones are outlined as Attachment 2 of this letter.

**Scoping Report and EIA report Review**

Myezo Environmental Management Services Pty Ltd (Myezo), has thus been appointed by WCR as an environmental assessment Practitioner (EAP), to undertake EIA for the activities that would require environmental authorization.

The project finished scoping stage, and a notice for the review of such scoping report was advertised on the Namakwalander Newspaper, on 04 April 2016. All comments on the scoping report or issues that had to be covered on the succeeding EIA stage were due for submission to the EAP by 18 April 2016.

Consequently, please be advised that this notice serves to invite registered IAPs to now participate in the EIA report review stage. A copy of the EIA report can be viewed at Koingnaas Mine offices (30° 12' 38.64"S, 17° 16' 25.34E), Springbok Library (04 Namakwa Street, Springbok, Northern Cape, 8240) and at West Coast Resources head office at (405 Voortrekker Road, Parrow, 7500).

To submit your comments on the EIA report, kindly contact Myezo using the details shown below. The submissions must all be done formally and in writing by either email or fax and should be submitted by 29 October 2016, which signifies the end of the commenting period. In the submissions of comments, the IAPs, must disclose any direct business, financial, personal or other interest which they have in the approval or refusal of the application.

**Myezo Ref No: WKSCE/2015/02/NL**

**DMR Ref No: NC0043-MR/102 and NC0044-MR/102**

**Background**

This communique is presented, subsequent to a notice, which was given to interested and affected parties (IAPs), regarding the above mentioned project on 11 March, 2016. This said notice was given in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA): Environmental Impact Assessment (EIA) Regulations, 2014 R982 (2014 EIA Regulations), Section 41 (2) (a) (b) (c) (d) (e) and (3) published in Government Notices No. R982, under Sections 24 (5) and 44 of NEMA. It was a notice informing the stakeholders of West Coast Resources' (WCR) intention to re-visit and mine certain areas of on the Namaqualand Coast. WCR are re-establishing diamond mining operations in the existing mining rights areas on the Namaqualand coast, previously mined by De Beers and under the existing mining rights of July 2012, i.e. Koingnaas Mining Right (522MRC) and Samsons Bak Mining Right (525MRC). As part of their operations, WCR intend to mine deposits that are located on land, as well as on the beach and extend seaward, potentially for several hundred meters.

WCR wants to continue with mining on the areas covered by these rights i.e. areas within the existing mining rights authorization, with immediate target being the Langklip and Koingnaas Complex. The immediate targeted areas, are those that will not trigger new listed activities in terms of NEMA.

**Application for environmental authorisation**

The notice mentioned above, also alerted the stakeholders that an application for environmental authorisation was submitted to the Department of Mineral Resources (DMR), in terms of NEMA and National Environmental Management Waste Act (No. 59 of 2008) (NEM: WA), in respect of listed activities that have been triggered by applications lodged by WCR in terms of the Mineral and Petroleum Resources Development Act (No. 28 of 2002) (MPRDA). The applications that were submitted in terms of the MPRDA are an amendment of the mining right in terms of Section 102 of MPRDA.

Therefore, scoping and EIA report procedures are being applied to this application. As a reminder, a map showing the locality of the mining area, with respect to the proposed project, is included as Appendix 3 of the EIA report (See details below, regarding availability of the EIA report) and included as Attachment 1, of this letter. In addition, to provide a memory trail regarding this project journey, the EIA project milestones are outlined as Attachment 2 of this letter.

**Scoping Report and EIA report Review**

Myezo Environmental Management Services Pty Ltd (Myezo), has thus been appointed by WCR as an environmental assessment Practitioner (EAP), to undertake EIA for the activities that would require environmental authorization.

The project finished scoping stage, and a notice for the review of such scoping report was advertised on the Namakwalander Newspaper, on 04 April 2016. All comments on the scoping report or issues that had to be covered on the succeeding EIA stage were due for submission to the EAP by 18 April 2016.

Consequently, please be advised that this notice serves to invite registered IAPs to now participate in the EIA report review stage. A copy of the EIA report can be viewed at Koingnaas Mine offices (30° 12' 38.64"S, 17° 16' 25.34E), Springbok Library (04 Namakwa Street, Springbok, Northern Cape, 8240) and at West Coast Resources head office at (405 Voortrekker Road, Parrow, 7500).

To submit your comments on the EIA report, kindly contact Myezo using the details shown below. The submissions must all be done formally and in writing by either email or fax and should be submitted by 29 October 2016, which signifies the end of the commenting period. In the submissions of comments, the IAPs, must disclose any direct business, financial, personal or other interest which they have in the approval or refusal of the application.

3. Exclusion of Obligations of Common or Public Carrier  
 The Company is not a common carrier and any business undertaken by the Company is carried out subject to the conditions hereinafter set out. The Company shall not be bound by any agreement purporting to vary these conditions unless such agreement is in writing and signed on behalf of the Company by a competent officer thereof.

4. All Goods and documents relating to Goods, shall be subject to a lien and pledge either from monies due in respect of such Goods or for other monies due to Aramex from the Customer, for present and past debts.

5. Company Entitled to Act as Agent  
 The Company is authorized to appoint such third parties as the Company may consider necessary for the purpose of procuring the forwarding and/or delivery of the Customer's Goods. The Customer's Goods are also subject to the conditions stipulated by all other carriers and parties into whose possession or custody they may pass as if the same had been included herein, provided that if there is any conflict between such conditions and these conditions the latter shall prevail.

5.2. The Company is not an air transport undertaking under the Warsaw Convention, 1929 and subsequent air carriage treaties and legislation. Shipment by air to a country other than the country of origin may be subject to the terms of the Warsaw Convention and the limits of liability contained therein. The Company acts as agent for its Customer when consigning documents or Goods with a particular airline for onward carriage and without prejudice to its general right of subrogation hereunder.

6. Customer's Undertakings  
 6.1. The Customer warrants the accuracy of the description of the Goods on the waybill.  
 6.2. Adequate labelling, addressing and packaging of the Customer's Goods for transportation is the Customer's responsibility, including the placing of the Goods in any container, even if supplied to the Customer by the Company.  
 7. Company's Liability  
 7.1. The Company is only responsible for the Customer's Goods whilst they are within its custody and control and shall be liable subject to clause 7.2 hereof for loss sustained by the Customer due to damage to or loss of the Goods whilst in the Company's custody provided that such loss or damage was due to the gross negligence of the Company, its servants or agents. Save as aforesaid the Company shall be under no liability in respect of same shall arise. The parties agree that consequential loss shall be deemed to include without restriction the Goods carried by it and in particular shall NOT BE LIABLE FOR CONSEQUENTIAL LOSS however the commercial, financial or other indirect loss including loss of interest and utility.  
 7.2. The liability of the Company under these conditions shall be limited to the payment by the Company by way of damages of a sum not exceeding R100.00 per consignment. For the purpose of establishing the amount of liability under this clause, the value of the Goods shall be ascertained by reference to their replacement or reconstitution value at the time and place of shipment without reference to their commercial utility to the Customer and other items of consequential loss.

8. Insurance  
 8.1. If no insurance is requested or insurance is requested but no value is declared, the Customer's Goods will automatically be insured at no additional cost to a maximum value of R3000.00, subject to such exceptions and conditions as may be imposed by the insurer taking the risk. This automatic cover excludes cell phones and accessories and prepaid cards. A copy of the policy summary and information regarding the insurer may be inspected or obtained from any Company office.  
 8.2. In the event that the value of the consignment exceeds R3000.00, insurance may be provided in excess of this amount to a maximum value of R250 000.00 per consignment, provided that the Customer indicates such requirement and the declared value by completing the relevant section of the waybill. If the declared value of the consignment exceeds R250 000.00, the Customer will only be insured to a maximum value of R250 000.00 per consignment, unless separate and specific insurance arrangements are made timeously with the Company.  
 8.3. The Customer's attention is drawn to pertinent insurance policy exceptions, which include, but are not limited to restrictions on second hand goods which excludes cover for damages, territorial exclusions, exclusion of consequential damages and/or losses, exclusion of claims arising from insufficient packaging or loss of information, exclusion of cover for dangerous goods, samples, bottled wine, certificates, tickets, patterns, plans and designs or damaged caused by any delays in carriage or delivery of Goods. The Company shall not be obliged to arrange separate cover for any risks so excluded... A more comprehensive list of excluded items can be viewed on the Company's website at [www.aramex.com](http://www.aramex.com)  
 8.4. The Customer shall be liable to pay the insurance premium and if not paid by due date, any cover shall be rendered null and void. Premium is payable at the rate from time to time provided for in the insurance tariff code, available on request at the offices of the Company and/or on the Company's website at [www.aramex.co.za](http://www.aramex.co.za), to which terms the Customer agrees by signature to the waybill.  
 8.5. In so far as the Company arranges any insurance, the Company acts solely as an intermediary for and on behalf of the Customer. Should the insurer dispute its liability in terms of any insurance policy in respect of the Goods, the Customer shall only have recourse against the insurer and the Company shall not incur any responsibility or liability whatsoever notwithstanding that the premium paid on such policy may differ from the amount paid by the consignee or consignator to the Company in respect thereof.  
 8.6. If an insurance claim is rejected, the Customer has 180 days from the date of rejection to make representation to the insurer, Guardrisk Insurance Company Limited, at Alexander Forbes House, 4th floor, 90 Rivonia Road, PO Box 781092, Sandton, 2146. If the dispute is not resolved at the end of this period then the customer must within a further 180 days institute legal action by way of the service of summons against Guardrisk failing which the Customer will forfeit their claim and no liability can arise in terms of such claim.  
 8.7. We are an authorised Financial Service Provider and the full policy wording & disclosure documents are available on the Company's website at [www.aramex.com](http://www.aramex.com)

9. Claim Procedure and Time-Bar  
 9.1. Any claim brought by the Customer against the Company in respect of its duties and liabilities or any insurance claim submitted in terms of insurance arranged by the Company must be notified by the Customer to the office of the Company in writing within seven (7) days after delivery of the goods or the date when the goods should have been delivered.  
 9.2. Notwithstanding fulfillment of the notice requirement, the Company shall be discharged of all liability unless suit is brought and notice thereof given to the Company within nine (9) months after delivery of the goods or the date when the goods should have been delivered.

10. Goods Prohibited for Carriage  
 10.1. The Customer warrants that the Goods comply with applicable laws, regulations or requirements of authorities or carriers, including, but not limited to requirements relating to packaging and labelling and transportation of dangerous goods. The Company does not accept for carriage any combustible or explosive materials, gold or silver bullion, coin, cyanides, precipitates or any form of gold or silver ore, bullion, platinum and other metals, precious and semi-precious stones including commercial carbons or industrial diamonds, jewelry, currency (paper or coin) of any nationality, securities, stocks, bonds, un-cancelled postage or revenue stamps, blank or endorsed bank cashier's cheques, money orders or traveller's cheques, antiques, pictures, livestock or plants, manuscripts, furs, arms and ammunition.

11. Governing law  
 Any dispute in terms of this Agreement shall be resolved in accordance with the laws of the Republic of South Africa.

12. Compliance with Civil Aviation Regulations  
 12.1. The Customer agrees that Aramex is entitled, for the purpose of complying with Part 108 of the Civil Aviation Regulations (Air Cargo Security), to screen, x-ray or hand-search the Customer's Goods before placing them on board an air carrier's aircraft.  
 12.2. The Customer undertakes clearly to describe the nature of the Customer's Goods in the space provided on Aramex South Africa's Waybill.

### **Background**

This communique is presented, subsequent to a notice, which was given to interested and affected parties (IAPs), regarding the above mentioned project on 11 March, 2016. This said notice was given in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA): Environmental Impact Assessment (EIA) Regulations, 2014 R982 (2014 EIA Regulations), Section 41 (2) (a) (b) (c) (d) (e) and (3) published in Government Notices No. R982, under Sections 24 (5) and 44 of NEMA. It was a notice informing the stakeholders of West Coast Resources' (WCR) intention to re-visit and mine certain areas of on the Namaqualand Coast. WCR are re-establishing diamond mining operations in the existing mining rights areas on the Namaqualand coast, previously mined by De Beers and under the existing mining rights of July 2012, i.e. Koingnaas Mining Right (522MRC) and Samsons Bak Mining Right (525MRC). As part of their operations, WCR intend to mine deposits that are located on land, as well as on the beach and extend seaward, potentially for several hundred meters.

WCR wants to continue with mining on the areas covered by these rights i.e. areas within the existing mining rights authorization, with immediate target being the Langklip and Koingnaas Complex. The immediate targeted areas, are those that will not trigger new listed activities in terms of NEMA.

### **Application for environmental authorisation**

The notice mentioned above, also alerted the stakeholders that an application for environmental authorisation was submitted to the Department of Mineral Resources (DMR), in terms of NEMA and National Environmental Management Waste Act (No. 59 of 2008) (NEM: WA), in respect of listed activities that have been triggered by applications lodged by WCR in terms of the Mineral and Petroleum Resources Development Act (No. 28 of 2002) (MPRDA). The applications that were submitted in terms of the MPRDA are an amendment of the mining right in terms of Section 102 of MPRDA.

Therefore, scoping and EIA report procedures are being applied to this application. As a reminder, a map showing the locality of the mining area, with respect to the proposed project, is included as Appendix 3 of the EIA report (See details below, regarding availability of the EIA report) and included as Attachment 1, of this letter. In addition, to provide a memory trail regarding this project journey, the EIA project milestones are outlined as Attachment 2 of this letter.

### **Scoping Report and EIA report Review**

Myezo Environmental Management Services Pty Ltd (Myezo), has thus been appointed by WCR as an environmental assessment Practitioner (EAP), to undertake EIA for the activities that would require environmental authorization.

The project finished scoping stage, and a notice for the review of such scoping report was advertised on the Namakwalander Newspaper, on 04 April 2016. All comments on the scoping report or issues that had to be covered on the succeeding EIA stage were due for submission to the EAP by 18 April 2016.

Consequently, please be advised that this notice serves to invite registered IAPs to now participate in the EIA report review stage. A copy of the EIA report can be viewed at Koingnaas Mine offices (30° 12' 38.64"S, 17° 16'25.34E), Springbok Library (04 Namakwa Street, Springbok, Northern Cape, 8240) and at West Coast Resources head office at (405 Voortrekker Road, Parrow, 7500).

To submit your comments on the EIA report, kindly contact Myezo using the details shown below. The submissions must all be done formally and in writing by either email or fax and should be submitted by 29 October 2016, which signifies the end of the commenting period. In the submissions of comments, the IAPs, must disclose any direct business, financial, personal or other interest which they have in the approval or refusal of the application.
