Dear Athi

This is indeed great news and we really value the contribution from WCR in the effort to assess the impact of mining activities around the Swartlintjes.

As said, the Namakwa District Municipality appointed a service provider for the drafting of the EMP for Buffels River Estuary but the appeal process is still pending. After next week we will know who the service provider will be and that person will then be advised to interact with Myezo as a matter of consistency.

The terms of reference look pretty inclusive to me but I will forward it to my National colleagues on Estuary management for their inputs.

Regards  
W

Dear Wilna,

On our meeting that was held on 15 September 2015, you extended a request enquiring if the estuary management plan for Swartlintjes could perhaps be done by West Coast Resources (Pty) Ltd (WCR). As part of investigating the issues and determining the actual impacts, the Terms of Reference (ToR) were drawn up to ascertain the interaction that the mining might have with the surrounding water resources and the estuary. We are sending you the attached ToR that were developed and the specialist will be now commissioned.

We send this as a form of feedback on what was decided since our last discussion, during the meeting, on this aspect. We also send it so that you may input into it before the specialist can do the actual work. Lastly, we understand that you are working with the District for the development of these plans. The one we are doing is specifically to the mining areas, but there will definitely be synergies and we would then get WCR specialist to interact with any appointed specialist by your District Municipality, just bearing in mind that the time frames for WCR are also governed by the EIA process.

Kindly share any of your appointed specialist we might engage with through the process, to ensure that the management objectives for the delineated zones are aligned as well as approaches and criteria.

May we have your input by Tuesday 7 June 2016.

**Kind Regards**

**Athi Xwayi**

**Subject:** Submission of Scoping Report to Authorities (Department of Environment and Nature Conservation)

Dear Interested and affected party (IAP)

***WEST COAST RESOURCES-KOINGNAAS AND SAMSONS BAK COMPLEXES-ENVIRONMENTAL  
IMPACT ASSESSMENT***

***NOTIFICATION TO INTERESTED AND AFFECTED PARTIES ABOUT THE REVIEW OF A SCOPING REPORT AND  
ENVIRONMENTAL IMPACT ASSESSMENT, AS WELL AS AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN  
SUPPORT OF A MINING RIGHT HELD BY WEST COAST RESOURCES (PTY) LTD OVER THE KOINGNAAS AND SAMSONS  
BAK COMPLEXES***

***Document Name: WKSCE-PI-Scoping-IAP scoping review***

**Date: 16 March 2016**

***Myezo Ref No: WKSCE/2015/02/NL***

**DMR Ref No: NC0043-MR/102 and NC0044-MR/102**

This communication hereby serves to notify you that West Coast Resources (WCR) intends to re-visit and mine certain areas along the Namaqualand Coast. WCR are re-establishing diamond mining operations in the existing mining rights areas, on the Namaqualand coast, previously mined by De Beers and under the existing mining rights of July 2012, i.e. Koingnaas Mining Right (522MRC) and Samsons Bak Mining Right (525MRC). As such, notice is hereby given in terms of Section 41 (2) (a) (b) (c) (d) (e) and (3) of the 2014 EIA Regulations, that an application for environmental authorisation has been submitted to the Department of Mineral Resources (DMR), in terms of NEMA and NEM: WA, in respect of listed activities that have been triggered by applications in terms of the MPRDA.

The applications that have been submitted in terms of the MPRDA, are supporting an amendment of the mining right, in terms of Section 102 of MPRDA. WCR will, therefore, commence with mining activities that are currently authorised under the existing mining right, but an environmental impact assessment (EIA) will be undertaken for the activities that are not currently authorised, including beach mining below the low water mark and certain land-based activities. Therefore, the application for environmental authorization is being undertaken for triggered listed activities for the Koingnaas Right and the Samsons Bak Right and scoping and EIA procedures are being applied to the application.

The compilation of the Scoping Report for public review is the most recent milestone of the project, as such WCR would like to invite all IAPs to participate in the finalization of the report. Furthermore, notice for the review of the Scoping report, as well as the notification about the application, was advertised on the Namakwalander Newspaper, on 04 March 2016. Moreover, site notices were erected on site and have also been placed at the other strategic locations for the convenience of the public. A copy of the advert is included as an attachment to this email, for your information. As part of the public participation process, the Scoping Report is loaded in the link, which is presented for you below for your comments, to ensure that you input on the proposed project. The Scoping Report is divided into three volumes, namely:

- Volume 1- Description of the scope of the overall activities in the proposed sites (Section 2a to hiii)
- Volume 2- Environmental attributes, impacts identified and plan of study for environmental assessment (Section h (v) - Section k)
- Volume 3- Public participation and supporting documentation (Appendices 1,2,3,4,5 to h including, Appendices 2.19.1-2.19.2)

As such the attachments to this email follow the same order. In addition, the attachments listed below are included:

- Copy of the advert showing the project locality
  - Letter informing you more about the process
- Reply Slip to be used to put comments about the Scoping Report

Please note that, the link expires on 18 April 2016, and that is the end date of the commenting period. Should you have any comments, queries or input with regards to the project, kindly complete the Reply Slip, also attached as Appendix h-7 under Volume 3 of the report, and return to us at the following details:

Attention: Ms. B. Fatyi

Address: Postnet Suite B165, Private Bag X18, Lynnwood Ridge, 0040, Pretoria  
Telephone: 012 998 7642  
Cell-phone no: 082 772 2418  
Email: [babalwa@myezo.co.za](mailto:babalwa@myezo.co.za)  
Fax to email: 086 543 1698

Please follow the steps below, in order to have access to the Scoping Report.

- 1) Visit <http://www.westcoastresources.co.za/documents/>
- 2) Click on the file you want to download.
- 3) This will prompt a Save As window to appear. Select the location you would like to save the document/folder.
- 4) After it has downloaded, right click on the folder and select the option "Extract All".
- 5) Select the location you would like to save the document/folder and click on "Extract".
- 6) A Password Needed window will appear. Please enter the following password: WCR Scoping Report MAR2016
- 7) Click OK.
- 8) A window containing the files will now open.

**Kind Regards**

**Athi Xwayi**

Environmental Administrator
