Re: splitting of SAHRA Final Comments for Bophirima

Dear Mariagrazia,

We refer to the Final Comment Letter (CaseID: 115) for farm Waterloo 992 IN as granted by the SARAH **In terms of section 38(8) of the National Heritage Resources Act (Act 25 of 1999)** as issued on the 15<sup>th</sup> of June 2012 to Bophirima Solar Energy (Pty) Ltd for 19,9ha.

In regards to the 19,9ha, this amount was initially planned for a solar project by Bophirima Solar Energy (RF) (PTY) Ltd. We would now like to split all approvals into 2 (allowing for 2 projects to be bid into the government's Small Project Independent Power Producer Program, SPIPP). The total footprint will remain the same, the purpose will remain the same, and the location will remain the same.

The reason we needed to have it split is because the dep of env has started a new program for solar projects up to 5MWp. The initial project on this site was planned to be 19MW on 20ha. We now decided to split the project into 2 equal sized (2x10ha) project, each capable of generating 5MW.

Hereby Bophirima Solar Energy would like to officially request the SARAH to split the 19,9ha final comment letter into 9,95ha allocated to Bophirima Solar Energy (RF) (PTY) Ltd and 9,95ha to Naledi Solar Energy (RF) (PTY) Ltd. (refer to maps below)

Unfortunately our request is rather urgent due to the upcoming bid deadline from the department of Energy.

Bophirima Solar Energy (RF) (PTY) Ltd and Naledi Solar Energy (RF) (PTY) Ltd are both 100% owned by Subsolar Energy, and both have Dick Berlijn as sole director. Naledi Solar Energy (RF) (PTY) Ltd hereby accepts all rights and obligations that come with the final comment letter and confirms that it has all the skills and capacity to honour its obligations.

Could you please provide us with a letter of confirmation?

With kind regards,

Dick Berlijn
