## Environmental Consultants

Departement of Land Affairs & Rural Development

Attention: Keabetswe Mothupi

Re: Verification of Land Claims

We are Environmental Consultants situated in Klerksdorp and has applied on behalf of Buitehof Boerdery CC for a Prospecting Right on the following farms in the Lichtenburg district.

- ~~Portion 11 of the farm **Viakpan 21 IP**~~
  
- Remaining extent of Portion 62
- ~~Portion 63 (Portion of Portion 62)~~
- ~~Portion 72 (Portion of Portion 62)~~ of the farm **Klipbankfontein alias Manana 26 IP**

Could you please be so kind to verify if there are any land claims over the farms as mentioned above?

It would be highly appreciated if you could help us in this matter as soon as possible.

Please feel free to contact the office of Dera Environmental Consultants or Mr. Erasmus on his cell: 082 895 3516 for any further information.

Yours truly,

P.P. 

Daan Erasmus

(A PORTION OF PORTION 62) OF THE FARM  
KLIPBANKFONTEIN ALIAS MANANA 26 IP**

We refer to your letter dated 08 of August 2018

We confirm that there is an existing land claim against the property above. The claim was lodged under Ditsobotla Local Municipality within Ngaka Modiri Molema District. The information reflects on the database of claims lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, of 2014.

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have been lodged but not yet gazetted such as:

1. Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
2. Some Claimants provided the geographic descriptions of the land they claim without mentioning the specific portion/property description they claim dispossession of rights in land against.

The Constitutional Court ordered that the claims that were lodged between 1 July 2014 and 27 July 2016 are validly lodged, but it interdicted the Commission from processing those claims until the Commission has finalised the claims lodged by 31 December 1998 or until Parliament passes a new law providing for the re-opening of lodgement of land claims. Parliament was given until 27 July 2018 to pass such a law.

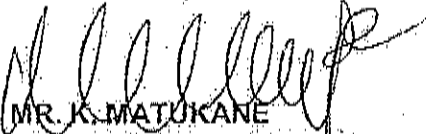

The Commission will therefore not be processing the above claims until it finishes claims lodged by 31 December 1998 or until Parliament passes a new law providing for re-opening of lodgement of claims.

It is important to note that provisions of section 11(7) of the Restitution of Land Rights Act, 1994 do not apply until after the Commission has accepted the claim for investigation and published its details in the Government Gazette. That will only be done once either event in the previous paragraph has been finalized.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation of claims it is found that there is/no land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do further search.

Yours faithfully

MR. K. MATOKANE

MINUTES OF MEETING ON PUBLIC MEETING HELD IN ON  
THE FARM KLIPBANKFONTEIN ON 22 AUGUST 2018  
REGARDING PROSPECTING RIGHT APPLICATION AND  
ENVIRONMENTAL AUTHORIZATION FOR BUITEHOF  
**BOERDERY CC**  
NW 30/5/1/1/1/12421 PR

Attendance: Mr. Daan Erasmus - MHLM  
Mr. Boetie Visser – Landowner

The following were discussed:

1. Buitehof Boerdery did apply for a Prospecting Right over portions of Klipbankfontein and Vlakpan, Lichtenburg district. These farms are situated 28 km west of Lichtenburg.
2. The application for Environmental Authorization was done at DMR and the public participation process for Scoping Report need to be done.
3. This meeting was advertised in the Noordwester Newspaper of 17 August 2018.
4. The adjacent neighbours were already consulted and no objections were received.
5. In Phase 1 geological surveys will be done. In phase 2 test pits will be made (2 m x 2 m x ± 3.m deep), on a grid of 100 x 100meters and where necessary on a 50 x 50 meters grid where the gravel outcrops. This test pits are made with a 30 ton excavator, to determine if any diamond bearing gravel does occur. These test pits will be closed up immediately before the excavator move on to the next one. 9 Months are needed for Phase 2.
6. In order to determine if the gravel does have diamonds the gravel needs to be taken out and tested, by putting it through the washing process. Trenching will be used to open the gravel in order to get a representative sample for testing. The trenches will be 10 x 60 x ± 3. m (deep). In one trench ± 1800m<sup>3</sup> gravel will be exposed and tested with a 10 feet washing pan at a rate of 6m<sup>3</sup> (10 ton) a hour. The total prospecting area is 989 hectares, thus it is anticipated that a total of 30 000m<sup>3</sup> will be tested by making trenches on different locations over the whole prospecting area, where the possibility of diamond bearing gravel were identified with the test pits. Taken at an 8 hour working day, 5 days a week and 20 days a month, the applicant will be able to process 960m<sup>3</sup> a month. The processing of 30 000m<sup>3</sup> will take about 36 months for Phase 3.

7. No high negative impacts were identified and no social impacts on the community or adjacent neighbours. All the impacts can be mitigated properly.
8. The landowner request that bulk sampling be done on grazing land first and al disturbance be rehabilitated back to grazing potential.
9. The draft Scoping Report was available for inputs.

The meeting adjourned.
