BACKGROUND: Proposed clearance of 40,537 hectares of indigenous vegetation in order to establish a Feed Mill, Agricultural Recreation Area, Solar Farm and Sheep Feedlot on Portion 15 of Portion 1 of the Farm Bultfontyn, Inxuba Yethemba Local Municipality, Eastern Cape Province. The proposed development will also entail the construction of three Sedimentation ponds, two Evaporation ponds.

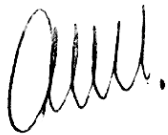

**ECPHRA FINAL COMMENTS:
IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT
(ACT 25 OF 1999)**

The APM committee resolved to endorse the recommendations. However:

- Implementation of the Recommendations will require a Permit which will need to be issued by ECPHRA instead of SAHRA
- Heritage material to be curated at an approved Eastern Cape Provincial repository, i.e. Albany Museum

- Chance find protocol should be adhered to, i.e. should you encounter any archaeological / paleontological materials, all construction activity is to cease immediately, the *find* location to be recorded and all remains left in place.

Sincerely,

A handwritten signature in black ink, appearing to be 'AMM.' with a period at the end.
