Dear Sir,

Re: **APPLICATION FOR A MINING PERMIT ON PORTION 1 OF FARM 800, GONUBIE, EAST LONDON**

Vaduba Investments CC, has applied for a permit to mine Weathered Dolerite (Sabunga) and Sand on Portion 1 of Farm 800, Gonubie.

According to subsections 3 (1 & 2) of the Minerals and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA), which came into effect on 1 May 2004, the State is the custodian of the nation's minerals. The minister, acting on behalf of the State may grant the right to an applicant to remove a mineral from an area where the resource has been identified. The applicant must, however, follow all the correct procedures and adhere to all the regulations and laws as prescribed by the MPRDA.

This letter serves as a formal notification that an application has been lodged with the Department of Minerals and Energy, Eastern Cape, for a permit to mine Weathered Dolerite (Sabunga) and Sand on Portion 1 of Farm 800, Gonubie. Notification is made in terms of subsection 5(4)(c) as well as subsection 22(4)(b) of the Act, which requires consultation with the landowner or lawful occupier of the land as well as other interested and affected parties. This notification is made on behalf of Vaduba Investments CC and forms part of the public participation process that is required by the MPRDA. A summary of the proposed activity is attached (Background Information Document) and more detailed information will be provided in the Environmental Management Plan, which will be made available to I&AP's for scrutiny.

According to the MPRDA, an applicant has 30 days from the time the DME accepts their application in which to notify and consult with interested and affected parties (IAPs) and the landowner or lawful occupier of the land on which the application has bearing of their intent, and to submit a record of such consultation to the DME.

Should you wish to register as an IAP or comment on the application, you are required to do so in writing. For your convenience, a response sheet is attached.

Please forward your written response to:

Clear Communications
P.O. Box 2179
Durbanville
7551

E-mail: clear@polka.co.za
Fax: 086 610 7719 / 021 979 1172

The final date for registering and submitting your response to this application is 9 September 2009. The EMPlan will be available at the Gonubie Public Library by 15 September 2009.

Registered IAPs will be kept informed regarding the progress of the application (availability of documents, public meetings etc.)

Kindly note that a mining permit, should it be granted, is valid for two years and the applicant is in the process of applying for a mining right, which, should it be granted, would be valid for 30+ years. IAPs will however be duly informed in respect of the Vaduba Investment's mining right application and a separate public participation process will be launched in this regard.

Yours faithfully,

Carmen le Roux Krige

Dear Carmen Le Roux Krige

re: Gonubie Mining Application

I wish to object to the above application as I am an interested and affected party. I own Portion 47 of farm 799 which is a property on the Northern side of the Gonubie Main road.

My objection is based mainly on the usage by heavy trucks on the Gonubie Main Road. Any mining which takes place on this property will have to be trucked (and most of it) out of Gonubie via the only access road which is the Gonubie Main road. This road as it is cannot tolerate the existing traffic, which is mainly small vehicles, and is constantly breaking up and having to be continuously repaired in a number of places.

Should the Riegers mining application be successful I can see the Gonubie Main road being totally destroyed in a short period of time, such as happened to Oosanway Road a year or so ago when this road was being used by heavy vehicles for a development in the vicinity.

As I am sure you are aware, the Gonubie Main road is the only access into Gonubie. It is an extremely busy and dangerous road and each time we exit or enter our property we "take our lives in our hands". There is absolutely no way that this road could handle the extra pressure should heavy trucks be utilizing it on a regular basis.

9/16/2009

Dear Trudie,

Thank you for your e-mail.

It is regrettable that the Gonubie Bugle published a misleading and unfounded article and that Gonubie residents recently launched an e-mail chain letter campaign in protest against Vaduba Investment CC's mining permit application. Neither the Bugle article nor the chain letter were in fact researched by their writers and they are very poor sources of information. Both have led to residents being misinformed about a mining operation that has in fact been in existence, in Gonubie, for a number of years.

Please find attached:

- correct background information regarding the application
- press release as sent to the Gonubie Bugle – for publication on Friday August 28
- an official objection/response sheet

The correct procedure to follow, should you wish to register, comment or object to the mining permit application on Portion 1 of Farm 800 Gonubie, is to complete the attached response sheet. Objections should preferably be substantiated. Residents should note that Portion 3 of Farm 800, EAST LONDON, does not fall within the Gonubie area.

Kind regards,

Carmen le Roux Krige

Subject: Objection to mining in Gonubie on farm 800/1

*Dear Carmen Le Roux Krige
CLEAR Communications.*

I wish to lodge my objection and register as an IAP regarding the mining application lodged by Vaduba Investments CC (Garry Reiger) I have been affected by their indiscriminate bulldozing of land without the necessary Environmental Impact Assessments being carried out, it appears that Vaduba, lead by Garry Reiger do not have any regard for the environment as they have on numerous occasions bulldozed areas on my Eastern and Northern boundaries of Farm 799 portion 20 and actually bulldozed approximately 3000 m2 of my land (without permission) in a very sensitive section along the Gqunube River valley, without any effort to apologise or make good the damage that he has caused. I have tried to get the various authorities to act against Garry Reiger but in vain. Once Vaduba has permission to Mine / Quarry they (Vaduba) will probably continue as they have in the past to give scant regard for the environment and people that are not in a financial position to bring the offenders to book, and be a law unto themselves. It is my understanding that permission has to be obtained to clear large areas of land as it has an impact on the environment, there is good reason for it as it may affect the nesting season of many species of indigenous birds, and once again a large area has been cleared during the nesting season, this time on farm 800/1 at the start of the nesting season, in September 2007 Reiger cleared large areas on his farms 799/4 and 799/41, I know this because I share the boundary with him.

The other reason for my objection is the overloading of the already congested Gonubie Main Road (Ocean Way) and the fragile surface that is already suffering the onslaught of Vaduba's heavy vehicles that make hundreds of trips in and out of Gonubie from their premises, the volumes will undoubtedly increase substantially should they be allowed to increase their mining operation. I also object to the proposed mining site being used as a waste disposal site once mining has been completed, we already know how the many tip fires that have spontaneously erupted over the years have adversely affected the clean breathing air of our beautiful holiday seaside town.

I am a property owner that borders Farm 800 portion 1 and hereby officially lodge my objection, I am

surprised that I have not been contacted directly by the applicant as I am indeed a neighbor ,and as I type this objection I have noticed that Vaduba has now bulldozed a third section of my property being the Southern boundary of my property, dislodging boundary pegs that were set marking the boundary, and furthermore, they are planting fence poles extending their northern boundary into my property.

13 August 2009

Dear Sir,

Re: APPLICATION FOR A MINING PERMIT ON PORTION 1 OF FARM 800, GONUBIE, EAST LONDON

Vaduba Investments CC, has applied for a permit to mine Weathered Dolerite (Sabunga) and Sand on Portion 1 of Farm 800, Gonubie.

According to subsections 3 (1 & 2) of the Minerals and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA), which came into effect on 1 May 2004, the State is the custodian of the nation's minerals. The minister, acting on behalf of the State may grant the right to an applicant to remove a mineral from an area where the resource has been identified. The applicant must, however, follow all the correct procedures and adhere to all the regulations and laws as prescribed by the MPRDA.

This letter serves as a formal notification that an application has been lodged with the Department of Minerals and Energy, Eastern Cape, for a permit to mine Weathered Dolerite (Sabunga) and Sand on Portion 1 of Farm 800, Gonubie. Notification is made in terms of subsection 5(4)(c) as well as subsection 22(4)(b) of the Act, which requires consultation with the landowner or lawful occupier of the land as well as other interested and affected parties. This notification is made on behalf of Vaduba Investments CC and forms part of the public participation process that is required by the MPRDA. A summary of the proposed activity is attached (Background Information Document) and more detailed information will be provided in the Environmental Management Plan, which will be made available to I&AP's for scrutiny.

According to the MPRDA, an applicant has 30 days from the time the DME accepts their application in which to notify and consult with interested and affected parties (IAPs) and the landowner or lawful occupier of the land on which the application has bearing of their intent, and to submit a record of such consultation to the DME.

Should you wish to register as an IAP or comment on the application, you are required to do so in writing. For your convenience, a response sheet is attached.

Please forward your written response to:

Clear Communications
P.O. Box 2179
Durbanville
7551

E-mail: clear@polka.co.za
Fax: 086 610 7719 / 021 979 1172

The final date for registering and submitting your response to this application is 9 September 2009. The EMPlan will be available at the Gonubie Public Library by 15 September 2009.

Registered IAPs will be kept informed regarding the progress of the application (availability of documents, public meetings etc.)

Kindly note that a mining permit, should it be granted, is valid for two years and the applicant is in the process of applying for a mining right, which, should it be granted, would be valid for 30+ years. IAPs will however be duly informed in respect of the Vaduba Investment's mining right application and a separate public participation process will be launched in this regard.

Yours faithfully,

Carmen le Roux Krige

Vaduba Investments CC, has applied for a permit to mine Weathered Dolerite (Sabunga) and Sand on Portion 1 of Farm 800, Gonubie.

According to subsections 3 (1 & 2) of the Minerals and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA), which came into effect on 1 May 2004, the State is the custodian of the nation's minerals. The minister, acting on behalf of the State may grant the right to an applicant to remove a mineral from an area where the resource has been identified. The applicant must, however, follow all the correct procedures and adhere to all the regulations and laws as prescribed by the MPRDA.

This letter serves as a formal notification that an application has been lodged with the Department of Minerals and Energy, Eastern Cape, for a permit to mine Weathered Dolerite (Sabunga) and Sand on Portion 1 of Farm 800, Gonubie. Notification is made in terms of subsection 5(4)(c) as well as subsection 22(4)(b) of the Act, which requires consultation with the landowner or lawful occupier of the land as well as other interested and affected parties. This notification is made on behalf of Vaduba Investments CC and forms part of the public participation process that is required by the MPRDA. A summary of the proposed activity is attached (Background Information Document) and more detailed information will be provided in the Environmental Management Plan, which will be made available to I&AP's for scrutiny.

According to the MPRDA, an applicant has 30 days from the time the DME accepts their application in which to notify and consult with interested and affected parties (IAPs) and the landowner or lawful occupier of the land on which the application has bearing of their intent, and to submit a record of such consultation to the DME.

Should you wish to register as an IAP or comment on the application, you are required to do so in writing. For your convenience, a response sheet is attached.

Please forward your written response to:

Clear Communications

P.O. Box 2179

Durbanville

7551

E-mail: clear@polka.co.za

Fax: 086 610 7719 / 021 979 1172

The final date for registering and submitting your response to this application is 9 September 2009. The EMPlan will be available at the Gonubie Public Library by 15 September 2009.

Registered IAPs will be kept informed regarding the progress of the application (availability of documents, public meetings etc.)

Kindly note that a mining permit, should it be granted, is valid for two years and the applicant is in the process of applying for a mining right, which, should it be granted, would be valid for 30+ years. IAPs will however be duly informed in respect of the Vaduba Investment's mining right application and a separate public participation process will be launched in this regard.

Yours faithfully,

Carmen le Roux Krige
