Yours Faithfully,

Robert Kruger  
**Environmental Project Manager**  
**FOR THE MSA GROUP**

Specialist Consultants  
to the Mining Industry

18 April 2011

South African Heritage Resources Agency: Limpopo Province  
Attention: Ms. Portia Ramalamula

Dear Ms. Ramalammula,

**NOTICE AND INVITATION TO PARTICIPATE IN MINING RIGHT APPLICATION (MRA), ENVIRONMENTAL IMPACT ASSESSMENT PROCESS (EIA), WASTE MANAGEMENT LICENSE APPLICATION (WMLA) AND INTEGRATED WATER USE LICENSE APPLICATION (IWULA) FOR THE PROPOSED ESTABLISHMENT OF THE VEREMO MAGNETITE MINE NEAR ROOSSENEKAL, LIMPOPO PROVINCE**

Veremo Minerals (Pty) Ltd has appointed The MSA Group (MSA) as independent environmental consultants to undertake various authorisation processes for the proposed establishment of an open pit magnetite mine. The proposed mine will be located on the following portions of land located approximately sixteen (16) kilometres north of Stoffberg and twelve (12) kilometres west of Roosenekal, Limpopo Province (please refer to attached locality map:

- A portion of portion 2 of the farm Paardekloof 176 JS,
- The remaining extent of the farm The Wedge 175 JS, and
- Portions 1, 2, 3, 4, 5 of the farm Duikerskrans 173 JS.

It is Veremo's intention to mine the weathered, free-dig magnetite-rich ore for a period of approximately 30 years. Authorisation is required for this proposed mining operation in terms of the following legislation:

- Section 22 and 39(1) of the Mineral and Petroleum Resources Development Act (Act 28 of 2002), as amended (MPRDA) (Application for a Mining Right from the Department of Mineral Resources (DMR));
- Section 24(2) and 24(D) of the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) as read with Government Notice R543 (Regulation 26 to 34) and R545 of the Environmental Impact Assessment Regulations, 2010 (Application for Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LEDET));
- Section 19(1) and 20(b) of the National Environmental Management: Waste Act (Act 59 of 2008), (NEMWA) as read with the Government Notice No. 718 Category B (Application for a Waste Management License from the National Department of Environmental Affairs (DEA)); and
- Section 21 of the National Water Act (Act 36 of 1998) (NWA) (Application for an Integrated Water Use License (IWUL) from the Department of Water Affairs (DWA)).

Please find included with this letter one (1) copy and (1) CD of the **Draft Environmental Impact Assessment Report (EIR)** and **Environmental Management Programme (EMPr)**, compiled in terms of **Section 49** of the MPRDA.

*Should you be aware of any other key stakeholders to be notified and afforded the opportunity to comment on this document, please forward their comments to us as soon as possible?*

For more information and/or to submit comments pertaining to the project comments should be submitted, please contact:

Robert Kruger **OR** Cherie Matebesi

The MSA Group,

P.O. Box 81356,

Parkhurst, 2120.

Tel: (011) 880 4209

Fax: (011) 880 2184

E-mail: [robertk@msagroupservices.com](mailto:robertk@msagroupservices.com) **OR** [cheriem@msagroupservices.com](mailto:cheriem@msagroupservices.com) **ON OR BEFORE TUESDAY 12 MAY 2011**

**Invitation to Public Open Day:**

Further to this, MSA would like to invite all Interested and/or Affected Parties to attend a Public Open Day where the project will be presented and discussed.

Date: Thursday 5 May 2011

Venue: Roossenkhal Public Hall (c/o Hugo & Willemse Street 43, Roossenekal)

Time: Anytime between 11h00 and 18h00

Yours Faithfully,

Robert Kruger

This document has been prepared for the exclusive use of Veremo on the basis of instructions, information and data supplied by them. No warranty or guarantee, whether expressed or implied, is made by The MSA Group (MSA) with respect to the completeness or accuracy of any aspect of this document and no party, other than Veremo, is authorised to or should place any reliance whatsoever on the whole or any part or parts of the document. MSA does not undertake or accept any responsibility or liability in any way whatsoever to any person or entity in respect of the whole or any part or parts of this document, or any errors in or omissions from it, whether arising from negligence or any other basis in law whatsoever.

## **RECORD OF PUBLIC MEETING PROCESS**

A public open day was held for the Veremo Iron Ore Project on Thursday 5 May 2011 at the municipal hall in Roossenekal for 11H00 to 18H00. The gathering was attended by approximately 50 people, composed of the local community, members of the Ndebele Traditional Council, members of the Elias Motsoaledi Local Municipality and Groblersdal Local Municipality as well as farmers from the general area. The majority of the larger group that attended did so looking for employment. One member of the group indicated that they were told to attend the meeting because it was for employment opportunities.

A group representing the Duikerkrans Land Claimants attended the open day. MSA sat with the group and discussed issues they had, one of which was that they no longer had access to the land as the farm gates had now all been locked by the tenants. MSA agreed that the issue would be documented and elevated to a more senior level to make a decision on.

Information pertaining to the environmental process and findings thereof was presented to attendees. The visual aid of layouts and maps were utilised to address questions. The information was presented in both English and siPedi where relevant and appropriate. All those who attended the meeting have been recorded in a database.

A representative of the Groblersdal Municipality, Mr Tshepo Mthombeni, an environmental officer with the Municipality, expressed concern about the fact that MSA had chosen to have a project open day and not a formalised meeting. It was expressed to Mr Mthombeni that this was a project announcement meeting and an initial feedback opportunity and that there were other meeting events that would follow. Mr Mthombeni insisted that he would like to see a formalised public meeting. MSA agreed to consider his request in conjunction with comments made by the Ndebele Traditional Council. Mr Mthombeni insisted that a public open day was considered by him an ineffective method of public consultation and that he would only recognise that any public meeting took place if MSA were to reschedule the open day and plan a formalised public meeting.

Two members of the Ndebele Traditional Council for the area attended the open day, those being Mr Paul Mahlangu, a senior administration officer at the Council, and Mr Frans Mahlangu, the Secretary at the Council. Mr Paul Mahlangu requested that MSA make themselves available for a meeting with the Chief of the Council, Chief Mapepa II. MSA agreed and scheduled a meeting for 08H00 on Friday 06 May 2011 at the Council offices in Nkosini. The purpose of the meeting was to address the senior Council members with regard to the project and to provide them with an opportunity to raise possible concerns or issues around the project. The meeting with the Council was well attended, along with the Chief himself and his two wives. At the close of the meeting the Council expressed their thanks for MSA honouring the Council's request for a meeting and were grateful for the opportunity to comment on the proposed mine. MSA was made aware of certain facilitation expectations of the Royal Council, as was customary.

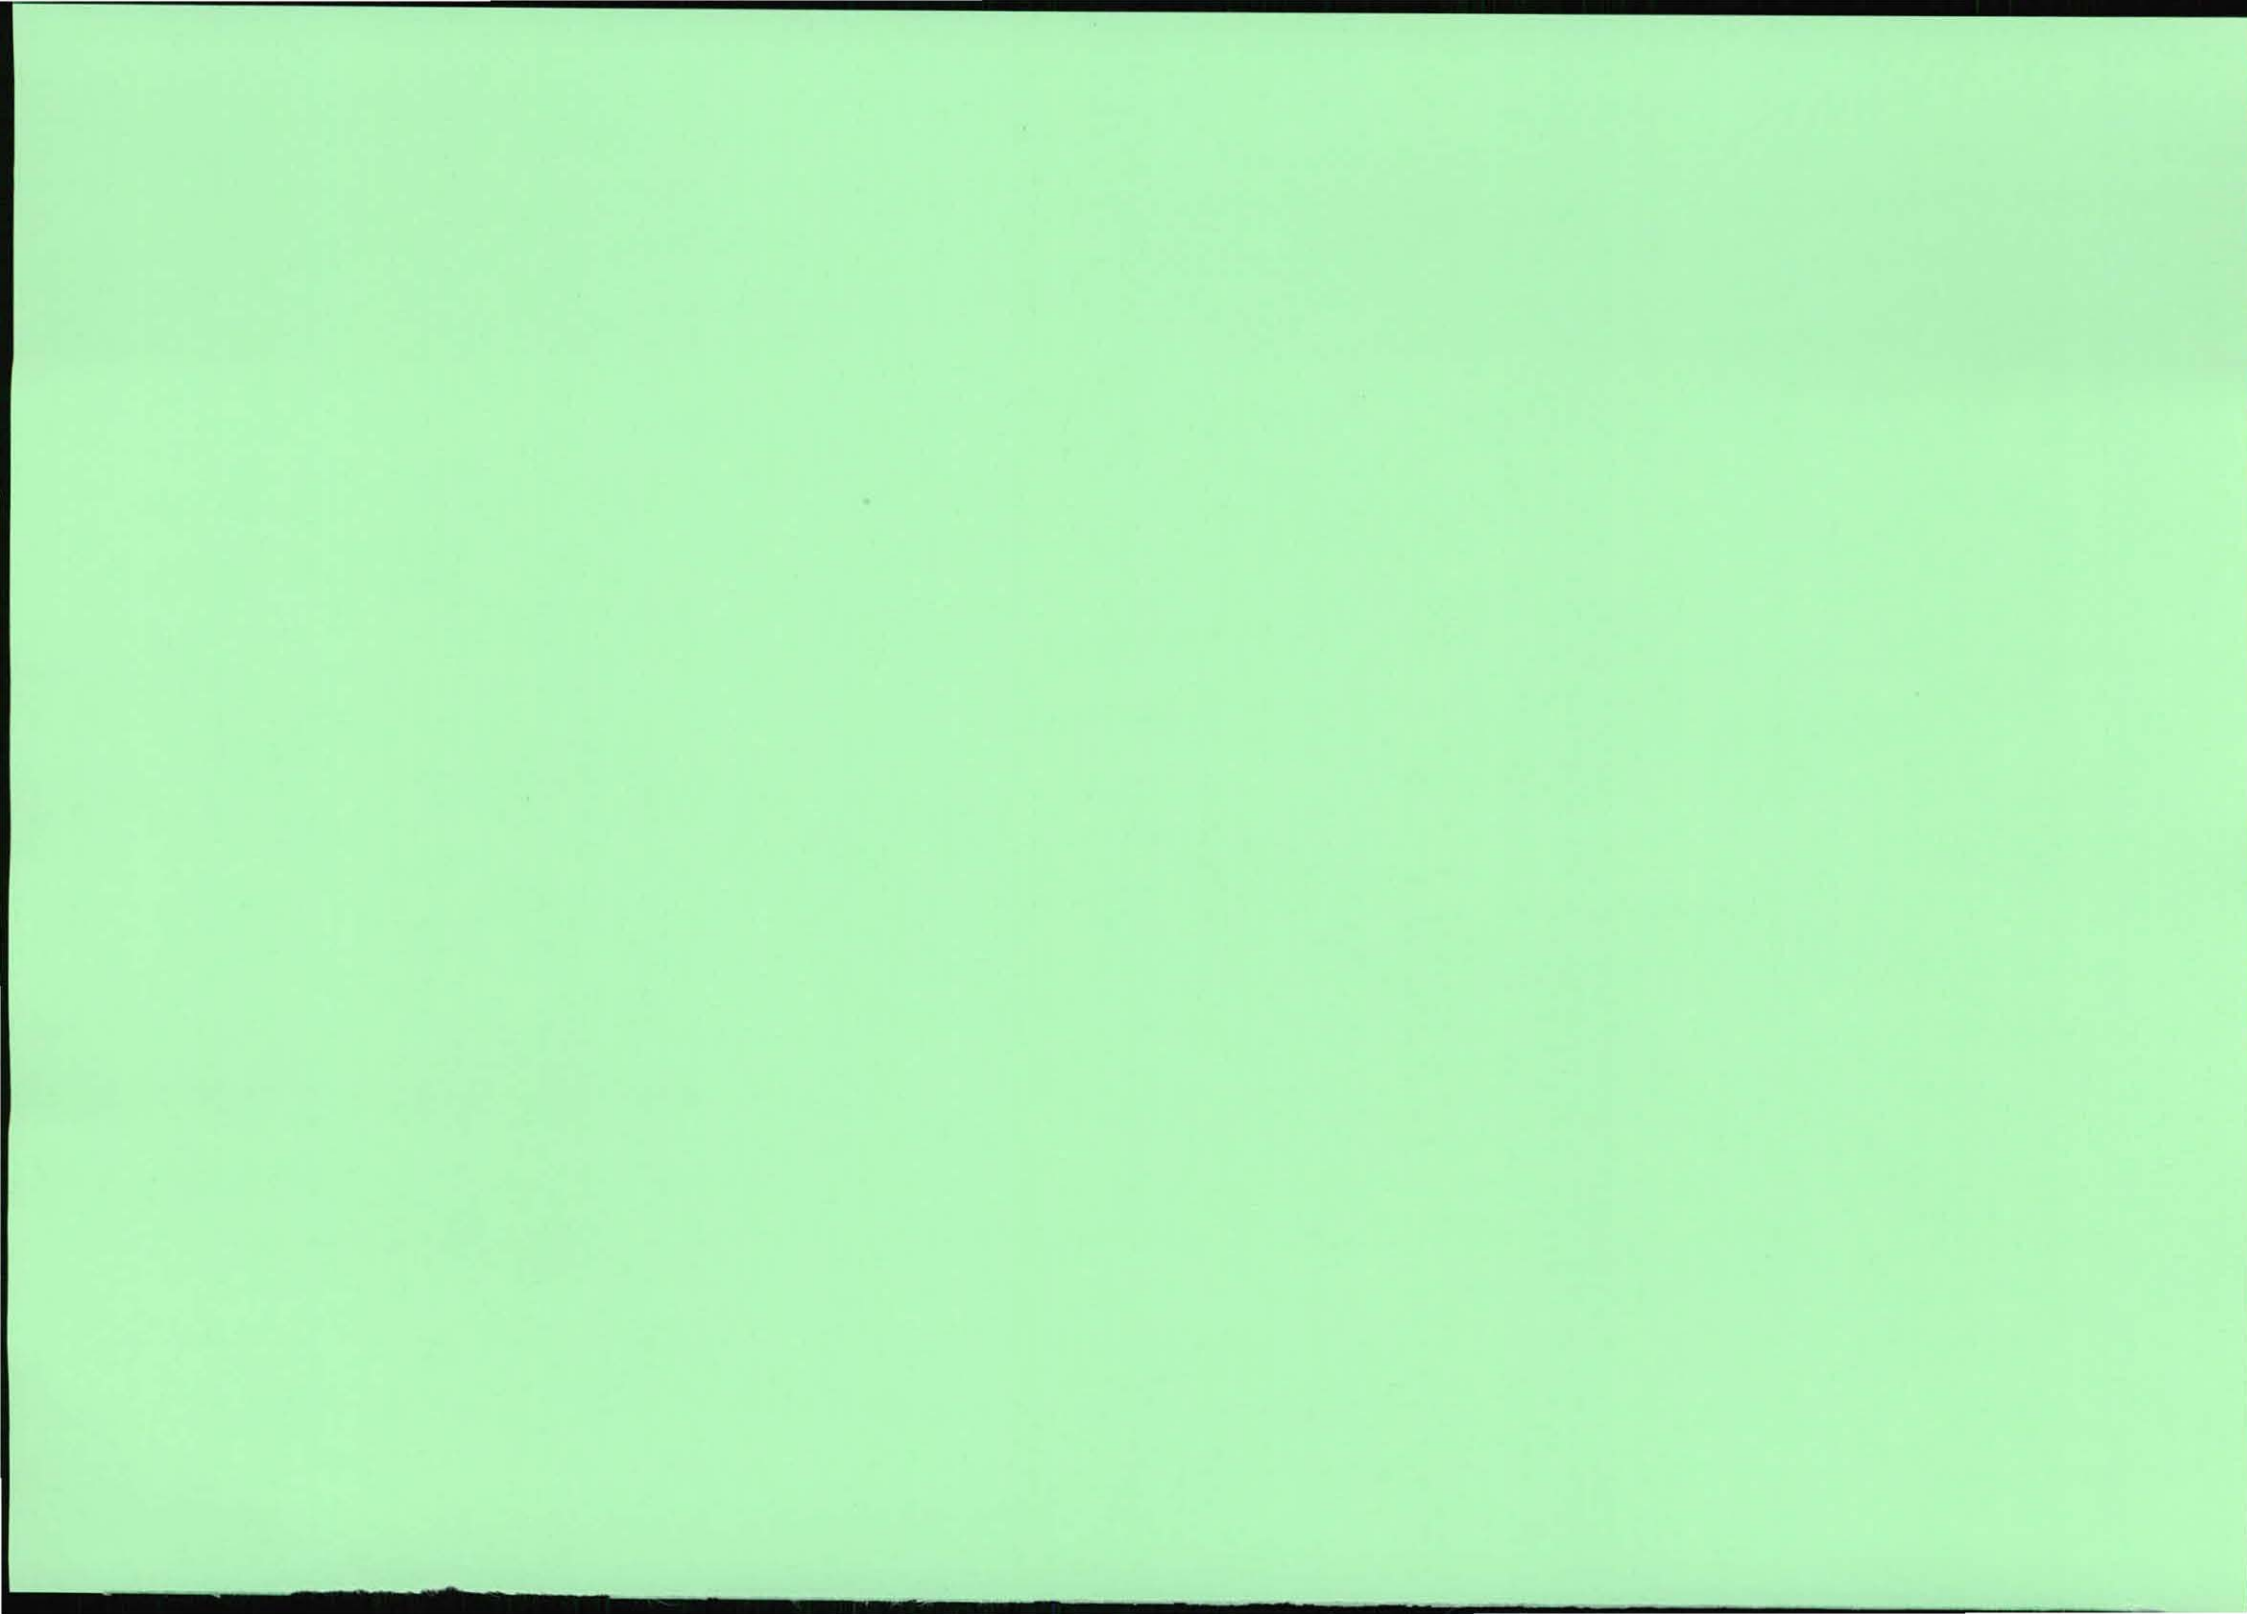

MSA left a copy of the draft Environmental Impacts Report with the Council to be posted at the Council offices for the review of anyone who would like to see the document.

MSA have arranged for a public meeting to take place at the Ndebele Traditional Council offices on Thursday, 12 May 2011, at 09H00. The purpose of the meeting is to present the project to the larger community surrounding the Nkosini area and to receive comments regarding the proposed mine. This meeting is inline with the suggestions of the representatives of the Groblersdal Municipality and the Ndebele Traditional Council.

MSA were informed by the Ndebele Traditional council that they were they proper and only group of people to consult with as Chief Mapepa II ruled over the concerned project larger area and all were his subjects. It was made clear to MSA that Veremo, as the project developers, were expected to engage the Traditional Council on a formal level to discuss a relationship going forward as the Council represented the Royals.

## **RECORD OF PUBLIC MEETING PROCESS**

A public meeting was held on 12 May 2011 at the Ndebele Traditional Council (NTC) offices in Nkosini as part of the Public Participation process of the Veremo Environmental Impact Assessment (EIA) and Environmental Management Programme (EMPR). This meeting has been held subsequent to the Public Open day and meeting held with the NTC on the 5<sup>th</sup> and 6<sup>th</sup> of May respectively. It had been brought to our attention that a large part of the community (Sehlakwane and Nkosini) was unable to participate in the initial meetings and that they too needed an opportunity to raise their concerns and questions to us. The council has once again raised the issue of facilitation fees, we suggest that Veremo engage with them regarding this as soon as possible and they are the link between the general community and the land claimants.

The NTC had agreed to announce this meeting to the community members and had successfully done so. Unfortunately as in the first meeting held in Rossenekal many who were in attendance were under the impression that the meeting would be regarding Veremo hiring members of the community. Prior to the commencement of the meeting we explained the purpose of the meeting which was to announce the Mining Right Application Veremo are pursuing and to provide the community with opportunity to raise concerns and questions regarding the Environmental Assessments done on the site and surrounding area. The Paardekloof and Duikerskrans land claimants were also in attendance. We suggest that Veremo find out the progress with this process as the Departments of Mineral Resources (DMR) and Environmental Affairs (DEA) could delay issuing a record of decision because the land claim has not been resolved yet. A member of the Elias Motswaledi Local Municipality was also in attendance.

Once the meeting began registration of the community members commenced and a description of the project was given including the expected impacts, positive and negative, on the environment and the surrounding communities. The opportunity was then given to the community to ask questions and make comments. We have summarised the questions:

- What will Veremo's recruitment, training, and procurement policy be?
- What guarantees are there that the community members will be hired by Veremo?
- What will be mined and what will the final product that will leave the mine be?
- Why has a public gathering been called?
- What kind of medical facilities will the mine have for those who may be injured on site?

- What will be done with the graves on site, have the land claimants been consulted?
- How long will the DMR and DEA take to issue a record of decision?
- The community asked to be notified once there had been a record of decision issued by the DMR and DEA.
- How will Veremo engage with the community going forward?

All of the above questions were answered according to the information we had received from the client and information in the Environmental Management Programme (EMPR) and the community found them satisfactory. We encouraged the community to read the EMPR which we had previously left at the NTC offices and to send us any further questions they might have. The meeting was concluded with a word from a member of the NTC encouraging the community to participate in the process and provide input that can and should be considered by Veremo.

#### **Way forward**

We will add the comments received in the Comments and Response report which forms a part of the EMPR. This will be included in the revised document which will be sent to the DMR on the 17<sup>th</sup> of May 2011.

We urge Veremo to follow up with the land claims for Paardekloof and Duikerskrans farms as this may be a set back in receiving a decision from the authorities in our process.

We also urge Veremo to engage with the NTC as soon as possible regarding the facilitation fees as they have been of great assistance in keeping the community informed regarding project progress. It will be important to act in good faith going forward as they also have the ability to derail project progress if they feel over looked as they are also actively engaged with the land claimants who are part of their community. They appear to be a legitimate organization representing the community with offices and a hall built by the government and used by the political parties to hold public meetings.

Dear Madam

**COMMENTS FOR MINING RIGHT APPLICATION FOR VEREMO MAGNETITE MINE**

The Elias Motsoaledi Local Municipality comments to the mining right application with reference to the Mineral and Petroleum Resources Development Act 28 of 2002 read together with its regulation and other related national legislations. Veremo Mine intends to undertake its open cast mining activities on Portion 2 of the Farm Paardekloof 176 JS, Remaining Extent of the Farm The Wedge 175 JS and Portions 1, 2, 3, 4, 5 of the Farm Duikerskrans 173 JS, Limpopo Province. This office comments as the interested and affected party in order to see the proponent playing pivotal role on socio-economic and environmental desirability of the municipality within its jurisdiction. Below are questions that are posed for answering by the aforementioned developer.

- (1) There are no clear provisions of the Act/Regulations (MPRDA) that you have used to call upon public participation; it was clear during public participation process that Mr. Robert Kruger who is the Author of this document has failed to indicate to us which provisions of the Act/Regulations were used to call upon the public participation meeting.

In addition to the above, it must be noted that the methodology used to conduct public participation process was leading and bias to the communities and that it is not acceptable. Mr. Kruger agreed that they will stage another public consultation processes that will enable all role players (community and traditional institutions) to participate effectively on the process.

- (2) Provide this office with the DMR file number for your application.

- (3) Please submit to this office the Map having co-ordinates in terms of Regulation (2)2 of the MPRDA. Furthermore provide us with the geographic coordinates and short description of all identified archaeological/ historical aspects found on the area.
- (4) As you have indicated that some species may be relocated for conservation purpose, you are being requested inform this office about your intention to relocate certain species during the relocation period.
- (5) Your social and labour plan do not indicate the total percentage of how many local people (adjacent communities) will be employed based on the level of unskilled, semi-skilled and skilled laborers, please make such commitments. In addition to this you are requested to indicate how many people in percentage residing permanently within Elias Motsoaledi Local Municipality (EMLM) will be employed based on the level of unskilled, semi-skilled and skilled labourers as predicted in ages or period of productions.
- (6) How Veremo mine will contribute to both the infrastructure and environmental development within the Elias Motsoaledi Local Municipality as this was not catered for, within the provided social and labour plan?
- (7) Will the mine consider compensating families for removing artifacts or their cultural aspects which the concerned families who were removed without their own accord, who are staying on the area or who no longer reside on the area of interest, but having attached values (spiritual, social and etc) on the resources found on the aforementioned properties.
- (8) How will you evacuate people residing on the proposed mining area, please provide brief description of the whole procedures to be followed for relocation and financial implications to be incurred by your institution.
- (9) You are being advised to make commitment that you will contact this office or South African Heritage Council prior to removal of any grave on the proposed mining area.
- (10) Please indicate whether your rehabilitation process will be concurrent or what? If not concurrent please indicate why not and provide detailed description of how it will be conducted including all safety measures to be employed.

Elias Motsoaledi Local Municipality objects to the development of the proposed mining right application as the results of the aforementioned dissatisfactions and the raised concerns. Similarly, EMLM will be in harmony with the proposed development should the above concerns be clearly addressed.

For further information, please do not hesitate to contact this office.

---
