7. Name and address of the South African scientific institution (if applicable) that will curate the material recovered if it cannot be re-interred: Not applicable

B. DETAILS OF GRAVE OR BURIAL GROUND

8. Name(s) of place:

The area where the cemetery is located is referred to as Chloorkop X48, Kempton Park, Gauteng.

9. Is the grave/ burial ground that of - Victim(s) of Conflict? (Please circle as appropriate)
and/or - older than 60 years?
and/or has the grave been - found accidentally during the course of development?

The cemetery consists of five graves that are definitely older than 60 years (according to the inscriptions on the headstones) and approximately 18 graves that have no inscriptions and are therefore presumed to be older than 60 years. The total is 23 graves. However, one of the graves is very large and could contain up to four remains; therefore the total could be twenty-six.

10. Brief description:

The cemetery is situated in an industrial area in the Chloorkop area of Kempton Park on Portion 43 of the farm Mooifontein 14-IR. The property will in future be known as Chloorkop Extension 48. The graves are located in the middle of plot number 5343 (the plot covers an area of 2482m²) making any development on the property impossible unless the graves are relocated. The development and affected property are zoned for industrial purposes (refer Appendix I) for a map of the development.

Please note that no EIA or HIA has been conducted on the property. According to our client this was not required as part of the establishment of the township. The conditions under which the planned township was approved were attached with the previous application.

A total of twenty-three graves have been identified. One grave has a very large cement slab covering it – it is possible that as many as four graves may be located under the dressing, bringing the total number of graves to twenty-six. Eight of the graves have formal grave dressings but only five have legible or semi-legible inscriptions. The graves are arranged in four rows containing (from west to east) 3, 10, 3 and 6 graves respectively. The oldest known grave dates back to 20 February 1872 (Jantien van der Veen) and the most recent to March 1934 (Hendrik Johannes Albertyn).

Refer Appendix B for the graves register and a brief description of individual graves.

Figure 2. The oldest headstone in the cemetery, dating back to 1872 (CH17)

Figure 3. Headstone of CH23 (Johannes Jacobus Wiese Albertyn)

Figure 4. Headstone of CH02 (Adriana Catharina White)

11. Evidence for date of grave(s):

The dates for the five inscribed graves were obtained from the headstones. The dates of most of the other graves are currently unknown. The known most recent date of 1934 and the oldest date of 1872, indicates that the five graves are definitely older than 60 years and the others are likely to be 60 years or older.

12. Geographical Situation of Site or Object (Please mark general location of grave(s) on a photostat of a 1:50 000 map (NB)

D. PREREQUISITES FOR PERMIT**17. Please indicate what arrangements have been made for the exhumation and re-interment of the contents of the grave(s)(provide documentation and details):**

Reburial of the relocated graves will be in the Kempton Park (Bredell) Municipal cemetery where the original layout of the cemetery will be recreated. The reburial will be done by Martins Funeral Undertakers.

18. Please give details of consultation with communities and individuals who by tradition has an interest in the grave(s), and of the agreement reached with such communities and individuals (as required by Act 36 and the relevant Regulations Chps IX and XI) (provide documentation and details):

A detailed social consultation process was conducted in order to identify the next of kin of the deceased and to get their permission to relocate the graves from their current position. We made use of site notices, newspaper advertisements as well as a newspaper article.

The social consultation started with the placement of bilingual legal notices at the site as required by legislation. The notices were initially put up on 2007/12/07. Similar notices were published in the *Beeld* (the most widely read Afrikaans newspaper in Gauteng) on Wednesday 30 January 2008 (refer Appendix D). No comments were received from any interested and affected parties as a result of the advertisement or the site notices. Refer Appendix C for copies of the notices.

As a result of the lack of information on the graves, PGS arranged with the *Beeld* newspaper to run an article about the possible relocation of the graves. The article appeared in the Johannesburg print edition of the *Beeld* on 18/03/2008 and on the *Beeld* website on the same day (refer to **Appendix D**). The article gave the background to the project and encouraged any interested and affected parties to contact us should they have any information regarding the graves. As a direct result of the article we were contacted by Ms. Gladys Wilken, a granddaughter of the late Adriana Catharina White, one of the deceased. After the reason for the possible relocation was fully explained to her, Ms. Wilken gave us written permission to relocate the grave of the late Adriana Catharina White.

As a further result of the newspaper article, we received correspondence from Mr. Hennie Brits, a partner in the law firm of Blignaut Britz Attorneys in Jeffreys Bay. In his correspondence Mr. Brits stated that he

represented persons who were all grandchildren of the late Adriana Catharina White (they are also siblings):

1. Maria Magdalena Martenzina White (Brits), born 02/03/1935
2. Adriana Catharina White (Robinson), born 08/10/1939
3. Gezina Catharina White (Barnard), born 15/04/1941

Initially, Mr. Brits stated that he was aware that PGS had received permission from Ms. Gladys Wilken for the relocation of the remains of Adriana Catharina White, but that his clients also have a say in the matter. Mr. Brits furthermore stated that his clients needed certain information before they could make a decision regarding the relocation of the graves. The information requested was regarding the proposed use of property; the commercial value of the property; the possibility of financial benefit and whether there were alternatives to relocation of the graves.

PGS addressed Mr. Brits's questions in detail by letter. We explained the whole process and clearly stated the reasons for the planned relocation. It was also made clear that no compensation was to be paid to any person as a result of the relocation. After a three month delay, repeated phone calls and another letter, Mr. Brits sent us a letter (dated 2008/07/07) stating that his clients do not give permission for the relocation of the graves. No reasons were given for this decision.

At this point we were instructed by our client to continue with the permit application process. A permit for relocation of the graves was issued by SAHRA APM Unit (Appendix H) and by the Gauteng Forensic Pathology Department.

NB: However, in the interim, there was an extended delay on the client's side in obtaining the finalized township establishment and section 82 certificate. This was only finalized this year (see letter from client – Appendix E2). The SAHRA permit has therefore expired (since it was issued in 2008) and so PGS is re-submitting the application to the Burial Grounds and Graves Unit of SAHRA for renewal. The legal notices required in terms of the relevant legislation have been re-published in the Beeld and the Daily Sun newspapers (Appendix D2) and a new application is also in progress with the Gauteng Department of Health. The family member who previously gave consent for the removal (Mrs Gladys Wilken) has renewed her consent (Appendix F). The other family members who were previously represented by Mr Brits, have indicated via Mr Brits that Mrs Wilkin is the final authority regarding permission for the grave relocation (pers.com HS Steyn, 18/09/2012)

Since all the supporting documents for the initial application (specifically the communication between PGS and the relevant family members: Mrs Wilken and Mr Britz) were submitted to SAHRA with the previous application and a permit was issued, only the latest relevant information is included with this application (newspaper notices, family permission, landowner motivation letter, copy of previous SAHRA permit)

From May 2006, certain permit applications submitted to the South African Heritage Resources Authority, SAHRA, in terms of the National Heritage Resources Act (Act No 25 of 1999) must be accompanied by payment of the appropriate fee (PTO).

Permit Applications made on **SAHRA APM Permit Form No 305** will carry the following fees:

1. Permits issued by SAHRA Archaeology, Palaeontology & Meteorite Unit (APM) Unit for burials	Fee	*Application Code
i. Application fee for burials disturbed or relocated in terms of s.36 in consequence of development;	R250 unless SAHRA directs otherwise	*AP305BUR
ii. Application fee for accidentally discovered burials disturbed or relocated in terms of s.36;	Exemption	*AP305BAE
2. Permits issued for Victims of Conflict in terms of s.36;	Exemption	*AP305EXE

Kindly ensure that you supply the Application Code (see table above*) followed by the surname of the permit applicant, in the reference section of the bank deposit slip.

For example, AP305BUR MGUNI would be entered in the reference section of the bank form for an application for restoration or relocation of a grave from an applicant with the surname Mguni.

Charges may be waived, at the discretion of SAHRA Chief Executive Officer, for certain permit applications. It should be NOTED that SAHRA may, in terms of section 3 of the SAHRA permitting regulations, require that a financial deposit be lodged with SAHRA to safeguard a heritage resource until satisfactory completion of the action for which the permit is required.

PAYMENT may be made by depositing the relevant amount into the SAHRA bank account and faxing or producing the proof of payment (i.e., stamped deposit slip, internet banking confirmation, etc.), OR through Internet Banking and emailing or faxing proof of payment, OR by cheque, on application.

PLEASE TAKE NOTE THAT APPLICATIONS NOT ACCOMPANIED BY A PAYMENT OR PROOF OF PAYMENT MAY NOT BE PROCESSED UNLESS EXEMPTED ABOVE OR BY SAHRA.

Dear Sir/Madam

Re: Application of the lapse Chloorkop Ext 48 Graves Exhumation Permit

Land was developed for Industrial use on Chloorkop Ext 48. On the property was 16 graves that was to be removed according to our Conditions of Establishment with Ekurhuleni Metro.

We applied to SAHRA for the removal of the graves and obtained the relevant permits from SAHRA. However due to the long process of obtaining our Sec 82 certificate from Ekurhuleni Metro, our clients cancelled and the bank cancelled our development bond. During this period of uncertainty and delays our permits have expired.

Our Sec 82 certificate and township establishment has been concluded and we have secured a new buyer for the property. Herewith we would like to apply for the reissue of the lapsed permits for the Chloorkop ext 48 graves relocation.

Yours Faithfully

F.F. Müller

PERMIT

No. 80/08/08/007/51

Issued under Section 36(3) of the National Heritage Resources Act, Act No. 25 of 1999. Permission is hereby given:

to: Mr H Steyn (ID: 7109155269089) in association with Dr WC Nicnaber (acting as Principal Investigator, ID: 6911175094087),
of: Professional Grave Solutions (Pty) Ltd, PO Box 32542, Totiusdal, 0134 and Heritage Resources Management Solutions cc, 225 Roos Street, Meyerspark, 0184,
for: the exhumation of 5 graves older than 60 years and 18 graves with no inscriptions but presumed to be older than 60 years, for reburial by Helpmekaar/Thusanang Funeral Undertakers at Kempton Park (Suurfontein) Municipal Cemetery,
at: Chloorkop X48, at approximately 26.06943S, 28.19069E,
on: the erf 14 IR (Portion 14), plot number 5343, Mooifontein,
in: the Midrand District, Gauteng Province.

The following conditions apply:

1. If the permit holder is not to be present on the site at all times then SAHRA must be provided with the names and qualifications of the authorised representatives.
2. Adequate recording methods as specified in the Regulations and Guidelines pertaining to the National Heritage Resources Act must be used. Note that the position of the grave must be marked on a plan of the site, and the site marked on a 1:50 000 map.
3. A standard site record form must be lodged with the National Cultural History Museum.
4. Human remains must at all times be handled with respect and graves should not be disturbed except where unavoidable. The consultation procedures as indicated in the gazetted regulations of the National Heritage Resources Act (Act No. 25 of 1999) must be observed as appropriate. The recommendations for removal of graves and exhumations and for re-burial made in SAHRA's Policy 'What to do when graves are uncovered', section 3, must be observed as far as possible.
5. A report on the excavation must be submitted to SAHRA on or before 1 January 2010.
6. Reprints of all published papers, or copies of theses or reports resulting from this work must be lodged with the relevant Provincial Heritage Resources Authority and SAHRA.
7. If a published report has not appeared within three years of the lapsing of this permit, the report required in terms of the permit will be made available to researchers on request.
8. It is the responsibility of the permit holder to obtain permission from the landowner for each visit, and conditions of access imposed by the landowner must be observed.
9. It is the responsibility of the permit holder to fill in excavations and protect sites during and after excavation to the satisfaction of the SAHRA and the landowner.
10. SAHRA shall not be liable for any losses, damages or injuries to persons or properties as a result of any activities in connection with this permit.
11. SAHRA reserves the right to cancel this permit by notice to the permit holder.
12. This permit is subject to a general appeal and may be suspended should an appeal against the decisions be received by SAHRA within 14 days from the date of the permit. SAHRA may not be held responsible for any costs or losses incurred in the event of the suspension or retraction of this permit.

This permit is valid until 1 January 2010.
