 - Tsantsabane - Local Municipality
 - Wards no - 6
- The decommissioning phase will entail the reinstatement of the processing area by removing the stockpiled material, site infrastructure/equipment and landscaping the disturbed footprints. The excavation will be developed into a minor landscape feature. This will entail creating a series of irregular benches along the excavation faces, the top edges of each face being blasted away to form scree slopes on the benches below, thereby reducing the overall face angle. The benches will be top-dressed with topsoil and vegetated with an appropriate grass mix if vegetation does not naturally establish in the area within six months of the replacement of the topsoil.
- Kuruman Administrative Region
 - Farm portions
 - Postmasburg Magisterial District

Proposed mining area coordinates:
