Dear Azrah Essop

NOTICE OF AVAILABILITY OF DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED UPGRADE TO SUBLIME ACCESS ROAD AND NEW INTERSECTION WITH R580, EXARRO MATLA MINE, EMALAHLENI LOCAL MUNICIPALITY, MPUMALANGA PROVINCE

Eskom Holdings SOC Ltd, (Eskom), has applied for environmental authorisation for the abovementioned project.

Please find attached two (2) hard copies and Two (2) CD copies of the Draft Basic Assessment Report (BAR) for your perusal. Please note that the Draft BAR has been submitted to the following State Departments for their comments. As per Regulation 56 (b) of GN No. R543 should no comments be received within the 30 day public comment period, it will be assumed that the State Department has no comments.

Title	First Names	Surname	Organisation	Telephone
Mr	Masala	Mulaudzi	Department of Water and Sanitation	013 759 7300
Mr	Benjamin	Moduka	Mpumalanga Heritage Resources Agency	013 766 5198
Ms	S.	Xulu	Mpumalanga Department of Agriculture Rural Development Land and Environmental Affairs	013 766 6020
Mr	Humphrey	Mayisela	Emalahleni Local Municipality	013 690 6911

Should you require further information, please do not hesitate to contact us.

Yours faithfully,

Willie Howell

Dear Mr Mulaudzi

NOTICE OF AVAILABILITY OF DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED UPGRADE TO SUBLIME ACCESS ROAD AND NEW INTERSECTION WITH R580, EXARRO MATLA MINE, EMALAHLENI LOCAL MUNICIPALITY, MPUMALANGA PROVINCE

GIBB (Pty) Ltd (GIBB) has been appointed by Exarro Matla Coal (Exarro) to conduct a Basic Assessment (BA) and Water Use License Application (WULA)/General Authorisation (GA) Process for the proposed upgrade of Sublime Access Road and the construction of the new intersection with R580 to provide access to the Exarro Coal Mine in Matla, Mpumalanga Province. The road upgrade is approximately 1,82km in length. The road access will be widened to accommodate a dual lane road, along the existing gravel road and upgraded to asphalt standard. There will be a new alignment (approximately 180m) of the existing access road of the R580 and the road alignment will then follow along the existing gravel road. The road will be designed with an average road width of 11.2m. Stormwater upgrades (such as installation of box culverts) will be required as well to allow for drainage along the road.

PUBLIC PARTICIPATION PROCESS

Please find attached one (1) hard copy and one (1) CD copy of the Draft Basic Assessment Report (BAR) for the above mentioned project. You are hereby afforded a 30 (thirty) day review period from **Monday, 05 February to Wednesday, 07 March 2018** (inclusive) to comment on the Draft BAR.

The report has also been made available at the following locations:

Place	Address	Contact Person	Telephone
Kriel Public Library	Cnr. Quinton & Hendrikz, Kriel, 2271	The Librarian	017 648 2241
The Draft BAR and associated WULA is also available on the GIBB website at the following link:			
<ul style="list-style-type: none"> • https://projects.gibb.co.za/Sublime_Access_Road_Upgrades_BA • A CD copy is available upon request. 			

Please register all written comments on the abovementioned project to GIBB. Comments can be submitted by post, fax or email to the GIBB Public Participation Office (details provided below) by no later than **Wednesday, 07 March 2018**.

29 January 2018

Dear Interested and Affected Party

NOTICE OF AVAILABILITY OF DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED UPGRADE TO SUBLIME ACCESS ROAD AND NEW INTERSECTION WITH R580, EXARRO MATLA MINE, EMALAHLENI LOCAL MUNICIPALITY, MPUMALANGA PROVINCE

Project Description

GIBB (Pty) Ltd (GIBB) has been appointed by Exarro Matla Coal (Exarro) to conduct a Basic Assessment (BA) and Water Use License Application (WULA)/General Authorisation (GA) Process for the proposed upgrade of Sublime Access Road and the construction of the new intersection with R580 to provide access to the Exarro Coal Mine in Matla, Mpumalanga Province. The road upgrade is approximately 1,82km in length. The road access will be widened to accommodate a dual lane road, along the existing gravel road and upgraded to asphalt standard. There will be a new alignment (approximately 180m) of the existing access road of the R580 and the road alignment will then follow along the existing gravel road. The road will be designed with an average road width of 11.2m. Stormwater upgrades (such as installation of box culverts) will be required as well to allow for drainage along the road.

Study Area:

The study area is located within the Emahlaleni Local Municipality in Mpumalanga. The nearest town is Kriel which is located 9km south-west of the study area. The study area is approximately 50 km southwest of Witbank, 30 km south and north of Ogies and Seconds, respectively.

The purpose of the Project:

At present, the Matla Coal Mine is accessed via the R580 intersection with Sublime Access Road. However, there has been increased traffic from coal imports to sustain the Matla Power Station burn rate, due to decreased production from Matla Colliery. Therefore, to accommodate the increased traffic, road infrastructure improvements are proposed (new intersection off R580 and the upgrade of the existing Sublime Access Road) to the existing stockpile exit road. Sublime Access Road requires the upgrading of the current pavement layers, which will need to be surfaced as well as widened. The upgrading of the intersection to accommodate the slow turning traffic onto the R580 provincial road is required.

Legislative requirements:

Eskom has submitted an application for Environmental Authorisation with the National Department of Environmental Affairs (DEA) in terms of National Environmental Management Act, 1998 (Act No 107 of 1998) as amended (NEMA) and Environmental Impact Assessment (EIA) Regulations, April 2017 for the abovementioned project.

The following listed activities have been triggered in terms of the above legislation:

Government Notice	Listed Activities
R 327	19; and 56
R324	12; 14 (a) (ff); and 18

Further to this, a Water Use License General Authorisation will be required in terms of the National Water Act, 1998 (Act No. 36 of 1998), Section 21 (c) and (i).

Specialist Studies

The following specialist studies have been conducted for the BA study and WULA:

- Ecological Impact Assessment;
- Cultural Heritage and Archaeological Impact Assessment;
- Palaeontological Impact Assessment;
- Wetland Impact Assessment; and

Public involvement: All Interested and/or Affected Parties (I&APs) are invited to participate by:

- Registering written comments on the abovementioned project to GIBB. Comments should include the I&AP's name, contact details and an indication of any direct business, financial, personal or other interest which they have in the project, and can be submitted by post, fax or email to **the Public Participation Office:**
