What is your main area of interest with regard to the proposed activities?

Most of the areas designated for the housing are wetland areas so special foundations would need to be inserted which means extra cost, if not done the houses will crack and be damaged. More people also causes a need for more electricity and water and sewerage the current system is already inadequate.

Please register any possible comments, interests and/or concerns in this process:

Any buildings erected on wetland is more likely to fail.

The concrete fencing erected already falls over and sinks all the time causing more costs and damage.

What is your main area of interest with regard to the proposed activities?

The proposed development of housing on the vacant land  
alongside Ducky Smith Road.

I SAY NO to this proposed construction.

Please register any possible comments, interests and/or objections in this process.

The area is a wetland.

The country is water scarce and by proposing a development  
is insane as it will destroy HABITAT of wild life and the  
wetland structure.
