DRAFT ENVIRONMENTAL SCOPING REPORT FOR THE PROPOSED ENAMANDLA PV 1 PROJECT ON FARM HARTEBEES VLEI NO 86, SUTHERLAND, NOTHERN CAPE.

The Department of Water & Sanitation (DWS) hereby acknowledges receipt of the Draft Environmental Scoping Report for the proposed Enamandla PV 1 Project on farm Hartebees Vlei no. 86, Sutherland, Northern Cape.

The Department takes note of the proposed activity and therefore provides the following comments:

- Indicated on page 26 of the above mentioned report, water will be sourced from Sedibeng Water. Please note that an agreement between the applicant and Sedibeng Water should be submitted to the Department.
- Any spillage of any hazardous materials including diesel that may occur during construction and operation must be reported immediately to this Department.
- All sewage and grey water, as well as any waste generated during the construction phase of the facilities will be collected, contained and disposed of at the permitted and / or licensed facilities of the Local Authority and this must please be confirmed in writing by the local authority.
- Stormwater must be diverted from the construction works and roads and must be managed in such a manner as to disperse runoff and to prevent the concentration of stormwater flow.

Please feel free to contact this department, should there be any enquiries.

Yours sincerely,

CEO (ACTING): ORANGE PROTO-CMA

DRAFT SCOPING AND ENVIRONMENTAL IMPACT REPORT FOR THE PROPOSED EMANDLA PV 1 to 5 PROJECT ON THE FARM HARTEBEEST VLEI 86, AGGENEYS, NORTHERN CAPE.

The Department of Water & Sanitation (DWS) hereby acknowledges receipt of the Draft Scoping and Environmental Impact Assessment for the proposed Emandla PV 1 to 5 Project on the farm Hartebeest Vlei 86, Aggeneys, Northern Cape.

The Department takes note of the proposed activity and therefore provides the following comments:

- Please note that the proposed activity in terms of Section 21 (a), (b) and (g) of the National Water Act (Act 36 of 1998) requires a water use authorisation. Therefore the applicant is required to consult with this Department.
- Please also note that no development should take place within 100m from water course or within 1: 100 year flood line.
- Any spillage of any hazardous materials including diesel that may occur during construction and operation must be reported immediately to this Department.
- All waste generated during the construction phase of the facilities should be collected, contained and disposed of at a permitted and / or licensed facilities and this must please be confirmed in writing.

Please feel free to contact this Department, should there be any enquiries.

Yours sincerely,

CEO (ACTING): ORANGE PROTO-CMA
