1. INTRODUCTION

The Public Participation Process (PPP) for this Scoping Report was undertaken in accordance with Regulation 41 of the EIA regulations, 2017, and the public and relevant authorities and stakeholders were notified on the proposed project.

2. PHASE 1: THIRTY (30) DAY PUBLIC PARTICIPATION PROCESS ON SCOPING REPORT

2.1 SITE NOTICES

The site notices were placed in areas easily noticeable to the public on **12 December 2018**. A total of three (3) site notices were placed on the boundaries of the site. Please find attached appendix E1 proof of placement with coordinates of the locations. The on-site notices included a 30 day interested and affected party (I&AP) registration and commenting period.

See Proof of Placement of the notices in **Appendix E1**.

2.2 NEWSPAPER ADVERTISEMENTS

Advertisements were placed in one local newspaper, the NoordKaap Koerant, on **12 December 2018** to notify the public of the Scoping Process of the Sorgvry Landgoed pivot farming application and to provide an opportunity to register on the I&AP database and raise their comments on the proposed project.

See **Appendix E1** for proof of advertisement placed in the NoordKaap Koerant.

2.3 NOTIFICATION OF STAKEHOLDERS AND I&APs

Stakeholders and I&APs were directly informed on the proposed project via e-mail and they were requested to submit their comments to the Environmental Assessment Practitioner.

Interested & Affected Party Comment Forms were disseminated to all properties adjacent to the proposed development.

See **Appendix E2** for proof of notification.

2.4 NOTIFICATION OF GOVERNMENTAL AND OTHER AUTHORITIES

A number of Authorities and Organs of State were directly informed on the proposed project via e-mail and they were requested to submit their comments to the Environmental Assessment Practitioner.

All the correspondence with Governmental and other Authorities is added in **Appendix E4**.

2.5 COMMENTS AND RESPONSE DURING THE PUBLIC ANNOUNCEMENT OF THE PROJECT

The EIA Regulations, 2017 specify that I&APs must have an opportunity to verify that their issues have been captured, through the inclusion of a Comments and Response Report (CRR) in the Final Scoping Report.

The comments and response report can be found in **Appendix E3**.

2.6 PLACEMENT OF INTERNET / WEBSITE COPY

The Scoping Report was made available on the Eco-Con Environmental website: **www.eco-con.co.za**. Key Stakeholders and I&APs were informed of the placement of the Scoping Report.

3. PHASE 2: THIRTY (30) DAY PUBLIC PARTICIPATION PROCESS ON IMPACT ASSESSMENT REPORT

3.1 NOTIFICATION OF STAKEHOLDERS AND I&APs

Stakeholders and I&APs were directly informed on the proposed project via e-mail and they were requested to submit their comments to the Environmental Assessment Practitioner on the Impact Assessment Report.

Interested & Affected Parties, landowners and adjacent landowners / occupiers of the land were also invited to comment on the impact assessment report.

See **Appendix E2** for proof of notification. (To be inserted once the 30 day PPP in the IAR is complete)

3.2 NOTIFICATION OF GOVERNMENTAL AND OTHER AUTHORITIES

A number of Authorities and Organs of State were directly informed on the proposed project via e-mail and they were requested to submit their comments to the Environmental Assessment Practitioner on the impact assessment report.

All the correspondence with Governmental and other Authorities is added in **Appendix E4**. (To be inserted once the 30 day PPP in the IAR is complete)

3.3 PLACEMENT OF INTERNET / WEBSITE COPY

The Impact Assessment Report was made available on the Eco-Con Environmental website: **www.eco-con.co.za**. Key Stakeholders and I&APs were informed of the placement of the Impact Assessment Report.

4. PHASE 3: INCORPORATION OF COMMENTS AND FEEDBACK TO ALL STAKEHOLDER, I&AP'S AND ORGANS OF STATE

After the thirty (30) day public participation period on the scoping report, and the 30 day public participation period on the Impact Assessment report, all comments, feedback and / or questions and concerns were captured in the comments and response report which is attached to **Appendix E3**. The EAP provided feedback to all the comments,

feedback and / or questions and concerns received and addressed as issued in the Final Scoping report and the Impact Assessment Report before submitting to DENC.

5. CONCLUSION

It is concluded that the level of advertising, notification, and the mechanism incorporated in the public participation process, to inform the surrounding land users, I&APs and identified government authorities, were adequate.

6. APPENDICES

Dear Stakeholder / Interested and Affected Parties / Organs of State

RE: Sorgvry Landgoed BK t/a AC Truck – Proposed Agricultural Development on Farm Doorns 131, Northern Cape Province

Eco-Con Environmental has been appointed by Sorgvry Landgoed BK to undertake the Legislative required Environmental and Impact Assessment Process for the above mentioned project.

In accordance with Listing Notice 326 of the National Environmental Management Act (Act 107 of 1998) (NEMA) EIA Regulations of April 2017, Eco-Con Environmental is conducting a Public Participation Process to engage with stakeholders / interested and affected parties / organs of state on the matter.

As part of the Public Participation Process, Eco-Con Environmental identified yourself / your organisation as a participant in the process and would like to invite you to act hereto.

Hereby you are given the opportunity to provide us with your comments / concerns and / or questions regarding the proposed project.

Attached in the mail is the Draft Scoping Report. We kindly request you to download the appendices from our website (www.eco-con.co.za/projects) or alternatively, please click on the link: <http://eco-con.co.za/projects/>

The **30 day** public participation period is open from **12 December 2018 to 1 February 2019 (Excluding the period between 15 December and 5 January)**. Please ensure your feedback is provided prior to the closure of the participation period.

Once the 30 day Public Participation period is conclude, all comments and feedback will be compiled in a comments and responses report which will be submitted to the Department for review in their decision making process.

If you know of any other individuals or organs of state that should be notified on this process, please provide their contact information as soon as possible so we can contact them.

We look forward to engaging with you further on this matter.

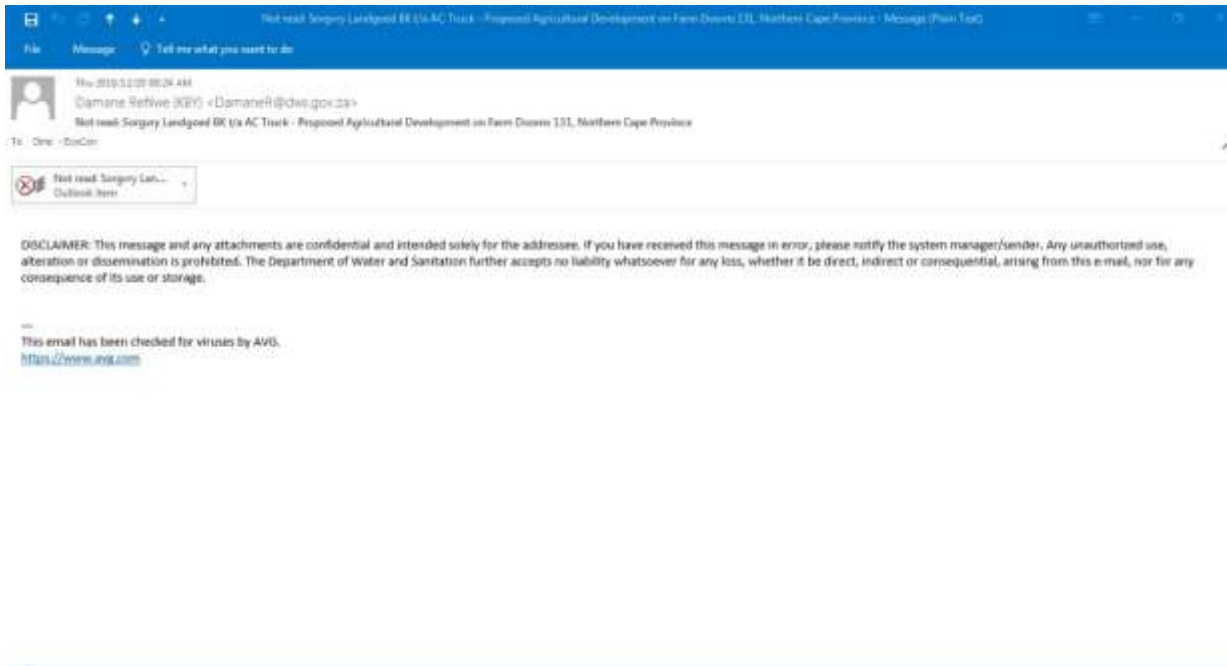

PLEASE BE SO KIND TO CONFIRM RECEIPT OF THIS EMAIL. IF NO RECEIPT IS RECEIVED, WE WILL ASSUME YOU ARE AWARE OF THE CONTENTS OF THIS EMAIL.

Kind regards,

Goeie dag Mnr. HL du Toit:

Di glid dit gaan goed?

Ek stuur die epos ter uitklaring van Mnr. Robinson se wettingsbrak.

Mnr. Robinson het Eco-Con Environmental aangestel om die nodige ploegiersfikaat aansoek te hanteer op die plaas Doorns.

Daar is egter 'n wetgewende proses om te volg om sodanige 'n ploegiersfikaat te kry ook vering in julle brief aangeleg.
 Dit sluit in die aanstelling van 'n Omgewingsimpakstudie wat eens ingedien en aanvaar moet word by die Departement van Omgewingsake. Hierdie proses altesaam neem 12 tot 14 maande. Ons het lams die "Scoping" verslag klaar gemaak en die verslag gaan 12 Desember 2018 vir Publieke Opmerke. Ek sal u resulte en alle dokumente aan u stuur om sodanige op datum te bly met die proses.

Na afloop van die publieke deelname sal die "scoping" verslag ingedien word. Sodra dit aanvaar is, sal ons dan met die impakstudie begin. Na die aanvaarding van die impakstudie, sal daar eens soek gedoen kan word by Departement Landbou vir 'n ploegiersfikaat. Hulle aanvaar geen aansoek sonder goedkeuring vanaf die departement van Omgewingsake nie.

Dus sal daar ongetylik geen finale goedkeuring dokument voor 30 Desember 2018 aan u voorsien kan word nie. Dit behoort eens alles klaar te wees teen Junie 2019.

Vir enige verder vrae, kan u my gerus skakel.

Groete en lekker dag verder

Comments Received:	<p>Hi</p> <p>Thanks for the document I will read it.</p> <p>I just don't understand why an EIA is required as its an already disturbed area and the indigenous vegetation has been removed many years ago?</p> <p>At the most it must be a basic assessment?</p> <p>By using this area again for irrigation is a big positive for Ritchie.</p>			
Response from EAP:	<p>Good morning, George</p> <p>Thank you very much for your comments. It is highly appreciated. Sorry for the delayed response – we only started work again this morning.</p> <p>We agree with you that it is a highly disturbed area and that most of the indigenous vegetation has already been removed. However, according to the National Environmental Management Act (NEMA) the definition of “indigenous vegetation” is as follows: “...vegetation consisting of indigenous plant species occurring naturally in an area, regardless of the level of alien infestation and where the topsoil has not been lawfully disturbed during the preceding ten years”. Furthermore, NEMA also states that if soil has not been cultivated for 10 years, it is regarded as “virgin” soil.</p> <p>Therefore, this project will require environmental authorisation before any development is to take place. Within NEMA, there are 3 listing notices which sets out different activities which triggers the need for either a full Scoping and Environmental Impact Assessment to be done or for only a Basic Assessment Report.</p> <p>The area which is set to be developed has not been cultivated in the past 10 years and the total footprint of the proposed project is 34 ha.</p> <p>According to activity 15 of Listing Notice 2 of NEMA, if 20 hectares or more of indigenous vegetation is to be cleared, it requires a full Scoping and Environmental Impact Assessment to be done.</p>			

	<p>These are thus the reasons for why a full Scoping and Environmental Impact Assessment is required and not a Basic Assessment.</p> <p>Please do not hesitate to contact us if you have any more questions or if we could perhaps assist you with any Environmental Impact Assessment related matters.</p> <p>Have a good day.</p> <p>Kind regards,</p>

Na afloop van die publieke deelname sal die "scoping" verslag ingedien word. Sodra dit aanvaar is, sal ons dan met die impakstudie begin. Na die aanvaarding van die impakstudie, sal daar eers aansoek gedoen kan word by Department Landbou vir 'n ploegsertifikaat. Hulle aanvaar geen aansoek sonder goedkeuring vanaf die departement van Omgewingssake nie.

Dus sal daar ongelukkig geen finale goedkeurings dokument voor 30 Desember 2018 aan u voorsien kan word nie. Dit behoort eers alles klaar te wees teen Junie 2019.

Good day, Mr. HL du Toit

I hope you are well?

I am sending this email regarding the wáter use of Mr. Robinson.

Mr. Robinson appointed Eco-Con Environmental to acquire the necessary ploughing certificate for the Farm Doorns.

There is however legal procedures which need to be followed in order to obtain this ploughing certificate which is required from you as mentioned in your attached letter.

This includes the compiling of an Environmental Impact Assessment which needs to handed in and approved by the Departement of Environmental Affairs. This duration of this process alone is between 12-14 months. The Scoping report has been completed by us and the report will be available for public participation on the 12th of December 2018. I will include you and send through all documents in order to keep you up to date with the process.

After the public participation process has been completed the final scoping report will be handed in. Once it has been approved, we can start with the Impact Assessment Report. Only after this report can a ploughing certificate be applied for at the Department of Agriculture. They do not accpet any ploughing certificate applications without environmental authorisation from the Department of Environmental Affairs.

Thus, no final authorisation letter will be able to be supplied to you before the 30th of December 2018. Everything should be completed in June 2019.

	<p>You can contact me for any other queries.</p> <p>Regards and have a good day further.</p>

Goeie dag Mnr. HL du Toit:

Di glid dit gaan goed?

Ek stuur die epos ter uitklaring van Mnr. Robinson se wettingsbrui.

Mnr. Robinson het Eco-Con Environmental aangesel om die nodige ploegiersfiat aansoek te hanteer op die plaas Doorns.

Daar is egter 'n wetgewende proses om te volg om sodanige 'n ploegiersfiat te kry ook verlig in julle brief aangeleg.
 Dit sluit in die aanstelling van 'n Omgewingsimpakstudie wat eens ingedien en aanvaar moet word by die Departement van Omgewingsake. Hierdie proses altesaam neem 12 tot 14 maande. Ons het lams die "Scoping" verslag klaar gemaak en die verslag gaan 12 Desember 2018 vir Publieke Opmerke. Ek sal u resulte en alle dokumente aan u stuur om sodanige op datum te bly met die proses.

Na afloop van die publieke deelname sal die "scoping" verslag ingedien word. Sodra dit aanvaar is, sal ons dan met die impakstudie begin. Na die aanvaarding van die impakstudie, sal daar eens soek geding kan word by Departement Landbou vir 'n ploegiersfiat. Hulle aanvaar geen aansoek sonder goedkeuring vanaf die departement van Omgewingsake nie.

Dus sal daar ongetylik geen finale goedkeurings dokumente voor 30 Desember 2018 aan u voorsien kan word nie. Dit behoort eens alles klaar te wees teen Junie 2019.
