Re: Mr Cornelius Frank Uys (ID: 630624 5101 08 9)

Mr Uys known with an injury to the right proximal tibia for which he had an open reduction and internal fixation on the 21/09/12.

Mr Uys was treated in a knee brace following surgery. This allowed Mr Uys to drive a vehicle but he wasn't able to dive with the supporting brace on his knee. He was only ready to start diving again on a commercial basis in September 2013.

Please contact me if you need any further information.

Yours sincerely
