The abovementioned project has reference.

We like to request an extension of time of six months for the submission of the Draft Basic Assessment Report for the abovementioned project.

A backlog with specialists' work, due to the end of the flowering season, contributed to the delay in retrieving specialist studies with relation to fauna and flora studies. Other professional reports are still awaited in order to finalise the Draft Basic Assessment Report.

It would be appreciated if you can kindly provide us with a formal letter of response regarding the request for an extension of time.

The most significant landscaping projects are as follows:

-Designed the Gardens of the Witbank Technicon (a branch of TUT). Also supervised the implementation of the campus gardens (2004);

Special sandy soils had to be imported and special indigenous plants had to be established in the natural section of the garden.

-Lizelle Gregory also owns her own landscape contracting business. **For the past 20 years she trained more than 40 PDI jobless people (sourced from a church in Mamelodi)** to become landscape contracting workers. All the workers are (on a continuous basis) placed out to work at nurseries and other associated industries;

Bokamoso also designed and implemented the irrigation for the gardens (in cases where irrigation was required). Lizelle regarded it as important to also obtain practical experience in the field of landscape implementation.
