**Project Description**  
 The Swaziland Rail Link is a trans-border rail link project between South Africa and Swaziland and is a joint inter railway strategic initiative between Transnet SOC Ltd and Swaziland Railway. The development of the link between Lothair in South Africa and Sidvokodvo in Swaziland, aims to create a dedicated General Freight Business (GFB) corridor for Transnet whilst providing much needed additional capacity for Swaziland Railway.

Transnet SOC Ltd noticed that there are several households in the Lothair area that are living close to the proposed Railway and this may affect them negatively therefore they propose to resettle the affected households to Portion 9 of the farm Bloemkrans no. 121 IT (-26.396142°;30.420092°). The residential development will consist of 6 households with approximately 65 dwellings; currently there are 6 households identified with approximately 16 structures and the developer will be replacing like for like or better. The proposed development footprint is approximately 2.7 ha and is within the farm that Transnet has already purchased.

Prior to undertaking activities listed in EIA Regulations (2017), an Environmental Authorization has to be obtained from the relevant competent authority.

**Applicant:** Transnet SOC Ltd
