: Khuma community

Date: 26 February 2020

Subject: Tailing storage facility is an Environmental Hazard

Everyone has a right to an environment that is not harmful to their Health and wellbeing.

Everyone has the right to life

- Everyone has the right to have to have the environment protected for the benefit of present and future generations. Through reasonable legislative and other measures that prevent pollution and ecological degradation.
- Promote conservation
- And secure ecological sustainable development
- And use of natural resources while promoting justifiable economic and social development

Tailing storage facility / Kareerand (RESIDUE STOCKPILE)

MINE Tailings situated near Khuma location is a HAZARDOUS WASTE

Any waste that contains organic or inorganic elements or compounds that may, owing to the inherent physical, chemical or toxicological characteristics

of that waste, have a detrimental impacts on Health and the environment and includes HAZARDOUS SUBSTANCES, material or objects within business waste, RESIDUE STOCKPILE.

National Environmental Management Principles

- Environmental management must place people and their concerns, needs and their rights at the forefront of its concern, and serve, Physical, psychological, Cultural and social interests and development equitably. Development must be socially, environmentally, economically sustainable. That development requires the consideration of all relevant factors.
- The disturbance of ecosystem and loss of biological diversity are avoided or minimised or remedied
- The pollution and degradation of the environment are avoided.
- Environmental management must be intergraded acknowledging that all elements of the environment are linked and interrelated , and it must take into account the effects of decisions on all aspects of the environment and all people in the environment by pursuing the selection of the best practicable environmental options.
- Environmental Justice must be pursued so that environmental impacts shall not be distributed in such a manner as to unfairly discriminate against any Person particularly vulnerable and disadvantaged Persons.
- Community wellbeing and empowerment must be promoted through environmental awareness, the sharing of knowledge experience and other appropriate means
