2. Comment / Concern & Response

#	Party + Comment/Concern raised	Response
1	GDRT - Provincial Road P39-1 (K52) is affected by the proposed development. The GDRT will comment on the land use application once it is lodged with the relevant local authority. The GDRT is unable to comment on application for the next 18 - 36 months due to a digitisation process underway at registry. Effectively then we have been shut down.	A Traffic Impact Assessment has been compiled and this has been lodged with GDRT and CoJ for comment as part of the town planning application.
