RE: APPROVAL OF ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (NEMA) AS AMENDED, AND THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REGULATIONS, 2014 FOR MINING ON PORTION 0 (REMAINING EXTENT) OF LOT 23 UMFOLOZI NO 13734 BY VAN AETERNO INVESTMENTS 215 (PTY) LTD WITHIN THE MBONAMBI LOCAL MUNICIPALITY, KWAZULU-NATAL PROVINCE

Notice is hereby given that authorisation has been granted to Aeterno Investments 215 (Pty) Ltd in terms of the environmental authorization process prescribed by the National Environmental Management Act, 1998 (Act No 107 of 1998) and the Environmental Impact Assessment Regulations, 2014 to carry out the following activity:

- Mine a portion of Portion 0 (Remaining Extent) of Lot 23 Umfolozi No 13734, Magisterial District of Kwambonambi, for stone aggregate gravel.

A copy of the Environmental Authorisation is available from Greenmined Environmental at the address specified hereinbelow alternatively please feel free to contact Christine Fouche on (021) 851 2673 (Tel), 086 546 0579 (Fax) and/or christine.f@greenmined.co.za.

Date of Decision: 08 April 2016.

Date of Issue of Decision: 14 April 2016.

Reasons for Decision: Attached hereto as Annexure 1.

Departmental Standard Conditions: Attached hereto as Annexure 2.

Appeal Procedure: Should you wish to appeal the decision, your appeal must be submitted to the Minister of Environmental Affairs and a copy thereof to the Department of Mineral Resources (KwaZulu-Natal Regional Office) within 20 days from the date of notification. Your appeal must be lodged in terms of the prescribed methods contained in Chapter 2 of the National Appeal Regulation of 2014 as follows:

the goal isn't to live forever, it is to protect a planet that will

Appeal to the Department of Environmental Affairs:

ANNEXURE 1

ANNEXURE 1: REASONS FOR THE DECISION

1. Background

Aeterno Investments 215 (Pty) Ltd submitted an application for an EA for the following activities listed in the NEMA EIA Regulations 2014: Activity 21, 22, 27 and 28 of GNR 983, December 2014 and Activity 12 of GNR 985, December 2014.

Only Activity 21 and 27 of GNR 983, December 2014 is authorised under this EA. The remainder of the activities applied for is not authorised due to the following:

Activity 22 of GNR 983, December 2014	This application is only triggered by the requirement for an application in terms of Section 43(3) of the MPRDA, 2002, as amended. This aforementioned MPRDA, 2002 application is not required at this stage of the operation.
Activity 28 of GNR 983, December 2014	This activity is not applicable as mining does not fall within the ambit of the definitions of "residential, mixed, retail, commercial, industrial or institutional developments".
Activity 12 GNR 985, December 2014"	This activity is not applicable as the mining area does not fall within a protected area in terms of NEMPAA. The Isimangaliso Wetland Park which is governed in terms of NEMPAA is located approximately 10km away from the site.

Greenmined Environmental (Pty) Ltd was appointed to undertake the Basic Assessment process as required by Regulation 19 of the EIA Regulations, December 2014.

2. Information considered in making the decision

In reaching its decision, the Department took, *inter alia*, the following into consideration -

- a) The information contained in the application form received by the Department on 13 August 2015.

- b) The information contained in the BAR and amended BAR, received by this Department 16 November 2015 and 15 March 2016 respectively.
- c) The objectives and requirements of the applicable and relevant legislation, policies and guidelines and the EIA Regulations of 2014.
- d) The Public Participation Process (PPP) attached as Appendix E of the BAR.
- e) The Supporting Impact Assessment attached as Appendix F to the BAR.
- f) The Financial and Technical Competence Report attached as Appendix G to the BAR.
- g) The findings of the site inspection conducted by Mrs. V Pillay of this Department with Mr. Naicker representing Aeterno Investments 215 (Pty) Ltd and Ms. C Fouche representing Greenmined Environmental (Pty) Ltd, on 04 March 2016.

3. Key factors considered in making the decision

All the information presented to the Department was taken into account upon the Department's consideration of the application. A summary of the issues which, in the Department's view, were of the most significance are set out below.

- a) A sufficient PPP was undertaken and the applicant has satisfied the minimum requirements as prescribed in the EIA Regulations, GNR 982, December 2014 for public involvement.
- b) The environmental impacts associated with the proposed activity will be addressed by the implementation of proposed mitigation measures outlined in the EMP compiled by Greenmined Environmental (Pty) Ltd.
- c) The information contained in the Alien Invasive Plant Management and the Stormwater Management Plan, compiled by Greenmined Environmental (Pty) Ltd in support of the development.
- d) The location of the site and the various buffer zones around the site boundary to protect the Umfolozi River, the railway line and the boundary of the Isimangaliso Wetland Park.

- e) The mining method and that no blasting, crushing or screening will be conducted onsite thus decreasing the impacts caused by the mining operation.

4. Findings

After consideration of the information and factors listed above, the Department made the following findings –

- a) The potential impacts on the proposed site were clearly investigated and mitigation measures outlined.
- b) The findings of site inspection conducted by Mrs. V Pillay of this Department on 04 March 2016 corresponded with the baseline information as contained in the amended BAR and EMP.
- c) The mining area was previously used for crop production and the site contains little to no vegetation.
- d) The mining area is located more than 500m away from the floodplain of the Umfolozi River and 100m away from the railway line and border that's closest to the Isimangaliso Wetland Park.
- e) PPP complied with Chapter 6 of the EIA Regulations, GNR 982, December 2014.

ANNEXURE 2

ANNEXURE 2: DEPARTMENTAL CONDITIONS

1. SCOPE OF AUTHORISATION

- 1.1. The holder of EA shall be responsible for ensuring compliance with the conditions contained in the EA. This includes any person acting on the holder's behalf, including but not limited to an agent, servant, contractor, subcontractor, employee, consultant or any person rendering a service to the holder of the EA.
- 1.2. Any changes to, or deviation from the project description set out in the BAR must be approved in writing by this Department before such changes or deviation may be effected. In assessing whether to grant such approval or not, the Department may request such information as is deemed necessary to evaluate the significance and impacts of such changes or deviation. It may be necessary for the holder of the EA to apply for further authorisation in terms of the EIA Regulations applicable at the time of the amendment.
- 1.3. The activities, which are authorised, may only be carried out at the property (ies) indicated in this EA.
- 1.4. This EA is only applicable to the activities as described on page 6 of this EA. Only the activities as listed on page 6 are to be conducted on site.
- 1.5. Where any of the contact details of the holder of the EA change, including the name of the responsible person, physical or postal address/ or telephonic details, the holder of the EA must notify the Department within 14 (fourteen) calendar days.
- 1.6. The EA does not negate the responsibility of the holder to comply with any other statutory requirements that may be applicable to the undertaking of such activities.
- 1.7. The holder of EA must note that in terms of the National Forest Act (Act No.84 of 1998) protected plant species must not be cut, disturbed, damaged, destroyed and their products must not be possessed, collected, removed, transported, exported, donated, purchased or sold unless permission is granted by the Department of Agriculture, Forestry and Fisheries.

- 1.8. The holder of the EA must ensure that any water uses listed in terms of Section 21 of National Water Act be authorized by the Department of Water and Sanitation prior to the commencement of such activities.
- 1.9. This EA does not purport to absolve the holder of the EA from its common law obligations towards the owner of the surface of land affected.
- 1.10. This EA may be amended or withdrawn at any stage for non-compliance and provides no relief from the provisions of any other relevant statutory or contractual obligations.
- 1.11. The holder of EA must note that in terms Section 20 of the National Environmental Management: Waste Act, 2008 (Act No.59 of 2008), no person may commence, undertake or conduct a waste management activity, except in accordance, with the requirements of norms and standards determined in terms of Section 19 (3).
- 1.12. The Department reserves the right to audit and/or inspect the activities without prior notification at any reasonable time and any frequency as
- 1.13. This EA is valid for a period which will be stated in the Mining Permit issued in terms of the MPRDA, 2002. Note that this activity must commence within 10 (ten) years. If the commencement of the proposed activity does not occur within the specified period, the EA lapses and a new application for EA in terms of the NEMA and the EIA Regulations should be made for the activity to be undertaken.
- 1.14. This EA will only be effective in the event that a corresponding mining permit is issued in terms of the MPRDA (as amended) and none of the activities listed in this EA may commence without the corresponding mining permit.
- 1.15. Should there be any conflicting conditions between this EA and other approval granted by other authorities, the responsibility rests with the holder of EA to bring it to the attention of the Department for resolution.

- 1.16. Non-compliance with any condition of this EA and approved EMP may result in the issuing of a directive in terms of section 28 and or a compliance notice in terms of section 31L of NEMA.
- 1.17. The holder is reminded that in terms of section 49(A)(1)(c) of NEMA, 1998, as amended, a person is guilty of an offence if that person fails to comply with or contravenes a condition of an EA.
- 1.18. A person convicted of an offence is liable to a fine not exceeding R10 million or to imprisonment for a period not exceeding 10 (ten) years, or to both such fine or such imprisonment.

2. APPEAL OF EA

- 2.1. In accordance with Regulation 4(2) of the EIA Regulation, GNR 982, December 2014, within 14 (fourteen) calendar days from the date of this decision the holder of the EA must notify all registered I&APs in writing of the following:
 - 2.1.1 The outcome of the application;
 - 2.1.2 The date of the decision;
 - 2.1.3 The date of issue of the decision;
 - 2.1.4 The reasons for the decision as included in Annexure 1 and Departmental Conditions in Annexure 2;
 - 2.1.5 That an appeal may be lodged against the decision in terms of the National Appeals Regulations,
 - 2.1.6 The manner in which registered I&AP's may access the decision.
- 2.2. In addition to point 2.1 the holder of the EA must also provide the registered I&APs with:
 - 2.2.1 Name of the holder (entity) of this EA;
 - 2.2.2 Name of the responsible person for this EA;
 - 2.2.3 Postal address of the holder;
 - 2.2.4 Telephonic and fax details of the holder and
 - 2.2.5 E-mail address of the holder if available.

- 2.3. Please take note that in terms of Section 43(7) of NEMA, 1998, as amended, an appeal suspends an EA. Therefore you may not commence with the mining operation until such time that the Minister allows you in writing, to start.

3. MANAGEMENT OF ACTIVITIES

- 3.1 The EMP submitted as part of the BAR is hereby **approved** and all mitigation measures and commitments as stated in the EMP must be adhered to throughout the life cycle of the operation.
- 3.2 As described on page 7 of this EA, only listed activities that are approved is to be conducted.
- 3.3 Any additional or new activities not specified in the BAR and not approved as part of this EA must be applied for by the holder and authorised by the competent authority prior to the commencement of these activities.
- 3.4 A copy of the EA and approved EMP must be kept at the property or at the site office where the activities will be undertaken. The EA and approved EMP must be produced to any authorised official of the Department who request to see it and must be made available for inspection by any employee or agent of the holder of the EA who works or undertakes work at the property.
- 3.5 The content of the EMP and its objectives must be made known to all contractors, subcontractors, agents and any other people working on the site, and in the event of the need to update or amend the EMP, these must be submitted to the Department for approval.
- 3.6 The holder of the EA must ensure that all non-recyclable wastes are disposed of at waste management facilities licenced to handle such wastes and also ensure that all recyclable wastes are collected by licenced waste management facilities for recycling, reuse or treatment.
- 3.7 Any rehabilitation of disturbed surfaces caused by the mining operation must comply with the approved EMP.

- 3.8 The footprint of the activities must be limited to the areas authorised. All areas outside of the footprint must be regarded as a "no go" areas.
- 3.9 Erosion and soil loss must be prevented by minimizing the size of the area exposed to surface water run-off. Where necessary erosion stabilizing measures such as gabions, earthen berms or re-vegetation must be implemented to prevent further environmental degradation.
- 3.10 In order to prevent nuisance conditions, the holder of the EA must ensure that all storage skips and bins are not overfilled and clearly demarcated.

4. ENVIRONMENTAL CONTROL OFFICER

- 4.1 The holder of the EA must appoint an ECO to ensure compliance with the conditions contained in this EA and approved EMP and an ECO must always be available on site.
- 4.2 The holder of EA must ensure that the name and contact details of the ECO is submitted to this Department within 30 (thirty) calendar days of commencement of the mining operation.
- 4.3 The ECO must:
 - 4.3.1 Keep and maintain a detailed incidents register (including any spillages of fuels, chemicals or any other material).
 - 4.3.2 Keep a complaint register on site indicating the complaint and how the issues were addressed, what measures were taken and what the preventative measures were implemented to avoid re-occurrence of complaints.
 - 4.3.3 Keep records relating to monitoring and auditing on site and avail them for inspection to any relevant authorised officials.
 - 4.3.4 Keep copies of all environmental reports submitted to the Department.
 - 4.3.5 Keep the records of all permits, licences and authorisations required by the operation.
 - 4.3.6 Compile a monthly monitoring report and make it available to the Department if requested.

- 4.4 The duties and responsibility of the ECO should not be seen as exempting the holder of the EA from the legal obligations in terms of the NEMA.
- 4.5 Should the details of the ECO change at any time, the details of the newly appointed ECO must be sent to the Department within 14 (fourteen) calendar days of the changeover.

5. COMMENCEMENT OF THE ACTIVITIES

- 5.1 The following conditions apply to dust generation on site:
 - 5.1.1 The commissioning of a dust monitoring assessment/plan in terms of the National Environmental Management Air Quality Act and the National Dust Control Regulations must be undertaken. This assessment must be commissioned within one (01) month from the date that mining activities commences.
 - 5.1.2 The appointment of the specialist to conduct the assessment as specified in point 5.1.1, must comply with Regulation 13 of the EIA Regulations, GNR 982, December 2014.
 - 5.1.3 This dust monitoring plan must be submitted to this Department for approval within two (02) months from the date that mining commences.
 - 5.1.4 Once the plan is approved by this Department it must be implemented on site within 14 (fourteen) calendar days.
 - 5.1.5 The implementation of the dust monitoring plan and monitoring protocols must be carried out throughout the lifespan of this operation unless deviation is authorised in writing by this Department.
- 5.2 Primary processing of the mineral which includes the reduction, classifying, concentrating, crushing, screening and washing is not permitted on site. Should these activities be required off site or on site, the holder of the EA is to obtain approval from this Department prior to the commencement of these activities.
- 5.3 The following conditions apply to stormwater management and must be adhered to:
 - 5.3.1 Stormwater must be managed throughout the lifespan of the mining operation;

- 5.3.2 The site must be contoured to ensure free flow of runoff and to prevent ponding of water;
 - 5.3.3 Flows from the outlets must be dissipated to prevent potential erosion or localised flooding.
 - 5.3.4 In order to reduce erosion on site stormwater must be attenuated and the root/immediate cause of erosion must be dealt with; and
 - 5.3.5 Stormwater control measures must be implemented along the access roads to prevent erosion.
 - 5.3.6 Monitoring and maintenance of storm water control facilities must be conducted at all times and if damaged, must be rectified as directed by the Department or any other relevant authority.
- 5.4 In order to ensure safety, all employees must be given the necessary PPE.
- 5.5 This EA must be provided to the site operator and the requirements thereof must be made fully known to him or her.
- 5.6 Prior to any mining activities commencing, the site operator must acknowledge in writing that he/she fully acknowledges and understands the conditions contain in this EA and the mitigation measures contained in the EMPr. This acknowledgment must be sent to the Department within 14 (fourteen) calendar days from the date of commencement of the mining activities.
- 5.7 Construction areas (e.g. material lay down areas), topsoil and subsoil must be protected from contamination or pollution. Stockpiling must not take place in drainage lines or areas where it will impede surface water runoff.
- 5.8 If any soil contamination is noted, the contaminated soil must be removed to a licensed waste disposal facility and the site must be rehabilitated to the satisfaction of this Department and the Department of Water and Sanitation. The opportunity for the onsite remediation and re-use of contaminated soil must be investigated prior to the disposal and this Department must be informed in this regard.
- 5.9 In terms of sections 28 and 30 of NEMA, and sections 19 and 20 of the National Water Act, 1998 (Act No. 36 of 1998), any costs incurred to remedy environmental damage must be

borne by the person responsible for the damage. It is therefore imperative that the holder of the EA reads through and understand the legislative requirements pertaining to the project.

- 5.10 It is the responsibility of the holder of the EA to take reasonable measures which include informing and educating contractors and employees about environmental risks of their work and training them to operate in an environmentally acceptable manner.
- 5.11 An integrated waste management approach must be implemented that is based on waste minimization and must incorporate avoidance, reduction, recycling, treatment, reuse and disposal where appropriate. Any uncontaminated rubble generated on the premises can be re-used as back filling material on site. No refuse or rubble generated on the premises is placed, dumped or deposited on the adjacent properties or public places and open space.
- 5.12 Construction vehicle must be serviced and maintained in such a manner that no excessive fumes are emitted, noise is reduced to acceptable levels, and petro-chemical leaks are prevented.
- 5.13 Residents on the surrounding areas must be informed in writing if any unusually noisy activities are planned at least 03 (three) days prior to these activities commencing.
- 5.14 Dust suppression measures must be implemented on all exposed surface to minimize and control airborne dust.
- 5.15 Mixing of cement, concrete, paints, solvent, sealants and adhesives must be done in specified areas on concrete aprons or on protected plastic linings to contain spillage or overflow onto soil to avoid contamination of underground water and environmental damage.
- 5.16 Should any heritage remains be exposed during operation or any actions on the site, these must be reported within 24 (twenty four) hours to SAHRA and AMAFA - KZN (in accordance with the applicable legislation).
- 5.17 Heritage remains uncovered or disturbed during earthworks must not be further disturbed until the necessary approval has been obtained from SAHRA and/or AMAFA – KZN. Heritage remains include: archaeological remains (including fossil bones and fossil shells); coins; middens, indigenous and/or colonial ceramics; any articles of value or antiquity;

marine shell heaps; stone artefacts and bone remains; structures and other built features; rock art and rock engravings; shipwrecks; and graves or unmarked human burials.

- 5.18 A qualified archaeologist must be contracted where necessary (at the expense of the applicant and in consultation with the relevant authority and SAPS) to remove any human remains in accordance with the requirements of the relevant authority.
- 5.19 Should any spills occur it must be cleaned immediately by removing the spillage together with the polluted solids. Disposal must occur at an authorised disposal site permitted of such waste. The regional office of the Department of Water and Sanitation must be notified within 24 (twenty-four) hours of an incident that may pollute surface and underground water resources.

6. SITE SECURITY, ACCESS AND ACCESS CONTROL

- 6.1 The holder of EA must ensure that all areas where the authorised activities occur have controlled access to ensure safety of people and animals.
- 6.2 The holder of the EA must ensure access control on the site to prevent unauthorised entry. Signs indicating the risks involved in unauthorised entry must be displayed at each entrance.
- 6.3 Hauling routes for mine vehicles and machinery must be clearly marked and signalling must be posted.
- 6.4 Signage must be erected at the mining area, warning the public (residents, visitors etc.) about the hazard around the site and the presence of heavy vehicles and machinery.

7. REPORTING TO THE DEPARTMENT

- 7.1 The holder of EA must:
- 7.1.1 Submit an Environmental Audit Report to this Department annually.
 - 7.1.2 Such report must be done by a qualified independent person with the relevant environmental auditing expertise.

- 7.1.3 The audit report must specify whether conditions of this EA and approved EMP were and are adhered to;
 - 7.1.4 Identify and assess any new impacts and risks as a result of undertaking the activities, if applicable;
 - 7.1.5 Identify shortcomings in the approved EMP, if applicable;
 - 7.1.6 identify the need, if any, for any changes to the management, avoidance and mitigation measures provided for in the approved EMP;
 - 7.1.7 if applicable, specify whether the corrective action/s taken for the previous audit's non-conformities, were adequate;
 - 7.1.8 specify the name of the auditor and expertise; and
 - 7.1.9 be submitted by the holder to the competent authority within 30 (thirty) calendar days from the date on which the auditor finalised the audit.
- 7.2 Should any shortcomings be identified, in terms of Regulation 34(4) of GHR 982, December 2014, the holder must submit recommendations to amend the EMP in order to rectify the insufficient mitigation measures or unmitigated impacts.
- 7.3 All complaints received from I&AP's during any of the phases of the operation must be attended to within 05 (five) working days and addressed to the satisfaction of all concerned. All complaints must be recorded and a report must be forwarded to the competent authority with all relevant details of the complaint, complainant and how the complaint was resolved within 30 (thirty) calendar days of receipt of the complaint.
- 7.4 The holder of the EA must annually assess and upgrade (if applicable) the environmental liabilities of the operation in line with the Regulations pertaining to Financial Provision for Mining Operations, GNR 1147, November 2015.
- 7.5 In terms of Section 18(1) it is an offence if the holder of the EA fails to comply with review, assessment and adjustment of financial provision. If convicted of an offence, condition 1.18 as contained in this EA is applicable.
- 7.6 The holder of the EA must, within 24 (twenty-four) hours of incidents, as defined in NEMA, 1998, as amended, occurring, notify this Department of the occurrence or detection of any incident on the site, or incidental to the operation of the site, which has the potential to

cause, has caused or may cause pollution of the environment, health risks, nuisance conditions or water pollution.

8. EMERGENCY PREPAREDNESS PLAN

8.1 The holder of the EA must maintain and implement an emergency preparedness plan and review it biennially when conducting the audit and after each emergency and or major accident. The plan must, amongst others, include:

8.1.1 Site Fires

8.1.2 Spillages

8.1.3 Industrial action

8.1.4 Contact details of police, ambulances and any emergency centres closest to the site.

8.2 The holder of EA must ensure that an up to date emergency register is kept during all phases of the operation. This register must be made available upon request by the Department.

9. INVESTIGATIONS

9.1 If, in the opinion of the Competent Authority, nuisances or health risks may be or are occurring on the site, the holder of the EA must initiate an investigation into the cause of the problem or suspected problem.

9.2 If, in the opinion of the Competent Authority, pollution may be or is occurring, the holder of the EA must initiate an investigation into the cause of the problem or suspected problem. If applicable, such investigation must include the monitoring of the water quality variables, at those monitoring points and such frequency as may be specified by the Competent Authority.

9.3 Investigations carried out in terms of conditions 9.1 and 9.2 above must include the monitoring of the relevant environmental pollution, nuisance and health risk variables, at

those monitoring points and such frequency to be determined in consultation with the Competent Authority.

10. SITE CLOSURE

- 10.1 The holder of EA must apply for a closure certificate in terms of Section 43(3) of the MPRDA, 2002, as amended within 180 days of the occurrence of lapsing, abandonment, cancellation, cessation, relinquishment and completion of development.
- 10.2 The application for closure indicated above must be submitted together with all relevant documents as indicated in Section 43 of MPRDA, 2002, as amended.
- 10.3 Only indigenous plants can be utilized for rehabilitation purposes.
- 10.4 The holder of the EA remains responsible for any environmental liability, pollution or ecological degradation, the pumping and treatment of extraneous water, compliance with the conditions of EA and the management and sustainable closure thereof until the Minister has issued a Closure Certificate in terms of Section 43 of Mineral and Petroleum Resources Development Act (Act 28 of 2002). Where necessary the Minister may retain certain portion of financial provision for residual or latent, health or environmental impacts.

11. NEMA PRINCIPLES

- 11.1 The principles set out in Section 2 in Chapter 1 of NEMA, 1998, as amended must be applied to this mining operation and any matter relating to this operation; and must serve as a guideline for the interpretation, administration and implementation of all environmental requirements.
- 11.2 This mining operation must be conducted in accordance with generally accepted principles of sustainable development by integrating social, economic and environmental factors into the planning and implementation of this mining operation in order to ensure that the exploitation of mineral resources serves present and future generations.

- 11.3 The holder of this EA must at all times give effect to the general objectives of integrated environmental management as laid down in Chapter 5 of the National Environmental Management Act, 1998 (Act No. 107 of 1998) and must
- 11.4 Manage all environmental impacts as an integral part of the mining operation and must as far as it is reasonably practicable, rehabilitate the environment affected by the mining operations to its natural or predetermined state or to a land use which conforms to the generally accepted principle of sustainable development.
- 11.5 The holder of the EA is responsible for any environmental damage, pollution or ecological degradation as a result of his or her mining operations and which may occur inside and outside the boundaries of the area to which this EA relates

12. DISCLAIMER

The Department in terms of the conditions of this environmental authorisation shall not be responsible for any damages or losses suffered by the holder, developer or his/her successor in any instance where construction or operation subsequent to construction is temporarily or permanently stopped for reasons of non-compliance with the conditions as set out herein or any other subsequent document or legal action emanating from this decision.

13. RECOMMENDATIONS

In view of the BAR and management and mitigation measures proposed in the EMP, the competent authority is satisfied that the proposed listed activities will not conflict with the general objectives of Integrated Environmental Management stipulated in Chapter 5 of NEMA, and that any potentially detrimental environmental impacts resulting from the listed activities can be mitigated to acceptable levels. The EA is accordingly granted.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'D. Doolay', is written over a horizontal line.

REGIONAL MANAGER: MINERAL REGULATION

KWAZULU NATAL REGIONAL OFFICE

DATE: 08/04/2016
