10 June 2013

DEAR SIR :

ADDITIONS AND ALTERATIONS TO EXISTING DWELLING AT
319 BLACKBURN ROAD, REDHILL, DURBAN

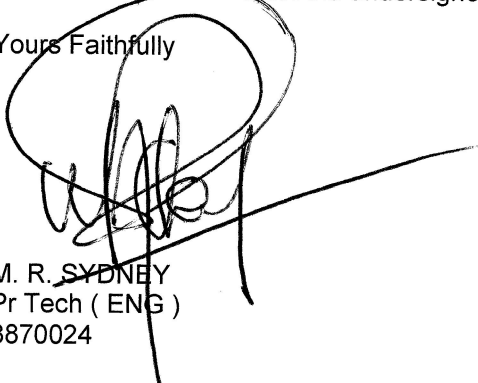

This is to confirm that we have been appointed as the Structural Engineers at 319 Blackburn Road, Redhill. The scope of work on site entails the additions of single storey brickwork to the elevations, attached to the existing dwelling.

It is of our opinion that the existing foundations will be in a satisfactory condition owing to the fact that no additional vertical loading will be applied, however in some areas these foundations will have to be underpinned as we deem necessary.

These foundations shall be underpinned by means of reinforced concrete pads excavated to adequate founding levels and shall be in the order of 1000 x 1000 x 1000 deep.

We trust this meets with your immediate requirements and if you have any questions regarding this matter please feel free to contact the undersigned.

Yours Faithfully

M. R. SYDNEY
